MINISTRSTVO ZA NOTRANJE ZADEVE RS

Policija, nadzor in mobing

Dr. Karl Petrič

Ljubljana, 2012

Povzetek

V hibridnem izdelku na temo "Policija, nadzor in mobing" je avtor prikazal postopek reševanja informacijskega problema, nakar je v klikalnem digramu združil med sabo naslednji policijski temi: nadzor nad delovanjem policije in mobing. Kot končni izdelek je nastal mini-portal z
maloprej navedenima perečima policijskima vsebinama. V tem mini-portalu se nahajajo tudi različne povezave do različnih spletnih strani kot npr. COBISS/COBIB, COBISS/MNZRS, iskalnikov (npr. Google - že pripravljene poizvedbe), programskih orodij in spletnih del.
V prilogi se nahaja še .HTML preglednična bibliografija, ki poleg spletnih povezav vsebuje še notranji iskalnik.

Ključne besede: policija, policijsko delo, nadzor, policijski kadri, inovacije, strokovni nadzor, sodni nadzor, policijsko delo, človekove pravice, mobing, šikaniranje, psihosocialno nasilje, šikaniranje.

GOR

1 Uvod

Smiselno je določene uporabnike informacijsko profilirati, kar bi pomenilo, da na podlagi njihovih vedenjskih in interesnih značilnosti izdelamo realen model, ki vsebuje pomembne in uporabne spletne povezave. Poleg omenjene izdelave profila uporabnikov je v bistvu zelo pomembno, da imajo še zlasti vrhunski uporabniki to možnost, da uporabljajo različna programska orodja, s katerimi se lahko med sabo interaktivno povezujejo. Mnenja sem, da v današnjem času ni zgolj dovolj, da se povezujemo v velika socialna omrežja, ampak je potrebno tudi pozitivno sodelovati in s tem pristopom rešiti probleme različnih vrst. Spletnih programskih orodij, ki omogočajo živo sodelovanje in razvijanje novih idej med ljudmi je veliko število in so nekatera celo brezplačna. Primeri tovrstnih orodij so naslednji:

Wisemapping - orodje za miselno vzorčenje. Miselno vzorce lahko objavite, lahko določite osebe, ki bi lahko z vami sodelovali in si na ta način izmenjujete slike in inovativne ideje ter znanja. Pogoj: na svoj računalnik morate namestiti vtičnik Google frame, sicer spletno orodje ne bo optimalno delovalo. Sicer je uporaba tako Wisemapping kot tudi Google frame brezplačna! Potrebna je registracija!

Mind42 - orodje za miselno vzorčenje in viharjenje možganov je sicer brezplačno, vendar ima omejitev glede na število vabil k sodelovanju (največ pet oseb je možno povabiti). Omogoča uvoz in izvoz podatkov v/iz Free Mind, Free Plane idr. Potrebna je registracija!

Text2Mindmapp - pretvarja navadno besedilo v miselne vzorce. Orodje je na spletni osnovi, brezplačno in uporabniku se ni potrebno registrirati.

Flockdraw - interaktivno orodje za viharjenje možganov oziroma razvijanje idej. Druge osebe lahko sliko spreminjajo. Omenjeno orodje je tudi možno vgraditi v spletno stran.

GOR

1.1 Cilj dela ali hibridnega izdelka

Reševanje informacijskega problema na temo "Policija, nadzor in mobing", nakar izdelava namizne aplikacije, ki poleg že pripravljenih poizvedb vsebuje še različne spletne povezave do različnih spletnih revij in zbirk podatkov. V tem hibridnem izdelku bom prikazal dva različna informacijska problema, ki sta lahko v določenem (namiznem) mini-portalu združena in razrešena.

GOR

2 Reševanje informacijskega problema s področja različnih policijskih tem

Na kratko povzeto
Možni koraki pri reševanju informacijskega problema
1. Predstavitev informacijskega problema
2. Priprava in izdelava koncepta
3. Uporaba orodij (npr. iskalniki, zbirke podatkov, orodje za izdelavo miselnih vzorcev)
4. Izgradnja namizne aplikacije oziroma vsebinskega omrežja (npr. s programskim orodjem Concept Draw)
5. Predstavitev zanimivih vsebinskih konceptov
V tem E- dokumentu bom najprej predstavil korake pri reševanju informacijskega problema na temo "Policija, nadzor in mobing" v obliki slikovnega koncepta z vsebinskimi gradniki. Na podlagi vsebinskih gradnikov bom izdelal miselni vzorec in (namizni) mini-portal, ki vsebuje pomembne spletne povezave do E- del in že pripravljenih poizvedb s podatkovnih zbirk (npr. COBISS/COBIB, COBISS/MNZRS) in iskalnikov (npr. Google)

GOR

2.1 Priprava in izdelava koncepta
V tem delu bom predstavil pripravo in izdelavo slikovnega koncepta. S pomočjo modelirnega orodja Microsoft Visio Professional 2007 bom vizualno prikazal tako posamične entitete informacijskega problema kot tudi proces reševanja informacijskega problema.
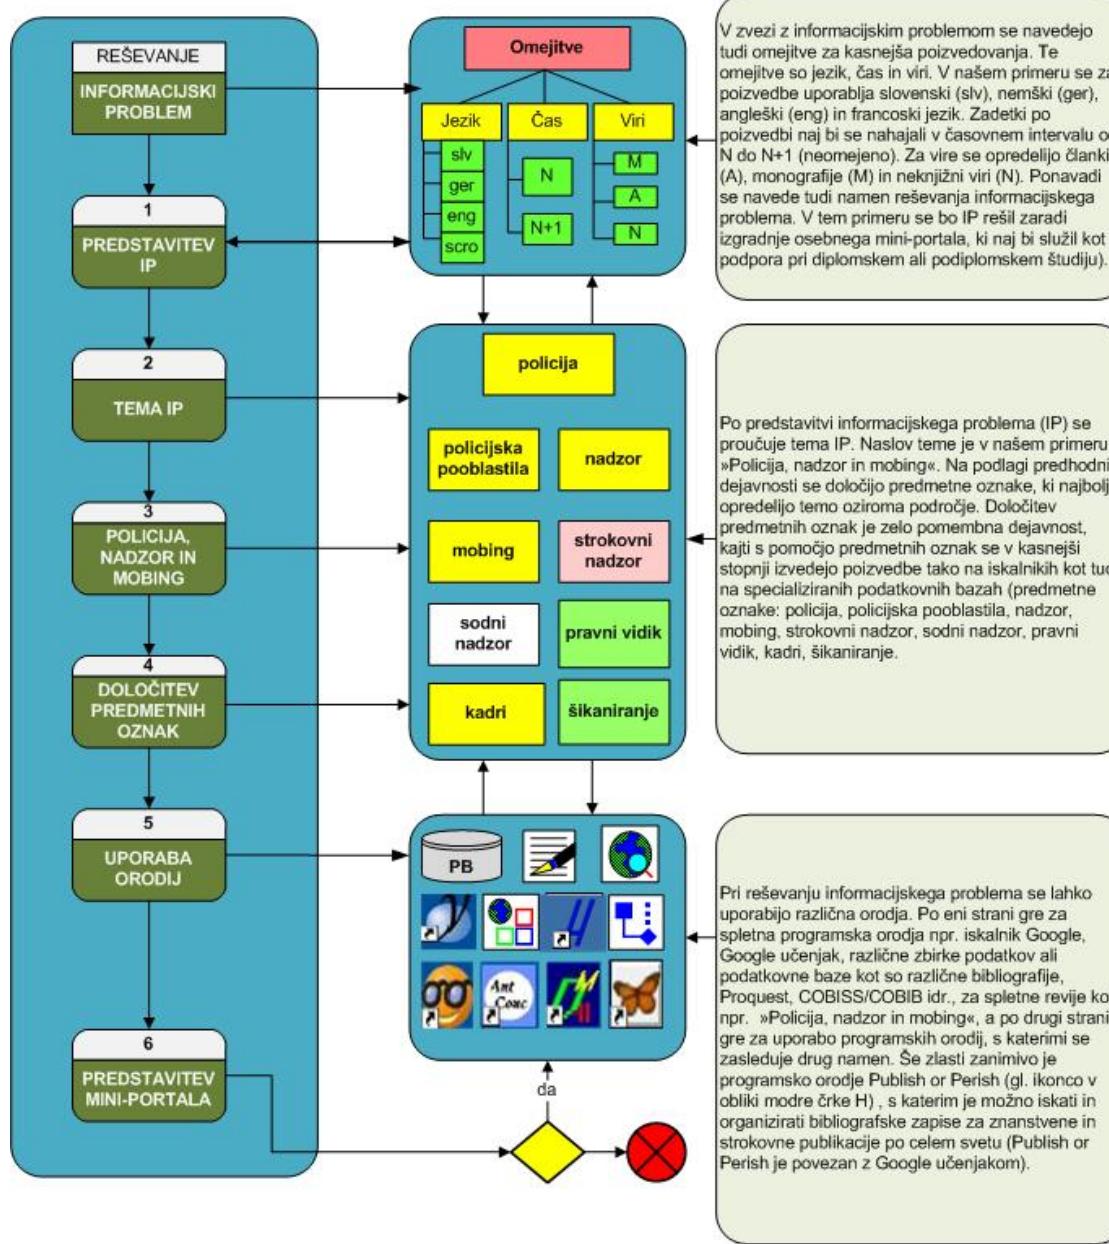

2.2 Slika 1: Koncept reševanja informacijskega problema

Slika 1 prikazuje koncept reševanja informacijskega problema (v nadaljevanju IP) po stopnjah od ena do šest:

1. predstavitev IP
2. tema IP, različne policijske teme
3. naslov IP
4. določitev predmetnih oznak (npr. policija, policijska pooblastila, policijski kadri, inovacije, nadzor, strokovni nadzor, sodni nadzor, policijsko delo,

človekove pravice, mobing, šikaniranje, psihosocialno nasilje, šikaniranje.)

5. uporaba orodij

6. predstavitev (namiznega) mini-portala

Slika 1 vključuje tudi pomembne prvine kot so različne omejitve (npr. za jezik, čas in vrsta virov). V nadaljevanju tega dela bom prikazal vsebinski koncept ali miselni vzorec kot osnova za izdelavo kasnejše namizne aplikacije (namiznega) mini-portala.

3 Izdelava vsebinskega omrežja

3.1 Slika 2: Miselni vzorec informacijskega problema "Policija, nadzor in mobing"

Slika 2 prikazuje miselni vzorec oziroma vsebinske koncepte, ki so s temo policije, nadzora in mobinga povezani.Vsebinski koncepti so naslednji: policijsko delo, nadzor, policijska pooblastila, notranji nadzor, zunanji nadzor, strokovni nadzor, civilni nadzor, parlamentarni nadzor, sodni nadzor, ombudsman, inovacije, organizacijska klima, mobing, šikaniranje, psihično nasilje, pravni vidik idr. Ob kliku na sliko si lahko uporabnik na osnovi strukturiranega besedila izdela lastni miselni vzorec. Na spletu je mnogo brezplačnih programskih orodij, ki omogočajo uporabnikom interaktivnost in sodelovalno ustvarjanje

inovativnih idej. Enostaven primer je prikazan v nadaljevanju.
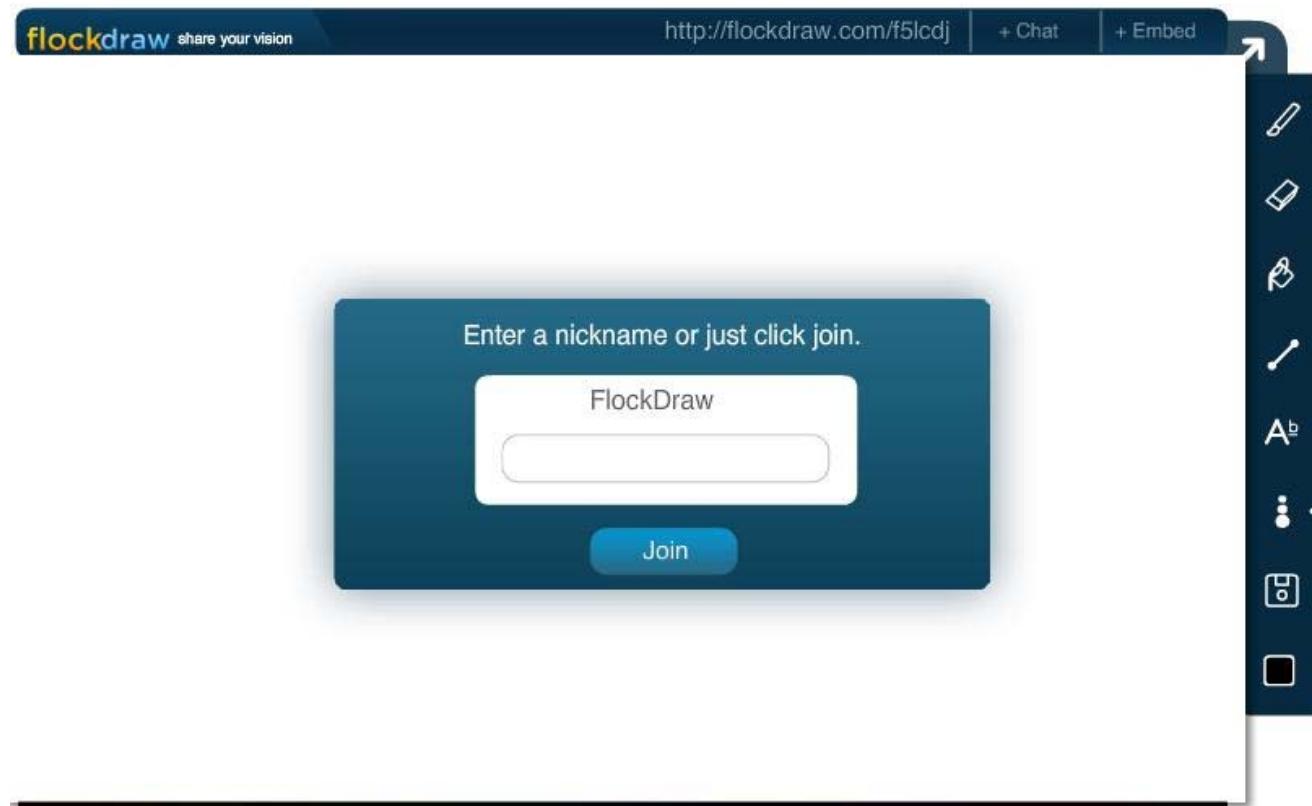

3.1.1 Slika 3: Interaktivno spletno orodje FlockDraw

Slika 3 prikazuje nadzorno ploščo interaktivnega spletnega orodja FlockDraw, ki omogoča različnim ljudem, da v istem času dopolnjujejo npr. določeno shemo ali risbo (v primeru zanimanja, prosim kliknite na sliko 3). Sledi aplikativni uporabniški model, ki je prilagojen določenim informacijskim potrebam.

[GOR](#)
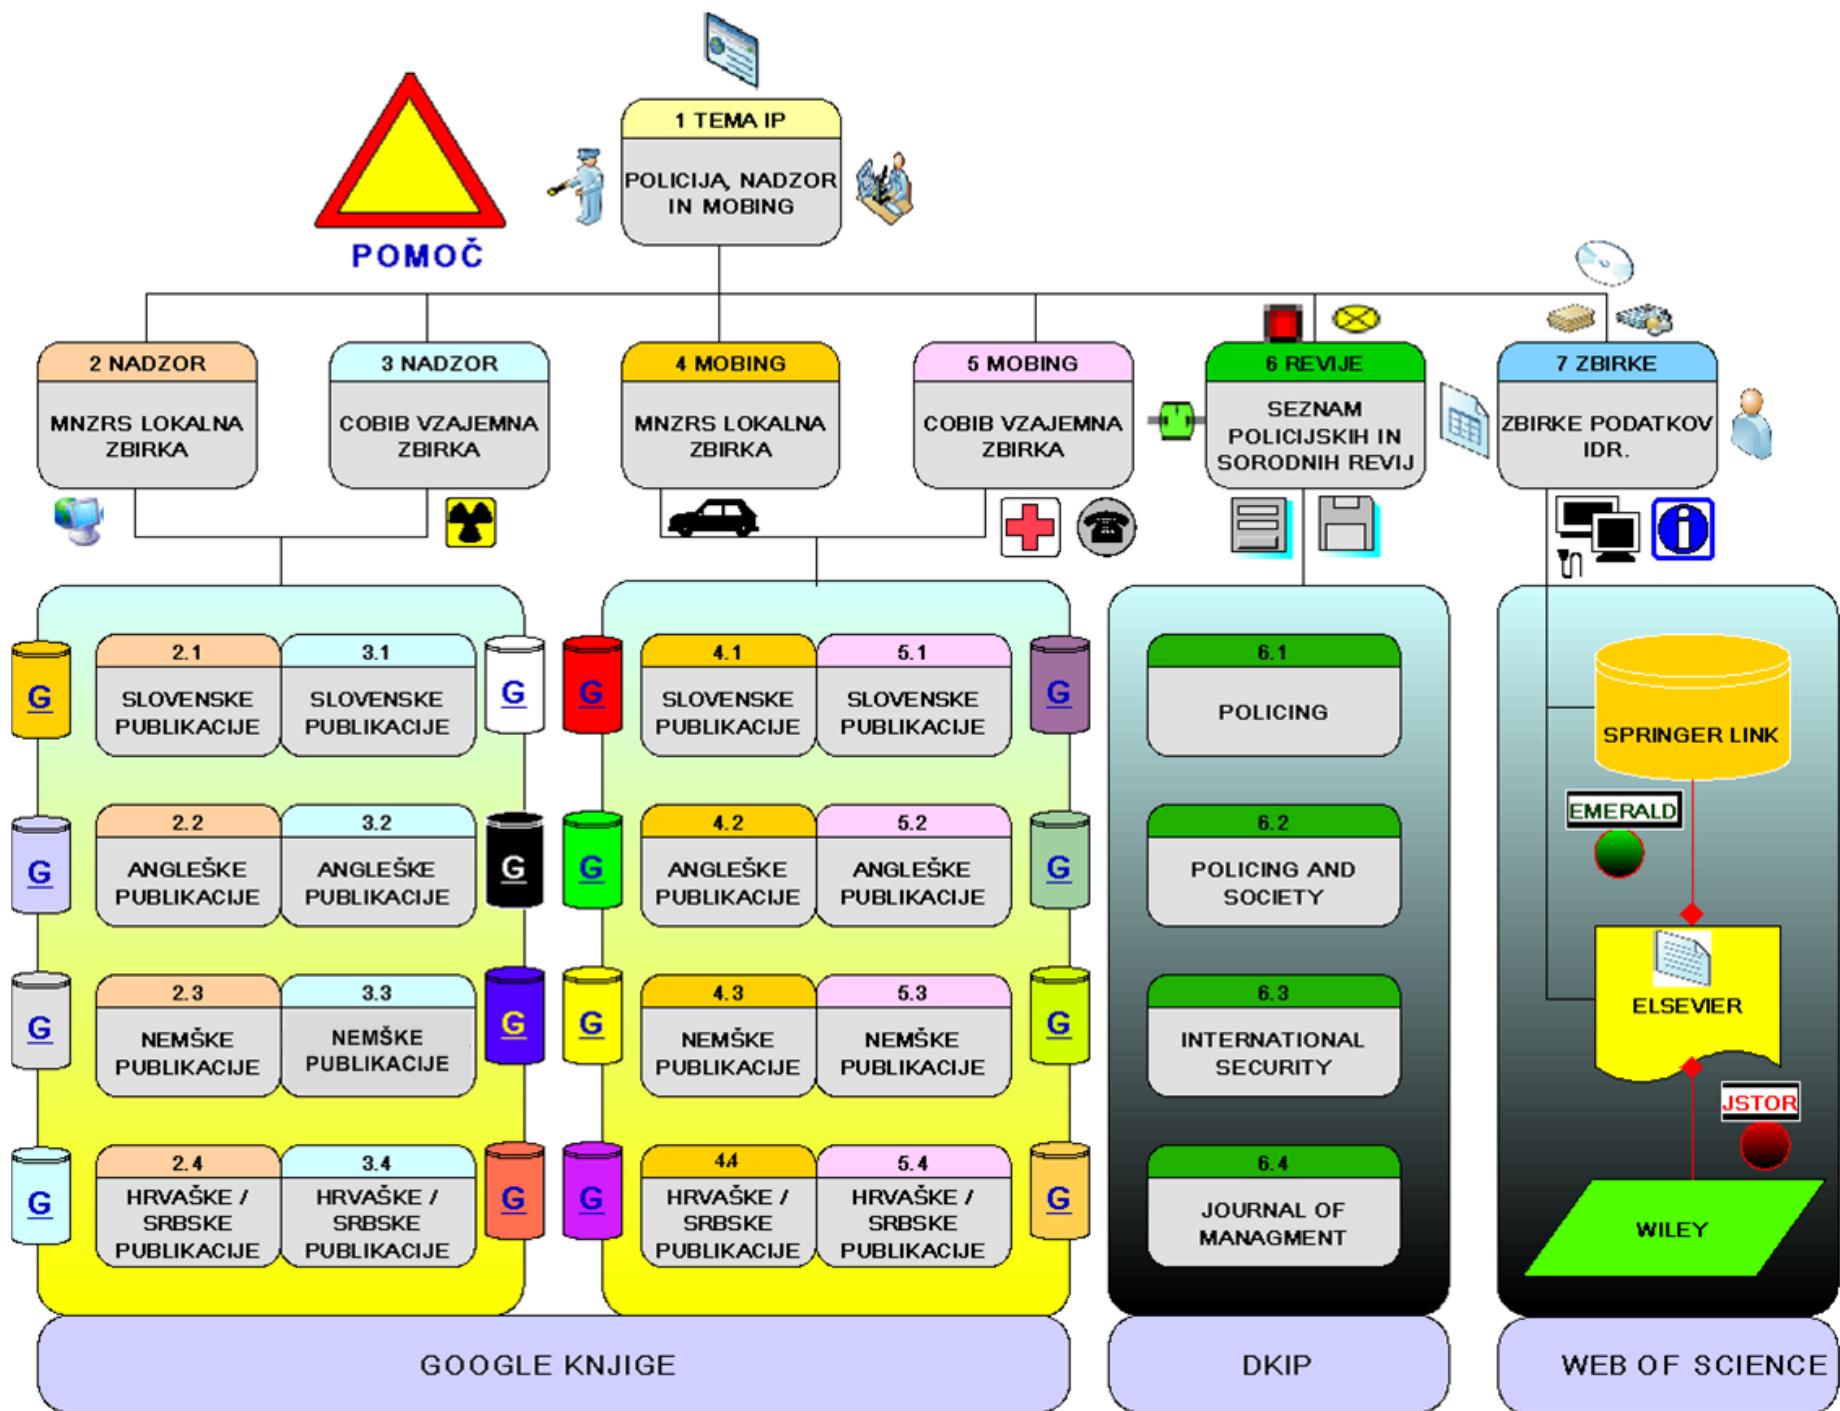

3.2 Slika 4: Namizna aplikacija ali namizni mini-portal na temo policija, nadzor in mobing

Slika 3 prikazuje namizno aplikacijo ali namizni informacijski mini-portal v obliki klikalne sheme na osnovi teme s področja policije, nadzora in mobinga (gl. točko 1 TEMA IP). Sleherna slikovna entiteta vsebuje eno spletno povezavo.

Pomoč: S številkami označene entitete od 3 do 5.4 vsebujejo neposreden dostop do slovenske vzajemne zbirke podatkov COBISS/COBIB, ki so že v obliki pripravljenih poizvedb. Spodnje entitete po številkami od 2 do 4.4 vsebujejo povezave oziroma že pripravljene poizvedbe za lokalno zbirko podatkov COBISS/MNZRS. Poizvedbe so pripravljene tako za slovenske, angleške, nemške kot tudi za srbske, hrvaške in bosanske publikacije. Različno obarvani in s spletnimi povezavami opremljenimi valji na klikalnem diagramu predstavljajo različne poizvedbe v različnih jezikih na iskalniku Google in Google učenjaku npr. na levi strani se nahajajo poizvedbe z Google učenjaka, medtem ko so na desni strani poizvedbe z Googla. Točka 6 do 6.4 vsebuje koristne spletne povezave do e-revij s področja policije in sorodnih področij (npr. Policing) Točka 7 vsebuje spletne povezave do velikih zbirk podatkov kot so npr. Springer-link, Emerald, Elsevier, JSTOR in Wiley. Klikalni diagram vsebuje (gl. spodaj) še druge spletne povezave do Googlovih knjig, DKIP (digitalna knjižnica informacijskih problemov) in Web of science (WoS)

4 Zaključek

Bralke/-ci bodo lahko ta hibridni izdelek (podobno kot vse poprejšnje) uporabili za naslednje namene: za študij, za raziskave, za interno izobraževanje idr. Prav tako bodo lahko tudi dopolnili oziroma nadgradili že obstoječe spletne povezave do relevantnih vsebin.

5 Uporabljena programska orodja

1. Concept Draw 2001/2002 demo

2. JabRef

3. Microsoft Fronpage 2003

4. Microsoft Visio Professional 2007

5. Publish or Perish

Spletna programska orodja za interaktivne in sodelovalne dejavnosti

6 Priloga: Preglednična bibliografija s področja nadzora, policije in mobinga

S pomočjo programskega orodja Publish or perish sem izvedel poizvedbo: *police work performance measurement supervision OR control OR oversight OR monitoring mobbing bullying*. Zadetke sem izvozil v .RIS format in jih shranil. Shranjene podatke v obliki .RIS datoteke sem v nadaljevanju uvozil v programsko orodje za upravljanje z bibliografskimi zapisi, ki se imenuje JabRef. Podatke sem ponovno shranil, vendar to pot v .BIB obliki, nakar sem podatke izvozil v .HTML preglednično obliko, ki vsebuje še notranji iskalnik. Možno različico opisane .HTML preglednice bibliografskih zapisov bom prikazal v nadaljevanju.
