21 TURIZEM TOURISM

št./No 7

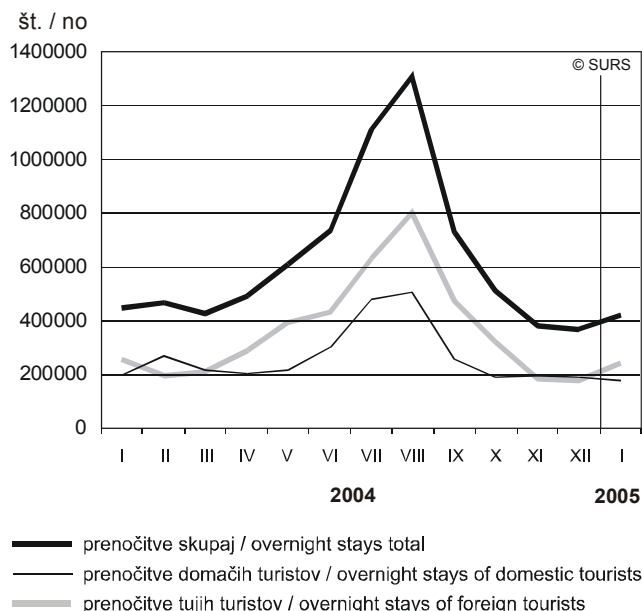

NASTANITVENE ZMOGLJIVOSTI, PRIHODI IN PRENOČITVE TURISTOV, SLOVENIJA, JANUAR 2005

ACCOMMODATION FACILITIES, TOURIST ARRIVALS AND OVERNIGHT STAYS, SLOVENIA, JANUARY 2005

- ▶ Januarja 2005 je bilo v turističnih nastanitvenih objektih v Sloveniji zabeleženo enako število prihodov turistov, njihovih prenočitev pa za 6 % manj kot v januarju 2004.
- ▶ Turistom je bilo na voljo 47 936 ležišč. Ta so bila zasedena povprečno 28,4-odstotno.
- ▶ Prenočitev turistov je bilo 422 493. Razmerje med številom prenočitev domačih in tujih turistov je bilo 43 : 57.
- ▶ 80 % vseh tujskih prenočitev so prispevali turisti iz naslednjih sedmih držav: iz Italije 28 %, iz Hrvaške 26 %, iz Avstrije 10 %, iz Nemčije 5 %, iz Anglije in Madžarske po 4 % ter iz Ruske federacije 3 %.
- ▶ In January 2005 the same number of tourist arrivals was registered in accommodation establishments in Slovenia as in January 2004. Tourists spent 6% nights less.
- ▶ There were 47,936 beds available for tourists. On average they were occupied 28.4%.
- ▶ 422,493 overnight stays were registered. The relation between domestic and foreign tourists was 43:57.
- ▶ 80% of overnight stays of foreign tourists were made by tourists from the following seven countries: Italy 28%, Croatia 26%, Austria 10%, Germany 5%, United Kingdom 4%, Hungary 4%, Russian Federation 3%.

2005	97,9											

1) Desezonirane vrednosti indeksov vsebujejo trendni cikel in naključno komponento, vpliv sezone in koledarske komponente je izločen. Pri postopku desezoniranja originalnih podatkov uporabljamo metodo TRAMO-SEATS, ki temelji na ARIMA-modelih. Pri oblikovanju le-teh smo upoštevali časovno obdobje od januarja 1993 do december 2004. Seasonally adjusted values of indices include the trend-cycle and irregular component, while the seasonal variation and calendar component are eliminated. In seasonal adjustment of original data we use the TRAMO-SEATS method, which is based on ARIMA models. In designing the models we took into account the period from January 1993 to December 2004.

METODOLOŠKA POJASNILA

Namen statističnega raziskovanja

je spremljanje turistične dejavnosti.

Enota opazovanja

so vse gostinske in druge organizacije, ki nudijo turistom nastanitvene storitve.

Viri

Vir podatkov za to publikacijo so rezultati mesečnega raziskovanja o prihodih in prenočitvah turistov, ki ga izvaja Statistični urad Republike Slovenije. Podatke dajejo poslovni subjekti, ki nudijo turistom nastanitvene storitve. Poročajo o nastanitvenih zmogljivostih, ki jih imajo v posameznih mesecih v ponudbi, ter o številu prihodov in prenočitev turistov.

Zajetje

Raziskovanje temelji na popolnem zajetju.

Način zbiranja podatkov

Podatke zberemo z mesečnimi poročili na obrazcu TU/M, ki jih sestavljajo poročevalske enote po evidencah svojih recepcijskih služb.

Definicije in pojasnila

Turist je oseba, ki v kraju, ki ni njegovo stalno prebivališče, prenoči vsaj eno noč v gostinskem ali kakem drugem nastanitvenem objektu.

Domači turist je oseba s stalnim prebivališčem v Sloveniji, ki začasno prebiva v kakem drugem kraju Slovenije ter tam prenoči vsaj eno noč v gostinskem ali kakem drugem nastanitvenem objektu.

Tuji turist je oseba, ki pride iz tujine in se začasno nastani v kakem kraju v Sloveniji ter tam prenoči vsaj eno noč v gostinskem ali kakem drugem nastanitvenem objektu. Tujim turistom določamo pripadnost po potnem listu.

Nastanitveni gostinski objekti so razporejeni v **vrste objektov** po Pravilniku o merilih in načinu kategorizacije nastanitvenih obratov in marin (Uradni list RS, št. 29/97 in 51/98). Vrste gostinskih nastanitvenih objektov so: **hoteli, moteli, penzioni, prenočišča, gostišča, apartmaji, kampi, turistične kmetije in sobodajalstvo** (gre za oddajanje sob, počitniških stanovanj in stanovanjskih in počitniških hiš turistom). Za vse te vrste gostinskih objektov je obvezno, da so kategorizirani; to pomeni, da imajo ti objekti za določeno vrsto svoje ponudbe odločbo o kategoriji, v njej je z različnim številom zvezdic (za turistične kmetije s številom jabolk) označena kakovost ponudbe po zgoraj navedenem pravilniku. Rok za izvedbo pravilnika je bil 31. 12. 1999, za potresno območje pa je podaljšan. Ne samo na potresnem območju, tudi drugod, sprejemajo goste gostinski nastanitveni objekti, ki

METHODOLOGICAL EXPLANATIONS

The purpose of the statistical survey

is to monitor tourist activities.

Observation units

are all organisations offering accommodation to tourists.

Sources

Sources of data are results of the monthly survey on arrivals and overnight stays of tourists carried out by the Statistical Office of the Republic of Slovenia. Data are provided by business subjects offering accommodation to tourists. They report on accommodation capacity in individual months, and on the number of tourists arrivals and overnight stays.

Coverage

The survey is based on full coverage.

Method of data collection

We collect data with monthly reports (TU/M form), compiled by reporting units according to records of their reception services.

Definitions and explanations

Tourists are people who, in a location outside their place of permanent residence, spend at least one night in a hotel or some other tourist accommodations.

Domestic tourists are people with permanent residence in Slovenia who temporarily stay in some other place in Slovenia and in that place spend at least one night in a hotel or some other tourist accommodations.

Foreign tourists are people who come to Slovenia from abroad and temporarily stay in a certain place in Slovenia where they spend at least one night in a hotel or some other tourist accommodations. We record their nationality according to their passports.

Tourist accommodations are divided into **types of tourist accommodations** according to the Regulation on Criteria and the Method of Categorisation of Accommodation Establishments and Marinas (OJ RS No. 29/97 and 51/98). Types of tourist accommodations are: **hotels, motels, boarding houses, overnight accommodations, inns, apartments, camping sites, tourist farms with accommodation and private accommodations** (i.e. letting of room, apartments and houses to tourists). All these tourist accommodations must be categorised, i.e. for a certain type of offer they must have the category assigned by the number of stars (for tourist farms the number of apples is used), which denotes the quality of their offer according to the above mentioned regulation. The deadline for implementing the regulation was 31 December 1999. For the

niso kategorizirani ali pa je njihova odločba o kategorizaciji napačna. Med napačno kategorizirane smo šteli tiste gostinske nastanitvene objekte, ki so z odločbo pridobili kakovost, označeno s številom zvezdic za vrsto objekta, ki po gostinski zakonodaji sploh ne obstoja (npr. bungalovi), ali pa so pridobili več zvezdic, kot je za določeno vrsto objekta predvideno po pravilniku. Nekategorizirane nastanitvene gostinske objekte in napačno kategorizirane smo razvrstili med **druge gostinske nastanitvene objekte**. Poleg naštetih gostinskih nastanitvenih objektov, za katere je obvezna kategorizacija, zbiramo podatke še za nastanitvene objekte, ki se ne razvrščajo v kategorije po zgoraj omenjenem pravilniku, t.j. za **planinske domove, delavske počitniške domove, otroške in mladinske počitniške domove, druge domove in začasne nastanitvene zmogljivosti** (zmogljivosti študentskih domov in internatov, ki so med počitnicami na voljo turistom).

Nastanitvene zmogljivosti izražamo s številom sob in ležišč, ki so na voljo turistom v posameznih mesecih. Pri **ležiščih** štejemo stalna in pomožna ležišča.

Stalna ležišča so tista, ki so redno pripravljena za oddajanje turistom.

Pomožna ležišča so ležišča, namenjena le za večje udobje gostov (kavči, divani ipd.), ter rezervna ležišča, s katerimi se dopolnjuje zmogljivosti v sezoni. Skupna ležišča v planinskih domovih in kočah štejemo za stalna ležišča.

Turistični kraji v Sloveniji imajo po zakonu o spodbujanju razvoja turizma (Uradni list RS, št. 2/04) možnost, da pridobijo **status turističnega kraja** ali **turističnega območja**. Ker to v praksi ni zažvelo, uporabljamo statistične definicije pojma turističnega kraja in merila za razvrstitev krajev v določene vrste. Kot **turistični kraj** obravnavamo kraj, ki nudi naslednje pogoje:

1. atraktivne pogoje (naravne lepote, zdravilni vrelci, kulturnozgodovinski spomeniki, kulturne, zabavne in športne prireditve itd.);
2. komunikacijske pogoje (možnost dostopa, prometne zveze itd.);
3. receptivne pogoje (namestitveni objekti s spremljajočimi trgovskimi, obrtniškimi, poštnimi itd. storitvenimi objekti, pa tudi s parki, sprehajališči, kopališči ipd.).

Turistične kraje, ki ustrezajo omenjenim merilom, razvrščamo v naslednje skupine:

1. Glavno mesto Slovenije – **Ljubljana** – pritegne obiskovalce predvsem kot administrativno-politično središče države, nato pa s svojimi zgodovinskimi, etničnimi, gospodarskimi, urbanistično-arhitektonskimi in drugimi značilnostmi.
2. **Zdraviliški kraji** so kraji, pri katerih je znanstveno, medicinsko ali izkustveno ugotovljen zdravilni učinek termalnih ali mineralnih voda ali drugih geološko-mineraloških sestavin. Sem spadajo zdravilišča, ki imajo praviloma tudi ustrezne objekte za zdravljenje in rehabilitacijo obiskovalcev.
3. **Obmorski kraji** so kraji vzdolž morske obale.
4. **Gorski kraji** so praviloma tisti, ki ležijo v nadmorski višini nad 500 metrov ali v teritorialnem območju gore.
5. **Drugi turistični kraji** so tisti, ki so privlačni zaradi podnebnih razmer, kulturnozgodovinskih spomenikov ipd., kraji ob rekah, jezerih in drugi kraji, ki jih ne moremo uvrstiti v prej navedene.
6. **Drugi kraji** so vsi, ki jih ne moremo uvrstiti v nobeno od prej navedenih skupin.

area hit by the earthquake the deadline was extended. Not only on the territory hit by the earthquake but also in other areas as well uncategorised and miscategorised tourist accommodations continue to receive guests. Miscategorised tourist accommodations are those that were assigned the quality for the tourist accommodations that does not exist according to legislation (e.g. bungalows) or those which obtained more stars than foreseen by the regulation for a certain type of establishment. Uncategorised and miscategorised tourist accommodations were classified as **other accommodation facilities**. In addition to the mentioned tourist accommodations for which categorisation is compulsory, we also collect data for tourist accommodations that are not classified by the above mentioned regulation. These are **mountain huts, company vacation facilities, vacation facilities for youth, other vacation facilities and temporary accommodation facilities** (student residence and boarding schools that are available to tourists during the holidays).

Accommodation capacity is expressed by the number of rooms and beds available to tourists in individual months. **Beds** are permanent and auxiliary.

Permanent beds are beds which are regularly prepared for letting to tourists.

Auxiliary beds are beds which are intended for comfort of guests (couches, sofas, etc.) and spare beds with which accommodation capacity is increased during the high season. Collective beds in mountain huts are counted as permanent beds.

According to The Promotion of Tourism Development Act (OJ RS No. 2/04), tourist resorts in Slovenia have the possibility to obtain the **status of a tourist resort or tourist area**. Because in practice this was not successfully implemented, we use statistical definitions of the term tourist resort and criteria for classifying places into different types. A **tourist resort** is thus a place which fulfils the following criteria:

1. is attractive (natural beauties, medicinal springs, monuments of culture and history, cultural, entertainment and sports events, etc.);
2. has communication facilities (accessibility, traffic communications, etc.);
3. has reception facilities (accommodation establishments with accompanying trade, crafts, postal services as well as parks, promenades, bathing facilities, etc.).

According to these criteria, places are classified into the following types:

1. The Slovenian capital - **Ljubljana** - which attracts visitors as the administrative and political centre, but also with its historical, ethnic, economic, town planning, architectural and other characteristics.
2. **Health resorts** are places where the healing effect of thermal or mineral waters or other geological mineral components is medically or empirically proven. These include health resorts which, as a rule, offer suitable facilities for healing and rehabilitation of visitors.
3. **Seaside resorts** are places located along the sea coast.
4. **Mountain resorts** are, as a rule, places lying more than 500 metres above sea level or in the territorial area of a mountain.
5. **Other tourist resorts** are places with particularly attractive elements (e.g. climatic conditions, cultural or historical monuments, etc.), riverside and lakeside areas and other places that cannot be classified among any of the places mentioned.
6. **Other places** are all those places not falling within any of the above groups.
