19. SEPTEMBER 2005
19 SEPTEMBER 2005

št./No 254

22 TRANSPORT TRANSPORT

št./No 22

MEJNI PREHODI, SLOVENIJA, JULIJ 2005

CROSS-BORDER TRAFFIC, SLOVENIA, JULY 2005

- ▶ Prihodov potnikov čez mejne prehode v vseh transportnih panogah skupaj je bilo v juliju 2005 za 32,0 % več kot v juniju 2005 in za 3,3 % manj kot v juliju 2004.
- ▶ Čez cestne mejne prehode je v juliju 2005 prišlo in odšlo več potnikov kot v juniju 2005 (in sicer za 31,9 % oz. 30,3 % več), hkrati pa manj kot julija 2004 (prihodov za 3,5 % manj, odhodov pa za 2,3 % manj). Največ potnikov, 40,4 %, je v juliju 2005 prišlo v Slovenijo čez hrvaško-slovenske mejne prehode.
- ▶ Čez cestne slovensko-hrvaške mejne prehode je bilo v juliju 2005 odpeljanega za 3,6 %, pripeljanega pa za 4,6 % manj blaga kot v juniju istega leta. V primerjavi z julijem 2004¹⁾ je bilo pripeljanega za 4,3 % več, odpeljanega pa za 15,9 % manj blaga. Tranzit je bil julija 2005 za 1,7 % manjši kot junija 2005 in hkrati za 56,2 % večji kot julija 2004¹⁾.

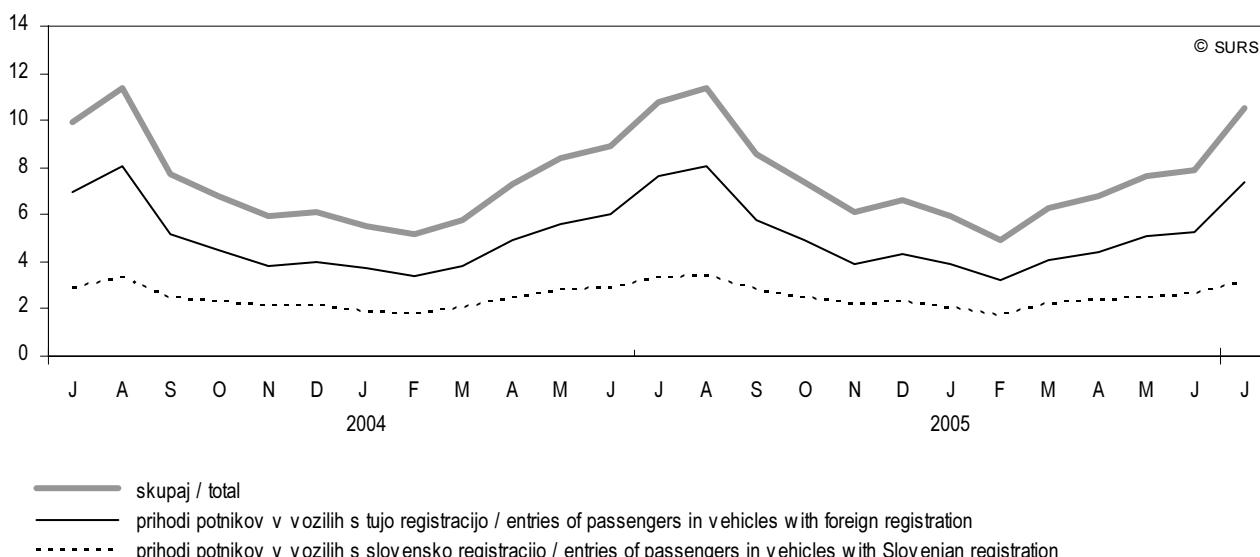

1) Opaznejše razlike pri primerjavah obsega blagovnega prometa z letom 2004 so pojasnjene v Metodoloških pojasnilih.

- ▶ In June 2005, cross-border traffic of passengers in all modes of transport increased by 32.0% compared to June 2005 and decreased by 3.3% compared to July 2004.
- ▶ In comparison with June 2005, in July 2005 traffic at the road border crossings increased; passenger entries by 31.9% and departures by 30.3%. Compared to July 2004, the number of entries decreased by 3.5% and the number of departures by 2.3%. In July 2005 the largest part of entries, i.e. 40.4%, was registered at the Croatian-Slovenian border.
- ▶ Compared to June 2005, in July 2005 the cross-border traffic of goods at the border with Croatia decreased by 4.6% in import and by 3.6% in export. Compared to July 2004¹⁾, the cross-border traffic of goods decreased by 15.9% in export and increased by 4.3% in import. In July 2005, transit decreased by 1.7% compared to June 2005 and increased by 56.2% compared to July 2004¹⁾.

1) Changes which are shown in comparison to 2004 are explained in Methodological explanations.

METODOLOŠKA POJASNILA

Namen statističnega raziskovanja

je mesečno spremljanje prehodov vozil, potnikov in blaga čez cestne mejne prehode ter mejnih prehodov potnikov čez državno mejo v zračnem, pomorskom in železniškem prometu.

Enote opazovanja

so potniki in vozila, ki prehajajo slovensko državno mejo.

Viri

Podatke o prehodih vozil in potnikov čez državno mejo s Hrvaško sporoča Statističnemu uradu Republike Slovenije redna carinska služba z mejnih prehodov v sodelovanju z mejno policijo. Podatke o mejnih prehodih čez meje z Italijo, Avstrijo in Madžarsko sporoča MNZ – sektor mejne policije.

Zajetje

Med cestnimi mejnimi prehodi na meji z Italijo statistično spremljamo promet na 12 mednarodnih in 21 obmejnih prehodih, na meji z Avstrijo na 17 mednarodnih, 4 meddržavnih in 16 obmejnih prehodih, na meji z Madžarsko pa na 3 mednarodnih in 4 meddržavnih prehodih. Na meji s Hrvaško spremjamamo promet na 16 mednarodnih, 12 meddržavnih prehodih in 24 obmejnih prehodih. Poleg teh spremjamamo mejni promet še na 12 železniških, 3 letaliških in 3 pomorskih mejnih prehodih, vendar tu upoštevamo le podatke za potniški promet.

Planinskih mejnih prehodov in drugih prehodov po posebnem sporazumu ne zajemamo v statističnih podatkih o mejnem prometu.

Način zbiranja podatkov

Podatke o cestnem mejnem prometu s Hrvaško zbiramo z naslednjimi mesečnimi vprašalniki:

- TR-MEJ-CM/M (Mesečno poročilo o cestnih mejnih prehodih, mednarodni in meddržavni promet)
- TR-MEJ-CO/M (Mesečno poročilo o cestnih mejnih prehodih, obmejni promet)

Podatke o cestnem mejnem prometu z ostalimi državami, podatke o železniškem, pomorskem in zračnem mejnem prometu pa zajemamo iz mesečnih poročil MNZ.

Definicije

Mejni prehod je kraj, ki je določen za prehod državne meje.

METHODOLOGICAL EXPLANATIONS

The purpose of the survey

is monthly monitoring of cross-border traffic of vehicles, passengers and goods by road as well as cross-border passenger traffic by air, sea and railway.

Observation units

are passengers and vehicles crossing state borders of the Republic of Slovenia.

Sources

Data on cross-border traffic of vehicles and passengers are supplied by regular customs services on Croatian border crossings in co-operation with border police. Data on cross border traffic on Italian, Austrian and Hungarian border crossings are supplied by the Ministry of the Interior – Border Police Sector.

Coverage

Among road border crossings, we monitor traffic at 12 international and 21 local border crossings with Italy, at 17 international, 4 interstate and 16 local crossings on the border with Austria, at 3 international and 4 interstate crossings on the border with Hungary, and at 16 international, 12 interstate and 24 local crossings on the border with Croatia. In addition, we also monitor traffic at 12 railway, 3 air and 3 maritime crossings, but only include data on passenger traffic.

Mountain crossings and other crossings according to special agreements are not covered by these statistics.

Method of data collection

We collect data on road border traffic with Croatia with the following monthly questionnaires:

- TR-MEJ-CM/M (Monthly report on road border crossings, international and interstate border traffic)
- TR-MEJ-CO/M (Monthly report on road border crossings, local border traffic)

Data on road border traffic with other countries, data on railway, maritime and air border crossing are taken over from border police (Ministry of the Interior) monthly reports.

Definitions

Border crossing is a place intended for crossing the state border.

Mejni prehodi so prehodi za mednarodni, meddržavni ali obmejni promet; glede na to, za katero vrsto prometa so namenjeni, pa so lahko cestni, železniški, letališki, morski ali rečni.

Mejni prehod za mednarodni promet je kraj, določen za prehod državljanov Republike Slovenije in državljanov drugih držav.

Mejni prehod za meddržavni promet je kraj, določen za prehod državljanov Republike Slovenije in državljanov sosednje države.

Mejni prehod za obmejni promet je kraj, določen za prehod državljanov z določenega območja Republike Slovenije in določenega območja sosednje države v skladu z mednarodno pogodbo.

Druga pojasnila

Potnike na cestnih mejnih prehodih s Hrvaško evidentiramo po državi, kjer je bilo vozilo, v katerem potujejo, registrirano, in ne po njihovem državljanstvu. Pešcev, kolesarjev in potnikov, prispeilih s tovornjaki, ne upoštevamo. Vlačilce štejemo k tovornim avtomobilom.

Vse blago, ki se po 1. 5. 2004 prikazuje kot izvoz, je bilo pred tem datumom razdeljeno na izvoz in tranzit. Izvoz je vseboval samo izvoz iz Republike Slovenije, tranzit pa tudi ves izvoz iz držav EU in drugih držav, če je to blago prečkal Republiko Slovenijo. Ob vstopu v Republiko Slovenijo se je začel tranzitni postopek po slovenskem carinskem pravu in ta se je končal, ko je blago zapustilo Slovenijo. Posledično seveda to pomeni, da se je tranzit drastično zmanjšal, izvoz pa se je povečal, čeprav je dejanski pretok blaga približno enak kot prej, le da gre zdaj za izvoz iz enotne carinske unije in da je ta bistveno večja, kot je bilo carinsko območje Republike Slovenije.

Pri uvozu ni bilo takih sprememb, saj se za blago, ki vstopa na carinsko območje, običajno začne carinski postopek tranzita, uvozno pa se carini pri carinarnici nekje znotraj carinskega območja. Le zelo majhen del blaga, namenjenega drugim državam EU, se uvozno carini prav na meji.

Objavljanje podatkov

Mesečno:

Letno:

Statistični letopis

Rezultati raziskovanj. Letni pregled transporta in komunikacij

Border crossings are international, interstate or local border crossings. They can be road, railway, air, maritime or river crossings.

Border crossings for international traffic are intended for cross-border traffic of citizens of the Republic of Slovenia and citizens of other countries.

Border crossings for interstate traffic are intended for cross-border traffic of citizens of the Republic of Slovenia and citizens of the neighbouring country.

Border crossings for local traffic are intended for cross-border traffic of citizens from a certain area of the Republic of Slovenia and a certain area of the neighbouring country according to international agreements.

Other explanations

At road border crossings with Croatia we register passengers by the state in which the vehicle was registered. We do not take into account the nationality of passengers. We do not count pedestrians, cyclists and passengers arriving by trucks. Road tractors are counted as goods vehicles.

All goods that are shown as export after 1 May 2004 were before that date divided into export and transit. Export covered only export from the Republic of Slovenia, while transit covered all export from EU Member States and other countries when goods were in transit over the Republic of Slovenia. The transit procedure according to the Slovene customs legislation started at entry into Slovenia and finished when goods left Slovenia. This means that transit decreased drastically, while export increased, although the actual movement of goods remained almost the same as before. Now we record export from the customs union, which is much bigger than the former customs territory of the Republic of Slovenia.

There were no such changes on the import side, since goods entering the customs territory usually start the transit procedure, while customs clearance of goods at import is done in a customs house somewhere within the customs territory. Only a very small part of the goods intended for other EU Member States is cleared at the border.
