

TO THE VALIDATION OF THE NAME *PRENANTHO PURPUREI-CORYLETUM AVELLANAE*

(HACQUETIA 10/2: 149–170, 2011)

Ján KLIMENT¹ & Ivan JAROLÍMEK^{2*}

Within the description of the *Corylus avellana* community in the Veľká Fatra Mts (Kliment & Jarolímek 2011) we published the new association name for this community – *Prenantho purpurei-Coryletum avellanae* (Kulczyński 1928) Kliment et Jarolímek nom. nov. The citation of the Kulczyński (1928) we unfortunately forgot to include into the list of references. This is, in the sense of the International code of the phytosociological nomenclature (ICPN, Weber et al. 2000) Art. 2b (Note 3), 3n and 39b – necessary condition for the valid publishing of the new name of a syntaxon. In this short communication we correct the nomenclatural inconsistency and following the Art. 6 of the ICPN we validate the name of the association:

Prenantho purpurei-Coryletum avellanae (Kulczyński 1928) Kliment et Jarolímek nom. nov. hoc loco.

Bas.: *Coryletum avellanae* Kulczyński 1928 (Kulczyński 1928: 134) (Art. 31)

Nomenclatural type: Jurko 1964, Tab. 5, r. 9, neotypus hoc loco.

Syn.: *Lonicero nigrae-Coryletum* (Kulczyński 1928)

Jurko 1964 [OFN: *Lonicero (nigrae)-Coryletum* (Kulcz. 28) em. Jko 64] (Art. 3f); *Lonicero (nigrae)-Coryletum pienninicum* Jurko 1964 (Art. 2b, 34a); *Prenantho purpurei-Coryletum avellanae* (Kulczyński 1928) Kliment et Jarolímek 2011 (Art. 3n, 39b).

Incl.: *Corylus avellana-Aegopodium podagraria* community (Chečko et Szajda 2004), *Corylus avellana-Oxalis acetosella* community (Chečko et Szajda 2004).

Non: *Coryletum* Beger 1922 (cf. Beger 1922: 81–84), *Coryletum avellanae* von Soó 1927 (cf. Soó 1927: 62–64).

Aknowledgements

Authors are indebted to Jean-Paul Theurillat for attention to invalid publishing of the new association name.
