

## A LOUD MADMAN

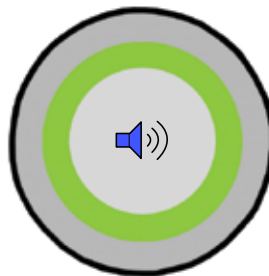

WHEN THE VILLAGERS HEARD THE SOUND  
OF THE MADMAN, EVERYBODY COVERED  
THEIR EARS! PRESS THE BUTTON  
AND YOU MIGHT HEAR HIM TOO.

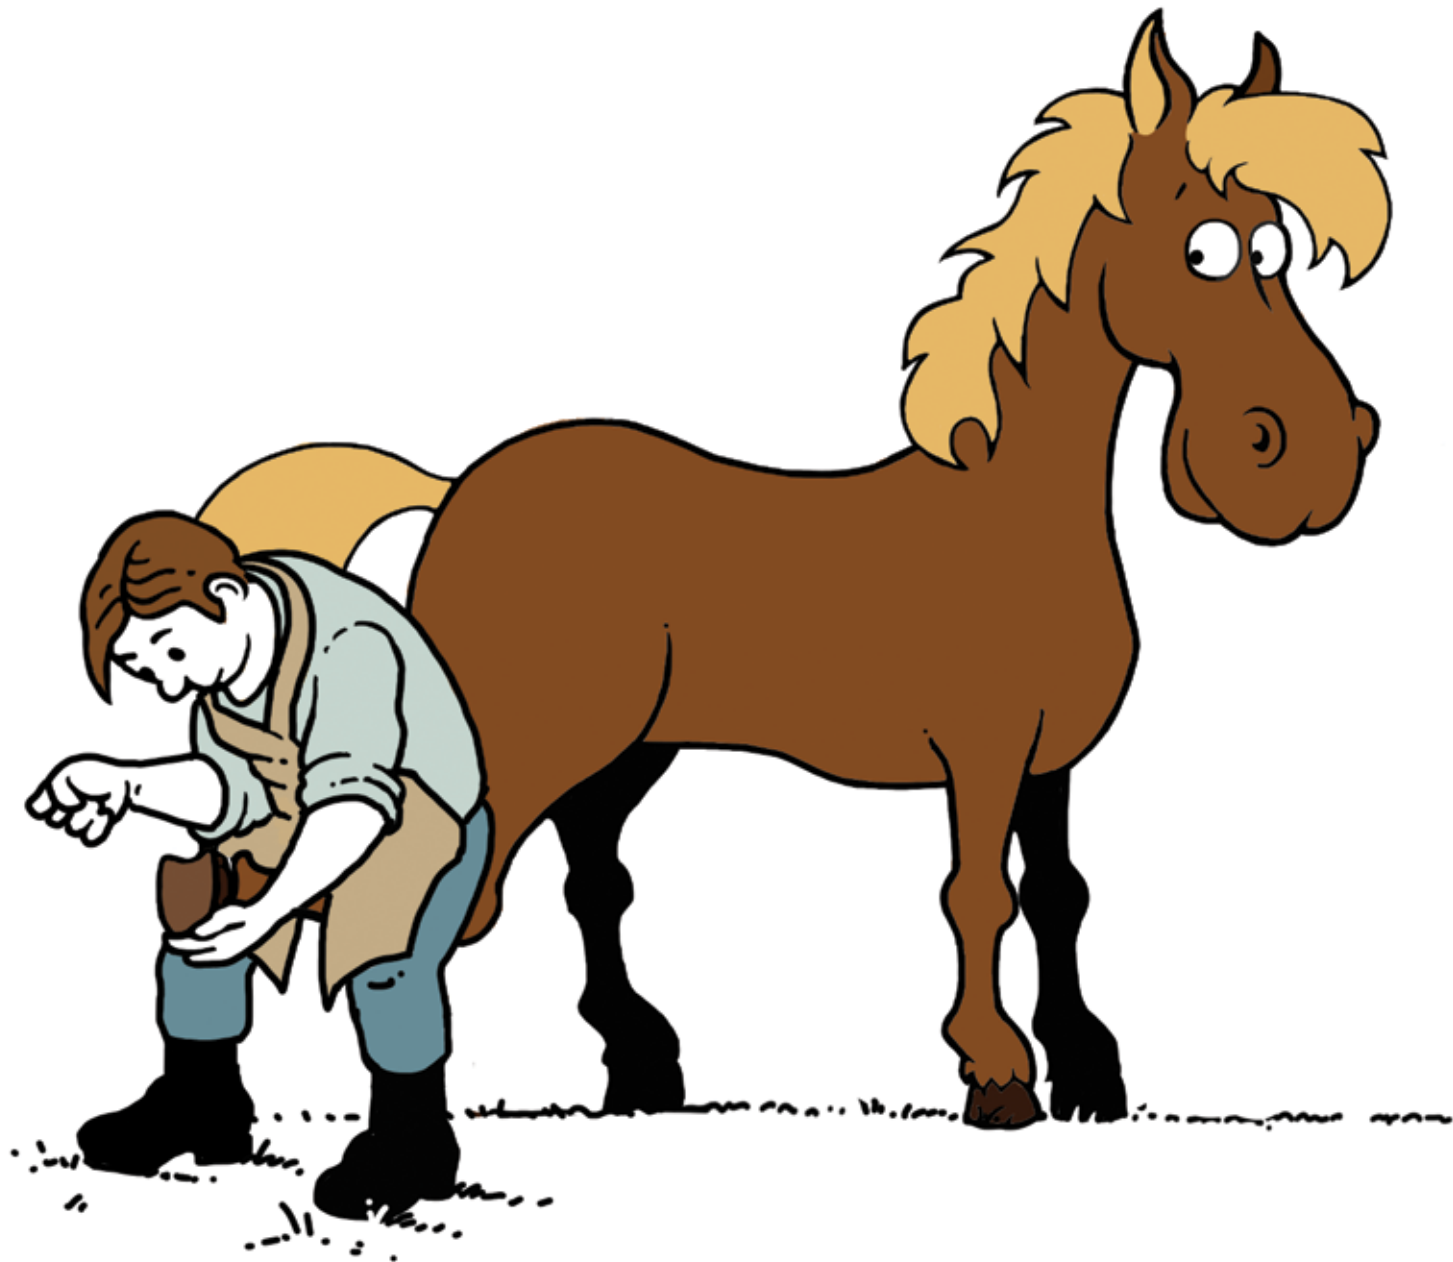

THIS IS THE NOISE GENERATED  
BY A LARGE FORGE HAMMER CALLED  
A "MADMAN" IN SLOVENE. LOCALLY  
IT HAS BEEN GIVEN OTHER INTERESTING  
NAMES SUCH AS "HLAPEC" [A SERF]  
AND "TOLKAČ" [A BEATER].  
THE 'MADMAN' IN THE MUSEUM  
WAS DRIVEN BY A WATER WHEEL.

A BLACKSMITH USED THE LARGE  
FORGE HAMMER FOR FORGING  
LARGE AND HEAVY OBJECTS, WHILST  
THE SMALLER ITEMS HE MADE BY HAND.

WHAT IS THE SMITH DOING  
ON THE SOUND RECORDING?  
THINK OF FOOTWEAR FOR HORSES.

WHEN A SMITH HAS A HORSE  
TO SHOE, WHAT TOOL DO YOU  
THINK HE WILL USE?

LET THE WORK BE HEARD

## A LOUD MADMAN
