**Wir Franz der Zweyte, von Gottes
Gnaden erwählter romischer Kaiser, zu allen Zei-
ten Meherer des Reichs, König in Germanien,
zu Ungarn und Böhmen &c.; Erzherzog zu Oester-
reich; Herzog zu Burgund und zu Lothringen;
Großherzog zu Toscana &c. &c.**

Unsere stäts auf das allgemeine Wesse Unserer Unter-
thanen gerichtete Sorgfalt hat uns bewogen, zu der, den
sämmtlichen Apotheken Unserer Erbländer in Zubereitung
der Arzneien bereits zur allgemeinen Richtschnur bestimm-
ten Pharmacopœa austriaco - provincialis emendata, auch
eine neue allgemeine Apothekentaxordnung mit
Rücksicht auf den gegenwärtigen Preis der Arzneien ver-
fassen zu lassen. Wir verordnen daher:

E r s t e n s : Allen Apothekern ohne Ausnahme in Unsern gesammten Erbländern sich vom 1ten Jänner 1796 angesangen, genau an die Pharmacopœa austriaco - provincialis emendata , und an diese neue Taxordnung zu halten , widrigensfalls , wenn einer derselben , entweder die Arzneien aus unerlaubter Gewinnsucht nicht ächt zubereitete , oder die Tare geflissener Weise überschritte , und dessen überzeugt würde , er jedesmahl um 24 Dukaten gestrafet werden solle ;

Z w e n t e n s : In eben diese Strafe sollen auch die Apotheker verfallen , wenn sie durch heimliche unerlaubte Einverständnisse , oder durch Geschenke Kunden an sich zu ziehen trachten.

D r i t t e n s : In Zukunft soll jede vorschriftmässig berichtigte Apotheker - Rechnung ohne allen Abzug nach dieser neuen Taxordnung bezahlt , derselben auch bei jedem Gerichte die vollständige Bezahlung ohne Anstand zu gesprochen werden , und bliebe eine Rechnung länger als ein Jahr unbezahlt : so kann der Apotheker für die weitere Zeit 4 vom Hundert , als Zinsen anrechnen. Da aber

V i e r t e n s : Zuweilen mehrere Arzneien Gran - oder Tropfenweise verschrieben werden , und in so kleiner Dosis nicht leicht zu taxiren sind ; der Apotheker aber solche doch genau und vorsichtig abwägen , und beimengen muss , so soll ihm erlaubt seyn , für jede solche Dosis , dafern sie geringer , als die Bestimmung der Tare , ausfiele einen Kreuzer anzusehen.

F ü n f -

Fünftens: Wird die von jeher bestehende Verordnung hiermit erneuert, daß bei 20 Reichsthaler Strafe Niemand ein sogenanntes Arcanum, weder außer den Apothekern, andere Arzenehen verkaufen soll.

Sechstens: Mit dieser Strafe von 20 Reichsthaler sollen ebenfalls die Materialisten und Gewürzkrämmer belegt werden, wenn sie im Kleinen, Kreuzer- und Groschenweise die den Apothekern vorbehaltenen Arzenehen, besonders aber Purgir- Brech- oder Schlafrmachende Mittel u. s. w. einfach oder zusammengesetzt verkaufen.

Gegeben in Unserer Haupt- und Residenzstadt Wien
Den 23ten November 1795.
