

TOMOS AUTOMATIC 3ML

TOMOS AUTOMATIC 3ML

A driving engine with 2-speed automatic gearbox and two centrifugal clutches renders possible automatic gear change. Quiet and smooth engine operation. Efficient braking. Good illumination of machine. A small tool box under the tip-up seat.

Simple operation. Throttle twist grip located on the handlebar. At the speed of apx. 18 km/h the second gear is activated automatically.

Quality — Economy — Durability!
