Moskva očita Peipingu v 2 mesecih 488 kršitev

Tiskovna agencija Tass je objavila, da so Kitajci 488-krat kršili mejo ZSSR letos od junija do srede avgusta.

MOSKVA, ZSSR. — Uradna poročevalska služba Tass v poročilu izjavi dolgi rdeči Kitajski, da je od junija do srede avgusta kršila 488-krat namerno sovjetsko-kitajsko mejo. V mejnih spopadih naj bi sodelovalo 2.500 Kitajcev. Tass navaja "dokumente", ki so jih Rusi zaplenili pri teh spopadih. Iz njih je "razvidno", da so Kitajci napade načrtno pripravljali in izvajali.

Tassovo izjavo je prineslo vladno glasilo "Izvestia". To je prvi večja javna izjava proti Kitajski, odkar je uradno glasilo KP ZSSR "Pravda" posvarilo Kitajsko, da se bi vojna med Sovjetsko zvezo in Kitajsko nujno razvila v atomski spopad.

Tassova izjava je odgovor na kitajski protest 19. avgusta letos, v katerem je Peiping obdolžil Sovjetijo, da so njene sile v preteklem juniju in juliju kršile kitajsko ozemlje 429-krat!

V glavnem navaja izjava Tass, da znane mejne spopade na reki Usuri in na meji s Sinkiangom. Navedenih je nekaj podrobnosti o kitajskem napadu 8. julija na otok Goldinski v reki Amur, s katerimi skušajo Rusi dokazati, da je bil dobro pripravljen in načrtno izveden.

Ottawa noče podpreti rdeče Kitajske v ZN!

OTTAWA, Can. — Rdeča Kitajska je smatraa, da bo Kanada avtomatično podprla njen sprejem v Združene narode na letošnjem jesenskem zasedanju glavne skupščine ZN, pa naj bo dotlej dogovor o vzpostavitvi rednih odnosov med Ottawa in Peipingom dosežen ali ne. Peiping je tekom razgovorov o tem pritiskal na Ottawa, da bi glasovala zanj v ZN.

Iz zunanega ministristva prihajajo vesti, da bo Kanada glasovala za sprejem rdeče Kitajske v ZN, če bo dotlej dosežen sporazum med njo in Kitajsko o vzpostavitvi rednih odnosov. Dokler tega sporazuma ne bo, Kanada za sprejem Kitajske ne bo glasovala.

V vseh letih do 1967 je Kanada glasovala v ZN proti nadomestitvi Gangkajskove Kitajske v Maovo. Tedaj se je glasovanja vzdržala, letos pa se bo ravnala po stanju svojih odnosov s Peipingom, kot je izjavil zastopnik zunanega ministra.

Skozi Dardanele

ISTANBUL, Tur. — V začetku tedna sta plula skozi Bospor in Dardanele v Sredozemsko morje dva ruska minolovca. Sovjetska zveza ima trenutno v Sredozemskem morju izredno veliko število vojnih ladij. Nedavno so imele te tam vojne vaje

Darovi za zdravstvene raziskave zmanjšani

NEW YORK, N.Y. — Vsi darovi Narodnih zdravstvenih institutov za znanstvena raziskavanja so bili zmanjšani za 20% z začetkom septembra. Eden od njih je svoje delo tako omejil, da bo od sedanjih 130 programov dobilo sredstva za nadaljevanje v tekočem letu le še 10.

Narodni zdravstveni instituti so vse svoje veje obvestili o verjetnosti zmanjšanja proračuna pod 3.5 milijona, kot je bil predložen Kongresu, pa še ni bil odobren. Tajništvo za zdravje, šolstvo in socialno skrbstvo je zaradi varčevanja že odobrena sredstva obrnilo za kritje stroškov za javno zdravstvo, kot ga zakoni predvidevajo.

Zmanjšanje sredstev za znanstvene raziskave na polju zdravstva je močno prizadelo vsa predišča, ki se s tem ukvarjajo. Njihovi vodniki opozarjajo na ujnecst načrtnega in vztrajnega dela, ker na tem področju ni nogoče dela krčiti in razširiti naglo, ampak je za vsak načrt potrebno veliko in dolgih priprav.

Kralj Husein v Libanonu

BEIRUT, Lib. — Jordanijski kralj Husein je prišel sem v redno na tridnevni uradni obisk na razgovore s predsednikom republike Charlesom Heloujem in njegovo vlado.

Vodnika obeh držav se razgovarjata o položaju na izraelsko-libanonski meji in o sporu med palestinskimi gverilci in libanonskimi oblastmi v begunskih aboriščih južnega Libanona.

Kanadsko zastopstvo v Peipingu

HONG KONG. — Od preteklega tedna je na Kitajskem zastopstvo Kanadskega odbora za pšenico. Slo je preko Kantona v Peiping, da se dogovori s Kitajsko o morebitni bodoči prodaji pšenice. Pogodba iz leta 1965, na temelju katere je Kitajska kupila v Kanadi za preko 200 milijonov dolarjev pšenice, je v letošnjem juliju potekla.

Černik je na vrhli

Konservativni v o d niki Komunistične partije ČSR se načrtno in dosledno bližajo svojemu cilju — obsodbi in odstranitvi, če ne celo kaznovanju začetnikov "praške pomladi".

PRAGA, ČSR. — Glavno glasilo Komunistične partije Rude Pravo in ideološko glasilo KP Tribuna sta objavila razgovor z bivšim članom Prezidijske Centralnega komiteta Komunistične partije Drahomirjem Kolderjem, v katerem ta ostro napada A. Dubčka in O. Černika. Sodijo, da je to priprava na njuno izključitev iz vodstva Partije in državne uprave, ko se bo sestal kasneje ta mesec Centralni komitet KP na zasedanje.

Kolder, ki je bil ves čas za sodelovanje s Sovjeti in proti vsaki liberalizaciji, dolži Dubčka in Černika, da nista dovolj odločno nastopila proti sestavljalcem in podpisnikom izjave "2000 besedi", četudi naj bi bil Prezidijski Centralni komitet tak nastop sklenil.

A. Dubčka dolži D. Kolder, ki je sedaj gospodarski svetovalec poslaništva v Bolgariji, da ni hotel obsoditi "2000 besedi" na radiu in televiziji, četudi je to Prezidijski sklenil, Černik pa je v očeh Kolderja premalo trdo nastopil proti sestavljalcem in podpisnikom te izjave.

Konservativni in promoskovski partijski vodniki na Slovenskem so že dosegli, da je Centralni partijski komitet odobril resolucijo, ki opravičuje lanski sovjetski vojaški vpad v ČSR, sedaj se oni in njihovi tovariši v Češki Komunistični partiji želijo, da bi dosegli sprejem enake resolucije tudi v Centralnem komitetu Komunistične partije ČSR, ki bo zasedal pred koncem meseca. To bi pomenilo obsodbo liberalnih vodnikov partije iz "praške pomladi" in njihovo izključitev iz vodstva Partije in odstranitev z vodilnih mest v javni upravi.

KOSYGIN SE USTAVIL NA POTI DOMOV V PEIPINGU

Predsednik vlade ZSSR Aleksej N. Kosygin se je na poti s pogreba Ho Či Minha v Hanoiu domov ustavil v Peipingu, kjer je imel kratak in "odkrit", pa tudi "koristen" razgovor s predsednikom kitajske vlade Ču En-lajem.

MOSKVA, ZSSR. — Sovjetska poročevalska služba Tass je objavila, da se je predsednik vlade ZSSR Aleksej N. Kosygin na poti domov iz Hanoia, kjer se je udeležil pogreba umrlega Ho Či Minha, ustavil v glavnem mestu Kitajske Peipingu in imel tam "odkrit" in "koristen" razgovor s predsednikom vlade rdeče Kitajske Ču En-lajem. To je prvo srečanje med obema od februarja 1965, ko se je Kosygin prav tako ustavil v Peipingu na povratku z obiska v Hanoiu.

Kosygin in Ču sta "odkrit" orisala svoja stališča in razgovor je bil koristen za obe strani", pravi poročilo Tassa. V komunističnem jeziku pomeni "odkrit" razgovor na splošno razgovor, kjer ni prišlo do nikakega sporazuma.

Poročilo ne pove nič, o čem sta se oba predsednika vlad razgovarjala, pravi le, da so bili razgovori za obe strani koristni. Morda kaže to željo tako Moskve kot Peipinga, da omilita sedanjí javni prepir o meji in o mejnih spopadih, ki je zavzel v zadnjih mesecih že res nevaren obseg.

Arabski gverilci objavili splošni boj proti Izraelu

AMAN, Jord. — Ljudska fronta za osvoboditev Palestine, ki si prisvaja odgovornost za napade na izraelska letala in na izraelsko poslaništvo in urade pretekli ponedeljek v Bruxellesu, Bonnu in Haagu, je objavila splošen boj proti Izraelu in vsem izraelskemu kjerkoli po svetu.

Pozvala je vse, naj ne uporabljajo izraelskih letal in ladij, ker jih bodo arabski komandosi napadali in uničevali, kjerkoli in kadarkoli bo možno. Kdor jih bo uporabljal, jih bo na svojo odgovornost.

Kdo je sestanek predložil, ni jasno, vsekakor kaže, da je morala Moskva imeti na njem več interesa, ker je šel Kosygin v Peiping, ko bi se bila vendar lahko s Ču En-lajem srečala in pogovorila v Hanoiu na tujih in nevtralnih tleh, kamor sta oba priletela na pogreb starega komunističnega revolucionarja Ho Či Minha. Kitajec se je srečanju s Kosyginom v Hanoiu izognil s tem, da je odletel domov, še predno je Rus, ki je letel tja preko Indije, v Hanoiu pristal.

Zadnje vesti

LONDON, Vel. Brit. — Institut za stratežične študije je v svojem letnem poročilu ugotovil, da bo ZSSR prelitala ZDA v medcelinskih raketah v teku prihodnjih 4 mesecev. Do konca letošnjega leta jih bo imela vsaj 1150, med tem ko jih imajo ZDA le 1054. ZSSR ima poleg tega še 700 raket za srednje daljave, ki jih ZDA sploh nimajo. ZDA imajo še vedno veliko prednost v Polaris in Posejdon raketah atomskih podmornic, kjer pa se Rusi tudi ženo, da bi jih ujeli. Poročilo pravi, da NATO ni v nevarnosti zaradi povečavanja števila medcelinskih raket ZSSR, kjer mora ta del svojih sil držati v Aziji proti Kitajski, s katero se vedno bolj pisano gledata.

No. 175 Friday, Sept. 12, 1969

Vsi smo posvečeni za večnost, toda vsi ostanemo ljudje

Pretekli torek zvečer je bil v šolski dvorani pri Sv. Vidu poslovnili večer, katerega so bili pripravili župljani svojemu dotedanjemu župniku msgr. Alojziju Bazniku, ki je naslednji dan odšel na svojo novo župnijo sv. Patricija v Thompson, Ohio. Poleg domačih župljanov se je večera udeležilo tudi lepo število uglednih rojakov in rojakin iz drugih clevelandskih župnij, saj sega kulturno dušnopastirsko področje g. prelata daleč preko meja vidovske župnije. Med temi je bil tudi predsednik Slovenskega narodnega odbora dr. Miha Krek. — Spored poslovnice večera je bil resnično lep in pomenljiv. Posebno podoba so mu dale pesmi in skladbe, ki jih je bil pripravil za ta večer misijonar Jerko Grzinčič, in pa govor pisatelja Karla Mauserja, katerega v celoti priobčujemo, da bodo lahko brali in preudarjali njegove globoke misli tudi vsi drugi rojaki.

“Vsaka zgodovina je odtis ljudi, odtis duha tistih, ki so v določeni dobi živeli in delovali. Človek sicer pride in ode, toda ta odtis ostane, zakaj tisto, kar duh vtisne v svoj čas, je kakor z žarečim železom vžgano v človeško zgodovino.

Nocoj se skromno poslavljamo od človeka duhovnika, ki je v osemnajstih letih delovanja odtisnil svojega duha v faro sv. Vida. Župnik msgr. Baznik odhaja. Vsako človeško življenje, tudi duhovnikovo, je prihajanje, izpolnjevanje dolžnost in odhajanje. Duhovnikovo življenje pa je še nekaj več: vzdrževanje večnosti v fari, vzdrževanje upanja in trdnosti, da je onstran našega dnevnega pehanja, onstran naših padcev in vstajenja kraj večne sreče, kjer bomo nekoč vsi župljani ena družina ob svojih duhovnikih.

Odkrito rečeno, vpraševal sem se, ko sem bil zvedel, da odhajate, zakaj? Čemu, ko je pa še ravna hoja in še ni veliko srebra v lasih? Morda sem našel še najboljši odgovor v Stari zavezi, v knjigi modrega Siraha. Tako sem bral:

“On vidi od ene večnosti do druge, nič ni izrednega pred njim. Naj nihče ne vpraša: Kaj je to? Čemu je to? Zakaj vsaka stvar ima svoj namen.”

Vsaka stvar ima svoj namen. Ob vsaki stvari, ki se nas dotakne in nas zveseli ali zaboli, imamo priložnost, da globlje in širše odpremo vrata v duhovni svet, v svet, kjer sicer drobne stvari dobe svoj pomen in so po božji volji s stoterimi in stoterimi nitmi zvezane z našim življenjem.

Ne želim in vem, da tudi Vi ne želite, da bi govorili o tistih zunanjih znamenjih, ki bodo ostala za Vami. Lepa so in tudi važna so, vendar so le kot okvir pri lepi podobi. Mislim, da ni najbolj važno, kaj duhovnik, kaj župnik pusti za seboj v službo, preurejenega, na novo postavljenega. Važno je, posebno v današnjem času, kaj je postavil, kaj je preuredil v dušah svojih župljanov. Mislim, da je za vsakega župnika, ki odhaja iz svoje župnije, največja odlika in največje priznanje, če mu župljani morejo reči, kakor rečem nocoj:

“Bili ste dober duhovnik, bili ste dober pastir.”

Vsi smo posvečeni za večnost, duhovnik dvakrat. Toda vsi ostanemo ljudje, tudi duhovnik. Toda posebno duhovnik do dna pozna vsebino besedi trpečega Joba iz stare zaveze, ki jih je rekel svojim prijateljem in svojim nasprotnikom:

— Glej, pred Bogom sem toliko vreden kot ti. Tudi jaz sem iz ila upodobljen. —

Današnji čas je čas duhovne razbitosti, čas velikega vdora časnega, materialnega v prostore mirne večnosti. Vsi to čutimo na svoj način, vsi imamo občutek, da se že sama večnost maje. Dober duhovnik, čeprav iz ila upodobljen, kakor mi, je v tem času tisti, ki večnost neprestano dviga pred nas, ki vsak dan sproti prihaja z gore Sion, kakor nekoč Mozes in dviga plošče postave.

Zdaj odhajate. Navada je taka, da ljudi, ki odhajajo, hvalijo in slave, kakor tiste, ki so umrli. Ne zamerite mi, da ne storim tako. V mojih očeh so veliki in pravega spoštovanja vredni tisti, ki stoje pred množico taki, kakor so, z znamenji umrljivosti in z napakami, ki nam jih prinaša ilo, iz katerega smo upodobljeni, in z znamenji večnosti, med katerimi so hrepenenje po svetosti, hrepenenje po trdnosti, hrepenenje po skriti dobroti in — pri duhovniku še posebej — hrepenenje, da bi vse, ki so mu v duhovno skrb izročeni, pripeljal pred božja kolena.

To ste delali in tako Vas gledamo, gospod župnik. Ne samo jaz, mislim, da smem reči, da vsi. Vsakega človeka dela velikega krhkost prsti, iz katere je ustvarjen, in milost božja, katera to prst gnete, da iz nje duh bolj in bolj odseva.

Odhajate v majhen kraj v večjo mirnost. Prepričan sem, da boste še prišli na obisk, težko pozabi duhovnik

svoje duhovne otroke. In vem, da bodo Vaše molitve še vnaprej prosile za vse, ki so bili toliko let izročeni Vaši skrbi.

Ko se je mladi Tobija po dolgem potovanju s svojim spremljevalcem vrnil v očetovo hišo, se je spremljevalec razodel očetu in sinu. Bil je angel Rafael. Tedaj je stari Tobija padel na obraz in zapel čudovito pesem hvalnico. In v njej, gospod župnik, so besede, za katere bi rad videl, da bi se izpolnile pri Vas, ker vem, da osrečujejo vsakega duhovnika

— Ti pa se boš veselil svojih otrok, ker bodo vsi blagoslovljeni in se bodo zbrali pri Gospodu. —

Daj Bog, da bi se! Vi in mi, vsi župljani in vsi duhovniki, ki so in bodo na tej stari slovenski župniji pastirovali. Naj Vas nagradi Bog za vse, kar ste v preteklosti storili, in blagoslovi vse, kar boste začeli v prihodnosti!”

BESEDA IZ NARODA

Joliet, Ill. — Dan po dnevu, ko so astronomi odleteli proti Luni z načrti, da stopijo na lunina tla, da doženejo in vidijo, kako močna so lunina tla, smo pri Juretu modrovali. Nick se je ravno vrnil z obiska pri vnuku v Brookfieldu pri Chicagu. Pri-povedoval je, da je prejšnjo noč v Brookfieldu tako lilo, da je mislil, da bo vse zalilo.

“Saj je tudi to lilo,” je pristavila Bara. “Veste, možički, tisto frfotanje okrog Lune ima tudi s tem nekaj opraviti, da imamo letos tako čudno vreme. Ves junij je deževalo, pa tudi julij ni bil nič boljši. Recite, kar hočete, luna se s svojo naravo ne da kar tako premotiti, da bi plesala, kakor bi ji astronomi odvijali, previjali in privijali njene vijake. Vidite, 17. julija je bil mlaj in točno tri dni za tem je nam čez morje od Greenwicha prinesla nevihte in nalive. Ob luninem mlaju se vreme vedno spremeni, je zaključila Bara.

Jure je bil to pot tudi izredno dobre volje. Za Baro se je on oglašil in povedal, kako so njegovi strici vedeli povedati, kako je tega in onega luna “nosila” ponoči. Bara se je med Juretovim pripovedovanjem smejala in ko je Jure za trenutek poplahnil grlo s hladnim pivom, je ona dostavila:

“Bogme, jih je luna nosila, posebno kadar je začel mošt vreti po zidanicah. Mojega strica včasih ni bilo po cel teden domov. Tudi drugi so bili tak.”

Jure je pa potem povedal daljšo storijo, kako nekega Vlahu gori od Drage na Gorjancih luna “nosi”. Sosedje so ga večkrat videli, kako je ponoči ob luninem svitu hodil okrog. Včasih kar z košem na hrbtni. In ko so ga drugi dan povprašali, kaj je nosil v košu, ni nič vedel. Njegova žena je v takih slučajih razlagala, da je povzročila luninemu vplivu in da ga luna dvigne in one gre, hodi okrog, pa se vrne in drugi dan nič ne ve, kaj je delal in počel v takem stanju. Bilo je neke noči v jeseni. Na koncu vasi je nek seljak cel teden sekal in klal bukova drva in jih vkladal v skladišče za hišo. Čez nekaj dni je pa opazil, da je skladišče vedno enaka. Kam pa hudirja gredo drva, mu je začela rojiti po glavi misel. Cel teden jih že žagam, razsekujem, skladišča pa vedno enaka. Kam pa hudirja gredo drva. Ne bodi len, nato eno noč se skrije pod streho in opazuje. Okrog polnoči je prisijala luna na nebo, se dvigala in bolj osvetljevala okolico. Jesenske sapice so pihale in zibale vejčevje po drevmu, da so s pod njimi senice spreletavale, kakor da bi se

vse gibalo. Ze se je naveličal in mislil oditi spat, a kar zagleda, kako jo je tisti Vlah, o katerem so govorili ljudje, da ga luna nosi, ponoči prišel s košem na hrbtni izpod drevja, krenil k skladišču, naložil drv v kos in hajdi z njim proti njegovemu domu. Takrat pa seljak ne bodi len, izpod streška doli zavpije: Stoj! Vlah se pa ni zmenil za opozorilo, ampak kar koračil naprej. Seljak pograbi pri hlevu vile ter za njim, ga ustavi in zavpije nad njim: Kaj pa vraga neseš v košu? Potegne koš z njegovega hrbtni in vidi poln koš svojih bukovih drv, ki jih je preje podnevi naklal, da bi jih imel za zimo. Vlah se je ustrašil in začel seljaka prositi, naj mu oprostí, ker da res ne ve, kaj dela, kadar ga “teta luna” nosi ponoči okrog. Seljak se pa s tem ni zadovoljil. Drugi dan je javil zadevo orožnikom in ti so dognali, da je dotični Vlah nosil kar lepo skladiščno drvo iz seljakove hiše. Za kazen ga je sodnik obsodil na tri tedne zapora in pa vsa drva je moral znositi nazaj k seljaku, kjer jih je pokradel.

To je bila Juretova storija o tistem Vlahu, ki ga je luna nosila! Nick je pa še zraven dostavil: “Jaz bi mu pa dal za vsako poleno še eno gorko po zadnjici, da bi Vlah vedel, kdaj ga je luna ‘nosila’.” Tako je, vidite. Luna, luna, čudna “teta” je luna. Nekatere trka, druge nosi ponoči okrog. Tudi razne političarje velikokrat po svojih metodah trka in nosi okrog. Vsega zlomka obljubijo, zlasti ob volitvah, potem pa vse pozabijo, kakor gorjanski Vlah, ki je hodil s košem okrog. Seveda, sami sebe pa ne pozabijo...

* “VAŽNOST”, KAKO PRITI NA LUNO zakriva druge kritične zadeve v naši politiki. Je važno, da v znanstvenih odkrivanjih in drugih takih zadevah ne zaostanemo za drugimi. Toda za enkrat smo še vedno na tleh naše Majke Zemlje. Prebivalstvo se množi. Med njimi je dosti revščine. Bilijoni, ki gredo za take raziskave, kakor kako priti na Luno, bi otrli marsikako solzo med revnimi. Vsaj del tistih bilijonov. Inflacija narašča, ki bo, če bo šlo tako naprej, požrla starim vse, kar so si odtrgali od ust, da so za stara leta nekaj prihranili, da bi ne bilo treba biti na javnih podporah. Mladim, ki na videz sicer dobro zaslužijo, bo pa tudi sproti vse požrla z vedno višjimi cenami. Če bo šlo tako naprej in če pride (gre v tako smer) do krake gospodarske krize, znamo zopet vsi postati, stari in mladi, sami “nemaničji”, kakor smo postali v času Hooverjeve krize.

Črno gledanje, bo rekel eden ali drugi. Da bi bilo samo črno gledanje! Zakladniški zvezni tajnik David M. Kennedy svari pred navijanjem cen, plač in vsemu inflacijskemu gibanju, ki ruši in znižuje vrednost našega dolarja. Vsakega “raja” je enkrat konec, in nobenega jamstva, da tudi sedanje prosperitetne ne bo. Smo že daleč za zelo

vijugastih gospodarskih potih. Pred pol stoletjem se se je dobilo dober par čevljev za \$1.50 do \$2, za katere treba zdaj plačati blizu \$25. Dobro obleko pa za \$8 do \$12. Zdaj dobra obleka stane blizu \$100 in še celo več. In tako povrsti vse drugo. Kdor to razume, si ne more pomagati, da bi ne gledal črno.

Vse to precej pove kam vozimo...

Gospodje v Washingtonu, ki v kongresu odločujejo, so zelo širokogrudni, do sebe seveda. Sebi so že lani primaknili in glasovali za zvišanje plač. Kdo jih bo dal? Mi, z davki.

Pretekli torek smo se udje DNIJ v velikem številu zbrali s svojimi družinami pri poslovnem večeru svojemu dosedanjemu dušnemu pastirju msgr. Bazniku, ki mu ga je priredila župnija pred njegovim odhodom na novo župnijo sv. Patricija v Thompson, O. Zahvalili smo se in se mu tudi tu vnovič za vse, kar je storil dobrega za nas župljane ter posebej še za naše društvo.

V sredo, 10. t. m. je nastopil svojo službo pri naši župniji rev. Rudolf Praznik, doslej župnik v Barbertonu, Ohio. Lepo ga pozdravljamo ter mu zagotavljamo vso pomoč pri njegovem težkem in odgovornem delu. Bog Vas živi, novi g. župnik!

Letos bo praznovalo naše društvo že 35-letnico svojega obstanka. Proslavili jo bomo s sv. mašo v nedeljo, 26. okt., ob 11.45 dop. Po maši bomo pripravili v šolskem avditoriju slavnostni obed, h kateremu se danes vabimo vse ude in njihove družine, kakor tudi vse svoje prijatelje iz bližnje in daljne okolice. Gotovo naj pridejo v nedeljo med nas vsi bratje, ki so bili nekoč udje našega društva, pa so se izselili od Sv. Vida iz tega ali onega razloga. Banketu bo predsedoval dosedanji naš g. župnik Baznik ter so nanj povabljeni tudi vsi naši bivši duhovni voditelji.

Zelena dolina vabi

CLEVELAND, O. — Ko začne narava spreminjati svojo zeleno barvo v čudovito prelesto in je nekatero sadje in grozdje že zrelo, nekatero pa šele dozoreva, nudi narava v tej spreminjajoči se obliki prekrasno sliko božjega stvarstva.

Sedaj se ta čas začena. Človek kaj rad izkoristi lepe dneve in vsako priliko, da ujame vsaj nekaj te prirodne lepote. Vsi prirodni lepoti priredi odbor ZD na svojih prostorih na Baker Rd. za vse člane, prijatelje in znanke piknik z vinsko trgovino v nedeljo, 14. septembra.

Prisrčno ste vabljeni na to prireditev, na kateri boste postreženi z na raznjo pečeno svinjino, z domačimi štrudelnji in različnimi drugimi dobrotami, katere nekateri že poznate. S pečeno koruzo si boste po želji lahko sami postregli, ker so jo boste lahko sami na že pripravljeno ognju spekli.

Veseli Vandrovci bodo skrbeli, da se naša misel ne bo preveč dolgo ustavljala tam, kjer smo nekaj pekli krumpir, koruzo in

jabolka in tam, kjer smo nekaj trgli grozdje — naše dobro domače grozdje.

Novice z Ely

ELY, Minn. — Pretekli teden, 4. septembra, je preminula po par tednih boleznih 78 let stara Marija Horvat, rojena Mihelica na Hrvaškem, mati Rudolfa, Josepha, Alberta, Mrs. Amalije Hill in štirih drugih hčera, ki pa žive v Kaliforniji in Arizoni. Pokojna je bila članica ABZ št. 1. Njen pogreb je bil preteklo soboto iz Kerntzovega pogrebnega zavoda v cerkev sv. Antona, kjer je imel pomožni župnik rev. J. Scheurer zanj pogrebno sv. mašo, nato pa na faro pokopališče.

V avgustu je bilo bolj vroče kot v juliju in 18 dni smo bili brez dežja in je naše vrtove dobro osušilo. V tem času pride k nam največ obiskovalcev. Letos se niso mogli pritoževati zaradi vremena, pa tudi zeblo jih ni. Bilo je kot nalašč za potovanje in za ogledovanje. Na bregovih naših jezer je obilo prostora za taborjenje in piknike, v jezerih obilo rib, da ni treba hoditi ribičem domov praznih rok.

Ze nekaj let se dajejo zaradi državnega parka na Kabatoyama ozemlju. Trgovci in politiki iz južnega dela države so zanj najbolj vneti, tukaj se ljudje ne menijo dosti zanj. Mnogo jih je kar naravnost proti parku, zlasti med posestniki predelov v bližini predvidenega parka.

Nekaj besedi v spomin Janezu Majeršiču

TORONTO, Ont. — Kakor smo brali v “Svobodni Sloveniji”, je v Buenos Airesu umrl Janez Majeršič, bivši župan v Trzčicu, med vojno komisar-naměstnik župana Črtna, na Dobrovi pri Ljubljani. Kakor piše Sv. Slov., je dal Bog Majeršiču mnogo talentov, ki jih je z velikim uspehom uporabil v delu za srečo in blaginjo svojega bližnjega in za rast slovenskega naroda. Janez Majeršič o krščanskih resnicah ni le govoril in dokazoval, ampak je vse svoje delo in žrtve usmeril v to, da bi slovensko družbeno življenje bilo tudi dejansko zasidrano na temeljih krščanstva. Ker je bil Janez Majeršič na široko znan in mnogi ne vedo, kako je prišlo do tega, da je prišel na Dobrovo nadomestovat župana, zato hočem o tem nekaj napisati.

Bivši župan Črne (umrl letos v juliju, zadet od kapi), ki je več let spretno vodil dobrovsko občino, je moral odstopiti radi vedno močnejšega pritiska in izsiljevanj od strani partizanov in petih občinskih odbornikov iz skupine “krščanskih socialstov”, ki so se — ali so jih — vrinili v občinski odbor na listi SLS. Župan Črne, dobra in blaga duša, ni mogel verjeti, da so ti, tako zanesljivo dobri, verni in krščanski možje že popolnoma pod vplivom komunizma. Zato jim je v mnogi nevspehi mažadevi popustil in ustregel. Ker je bil pritisk stalno močnejši, je končno le omagal in odstopil. Okrajno glavarstvo je odstop sprejelo, razpustilo občinski odbor, pa nastavilo komisarja v osebi kmetijskega referenta Jamnika. Ta mož je bil simpatizer partizanov, v začetku tih, pozneje pa vedno glasnejši. Zato je moral na pritožbo domobrancev na čelu komandirja Knupleža Jamnik oditi iz občine. Glavarstvo je naročilo domobranskemu vodstvu, naj tajo poišče primerno osebo, ki naj prevzame občinske posle. Še isti dan je Silvo Knuplež poklical mene v sobo ter mi dejal, naj se pripravim, da v treh dneh prevzamem občino. Malo

sem se nasmehnil in dejal: “Upam, da ne mislite tega resno. Pa mi pravi: ‘Oča, (tako je on vse starejše ljudi z župnikom (Dalje na 3. strani)

Nega obraza v jesenskih jutrih

Jesen je tu in na meglena jutra se moramo pravočasno pripraviti. Vlažno vreme lažje prenašajo suhe kot mastne kože; vsaka od njih želi posebno nego. Če bomo kožo pravilno negovali, nam lahko jesenska vlaga celo koristi.

Suho kožo namažimo po kopeli z mlačno vodo, s polmastno dnevno kremo. Krema vtiramo eno do dve minuti v kožo, kar pa ostane, jo obrišemo, da se koža ne bo svetila. Če je koža tako zelo suha, da rada razpoka, jo namažimo s salicil-vazelino par dni zapored. Ko se popravi, nadaljujemo s polmastno kremo, ki jo sicer uporabljamo.

Jeseni so običajno velike težave tudi z ustnicami. Te posebno takrat, če jih ne ličimo z rdečilo, rade razpoka. Uspešno sredstvo proti temu so posebna ličila za ustne, ki dajejo tem mehko in preprečujejo izsušitev in razpokanje.

Mastna koža vlažne jesenske dni še težje prenaša kot suha. Mastni koži namreč godi sonce, pa tudi na vetrovne dni ni pretirano občutljiva. Zmotno je mnenje, da mastne kože ne mažemo s kremo. Majhna količina dnevne suhe kreme bo kožo obvarovala pred zunanjimi vplivi in preprečila premočno izločanje žlez lojnic. Tako lahko z uporabo kreme postopoma zmanjšamo mastnost kože. Ko bomo obraz namazale s kremo, počakamo nekaj minut, da se vpije, odvečno pa obrišemo s staničevino.

Tako namaščen obraz rahlo popudramo s suhim pudrom za obraz, ki je za jutranje ure edino primeren. Tudi nanašanje suhega pudra z vato ali posebno suho gobo za puder je tako hitro, da se nam pri še tako kratko odmerjenem jutranjem času namenjenem kozmetiki, ne bo poznalo. Namaščen in do suhega popudran obraz je pripravljen za nadaljnje ličenje, pa tudi brez ličenja gre lahko brez škode na jesensko ulico.

Kako osvežimo ovelo solato
Rojakinja, skušana gospodinja mi je poslala zadnjič dober nasvet za osvežitev ovele solate. Takole svetuje:

V vročih dneh nam solata naglo ovene in jo gre veliko v nič, če tako čistimo. Vzemimo posodo sveže vode in položimo vanjo solato z glavo navzdol. V vodi naj ostane eno uro, da se jo bo dobro napila. Ko jo vzamemo iz vode, je sveža in za pogled okusnejša in vabljivejša. Ko se malo odteče, jo bomo naglo očistile in pripravile.

Gledati moramo, da jo pri pranju ne zmečkamo, ampak jo ohranimo čim bolj naravno svežo. Poleg soli, olja in kisa lahko dodamo za izboljšanje okusa rezino drobno sesekljane čebule, žlico vode, v katero smo namočile kosce česna, ščepec popra in nekaj sladkorja. Seveda je vse to vprašanje okusa. Nekomu bo prišlo, drugemu morda ne!

Na podoben način kot zeleno solato lahko osvežimo tudi zeljnatino, le da prerezano glavo pustimo v vodi polovico manj časa.

NEKAJ BESEDI V SPOMIN JANEZU MAJERSIČU

(Nadaljevanje s 1. strani)

vred tituliral) to pa prav resno mislim in kot vaš poveljnik vam tudi ukazujem." Jaz sem mu dejal, da tega ne morem in ne sem storiti. Ker s tem bi naredil isto, kot bi si smrtno obsodbo podpisal. Tega ne bo in ne sme storiti noben domačin v teh razmerah, najmanj pa jaz, ker sem tako osovražen od komunistov in še posebej od "krščanskih socializmov", ker sem se jim vedno upiral na občini. "Oča, prevezmite ali mi pripeljite zmožnega protikomunisto, drugače boste zapisani v kroniki, da ste se v najhujših in najtežjih časih, ki jih narod preživlja, otepali dela za ljudstvo. Poslovil sem se

in premišljeval, kaj mi je storiti. Pa sem se spomnil Miloša Stareta. Takoj sem se vsedel na kolo in pognal proti Ljubljani. Šel sem naravnost v njegovo odvetniško pisarno na Dunajski cesti. Povedal in razložil sem mu ves položaj in ga prosil nasvetov. Malo je pomislil, nato pa je dejal: "Pojdite v Moste v usnjarno Mergentaler in vprašajte za Janeza Majersiča. On je bil župan v Trzinu, pa so ga Nemci izgnali. Sedaj dela v tovarni usnja v Mostah. Njega vprašajte, če bi morda on prevzel to." Šel sem tja, pa so mi v pisarni povedali, da je pred nekaj dnevi odšel domov v Trzin radi nekih družinskih razmer. Danes zjutraj smo pa dobili obvestilo, da so ga Nemci zaprli. Ker mi je bil Janez Majersič že od prej znan, čeravno ne osebno, sem že z vsjo gotovostjo upal, da ga bom pridobil, da bo ponudbo sprejel. Zato mi je kar dihal zastonj, ko so mi povedali. Žalostno sem se vrnil nazaj k Milošu Staretu v pisarno in mu povedal novico. Pomislil je in dejal: "Tu bo pa treba neke intervencije." Po kratkem pogovoru mi je naročil, naj pridem čez dva dni zopet k njemu. Do takrat bo poskušal zvedeti, ali ga bodo Nemci obdržali ali ga mislijo spustiti. — Ko sem čez dva dni prišel v njegovo pisarno, mi je povedal, da je Majersič že na poti v Ljubljano. Naj ga ob tistem popoldnem počakam v veži Mestne posojilnice. Ga bo on poslal tja in se bova pogovorila. Počakal sem ga tam in res je prišel. Precej časa sva govorila in končni dogovor je bil tak, da se bo naslednji dan pripeljal na Dobrovo, da si bo položaj na mestu ogledal. Če mu bo ugaljalo, bo službo v Mostah opustil in takoj prevzel posle na naši občini.

Res se je pripeljal naslednji dan že pred deveto uro popoldne. Jaz sem ga počakal na dogovorjenem mestu. Popeljal sem ga v občinsko pisarno. Ogledal si je nekoliko uradovanje bivšega komisarja Jamnika, se razgovarjal s tajnikom Jovanom, si ogledal poslovanje prehranjevanega urada, se pogovoril s tajnico Šebenikovo in sva šla. Pokazal sem mu še že najeto sobo pri Blažu na vasi, nakar mi je pritril, da bo prevzel. Nato sva šla h komandantu domobrancev — Silvotu, ki je ponudbo novega komisarja rad sprejel, potem ko sem ga mu predstavil in dal podatke o njem. Naslednji dan popoldan mu je izročil ključke od občinskih pisarn in njegove sobe pri Blažu. Dan in mesec sta mi ušla iz glave. Kdor je tiste čase živel na Dobrovi, posebej še, če bi bil v moji koži, se temu ne bo čudil.

Janez Majersič je vodil občinske posle zelo dobro, uspešno in spretno. Vsi občani smo bili z njegovim delom zelo zadovoljni. Vsem se je naravnost priljubil, le partizanom — vključno krščanskim socializmom vred — ne. Ti so ga zelo sovražili, a se niso upali pritiskati nanj radi priljubljenosti in bližine domobranske posadke. Vendar ga čisto pri miru tudi niso pustili. Kjerkoli so imeli priliko, so ga prijemali za to in ono. A jim je znal odgovoriti in se jim upreti in tako mu niso mogli do živga. Kolikor sem imel časa in prilike, sem mu poskušal biti vsestransko v pomoč. Bila sva prijatelja in skupaj v mnogih debatah. Imel sem ga priliko spoznati v dno duše. Bil je dober in res zvest prijatelj. Zelo skromen, dobre in mehke duše, pa vendar prava gorenjska grča. Ves neizprosni v svojih načelih. V ničemer ni popustil, vsako reč je znal pravilno pretehtati, v vsaki reči najti resnico. V vsem popolnoma zanesljiv; vse smo mu lahko zaupali.

Ko smo sprejeli iz Leonišča ameriškega padalca Brasha, ki ga je ob Savi v Dev. Mar. v Polju našel g. Rudi Hirsiger — v našo vas Gabrje na okrevanje,

za katerega so le nekateri vedeli, smo o tem obvestili Majersiča in mu naročili, da bo morala zanj skrbeti občina. Je naročilo mirno sprejel, naredil, kar in kadar je bilo treba in nikomur niti besede črnilo o tem. Še potem v begunstvu ni hotel o tem govoriti, da bi tistim, ki so imeli z njim opravka, pa ostali doma, s tem ne napravil sitnosti in škodo. Vedel je, če bi to zvedeli takratni oblastniki, bi se tem ljudem ne godilo dobro.

Ko sem ga vprašal, če bi hotel biti mojemu mlajšemu sinu birmanski boter, mi je takoj veselo pritril. Le prosil me je, naj povem fantu, naj ne pričakuje daril in — zlate ure, kot je bila včasih splošna in slaba navada. Dejal sem mu: Nič ne skrbi za to. Ti le priporoči fanta Sv. Duhu, naj mu podeli takih darov, kot jih je dal Bog tebi, pa bo dobro. Toliko iz mojih spominov na dobrega moža-prijatelja.

Dragi Janez! Prepričan sem, da Te je dobri Bog, ki vse dobro plačuje, takoj vzel k sebi. Saj si delal le za druge, imel pa nič dobrot. Pač pa veliko pokore in trpljenja! Vendar Te nobena, še tako težka reč ni iztirila. Ostal si vseskozi zvest in marljiv v skrbi in vestnem delu v dobrobit naroda.

Prijatelj Janez! Naj Ti bo lahka argentinska zemlja in mirno počivaj v njej. Hčerki, gospej Štefki, ki mu je vseskozi in v najhujšem trpljenju zvesto stala ob strani, moje iskreno sožalje! Lojze Ambrožič, st.

Arabci tišče Libanon v smeraj hujšo zadrego

Taborišča palestinskih beguncev v Libanonu so postala gnezda gverilcev, ki vprizarjajo napade na mejna naselja v Izraelu.

BEIRUT, Lib. — Brezobzirnost arabskih gverilcev, ki niso libanonski državljani, pa so se v Libanonu utaborili kot na domači zemlji, spravljali libanonsko vladno od dneva do dneva v hujše težave. Arabski gverilci imajo namreč v arabskih vladah mogočne varuhe in zagovornike. Zato so se gverilci ugnedili v južnem Libanonu, ki zanje pomeni važno strateško pozicijo. Južni Libanon je namreč gorata pokrajina, odprta na jug proti Izraelu. Gverilci torej lahko mirno živijo v Libanonu in od tam napadajo izraelske kraje, posebno tiste, kjer se nahaja izraelska industrija. Izraelska narodna obramba je dolgo časa prenašala to za njo nezno stanje. Sedaj so izraelski komandosi začeli napadati tiste

vasi v južnem Libanonu, kjer so se gverilci utaborili. Libanonska vlada protestira proti izraelskim komandosi, toda protesti navedeni ne zaležejo.

Sosedna Sirija načrtno podpira taborišča gverilcev na libanonski zemlji. Jih podpira z orožjem in denarjem, pa tudi s prehrano. Libanonski protesti v Damasku so neučinkoviti. Rodili so do sedaj nepričakovano reakcijo. Sirijska vlada se je postavila na stališče, da se Libanonu ni treba bati za svojo varnost, ker je zanjo odgovorna vsa arabska skupnost od Maroka do Iraka. Torej teorija Brežnjeva "o omejeni suverenosti" v arabski izdaji!

Nemarno postopa z Libanom tudi Irak. Iraška vlada je odpoklicala vse svoje turiste iz Libanona ob enem pa tudi načrtno zavira se gospodarske stike z Beirutom.

Tak položaj libanonske države je moral roditi napeto politično stanje v deželi. Zmeraj bolj se oglašajo pozivi, da je treba gverilske vdore preprečiti za vsako ceno in ne vedno misliti, kakšne posledice bo taka radikalna akcija mogla imeti. Proti gverilcem nastopajo posebno odločno libanonski kristjani. Med libanonskimi muslimani je seveda dosti omahljivcev, ki ne vedo, kako bi se odločili, dočim nekateri med njimi zavzeto pripravljajo idejo o gverilskem vojskovanju.

Morilec Mboye obsojen na smrt z obešenjem

NAIROBI, Ken. — Sodnik je po enem tednu razpravljanja obsodil 32 let starega pripadnika plemena Kikuyu Njengo Njogore na smrt z obešenjem zaradi umora ministra Tome Mboye, o katerem so ugibali, da utegne naslediti starajočega se predsednika Kenije Joma Kenyatto. Odvetniki obsojenca so vložili priziv.

Umor Mboye je povzročil hudo napetost v Keniji, ker je morilec pripadnik najmočnejšega plemena Kikuyu, med tem ko je pripadal Mboya plemenu Luo. Obe plemeni sta si nezaupljivi in sovražni. Nekateri so namigavali, da bi utegnil biti za umorom strah plemena Kikuyu, da bi utegnil pripadnik plemena Luo Mboya naslediti Kenyatto, ki je pripadnik plemena Kikuyu.

Kenija je po zaslugi starega Kenyatte ena najbolj umirjenih in ustaljenih republik črne Afrike. Mož je bil poznan kot hud levičar in vodnik upora Mau-Mau, sedaj, ko ima v rokah oblast in odgovornost, je trezen in preudaren vodnik.

Športna revolucija v Caserti v Italiji

CASERTA, It. — Caserta nam je še dobro znana iz vojnih časov. Tam je bil namreč sedež glavnega poveljstva zavezniških čet za Italijo. Drugače mesto ni igralo v italijanski vojni zgodovini posebne vloge. S tem ni rečeno, da meščani niso ognjevitni in bojevit. To so pokazali pretekli tork, ko so priredili pravo športno revolucijo.

Na mestnem športnem igrišču sta igrali moštvi Caserte in Taranta. Igro je zgubilo domače moštvo. Caserčani so začeli trdit, da se jim je godila krivica, ker so bili sodniki baje podkupljeni. Beseda je dala besedo, grožnja je dala grožnjo, udarec s silo je sledil udarcu s silo. Demonstracije so hitro preplavile vse mesto.

Demonstrantje so se spustili v boj s policijo, požgali avtomobile, zažigali hiše, zasedli železniško postajo in ustavili ves promet. Rimska policija trdi, da so to bili najhujši nemiri v Italiji po tistih, ki so bili v aprilu v Battipagli, ki so zahtevali dve smrtni žrtvi.

Avtomobilizem

Avtomobilske dirke so nastale leta 1886, ko sta dva nemška inženirja Karl Benz in Gottlieb Daimler, ne odvisno drug od drugega, izumila prvi avtomobil.

POD SVOBODNIM SONCEM

"Nebeška je lepota tvoje Irene, Iztok! Umetniki z Akrokrinta bi stremeli nad njo." Starec se je razvnel od navdušenja in Iztoku je od veselja žarelo lice, ko je slišal slavo svoje predrage iz Epafrodito-vih ust.

"Kakor drobna lastovička je, gospod, kakor grlica v temnem gaju."

"Angel med demoni! — Ne sluti, kaj se je zgodilo nocoj. Proč mora iz gnezda gadov, kateremu caruje kača despoj-na!"

"Proč mora! In jaz pojdem z njo, da jo čuvam."

"O tem odloči Epafrodit. Doslej me nisi slušal, sedaj me moraš."

"Govori, gospod! Se desetkrat bi ti rad otel življenje in stoto Hunov bi poklal za tvojo ljubezen."

"Ali si prepričan, da je na-pad izvršil Azbad, ki ga je na-jela Teodora?"

Iztok je pomolčal.

"Ni bilo Azbada med napa-dalci! Morda se motiš, gos-pod!"

"Ne motim se. Smrti si zapi-san ti in ona, to je jasno. Verje-mi Epafroditu! Sedaj je moja naloga, da vaju otmem in tako poravnam do pičice svoj dolg, ki ga imam pri tebi."

"Verjamem, gospod, ti si vse-veden. Svetovit te razžarja z nebeškim soncem. Daj mi dva konja in ubeživa se nocoj!"

Epafrodit mu je del roko na rame in se mu nasmehnil.

"Iztoče, ne misli, da je Irena vojak. Kako boš bežal s to cvet-ko, ki ti onkraj Dolgega ozidja obnemore in omahne iz sedla?"

"V naročju jo ponesem, zazi-bala se bo v sen, kakor na mate-rinih kolenih. In tvoji konji so izvrstni. Utečeva!"

"Niso slabi. Toda arabci iz carjevih hlevov jih dohite. Tre-ba bo drugih konj in druge pri-ložnosti. Za sedaj sem ukrenil drugače!"

"Govori, gospod!"

Iztoku so se zasvetile oči od koprnenja in strahu. Svest si svoje moči, svest svoje trdne in spretnosti roke bi bil najrajši za-

Ne razkljujejo te krokarji, dok-ler čuvajo sokoli nad teboj!"

"Iztok, tvoj govor je skrivno-sten. Ko si stal zunaj in govoril z dobrim možem, se je naselil strah v mojo dušo. Strah in grozne slutnje."

"Saj nisi imela strahu in nisi poznala slutenj doslej. Zakaj so se vzbudile?"

"Cirila je zvedela, da je prvi evnuh despojne, Spiridion, pre-stregel moje pismo, češ da ga nese sam. In Spiridion je zaupni vohun carice. Če je ona brala pismo in povedala Azbada — o Kristus, otmaj nas!"

Iztok je sedel k njej, jo prijel rahlo za sklenjene roke in gledal v jasnino njenih oči, ki so se kalile z rahlo tancico solza.

"Irena, glej, moja si in vsaka kaplja moje krvi je tvoja. Prav slutiš, razdružiti naju hočejo,

umčiti morda mene, morda tebe — oba. Toda dobri Epafrodit čuva nad nama in Devana bla-goslavja—"

"Kristus, Iztok, Devane ni—"

"In Kristus blagoslovlja najino ljubezen. Zato ne smeš več na-zaj v žrelo volku. Tvoje oči bi umrle, tvojo svobodo bi deli v verige, kakor hočejo moja do-movino. In glej, jaz te otmem in ti dam svobodo, tebi najprej in potem svoji domovini. Strašno maščujemo prelito kri Slovenov in potem boš bivala z menoj pod jasnim in poštenim soncem naše svobode. Tam ni lesti, ni zlobe, češčena boš od vseh hčera slavnih starešin, ljubljena od vseh žena in pastirji se bodo sklanjali k tvojim nogam, kadar jim boš delila kruha, in vsak častiljiv starosta bo vesel, ka-dar bo poslušal tvojo modro be-

sedu. Irena, ne boj se, upaj in se veseli."

Irena ga je poslušala, oči so ji čedalje bolj tonile v solzah, dok-ler se ni nagnila njena glava na Iztokovo ramo in so njene ust-nice šepetaje prosile:

"Varuj me, opiraj me v viha-rju, sicer propadem."

Iztok ji je odpoljubil solze, ki so pritekale po belem licu, jo ob-jel ter kipeče ponavljal:

"Moja Irena, moja boginja, moje vse..."

Toda ni ga prevzela sladkost trenutka. Rahlo jo je izpustil in se dvignil.

"Polnoč je že davno minila. Pojdemo, da ne ugasnejo zvezde. Cirila, ti se vrneš v palačo..."

Tedaj je zvesta sužnja na glas zaplakala. Kakor kip iz mar-mora je slonela doslej ob nogah svoje gospodarice. Ko pa je čula, da mora Ireno zapustiti, se je zgrozila, plač je privrel iz nje-nih prsi in tesno se je oklenila Ireninih kolen ter ponavljala:

"Ne loči naju, gospod! Ne tr-gaj me od nje! Umrem od bole-sti!"

"Cirila, vrneš se k svoji gos-podarici. Ali sedaj moraš, moraš, če jo ljubiš. Čuvaj njeno sobo, govori, da je Irena bolna, dokler ne dobiš poziva: Pridi! Tedaj se vrneš in vsi se napotimo sreč-nim dnem v krilo."

Se enkrat je Cirila zaihtela, poljubila roke Ireni, ki je slonela kakor brez moči, brez misli. Nato je dvignila Irena roko ter jo položila sužnji na glavo.

"Pojdi, Cirila. Kristus Panto-

krator te varuje! Zaupaj!"

Cez nekaj minut je zdrsula

lepa šajka po morsk gladini. S

krepkimi udarci jo je gnal Nu-

mida proti carskim vrtovom.

Cirila se je vračala.

IN POPULAR VOTE CONTEST

BOB OBLOCKI ELECTED TOP TEENAGE POLKA BAND

Before a record crowd of well over 1,000 people at the new American Mutual Life Association (AMLA) Recreation Center in Leroy Township, Bob Oblocki was elected the "Polka Band Of Tomorrow" for 1969.

Three other bands competed. They were the Essence, the Pol-Kas-Ters, and the Riverias, while a fifth band, the Wanderers, withdrew from the contest because of another engagement. The contest was held Sept. 7.

FINAL TALLY in the popular vote election showed that nearly 800 people actually participated in the event since others did not pick up their ballot at the main

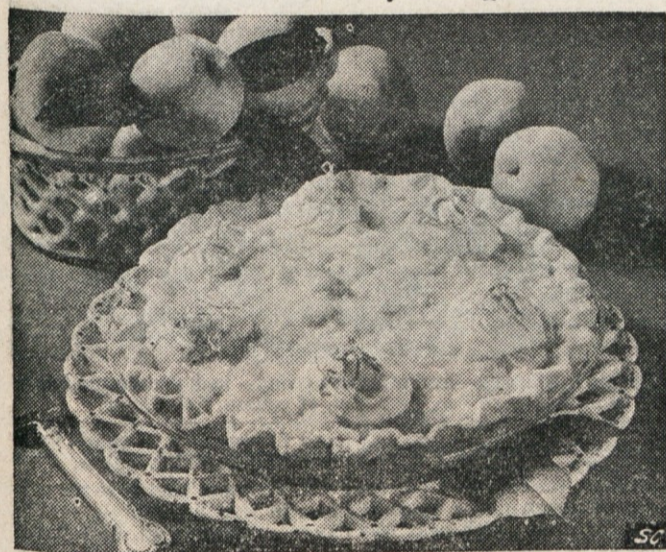

gate or did not turn in their slip in the ballot box before the deadline of 6:30 p.m. Bob Oblocki got 285 votes; the Pol-Kas-Ters and the Riverias tied for second and each received 199 votes while the Essence got 103.

This was the second such contest staged by Tony's Polka Party Radio Club (WXEN) but the first done by a popular vote rather than a group of judges. The club also assists DJ Tony Petkovsek in staging his annual anniversary party every Thanksgiving Day with this year's scheduled for November 27 at the Slovenian National Home on St. Clair Ave.

Prizes included gift certificates from Sodja's Conservatory of Music, cartridges from Stephan's Barber Service, and recognition from the Federation of Slovenian Homes, the Musicians Union, and the Radio Club. There will also be many prominent bookings for the winning band. Last year's winners, the Madisons presented Oblocki with a suitable plaque.

Chairman of the affair was John Pestotnik who is assisted by a committee of hard working volunteer individuals who represent a great cross section of the community.

Peach Pie Always Popular

Win new friends for an old favorite—peach pie—with this recipe for luscious Peachy-Coconut Pie. Diced fresh peaches and coconut accent the rich creamy filling. Combined with a tender, flaky crust, made with convenient pie crust mix, it's an irresistible dessert.

Peachy-Coconut Pie

Makes one 9-inch pie

Crust:
One half pkg. (1 cup)
Flake Pie Crust Mix
2 tablespoons cold water

Filling:
1 tablespoon gelatin
¼ cup cold water
2 eggs, separated

For crust, heat oven to hot (425°F.). Measure mix into bowl. Sprinkle cold water by tablespoons over mix; stir lightly with fork until just dampened. (If necessary, add an additional one-half tablespoon cold water to make dough hold together.) Form into ball.

Roll out on lightly floured board or canvas to form a 13-inch circle. Fit loosely into 9-inch pie plate. Trim; flute edges; prick bottom and sides. Bake in preheated oven (425°F.) 10 to 12 minutes. Cool.

For filling, soften gelatin in water. Combine egg yolks, milk, sugar and salt in saucepan. Cook over medium heat, stirring constantly until mixture coats a metal spoon. Stir in softened gelatin. Chill until mixture starts to thicken and set. Fold in peaches, coconut and lemon juice. Beat egg whites until stiff peaks form; fold into gelatin mixture. Pour into baked crust. Chill until firm. Just before serving, garnish with sweetened whipped cream and toasted coconut.

Lake Erie Opera Theatre Stages "The Golden Cockerel" At Severance Hall

Celebrating its sixth season, Lake Erie Opera Theatre will present "The Golden Cockerel" by Nicolas Rimsky-Korsakov in two evening performances, Thursday, Sept. 18, and Saturday, Sept. 20, at 8:30 in Severance Hall. The fully-staged opera will be sung in English, and The Cleveland Orchestra will assist under the direction of Louis Lane, Musical Director of the Company.

"The Golden Cockerel" was recently staged by the New York City Opera with stunning success as a vehicle for the coloratura artistry of soprano Beverly Sills. Lake Erie Opera Theatre's production has been planned with the close cooperation of the New York City Opera.

THE SETS for Cleveland are adapted from the design by Ming Cho Lee, and the costumes are being built locally based on designs by Jose Varona used in the New York City Opera production.

The story of the Opera is based on a fairy tale of Pushkin and boasts one of the theater's most outlandish comic plots.

In synopsis form, King Dodon and his sons plan the defense of their kingdom when an Astrologer arrives to present the King with a Golden Cockerel to act as an ornate feathered radar system and give an alarm whenever danger is near. The Cockerel is accepted, and the Astrologer promises to return later for his reward.

The Cockerel sounds an alarm, and the sons depart for war. A second alarm is given, and the King goes to the battlefield only to find both sons dead. Before the King's eyes, a large silken tent appears on the battlefield and out steps the beautiful Queen of Shemakha singing the Opera's most famous music, "The Hymn to the Sun".

THE KING agrees to marry her and they return to his place to find the Astrologer who demands the Queen as his reward for the Cockerel. Dodon refuses, kills the Astrologer, is spurned by the Queen, and in turn is killed by a peck from the Cockerel. Both Queen and the Cockerel vanish in a peal of thunder after which the Astrologer, restored to life, steps forth to deliver an epilogue declaring the whole story to be a fairy tale.

The two principal roles of King Dodon and Queen of Shemakha will be sung by Michael Devlin and Joy Clements.

Lake Erie Opera Theatre's production of "The Golden Cockerel" will be preceded by two pre-opera talks open to the public without charge. These will be given on Sunday afternoon, Sept. 14, in the Severance Chamber Music Hall at 4:00 p.m. and the Lakewood Public Library on Monday, Sept. 15, at 8:00 p.m.

Tickets are now on sale at Severance Hall and all Burrows Stores.

What Everyone Has Coming From From Their Social Security Insurance

SOCIAL SECURITY REFLECTS "WOMAN POWER"

The first woman astronaut may not be far in the future — perhaps no further than the moonshot was thought to be 10 years ago.

News stories everyday show women making further progress in areas of achievement once considered exclusively the domain of males. The first woman jockey, the first woman to cross the Pacific Ocean on a small boat — daring and exciting challenges on the frontiers of human experience.

On a less glamorous but no less dramatic scale is the quiet but steady move by women toward the economic mainstream of the country. Since World War II when they had an opportunity to prove they could do jobs traditionally done by men, they have increasingly taken on the role of breadwinner in addition to their roles as mother and wife. Well over one third — some 29 million — of the nation's labor force are women. Some 48 percent of women 18 to 62 are either working or seeking work. And in over 5 million families, women are the breadwinners.

Social security takes account of the woman's greater participation in the work force and the part her earnings play in the support of the family. She is increasingly becoming entitled to social security benefits in her own right.

SOCIAL SECURITY writer and researcher, Ella J. Polinsky, pointed up the trend in an article in the July 1969 issue of the "Social Security Bulletin" or, "The Position of Women in the Social Security System." The phenomenal increase in the number and proportion of

king-size beds in the master and guest bedrooms, French stained glass windows, a spacious dining room, and an all-electric kitchen.

women qualifying for benefits in their own right in recent years, she says, has been relatively greater than the growth in the number of women who got benefits as wives and widows. She also noted that the woman worker's benefit was about 60 percent higher in the years 1965-1967 than the benefit for dependent wives.

A recent change in the social security law takes account of the woman's dual role by making it easier for the dependents of a working mother to get benefits. Before January 1968, the children of a deceased or disabled woman could get social security benefits on their mother's record only if she had worked under social security for a year and a half within the 3 years before she died or became disabled.

NOW, just as in the case of a male worker who dies or becomes disabled, the children of a working mother will be obligated for benefits if the mother had worked long enough under social security to become insured, whether or not she had any recent work.

Many motherless children who were not eligible for social security benefits at the time of their mother's death are now getting monthly payments because of the change in the law. If you know of a family with children whose mother has died, you should have them check with their social security office. They may find that she left them a greater legacy than they know.

P. Thomas Jones
District Manager

In April 1969, about 30 million women 16 years of age and over were in the labor force. This means that nearly two out of every five workers were women. Labor forces projections through the 1980's indicate that women and youth will provide the largest source of new entrants into the labor force.

Goodwill Has Urgent Need For Furniture

Goodwill Industries' handicapped clients are still facing a minor emergency. One of the United Appeal Agency's vital training stations the furniture repair department, is in need of materials to keep it in operation.

The supply of usable furniture discards is rapidly diminishing. Goodwill urgently needs these items — chairs, tables, modern sofas, bedroom sets, desks, office furniture — to keep several handicapped persons at work.

The furniture repair department is one of twenty-five work stations which teach, train and provide funds for the agency's handicapped.

Area residents who wish to donate furniture items are urged to call Goodwill's collection department at 431-8300.

Goodwill, a non-profit organization, is devoted to the vocational rehabilitation of physically, mentally and socially handicapped persons.

NO LIMIT TAX PLAN!

In a humorous vein, columnist Mike Royko asks, "What'll Uncle Sam do when taxes reach 100 per cent?" His rhetorical question, though facetious, has a hard grain of seriousness considering the spending philosophy that the nation has lived with for several decades. The idea has been that government helps people by raising their taxes. So why shouldn't taxes eventually reach the 100 per cent level? Theoretically, the government could then give away more than ever before, and people would receive the ultimate in help.

The point Mr. Royko makes is that after taxes reach 100 per cent, how does the government then continue to help people after they are flat broke. Mr. Royko quotes hypothetical economists of the future who suggest ways out of the dilemma. These mythical economists believe we could sell off or pawn the Air Force or the Navy at a good price. Another of Mr. Royko's imaginary economists believes our government could help run some other countries — do a little moonlighting on the side. To the question, "Do you think anybody would hire us?", this economist answered, "Are you kidding? With our experience?" Nothing is too fanciful in a nation that sets no limit on taxation to help people.

★ St. Louis, Mo. — A gaping hole in the pavement caused by a sewer collapse uncovered an old place known as Uhrig's Cave, an underground beer parlor and beer cooling cave in operation from 1880s to the early 1900s. Ignatz Uhrig and his brothers enlarged the place from a smaller cavern to complement their brewery. At one time the cave measured 210 feet long, 20 ft. wide and 20 feet deep.

★ Dallas, Texas — A Dallas multimillionaire, O. L. Nelms says he is prepared to invest \$5 million to \$10 million dollars in a trust fund — preferably tax exempt — to hold an unending round of cocktail parties in his memory after he dies. There will be no limit on the number of drinks a person can have unless he is guilty of bad behavior. Nelms also plans to attend the parties. He wants his body preserved in a \$25,000 coffin, already purchased and transported to every party where it will be left in the midst of merriment until the last guest has departed. Any heir who tries to have the remains buried instead of taken to the next party will be disinherited.

★ Alameda, Calif. — Twin boys, with a twin interest in antique cars at the age of 16 are already skilled

in the art of restoring old automobiles, having started the hobby three years ago. The first job tackled by Dan and Phil McEachern was a 1926 model T, which they sold after sprucing it up, with the money going for parts for other cars. Now they have a 1913 Overland, a 1925 Dodge Sedan, a 1924 Model T pickup and a 1910 Hupmobile in various stages of restoration. They plan to use the pickup to drive back and forth to Encinal High School, where they are students. Dan paid \$2,000 for the Hupmobile. Phil bought the Overland for the same price. Both boys earn money as carpenters and handymen and Dan makes wood fittings to order for other car buffs. They also make money selling parts and old cars they buy and restore.

★ Boston, Mass. — At least 20 persons were overcome by exhaust fumes when about 1,300 cars in an underground garage at Boston were started at nearly the same time after a rock music concert. The crowd had attended a Chambers Brothers concert on the Common.

★ Steytlerville, South Africa — A tale of one ostrich that didn't have its head buried in the sand; Ted Lemmler, ostrich raiser, was busy cranking an engine when the crank-handle broke, flew out of his hands, hit him on the jaw and shattered his dentures. His false teeth spilled to the ground whereupon a sharp-eyed ostrich gobbled them up before its master could retrieve what was left of them.

★ Los Angeles, Calif. — It cost bachelor Herb Stern \$3,000 to travel alone in a private rail car from his home town Lincoln, Neb., to the West Coast and back. "And it's been worth every penny," he said. "I am what is commonly referred to as a railroad nut." Stern said he had to buy 18 regular fare tickets in order to attach his rail car to passenger trains, for the 5,800-mile trip. The 50-year-old electrical engineer could have made the trip by jet for less than \$200. He could have brought along 16 friends in his car at no additional cost, but he prefers to travel alone. Stern's silver oak rail was built by the Pullman Co. for the Burlington Railroad 70 years ago. "I'm pretty sure it's the oldest private car accepted for operation on high speed passenger trains," Stern said, as he sat in one of the wicker chairs in the living room of his private car. The chairs, like most furnishings aboard, are original equipment. Stern saved the rail car from the scrap heap five years ago when he bought it "for less than the price of a Cadillac." "Other people have yachts," he said, "I have this." The rail car is quite ornate — carpeting throughout,

Busier Than Ever

Are you young and fancy free, newly married, looking forward to a silver wedding anniversary? No matter what your age, you're probably busier today than ever before. Schedules are tighter. Meal preparation time is running shorter. So more emphasis must be placed on the impromptu off-the-shelf sort of cooking and penny-saving recipes like Stuffed Luncheon Meat Bake. Featured in this recipe is KELLOGG'S® CROUTETTES®, the herb seasoned croutons which make a savory stuffing or dressing so easy to prepare.

STUFFED LUNCHEON MEAT BAKE

1/4 cup regular margarine or butter
2 tablespoons chopped onions
3/4 cup water or stock
3 1/2 cups (1/2 pkg.) KELLOGG'S CROUTETTES® Stuffing
Herb Seasoned Croutons
1 (12 oz.) can luncheon meat
4 slices (4 oz.) process cheese

Place margarine, onions and water in large saucepan. Bring to boiling point and remove from heat. Add CROUTETTES all at once, tossing lightly until CROUTETTES are evenly and thoroughly moistened.

Cut luncheon meat into 8 slices. Place 2 slices side by side on a square of aluminum foil. Pack stuffing into 1/2 cup measure and invert over luncheon meat. Seal edges of foil tightly and place on baking sheet, sealed edges up. Prepare remaining 3 servings using the same method.

Bake in moderate oven (350° F.) about 30 minutes. Open aluminum foil packets. Place cheese slice cut into 8 (1/4 in.) strips to form lattice pattern over stuffing. Bake 2 minutes longer or until cheese is melted. Serve immediately.

METS, ASTROS AUTHORIZED TO PRINT SERIES TICKETS

After seven years of waiting, the Mets and the Astros have earned authorization to print tickets for a League Championship Series.

An official go-ahead was given the two National League expansion clubs along with the Orioles, Twins and Athletics in the American League and the Cubs, Giants, Reds, Braves and Dodgers from the senior circuit at a meeting in the office of Commissioner Bowie Kuhn in New York August 27.

It was officially confirmed that the A. L. will open its championship series in the city of the East Division winner while the N. L. will start in the city of the West Division winner.

After the first two games of the best-of-five series, the sites will be switched to the home of the other club for the next three games.

League Presidents Joe Cronin and Warren Giles also concurred that in case of a tie for first place in either division at the end of the regular season, there would be a one-game, sudden-death playoff between the teams involved within their own division.

Representatives of 12 clubs attended the August 27 meeting. The Pirates and the Cardinals were represented, but they were not authorized to print tickets.

Slovenia Revisited

CONTINUED

The innovating spirit is evident in people. Now that the excitement of socialism is a matter of bygone days, the blaming of foreign exploitation for the backwardness of some areas and slow advancement in others, not appropriate after 20 years of the new regime, the community spirit and effort to build new things just to satisfy the urge of construction resulted in many by now abandoned structures, and many more abandoned plans, now the reality of everyday life and struggle of their own making is taking over. The innovators are somehow tired of repeated mobilization, they prefer to sit down and enjoy the fruits of their efforts which, however, are slow to come. The lethargy and disillusion are prevailing primarily among the young, their future hindered by the lack of opportunities and positions, which are being vigorously retained by the "old partisans", politically qualified but often professionally incompetent.

Myth and reality are intermingled to the extent that people have difficulty in separating them. The myth in which they believe and cannot verify, becomes a reality and motivates people's behavior. In Yugoslavia the verification process is rather difficult for an outstanding observer, and it is equally difficult for the resident. I am not referring here so much to the material constructions which can be observed, admired, photographed, and sketched, but the material verifications of production and productivity, quality control and efficiency, profitability and level of satisfaction. The western measures can be used only in part. The myth of grandiose constructions is stronger than the reality of accomplishments, particularly if they are compared with the accomplishments elsewhere in the world. To believe that the best, the most beautiful, the most functional objects and constructions are found in their own country, is not peculiar to the Yugoslavs alone. But for them it is more ingrained in their psyche. The myth and reality of socialization, the myth and reality of modernization, the myth and reality of co-ordination are strikingly intermingled. The same kind of inconsistency is evident in people's opinions and their stereotypes about other people in the country. Their concepts are based on casual acquaintances and occasional perusal of the local paper. The unexpected is the degree to which the stereotypes are accepted still today in spite of all the genuine efforts of the authorities to steer away from them into the new course.

An example is the iron and steel works in Caprag near Sisak, considered one of the most modern industrial plants, built after the war, linked to the supply of iron ore nearby and on the imported coking coal. The references provided in studies on Yugoslavia portray the establishment as the focus of an industrial region, more of a growth point than an already integrated system. But if you venture the plant, as I did, thru the open main gates, open only to get the workers out and not to allow unauthorized visitors in — you see that the plant is quite modern, quite efficient, but the industrial linkages with the surroundings are only at the beginnings. The growth point has not yet generated any growth in the region, unless the growth includes apartments in the immediate vicinity of the plant, physically separated from

the city of Sisak, for the benefit of which the construction was made.

THE MYTH of industrialization is predominant in many places, the reality of accomplished industrialization evident only at selected points. In other, more developed countries, the locating of an industry in a specific place usually generates an agglomeration of associated industries and services. However, this is not generally the case in Yugoslavia yet. The response is slow to materialize. In fact, among large scale industrial complexes, built primarily by the postwar efforts, are those Zenica in Bosnia, to a lesser extent the Litostroj in Ljubljana, and new establishments in Beograd and Zagreb. But Zenica, on the other hand, has very little of a Yugoslav character, either in the physical layout of the industry of the town, or the character and behavior of the population. Just another industrial complex, this time at a point of limited accessibility as well as far from the area of great demand. The belief in strategic location in the middle of the country, and the belief in the innovating role of the industry for the vast hinterland, have not materialized. The complex is an island in an exotic territory.

Similar impressions are conveyed by the vigorously pursued plans to construct modern rail and road connections. The "civilizing rail" in Yugoslavia is having an impact upon the terminals and intermediate stopping points, but the more advanced is the line, the less impact it has on the surrounding area, the faster does the flow move thru and not to the area. The modern coastal road along the Adriatic has a tremendous impact upon the coastal resort activity, but this influence is only a few miles deep toward the interior. Any venture perpendicularly from the coast would convince the occasional visitor that he is facing the contact of two civilizations, one contemporary, with Central European overtones, and the other historical, with Balkan ingredients.

The geography of any country is shaped by people, their constructions, their organizations and the dynamic linkages, as it is conditioned by the physical environment. The degree of the physical impact can be minimized in a technologically advanced region, but it cannot be overlooked in a developing area. The Yugoslav performance cannot escape the limitations of the physical environment, and all the efforts of the organizational fervor have been frustrated by the inertia of some people by the restrictions of nature.

The organization of the country based on conscious efforts of political bodies cannot create overnight the linkages which are necessary for an efficient operation of any structure. In Yugoslavia, the assumption that the pronouncement of a system and a linkage is enough to initiate a flow, an interaction, have led to the belief that the resistance is a result of bourgeois tradition and anti-social attitudes. In fact, the regionalized and localized systems, self-contained for the basic necessities of the population, do not generate interchange with outside areas, since there is little demand for them and there is little incentive (or profitability) to get them. The announced plans of close interlinkages remained in many instances dead words, written in public documents, for the action didn't even start. The society, the community, the carriers of social goals and accomplishments, are territorially restruct-

ed into a mosaic-type system, static in nature, and stable by character. The innovation is slow to come, and when it arrives, it affects only a limited number of people and only selected facets of them. The transistor radio is not unusual, but it can be found in houses without running water, with outdoor privy, with sheep sharing the room with the family, and while it is ideally connecting the household with the outside world, this outside world is almost unreal to them, its character impossible to understand, its peculiarities beyond the grasp of an average person.

A social geographer, interested in the relationship between social organization and the spatial impact is often forced to revise his reasoning after he explored the field, to verify the adequacy of his theoretical postulates and to suggest some recommendations. The humanized landscape of Yugoslavia is an enjoyable scene to investigate, on one condition: the respect for the people and their work, a sympathetic understanding of their life and accomplishments, without which the country remains, as it has been for many in the past, "a land of confusion, unrest, violence and backwardness."

Have A Swiss-Style Fling

People in a hurry—and who isn't today—look for simple foods, fast to fix but with fun, flair and, of course, fine flavor.

Swiss-style yogurt, a veritable orchard of real fruit flavors, is a speedy, skinny lunch "as is" right from the cup. Or fix as the Borden Kitchen did—a splendid sauce for crisp fresh pear and apple slices, plum strawberries, juicy oranges, grapes and berries. A refreshing salad on a witing, hot summer day, or a satisfying "meal" for calorie-counters.

Try fresh fruit yogurt with cottage cheese... hot or cold to sauce vegetables, meats, and desserts... the base for icings

and fillings... in snack dips, cold soups and beverages.

Fruit doesn't settle to the bottom in this Swiss-style yogurt as in custard types. Rather it's blended throughout. What a light, yet satisfying quick lunch or snack anytime around the clock, in the office, at home or on the go, go, go.

Flavors include strawberry, raspberry, blueberry, mandarin orange, peach, plus seasonal and regional favorites.

IMMEDIATE TREATMENT OF BURNS MAY SAVE THE LIFE OF VICTIM

The domiciliary treatment of burns applies mainly to minor burns (first and second degree), although it is equally useful in extensive burns with certain technical and therapeutical modifications.

In the 2nd century a J. C. Galenus already recommended treatment of burns with wine, vinegar and cold water.

NOWADAYS the treatment is fashionable by means of cold water such as was publicized by Ofeiggson in 1959; later on it was found out that the best temperature should be between 22 and 30°C. To be really efficacious this method should be instituted as early as possible. The immediate results are excellent as this method reduces pain and other inflammatory symptoms. The main drawback lies in the development of a superadded infection, particularly in third degree burns.

This method came about by accident after observing the beneficial effects of gin when applied on burns. On the basis of these findings I have experimented on myself and on casual cases. The result of this has been the development of a method of treatment of 1st and 2nd degree burns followed by healing in approximately two hours time.

I intend to make public what I consider to be a human method. I cannot remain unmoved at the sight of burnt people suffering or dying from burns being treated by current methods when they can easily be rescued. Although a cardiologist I am also a medical man and as such entitled to alleviate the sufferings of my fellowmen.

Therefore I hereby outline the details of this method in a clear way leaving aside complicated technical procedures reserved only to highly specialized centers.

METHOD:

Treatment should start as early as possible. It could even begin a few hours after the accident, with certain modifications, thus diminishing the extension of skin damage.

Material Needed:

- 1) Isopropyl alcohol, or ethyl alcohol, or simply white rum (50%).
- 2) Cotton wool, or simply a clean handkerchief.
- 3) Electrical fan, or any fan made out of cardboard, paper etc.

If at hand it is also useful any

spray or atomizer (similar to barber's atomizers).

TECHNIQUE:

1) Apply alcohol on the burnt surface.

This could be done by means of cotton-wool or gauze or simply pouring out the alcohol on the burnt surface without previous cleaning of the skin, taking good care not to injure or burst the vesicles already formed. To avoid this the alcohol should be sprayed with the atomizer. If the skin has already peeled off a sensation of burning will be felt.

2) Fanning of the burn. This will hasten evaporation of alcohol and cooling of the skin.

3) Apply alcohol again after the skin has dried, or whenever the patient complains of a burning sensation again.

4) This treatment should be applied for approximately two hours this being the time elapsed between application of alcohol and reappearance of the burning sensation which gets longer as treatment progresses.

5) Once the signs of inflammation and the sensation of burning have subsided medicated talcum should be applied on the healed surface.

If the burn is localized on a finger, hand, foot or arm, immersion of the burnt area in a recipient containing alcohol should be preferred each time the burning sensation reappears.

The results of this treatment are really amazing.

FIRST DEGREE burns heal completely in two hours time.

SECOND DEGREE burns can be divided in three subgroups depending on the depth of lesion, the time elapsed since the accident and the moment treatment has commenced.

The first subgroup type of burns heals completely leaving only empty vesicles adhered to their bases.

The second subgroup heals leaving minimal and superficial scars otherwise perfectly symptomless.

The third subgroup heals leaving scars requiring routine treatment.

Since this method has been outlined for the benefit of lay people solely, the description of other forms of treatment has been discarded on purpose.
