

V Pentagonu mislijo na 200,000 novincev

Vodniki oboroženih sil preudarjajo o potrebi vpoklica okoli 200,000 novincev in rezervistov, če bodo rdeči v Vietnamu povečavali svoje vojaške enote v sedanjem obsegu.

WASHINGTON, D. C. — Prvi je opozoril na možnost vpoklica rezervistov in povečanega števila vojaških novincev sam predsednik L. B. Johnson, še jasnejše se je o tem izrazil obrambni tajnik preteklo sredo pred svojim odletom v Južni Vietnam. Sedaj prihajajo iz Pentagona že kar dosti točni načrti posameznih rodov naših oboroženih sil. Skupno so izdelale načrte za povečanje oboroženih sil za okoli 200,000 mož, če se položaj v Južni Vietnamu ne bo v kratkem preobrnul na boljše.

Obrambni tajnik McNamara je dejal jasno: Mislim, da je preudarno zaključiti: da bo potrebno misliti na vpoklic rezerv in Narodne garde, če bodo morale biti oborožene sile Združenih držav v Južnem Vietnamu in v ostali jugovzhodni Aziji povečane.

Po podatkih iz poučenih virov bi armada rada povečala svojo moč za 120,000 mož, članov narodne garde in rezervistov. Rada bi ustvarila 6 samostojnih brigad. Vojna mornarica je predložila načrt za vpoklic 40,000 rezervistov, posameznikov. Marinski zbor je predložil vpoklic 4. marinske divizije z njenim letalstvom vred, skupno okoli 44 tisoč mož. Letalske sile so predvidele v slučaju potrebe vpoklic gardnih in rezervnih prevoznih enot s skupno kakimi 20 tisoč možmi.

Povečanje oboroženih sil bo zahtevalo tudi povečanje izdatkov za nje. V Senatu in Domu so že začeli na to misliti in preudarjajo o vsoti, ki bi bila potrebna v ta namen.

Bo moral dr. Sheppard zares nazaj v ječo?

CLEVELAND, O. — Zvezno prizivno sodišče v Cincinnatiju je zavrnilo priziv dr. Sam Sheppard za ponovno obravnavo odloka zveznega sodišča, da mora dr. Sheppard nazaj v ječo, kamor je bil obsojen zaradi umora svoje žene 4. julija 1954.

Dr. Sam Sheppard je bil izpuščen na svobodo, ko je zvezni sodnik pred enim letom odločil, da so bile njegove ustavne pravice tekom razprave proti njemu kršene in je zato celo razpravo razveljavil. Okrajni tožilec je vložil priziv in prizivno sodišče je odločitev nižjega sodišča razveljavilo in s tem potrdilo prvotno razpravo in obsodbo.

Dr. Sam Sheppard se je proti temu pritožil z zahtevo po novi razpravi priziva. Sedaj je zvezno sodišče po zavrnilo in Sheppardov odvetnik je izjavil, da bo vložil priziv na Vrhovno zvezno sodišče. Dokler ne bo to odločilo, bo Sheppard ostal na svobodi.

Dr. S. Sheppard se je lani kmalu po izpustitvi oženil z neko nemško ločenko in živi z njo v okolici Clevelanda.

Odnosi med Ameriko in Pakistanom zopet slabši

RAWALPINDI, Pak. — Pakistan ima svojo gospodarsko petletko. Steber petletke je podpora iz tujine, ki jo daje vsako leto poseben mednarodni konzorcij. Zbere v ta namen vsako leto pol milijona dolarjev, več kot polovica odpade na našo deželo.

Johnson lahko daje ameriško kvoto samo iz zneska, ki ga določa vsako leto naš zakon o dopiranju tujine. Zakon je pa običaj v Kongresu, zato predsednik še ne more deliti podpor. Vse to je Johnson lepo razložil pakistanskemu predsedniku Ayoubu Khanu v posebnem pismu in mu predlagal, naj bi se seja konzorcija, ki bi obravnavala podpre za prihodnje proračunsko leto, preložila od 27. julija na 27. september.

Pakistanska vlada se pa čuti prizadeto. Sumi, da je Johnson namenoma odložil odlok o dopiranju Pakistana, ker Pakistan zelo rad zagovarja politiko rdeče Kitajske in ker je spomladal na obisk v Peiping, ne da bi o tem vsaj obvestil naše državno tajništvo. Pakistanske politike jezi najbolj to, da jih je Amerika preje rada pestovala, sedaj pa jih obravnava tako kot vsako drugo nevtralnno azijsko državo. Pakistan je sicer član SEATO obrambne zveze, toda od nje nima naša dežela nobene koristi, kar je jasno pokazala najpreje laoska, sedaj pa vietnamska kriza.

Vietnamski komunisti zlorabljuje begunce

Med nje vtihotapljaajo svoje pristase, včasih pa domačine, od katerih nimajo koristi, enostavno pozeno na po vladi nadzirano ozemlje.

WASHINGTON, D. C. — Kot je navada v vsaki "osvobodilni vojni," bežijo navadni ljudje iz krajev, ki so jih partizani "osvobodili," v kraje, ker vladajo reakcionarji. To se je med vojno godilo v Jugoslaviji, to se godi danes v Južnem Vietnamu.

Tudi v Juž. Vietnamu so ceste polne beguncev, ki hitijo iz krajev, kjer vladajo komunisti, v kraje, kamor seže ameriška pomoč. Vedo vsaj, da jih tam ne bo nihče preganjal in da bodo vsaj nahranjeni, akoravno bo šla trda za prenočevanje. Našim četam in sajgonski armadi so pa begunski valovi v veliko nadlego, ker ovirajo promet na redkih cestah, kjer je premikanje čet še kolikor toliko varno. Poleg tega se v begunske vrste pomešajo še rdeči špijoni in aktivisti, ki jih tujec le težko izluči iz begunske revščine.

Naša obveščevalna služba ima že znake, da komunisti namenoma organizirajo pobege domačinov, da se znebijo ljudi, ki od njih nimajo nobene koristi, verjetno pa celo ne majhno nevarnost: ako pridejo v take kraje — morda samo začasno ali slučajno — bodisi sajgonski, bodisi ameriški vojak, taki ljudje nevede povedo marsikaj, kar škoduje rdečim gverilcem.

Vprašanje beguncev postaja v Južnem Vietnamu zmeraj bolj pereče, toda ni še narejen načrt, kako bi ga rešili.

'Nori bombas' v Chicagu se je zopet oglasil

CHICAGO, Ill. — V sredo zvečer je eksplodirala v bližini nekake avtomobila ali prav pod njim poleg R. R. Donnelly Co. tiskarne, na južni strani mesta, bomba in razbila vrsto šip v oknih okoliških zgradb. To je v teku enega tedna bila že peta eksplozija na področju Chicaga. Oblasti uigibljejo o nekem "norem bombašu," ki polaga bombe na raznih krajih mesta iz sedaj še nepoznatih razlogov.

Politična pot pokojnega Adlaia E. Stevensona

CLEVELAND, O. — Pokojni ameriški politik Adlai E. Stevenson je bil otrok stare ameriške politične družine. Njeni člani so se aktivno udeleževali politike že pred 100 leti za časa državlanske vojne in se od takrat niso odtegovali ameriškemu javnemu življenju. Tako se je pokojnik že pri 25 letih svojega življenja podal na politično pot, vendar pa je postal znan široki javnosti šele 1. 1948, ko je sijajno zmagal pri guvernerskih volitvah v državi Illinois in pozneje tudi bleseče upravljal državo. Ko je prišlo za demokrate usodno leto 1952, je takratni predsednik Truman dobro ocenil političen položaj in prišel do zaključka, da samo nova zvezda na demokratskem političnem nebu lahko zmaga pri predsedniških volitvah. Zato je toliko časa pritiskal na Stevensona, naj kandidira, da se je guverner udal. Stevenson sam ni bil namreč za kandidaturu nič preveč vnet. Samo zaradi pritiska je ponovno kandidiral. 1956. obakrat je zmagal Eisenhower. Ne morda radi, tega ker je Eisenhower

presegal Stevensona; v političnih sposobnostih je Stevenson daleč nadkriljeval Eisenhowerja. Ike je zmagal radi tega, ker je bila dežela sita demokratske vladavine in je želela spremembo. Poleg tega se je zaverovala v idejo, da bo Ike ravno tako dober predsednik, kot je bil dober general v vojni časih. Stevenson je že v prvih nastopih v 1. 1952 pokazal, da je osebnost svoje vrste, ki daleč nadkriljuje vse svoje politične tekmece in prijatelje, pa tudi sovražnike, po svojem blestečem intelektu, po duhovitosti in govorniški sposobnosti. To je ostal do zadnjega dne svojega življenja. Bil je veliki ameriški liberalni duh tega stoletja. Ako bi se bil kdaj odločil za profesorski poklic, bi gotovo nadkriljeval tudi W. Wilsona. Globoko zaverovan v prepričanje, da je samo duh, ki preobraža svet, in ne morda nasilje, je zmeraj iskal pot, ki se izogiba sili, trenju, nasilju. V to je bil tako globoko prepričan, da je bil pripravljen, da se izmika tudi komunističnemu na-

SENAT ODOBRILO PREDLOG O STANOVANJSKI PODPORI

Senat je včeraj s 54:30 glasovom odobril predlog vlade za stanovanjsko podporo družinam z dohodki izpod \$3000 letno. Republikanski poskus ta predlog zavrniti je propadel, vendar je vlada sama znižala skupno vsoto podpore od 500 milijonov na 350 milijonov za dobo 4 let.

WASHINGTON, D. C. — Sporni predlog o stanovanjski podpori družinam z manjšimi dohodki, ki je bil odobren v Predstavniskem domu 30. junija, je bil včeraj sprejet po daljši debati tudi v Senatu. Republikanci, ki jih je podpiral tudi ohijski demokrat Frank J. Lausche, so skušali predlog o stanovanjski podpori iz celotnega zakonskega načrta črtati. Njihov poskus je bil zavrnjen s 47:40 glasovom. Vlada sama je zmanjšala prvotno predloženo vsoto za dobo 4 let od 500 na 350 milijonov. Podpore bodo deležne družine, ki so sedaj upravičene stanovati v javnih stanovanjskih stavbah in morajo plačevati 25% svojih rednih dohodkov za stanovanje. Iz celotnega predloga je bil črtan odstavek, ki bi predsedniku dal pravico pomagati pri razvoju novih naselij okoli velemest, odobren pa je bil predlog za obnovu propadajočih mestnih predelov in za zgraditev 240,000 novih stanovanj. Skupno je bilo odobrenih za stanovanja v okviru omenjenega zakonskega predloga 7.5 milijonov dolarjev.

Predstavniki dom in Senat sta odobrila nekoliko različno besedilo zakonskega predloga, zato bo morala konferenca predstavnikov obeh domov o njem ponovno razpravljati in se zediniti na skupno besedilo. Šele ko bo to odobreno v obeh domovih, bo zakonski predlog poslan v Belo hišo predsedniku v podpis.

Vprašanje stanovanjske podpore je bilo v javnosti in v Kongresu na široko obravnavano in je našlo močnejšo odpor konservativnega dela javnosti, ki poudarja vrline "ameriškega načina" življenja v nasprotju s "socialističnimi" zamislimi zagovornikov socialne zakonodaje. Nekaj časa je vse kazalo, da bo načrt propadel, vendar je končno spretnosti zagovornikov predloga in vplivu L. B. Johnsona uspelo doseči njegovo odobritev. Zmaga je bila kljub vsemu v Senatu dosti tesna, le 47:40. Celotni predlog o zvezni pomoči gradnji stanovanj in njihovi obnovi v velemestih je bil sprejet s 54:30 glasovom.

Imigracijski zakon se je premaknil z mrtve točke
WASHINGTON, D. C. — Državni tajnik Rusk je poslal pododboru za imigracijo pri Predstavniskem domu pismo, ki v njem pristaja, da sistem kvot prenese po 6 mesecih, ko stopi novi zakon v veljavo, in da administracija nima ničesar proti drugačnemu načinu ugotavljanja letnega števila imigrantov in ne tistem, ki ga predlaga uradni zakonski osnutek. V pododboru upajo, da bodo sedaj hitro lahko našli kompromis tudi za ostale sporne paragrafe.

Francozi so izboljšali svojo atomsko bombo

PARIZ, Fr. — Francoska atomska komisija je objavila, da je začela izdelovati nove, boljše atomske bombe. S temi bombami bodo oboroženi strateški nadzvočni bombniki Mirage IV.

Francozi pripravljajo za prihodnje leto preskus svoje prve vodikove bombe v južnem Pacifiku. Do res uporabne in učinkovite atomske oborožene sile imajo kljub temu še precej dolgo pot.

FASADENA, Calif. — Vesoljsko vozilo Mariner 4 je posnelo vrsto slik Marsa in prvo včeraj poslalo na Zemljo. Posnetek je bil napravljen iz daljave 10,500 milj in je verjetno eden najslabših od 21, ki naj bi jih Mariner 4 napravil. Strokovnjaki upajo, da bodo tekom prihodnjih 10 dni mogli v redu sprejeti še ostalih 20 posnetkov, o katerih upajo, da bodo odkrili vsaj del skrivnosti Marsa. Prvi posnetek, ki je bil sinoči objavljen, naj bi obsegal kakih 200 kvadratnih milj puščavskega področja na Marsu.

Koroški Slovenci - spet 20 let pod Avstrijo

S Koroške smo dobili daljši sestavek o položaju koroških Slovencev od znanega tamkajšnjega slovenskega rojaka s prošnjo, da ga objavimo v našem listu in s tem opozorimo zlasti Slovence v Ameriki in Kanadi na rojake na Koroškem. Prošnjo z veseljem ustrezamo in objavljamo članek na uredniškem mestu, da bi mu dali poseben poudarek.

II.

Ko danes gledamo dvajset let nazaj, lažje prav presojamo, kaj je bilo vse v igri tiste mesece. Zato lažje kaj razumemo, kar tedaj ni bilo mogoče razumeti. Koroški smo danes kar veseli, ker živimo v takih razmerah, v katerih ni prišlo do preganjanja duhovnikov, do zapiranja in zapostavljanja katoliških izobražencev kot na Dolenjskem, Gorenjskem in drugod po slovenski zemlji. Danes razumemo, zakaj je takrat bežala mimo nas reka Slovencev na tuje. Upam pa, da tudi ti zdaj lažje razumejo nas, zakaj so bile vse naše oči takrat obrnjene k matični državi. Nagnosko smo čutili, da gre spet za usodo celih rodov, kakor takrat ob plebiscitu. Spominjam se, da mi je rekel ugleden slovenski duhovnik: "Režimi pridejo in minejo, kakor je minil hitlerjanski, toda meja med Nemci in Slovenci ostaja. Vprašanje je le, kje bo ta meja." Danes je jasno, da je šlo na Koroškem vseh teh 20 let za vprašanje: ali Slovenci ostanejo tu ali jih ponemčijo; ne pa za to, ali bo v Ljubljani komunizem ali ne. Klanjam se vsem rojakom po svetu, ki so nas razumeli in nam pomagali, da vzdržimo.

Mislim, da ob dvajsetletnici ni noben časopis po svetu, postavil vprašanja, kakšna so bila ozadja okupacije partizanskih, tedaj mednarodno priznanih jugoslovanskih čet na Koroškem. Partizani so tedaj zasedli vse do Drave. Kdo nam bo povedal čisto resnico, zakaj so se umaknili. Po prvi svetovni vojni je bila velika napaka slovenskih čet ta, da niso Koroške takoj zasedli brez vseh pomislekov. Zakaj so se rdeče jugoslovanske čete umaknile? Ali drži to, da je bila to cena, ki so jo rdeči Slovenci plačali, da so dobili v roke 12.000 slovenskih protikomunistov in jih lahko pobili? Zakaj ni ostala Jugoslavija v krajih južno od Drave vsaj 10 let, kot so ostali Angleži v Celovcu in Rusi na Gradiščanskem? Sicer poizkus rdečega režima južni Koroški ne bi bil narodnostno bogve kaj vprid, a vendar bi bilo prav poznati ozadje umika s Koroške.

Naj se neke tudi objavi, da je vse izgledalo na Koroškem, da bo kljub obljubam Avstriji in kljub Jalti južna Koroška (to je južno od Drave) le pripadla Jugoslaviji. Da se to ni zgodilo, je zapisati Molotov gest, ki je dal Titu sunek v hrbet, ker se je sprl s Stalinom. Toda nemški Korošci so računali z dejstvom, da izgube kraje južno od Drave. Zato niso v desetih letih dali iz Celovca nobenega denarja za popraviljanje cest in drugih javnih del na tem ozemlju. Na železniški direkciji so pripravljali načrte, kako urediti vprašanje železniškega mostu pri Podravljah. Tam namreč teče železniška proga iz Celovca v Beljak nekaj časa južno od Drave. Če bi južno od Drave pripadlo ozemlje Jugoslavije, bi ta zveza Celovca z Beljakom tekla čez jugoslovansko ozemlje.

Državna pogodba in Slovenci

Slovenci na Koroškem se radi opiramo na avstrijsko državno pogodbo. Zakaj in kaj pomeni ta državna pogodba?

Ko je bila v prvi svetovni vojni Avstro-Ogrska premagana, je bila sklenjena med njo in Jugoslavijo takomenovana senžermenska pogodba. V tej mirovni pogodbi se je določila končna meja med obema državama. Jugoslavija je spričo razmer morala priznati za Slovence krivično mejo na Karavankah. Da se uredi vrsto drugih reči, je treba včasih tudi kaj takega sprejeti, kar ni človeku povsem po volji. Problem meje na Koroškem je zapečatil za nekaj desetletij usodo slovenske Koroške. Senžermenska pogodba je bila za Slovence v Avstriji pomembna v toliko, ker se je Avstrija obvezala, da bo upoštevala njihove pravice na Koroškem. Ves čas do druge svetovne vojne smo se Slovenci potem sklicevali na priznane pravice v tej pogodbi. Avstrija se je tudi čutila po teh obljubah mednarodno obvezana do pravičnega ravnanja z manjšinami. Ko je seveda Hitler zasedel Avstrijo, je začel uveljavljati le pravico sile in moči nemškega nadčloveka.

Leta 1945 se je na Koroškem ustanovila pod angleško zasedbo prva avstrijska koroška deželna vlada. V njo so prišli možje, ki so bili po Hitlerju preganjani. V to vlado je vstopil tudi dr. Joško Tišler, danes ravnatelj slovenske gimnazije v Celovcu, tedaj pa eden od slovenskih javnih delavcev. Dosegel je, da se je za vse ozemlje, ki je bilo v zadnjih desetletjih smatrano kot dvojezično, uvedla taka šola, da so se na njej morali vsi učenci učiti slovensko in

nemško. Otroci naj bi se učili lepega sožitja s sodeželani raznega jezika. Na mesto rasnega sovraštva naj bi stopilo medsebojno sožitje in strpnost.

Naj omenjam, da so tedaj Angleži tu izdajali "Koroško kroniko", otroški list "Korotan" in tedaj so izšle tudi nekatere slovenske knjige. Pri vsem tem so sodelovali nekateri begunci pred komunizmom. To delo bo zapisano v koroški Slovenski zgodovini, kot pozitivno za naš narodni obstoj. V tej dobi pod Angleži se je vse premalo še naredilo, če gledamo zdaj nazaj. Takrat pač nismo vedeli še, komu bomo pripadli. Tako je bilo treba trdega dela desetih let, da se Slovenci v javnosti nemške Koroške operemo očitka, da smo protidržavni. Neprestano so nam metali pod nogo, da smo za komuniste, ker smo bili za svoj narod, da smo za odcep od Avstrije, ker smo branili slovenske pravice. Danes so ti glasovi vsaj pri nekaterih le potihnili.

Lobelova knjižnica na Slovenski pristavi

CLEVELAND, O. — V nedeljo - na praznik Neodvisnosti, 4. julija 1965 je bila ob 5. popoldne odprta s preprosto slovesnostjo LOBETOVA KNJIZNICA na Slovenski pristavi.

Najprej je govoril predsednik Slovenske pristave g. Jernej Slak in povedal sledeče: Že precej časa je bil napovedan v koledarju slovenskih prireditelj v "Ameriški Domovini" Slovenski dan s sodelovanjem slovenskih skupin na Slovenski pristavi. To prireditelj je pripravil pokojni dr. Hinko Lobe in dejal, da bo ta dan na Slovenski pristavi okoli osemsto ljudi. Med tem se je dr. Lobe za vedno poslovil od nas in nikogar drugega ni bilo, da bi pripravil Slovenski dan. Tako je ta dan ostal brez prireditelj. Odbor Slovenske pristave pa je odločil, da bo ta dan Slovenska pristava odprta za obisk in da bo ta dan odprta tudi slovenska knjižnica, za katero je dal pobudo pokojni dr. Hinko Lobe.

Predno je predsednik Slovenske pristave knjižnico odprl je pa povedal, da je slovenska pristava namenjena vsem Slovincem, ki odklanjajo komunizem in ne moremo nobene skupine protežirati in nobene zavračati. Vsi smo Slovenci, vsi smo katoličani, vsi smo protikomunisti in vsi smo demokratični načel. Za vsakega je Slovenska pristava odprta in vsak je dobrodošel. V desnem kotu je bila postavljena lična omara na kateri se blesti v zlatih črkah napis: LOBETOVA KNJIZNICA. Omare je dala na razpolago in last Slovenski pristavi g. Berta Lobetova.

Predsednik Slovenske pristave g. Jernej Slak je po svojem govoru dejal: "Z današnjim dnem ustanavljam na Slovenski pristavi slovensko knjižnico, ki naj se v spomin na pokojnega dr. Hinka Lobeta imenuje LOBETOVA KNJIZNICA, ker je bila to njegova zamisel. Z današnjim dnem je knjižnica vsem obiskovalcem Slovenske pristave na razpolago. Poslušajte se je."

Nato je dal g. Slak besedo Zdravku Novaku, ki je izvajal sledeče misli:

Dragi slovenski rojaki! Slovenska pristava je vsak dan bolj slovenska in v vsakim dnem bolj domača in prikupna. Z velikimi graditvami in z malimi pridobitvami ustvarjamo slovensko lice Slovenske pristave.

Med male pridobitve spada tudi LOBETOVA KNJIZNICA ki jo je predsednik Slovenske pristave g. Jernej Slak pravkar odprl.

Misel za ustanovitev knjižnice na Slovenski pristavi je prvi izrazil pokojni dr. Hinko Lobe. Ko je bila lanske leto - 7. junija odprta Slovenska pristava za letno sezono sva se tu srečala s pokojnim dr. Lobetom. Med pogovorom je iz-

razil misel, da bi morda ustanovili na Slovenski pristavi tudi knjižnico. Marsikdo bi rad vzel v roke dobro slovensko knjigo. Doma ni dosti časa za branje, a tu na oddihu, na svežem zraku bi bil morda tudi čas za branje. Marsikdo bi rad bral, pa je pred odhodom pozabil vzeti s seboj knjigo. Tako jo sedaj tu na pristavi pogreša. — Lansko leto je bilo mnogo drugih skrbi in dela in nismo prišli do tega, da bi knjižnico ustanovili.

Ko je letos dr. Lobe nenadoma umrl, sem se spomnil njegove misli o ustanovitvi knjižnice na Pristavi. Odbor Slovenske pristave ni delal ovir, ga. Lobetova je oskrbela omaro in tako smo danes mogli odpreti knjižnico. Razvoj knjižnice je odvisen od tega, koliko bo za knjižnico in za branje zanimanja.

Marsikdo od vas ima morda doma knjige, ki bi jih lahko pogrešil, ali pa mu morda celo delajo napotje. Darujte jih za LOBETOVO KNJIZNICO na Slovenski Pristavi. Uslugo nam boste napravili, če knjige pripeljete sem na pristavo in morda še priložite listek s svojim imenom in naslovom in pa navedete, katere knjige ste podarili.

Obiskovalce Slovenske pristave vabimo, da se poslužijo knjižnice, ko prihajajo na oddih na pristavo. Omara bo sicer zaklenjena, a bo vedno lahko dobiti ključ, ako se oglašite pri kakem odborniku Slovenske pristave. Ako pa tu ne bi bilo nikogar drugega, Vam bo pa g. Gosar radevolje postregel in Vam izročil ključ.

V omari je poseben zvezek za vpisovanje izposojenih knjig. Izposojene knjige je treba vsakokrat vpisati in jih zvečer pred odhodom s Pristave zopet vrniti. Vzemite knjige tudi za otroke. Po knjige za otroke naj vedno pride kdo od odraslih.

Pazite, da knjige na bodo ostajale zunaj, da jih dež ne pokvari.

Kljub temu, a je vsa Pristava lep spomin na pokojnega dr. Hinka Lobeta, ki je žrtvoval veliko svojih sposobnosti in veliko svojega časa za dobrobit Slovenski pristave, je Odbor Slovenske pristave poimenoval knjižnico v spomin na dan čast pok. Hinkota Lobeta. V ta spomin se bo knjižnica imenovala Lobetova knjižnica. Naj knjižnica obstoja in se razvija kot ustanova Slovenske pristave v čast pokojnemu dr. Hinku Lobetu in pa v razvedrilo in pouk vsem, ki bodo prihajali na oddih na Slovensko pristavo. Ohranimo g. dr. Hinka Lobeta, ki je dal pobudo za ustanovitev knjižnice v lepem spominu.

Hvala lepa!

Po govoru se je g. Jernej Slak vsem, ki so se slovesnosti udeležili lepo zahvalil za udeležbo in slovesnost zaključil.

Knjige za Lobetovo knjižnico so doslej darovali: ga. Berta Lobe, g. J. Slak, ga. Tončka Urankar in g. Z. Novak.

Piknik Slovenske šole pri Mariji Vnebovzeji

CLEVELAND, O. — Čas hiti, polovica počitnic je za nami, kar tako mimogrede, da skoraj ne vemo ne kdaj, ne kako. Na Slovenski pristavi se vrstijo nedelje za nedeljo prireditelj in pikniki, a mi našega piknika nismo še imeli. Kako pač to?

Zato, ker smo si prihranili najlepši čas, o sv. Jakobu, ko je vročina na višku in se nam bo oddih na zeleni Pristavi najbolj prilegel. Nedelja 25. julija, ta bo naš dan.

Vabljeni ste vsi Slovenci, od blizu in daleč, da pridete na ta piknik naše mladine, posebno pa še vsi starši otrok Slovenske šole v Collinwoodu in nje prijatelji. Ne hodite ta dan na obiske drugam, oziroma, ne ostanite doma, ampak pridite in pripeljite s seboj vse svoje otroke, tudi tiste, ki so naši šoli že odrasli, pa se bodo tam zopet srečali s svojimi nekdanjimi součenci.

Za razvedrilo bo poskrbljeno vsestransko: otroci, s katerimi že cel teden ne veste, kam bi z njimi, in katerim je ta piknik posebej namenjen, se bodo naletali in naskakali do mile volje, načofotali v hladni vodi plavalnega bazena, imeli bodo razne igre in tekme z nagradami za zmagovalce. Kdor pa rajši v miru uživa lep poldnevni popoldan v hladni senci, se bo pomaknil k mizam pod drevesa in od tam opazoval vrvež mladine. — Velika privlačnost za vse bo "štant", ki ga bo imel v oskrbi zopet g. Karel Kovac. Ne morem vam povedati, kaj se bo tam, a to vem, da sta naši vneta slovenski mamici, ga. Veronika Janežičeva in ga. Tončka Urankarjeva, sešili in pripravili eno celotno slovensko narodno nošo in posebej še zavihačke in druge stvari, ki spadata k noši. Vredno videti, še bolj pa, imeti kaj takega. Pa zakaj ne? Možnost vam bo dana, samo pridite!

Boste videli, da bo lušno. Prepevali bomo naše lepe slovenske pesmi in podali se bomo h kapelici, kjer bomo imeli pete litanije, — torej pravi slovenski nedeljski popoldan. — Ne pozabite: to bo nedelja, 25. julija, in pridite!

Pristava vas čaka in vabi vas.

Gremo v Frank v Ohio

Cleveland, O. — Ze mnogo let hodimo v septembru na božjo pot v Frank v Ohio. Tudi letos želimo poromati v ta prijazni kraj. Kaj pa Vi? Bi gotovo še enkrat radi obiskali žalostno mater božjo, ki jo časte na tem prijaznem kraju. Gotovo želite iti z nami. Ta Vaša želja se bo izpolnila v nedeljo, 12. septembra. Avtobus imamo že naročen. Kar prigrasite se pri Mrs. Mary Novak ali pa pri meni. Voznina v obe smeri je le \$3.25. To je za sedanje čase, ko je vse tako drago, res mala vsota. Avtobus bo čakal na E. 80 St. pred šolskim dvoriščem ob šestih zjutraj, ob 6.30 pa na E. 55 St. in St. Clair Ave.

Dolgoletni šentlovrenški kaplan rev. J. Slapšak so obljubili, da pojdejo z nami. Vsi pa vemo, da je prijetno, kjer so rev. Slapšak navzoči. Prijetnost in zabavo imamo vsi radi.

Prigrasite se čim prej, da bomo vedeli zaradi avtobusa.

Družba, ki daje avtobuse v najem, hoče vedeti pravočasno število potnikov in seveda tudi vnaprej plačano vozino. Zato naj vsak s prijavo plača tudi vozino!

Slovenski ljudje so od nekdanj radi romali, romali v Kelmoraj in v Kompostelo, romali na Višarje, na Zaplazi, na Brezje, na Sv. Goro, na Kum in še na vrsto drugih božjih poti, vse tja v daljni Rim, Fatimo in Lurd. Dolga romanja so združena z velikimi stroški, naše romanje v Frank ne stane veliko, zato se ga lahko vsak udeleži. Marija bo naše dobre volje vesela in bo pri svojem Sinu prosila za nas!

Pojdimo, poromajmo k svoji Materi!

Jakob Resnik

Nazaj v Florido

New Swyrna Beach, Fla. — Naj se tu zahvalim vsem za lep in prijazen sprejem in za vso gostoljubnost, ki so mi jo nudili prijatelji in znanci tekom mojega obiska v Clevelandu. Če bo katerega ali katero izmed vas zaneslo v Florido, Vas bom z veseljem sprejel z enako gostoljubnostjo.

Tekom mojega bivanja v Clevelandu sem spoznal mnogo novih rojakov in rojakin, največ v Slovenskem društvenem domu v Euclidu, ki je nekako središče rojakov in rojakin, ki prihajajo v Cleveland na obisk iz Floride. Vseh sem vesel, vse prav lepo pozdravljam in upam, da se, če ne prej, vidimo zopet prihodnje leto!

Frank Gorenc

Iz pisma od doma

Cleveland, O. — Znan rojak, naročnik lista, se je nedavno oglasil v uredništvu s pismom iz Slovenije, iz katerega posnemamo sledeče:

Dne 8. junija je začelo deževati in potem smo dobili hude poplave, ki v južnejših krajih še trajajo. Poplave so tako hude in velike, da bo vojvodinski pridelek zelo verjetno šel — po vodi. Vroče je zelo.

Zaradi gospodarskih in denarnih reform so ljudje zbegani, jemljejo denar iz hranilnic in kupujejo potrebno in nepotrebno v preplahu, da bodo hranilne vloge šle po gobe, čeprav so oblasti zagotavljale, da bodo hranilne vloge očuvane valutne spremembe. Primanjkuje gotovine. Ljudje vedo, da bodo cene šle še gori in gori. Dolže, da so francoski svetovalci-strokovnjaki povzročili sedanje spremembe in reforme in da imamo obljubo, da bodo krizo rešili pod pogojem, da izvedemo reforme. Sedaj je menda med našimi vladnimi ljudmi in temi svetovalci vse pretrgano in so se razšli. Fantastične govornice povedo, da ponujamo Amerikancem Jeseni-cc in Trbovlje v zastavo in podobne. Železja za stavbe in gumijaste obroče za avtomobile in drugega takega blaga se ne dobi redno drugače kot le za tuje valute.

V "Pavlihi" je bilo narisano: Spreved z zastavo, ki nosi napis: "V tovarno!" — Spodaj pa drugi spreved za zastavo, ki ima geslo: "Nazaj v planinski raj."

Žal je kmetski stan na tleh, mladina bo šla kamorkoli.

Balincarska tekma v Euclidu

Euclid, O. — V nedeljo dne 25. julija se vrši balincarska tekma v Slovenskem društvenem domu v Euclidu, Ohio. Clevelandski in euclidski mestni odborniki so povabili, da odprejo balincarsko tekmo in se pokažejo, kateri

Kdaj začnemo otroka učiti plavanja?

Prijetno je gledati veselo čofotanje in vriskanje majhnih otrok, ki uživajo ob vodi, mi pa prijetno vpitje in krčevit jok preplašenega otroka, ki se pogosto oglašja iz vode. Želja staršev, ki prehitveva sposobnost otrokov, da bi se naučil plavanja, je nesmiselna.

Kdaj naj se otrok začne učiti plavanja? Ta čas ne more biti točno določen s številko šestih ali osmih let. Čim več možnosti ima otrok, da se igra v vodi ali ob njej, tem bolj si bo sam od sebe zaželel plavanja. To bo le tedaj, če ima otrok vodo rad. Če si vode ne želi in ima pred njo celo strah, otroka nikar ne silimo, vanjo. Raje počakajmo. Ko bo sam premagal strah pred vodo in se veselo potunkal, poskusil poiskati kamen pod vodo ali se celo oklenil očka za vrat in se z njim podal v svetlečo modrino, takrat šele je na najboljši in najhitrejši poti do plavanja. Plavanje otroka pa, ki se je spustil v vodo brez strokovnih navodil, brez učenja, ne bo dosti podobno pravemu plavanju. Bolj nas bo spominjalo na čofotanje mladega psička. Zato posredujmo ali pokažimo otroku pravilne gibe. Kmalu bo začel posnemati. Inteligentni otrok bo to dosegel tudi brez nasvetov starejših, že s samim opazovanjem.

Velja naj torej pravilo: otroka ne silimo s plavanjem, še posebno se zaradi tega, da bi se ponašali pred drugimi, češ, tako majhen je, pa zna že plavati. S pretiranim siljenjem vcepimo otroku le strah pred vodo, ki se ga bo kasneje težko znebil.

Zvečer pred spanjem deset minut telovadi. Da izgubiš prebušeno mast, napravi vsaj deset do dvajset počepov in deni na hrbtu ležeč noge iztegnjene čez glavo in zopet nazaj. Roke naj leže ob telesu.

Če imaš zdravo srce se kopli v precej vroči vodi. Priporočljiva je tudi parna kopel, vsaj enkrat na mesec.

Louis Jartz, tajnik

Dr. L. Ukmar:

Bolezni kot neposredna posledica vročine

Ena teh je vročinska kap (heat stroke).

Če si izpostavljen vročini dan in noč, pa naj bo ta vročina podnebna (klimatična) ali "notranja" vsled kake nalezljive bolezni, se boš potil, stalno potil, ker z izhlapevanjem vode na površini kože, se koža hladi.

Pri procesu potenja poganja srce velike množine krvi v podkožje iz dvojnega namerana, da se hladi čimvečja množina krvi v podkožju in se ohlajena vrača v notranjost telesa in da dobijo znojnice dovolj hrane, da zmorejo svoje delo. Zgodi se pa, da znojne žleze omagajo, ne zmorejo več, da bi izločale pot. Če ni v vročini hlajenja, se telesna temperatura viša. Naše telo se hladi tudi potom izžarevanja toplote v okolico, a to hlajenje je neznatno ali celo nemogoče, če je zrak, ki nas obdaja bolj tople kot mi sami.

Pri vročinskih boleznih je ta vrsta hlajenja navadno zadostna, če ni bolnik prekomerno pokrit, ali če leži celo nag v postelji in seveda, če je soba hladna, hladnejša kot on sam. Naletiš pa na bolnika v mali podstrešni sobici, vsega pokritega z zimskimi odejami, ker se sorodniki boje, da bi se prehladil, z zaprtim oknom pri neznosni vročini 110°F. (43°C). Takemu bolniku zraste v najkrajšem času telesna temperatura do 42°C in preko.

Če ti grozi vročinska kap in si bil sicer zdrav, boš morda opazil, da si se nehal potiti, čeprav ti je zelo vroče. Glava te bo začela boleti, postajal bo omotičen, zmešan in nazadnje boš obležal nezavesten. Če ni hitre pomoči, si zapisan smrti. Telesna temperatura

naraste, doseže 42°C ali več. Pri tej toploti odmirajo stanice možgan, odmirajo stanice jeter (v jetih je vročina še višja, kot jo zmerimo v danki) srce sicer še utripa, zelo hitro, a napetost žil popušča, da pada pritisk krvi v njih, žile se razširijo, da ni skoro nobenega obtoka več v njih, srce popušča in se ustavi.

Rešitev takega bolnika je v tem, da ga čim preje ohladimo. Kako? Odvisno je od prilik. Če je na razpolago mrzla voda, ga položimo v vodo in ga imamo v vodi, kateri smo dodali ledu, dokler se mu temperatura ne zniža na 38°, ali ga slečemo in oblivamo z mrzlo vodo ali alkoholom in ga hladimo še s preprihom, če mogoče ventilatorjem.

Ne smemo se pri tem bati, da bomo bolnika prehladili, ker s to mislijo mu ne bomo rešili življenja, bomo prepočasni ali pa bo naše hlajenje nezadostno.

Pokojni dr. Derč, slavni otroški zdravnik v Ljubljani, je v zimskem času "presegretega" otroka slekel, ga oblił s toplo vodo, odprl okno in ga nekaj časa držal nagega v strupenem mrazu. Na ta način je rešil na stotine otrok.

Boumedienne sestavi prvo revolucionarno vlado

PARIZ, Fr. — Prvo Boumediennovo alžirsko vlado so vsi pričakovali z zanimanjem, pa tudi s strahom. Nihče ni vedel, kakšna bo, drugi so se pa bali njenega prevelikega "nacionalističnega" značaja. Nova vlada ni razočarala nikogar razen levih čarjev. Res je, da je Boumedienne prevzel v novo vlado od 20 kar 9 ministrov iz bivše Ben Belline vlade, toda nabral je samo politike z zmerno politično filozofijo, kolikor se v arabskem svetu sploh da govoriti o zmernosti. V vladi je ostal tudi dosedanji zunanji minister Bouteflika, ki Ben Bella ni bil z njim zadovoljen.

Alžirski politični opazovalci pravijo, da je sedaj treba še počakati, kaj in kako bo nova vlada delala. Upajo pa, da se s presenečenjem ne bo hotela odlikovati.

Boumedienne je seveda ostal tudi predsednik revolucionarnega sveta, ki je v rokah visokih vojaških krogov. Vlada je odgovorna temu in ne več vodstvu edino dovoljene politične stranke, kot je to bilo pod Ben Bello. Vlada Združ. držav je že izjavila, da bi prošnjo nove vlade za podpore obravnavala "s simpatijami."

Pri 102 letih še vedno redno hodi v pisarno

CHESTER, Pa. — Odvetnik Charles Palmer je pretekli teden dopolnil 102 leti, pa še vedno redno vsak dan hodi v svojo pisarno, ki jo je odprl leta 1887. Do pred 5 leti se je vozil v pisarno s svojim avtomobilom, sedaj se vozi z avtobusom.

V Ekvadorju še ni miru

QUITO, Ekv. — Ko je prišlo pretekli petek do hudih demonstracij študentov in delavstva proti vojaški vladi, je ta z odločnim nastopom nemirne nezadovoljnosti razgnala in jih več dala prijeti. V glavnem mestu je od tedaj sorazmerno mirno, do večjih izgrediv pa je prišlo v pristaniškem mestu Guayaquil.

Pri demonstracijah tam v ponedeljek in torek sta bila dva študenta težko ranjena. Napetost je narasla v taki meri, da je vlada oklical v sredo obsedeno stanje in odredila policijsko uro od 9 zvečer do 5 jutraj.

Sedanja vojaška vlada adm. Ramona C. Jijon-a je prevzela oblast 11. julija 1963, ko je vrgla vlado levčarskega, pijači vdanega predsednika Arosemene. Vse politične stranke, delavske unije in študentske organiza-

cije zahtevajo od vlade vrnitev k demokraciji in ustavni vladi. Druga obletnica vojaškega udara se jim je zdela primeren trenutek, da svoje razpoloženje javno pokažejo. Za sedaj ne kaže, da bi se vojaška junta adm. Jijona in tovarišev odločila za prostovoljni odhod z oblasti.

Prelep v korejskem parlamentu v Seoulu

SEOUL, J. Kor. — Parlament je začel razpravo o prijateljski pogodbi Koreje z Japonsko. Pogodba je bila nedavno podpisana, odobrena pa mora biti v obeh parlamentih, predno bo stopila v veljavo. V Južni Koreji je proti odobritvi pogodbe močan odpor, zlasti med študirajočo mladino. V parlamentu se je opozicija izjavila proti pogodbi in vprizorila pravi pretep, ko je imela razprava o tam priti na dnevni red.

Kljub naporu opozicijske "ljudske stranke" je uspelo vodniku vladne stranke, ki ji pripada 110 od 175 poslancev, sejo odpreti, objaviti, da je bila razprava o pogodbi izročena v obravnavo zborničnemu odboru za zunanjo politiko. Prav tako je predložil skupščini tudi vladin predlog za pošiljatev vojaške pomoči Južnemu Vietnamu za boj proti rdeči gverili. Takoj na to je predsednik zasedanje skupščine odložil.

Opozicijski poslanci so se pognali proti govorniškemu odru in prišlo je do ostrega pretepa s pristaši vlade.

Sporazuma o podpiranju tujine še zmeraj ni!

WASHINGTON, D. C. — So zakonski osnutki, ki jih vsako leto preganja usoda. Tak je zakon o podpiranju tujine. Ako ne naleti na ovire v začetku postopka, jih dočaka na koncu. Letos sta oba doma, Senat in Predstavniški dom, primeroma hitro obravnavala in izglasovala zakonska besedila.

Senatna komisija bi morala sedaj izravnavati razlike v tekstu. To delo ji pa ne gre od rok, akoravno je komisija imela že 10 sej. Senatorji uporno zagovarjajo stališče, naj izglasovani znesek za podpore \$3.36 milijonov velja za prihodnji dve leti, kongresniki pa trdijo, da je dosti, ako pooblastilo trajajo samo eno leto. Člani komisije ne vidijo

Schaefer je tisto pivo, ki ga vzamete, kadar mislite na več kot eno.

Kadar ste res žejni, tekne prvo hladno pivo — vsako hladno pivo — naravnost čudovito.

Toda kasneje, pri drugem in tretjem kozarcu, začne večina piv izgubljati okus. Izgleda kot bi postala nekako prazna.

Toda Schaefer je drugačno. Užitek Schaefer piva po eni ali dveh časih nikoli ne izgine.

Še celo tedaj, ko je vaša žeja prešla, ima Schaefer prijeten in krepilni okus.

To je kakovost, ki loči Schaefer od drugih finih piv. Ljudje pra-

vijo, da jim daje to krepilno mrzlo, bleščeče zlato Schaefer pivo isti polni užitek čašo za čašo.

Oni so dejansko deležni užitka prvega piva pri vsakem pivu. Čemu torej vi ne poskusite Schaefer piva?

Prihodnjič, ko kupujete, vzemite en šeststeklenični zavoč ali morda dva.

Ugotovite sami, zakaj imenujejo Schaeferja pivo, ki ga vzamete, kadar mislite na več kot eno.

Jutranja zvezda

Slednjič je ledena groza zapustila njiju srce, ozrla sta se navzgor in sta videla, da je zopet taka, kakršna je bila, nad vse kraljevska in lepa ženska, a ne več.

"Kdo si?" je hropel Abi. "Boginja Sekhet v človeški podobi, ali Isis, kraljica smrti, ali samo duh umrle Tue, ki je poslan, da se maščuje?"

"Vse to in noben izmed njih, kakor hočeš, čeprav je resnično, človek, da sem poslana semkaj v maščevanje. Vprašaj tistegale čarovnika. On ve in dovoljuje mu, da ti pove."

"Ona je Dvojnik Amenove hčere," je zamrmral Kaku. "To je njen Ka, ki se je osvobodil, da izvrši sodbo nad tistimi, ki so ji hoteli storiti krivico. To je duh z močjo bogov in vsi mi, ki smo grešili zoper mrtvega faraona in njo in njenega očeta Amena, smo mu izročeni, da nas muči in nad nami izvrši sodbo."

"In kje je potem Neter-Tua, ki je bila kraljica v Egiptu?" je hropel Abi in obračal svoje velike oči. "Ali je pri Osirisu?"

"Povedati ti hočem, človek," je odgovorila kraljevska prikazen. "Ni umrla — ona živi in je odšla, da poišče tistega, ki ga ljubi. Kadar se vrne z njim in nekim beračem, tedaj odidem in ti boš umrl, oba bosta umrla, tako se glasi važna sodba. Dotlej pa živita in vršita moje ukaze!"

XIV. Solnčna ladja.

Tua, Amenova zvezda, je odprla oči. Že nekaj časa je ležala, kakor človek, ki leži med spanjem in budnostjo, in zdelo se ji je, da sliši šum potapljačev, ki se vesel in vode, ki prijazno bije ob pobočje ladje. Misli je, da se ji sanja. Gotovo je v svoji postelji v palači v Thebah in takoj bodo prišle njene dvorjanke, ko se zdani, da jo zbudi.

V palači v Thebah! Sedaj se je spomnila, da je minilo več mesecev, odkar je videla to kraljevsko mesto, da je potem daleč potovala in slednjič prispela v beloizidno Memfido, kjer se ji je primerilo mnogo strašnih reči. Spomnila se je enega dogodka za drugim; nastavljen past, faraonovega čmora s čarodjstvom, bitke in poboja njene straže, stradanje v stolpu s smrtjo na eni strani in z zasovraženim Abijem na drugi, čudovite prikazni duha, ki je imel njeno obličje in trdil, da je njen zaščitni Ka, dan ji je ob rojstvu, njegovih besed in svoje strašne odločitve, slednjič pa še, kako je stala z Asto ob visokem oknu, kako je vzplamtel ogenj pred njenimi očmi, in strahovitega padca v globotino.

O, gotovo je vse minilo; bila je mrtva in to so sanje in

spomini, kakršni prihajajo prebivalcem podzemlja. Le zakaj sliši potem šum plivajočih vode in potapljačev, ki se vesel?

Prav počasi je odprla oči, ker se je močno bala, kaj bo neki zagledala. Svetloba je bila nanjo, svetloba meseca, ki je visel na jasnem nebu kakor velika zlata svetilka.

V mesečini je videla, da leži v čisto belino oblečena na ležišču v uti, katere zlati zastori so bili spredaj odgrnjeni in pripeti na pozlačene kole. Ob njej je ležala v sivi obleki druga postava, ki jo je spoznala kot Asto. Bila je mirna, tako mirna, da jo je smatrala za mrtvo, čeprav je vedela, da je to Asti. Morda tudi Asti sanja in jo bo morda slišala v snu; govoriti se ji je zahotelo z njo.

"Asti," je zašepetala, "Asti, ali me slišiš?"

Siva postava ob njej se je premaknila in obrnila glavo k njej. Nato je odgovoril pravi Astin glas:

"Ah, gospa, slišim te in te vidim. Toda povej mi, kje sva sedaj?"

"Mislim, da sva v podzemlju, Asti. O, tisti ogenj je bila smrt in sedaj potujeva v kraljestvo duš."

"Potem bi bilo čudno, gospa, da imava še vedno oči in telo in glas, kakor umrljive ženske. Sediva in se razgledava!"

Sedli sta, se objeli in pogledali skozi razgrnjene zavese. Glej, bili sta na najlepši ladji, kar sta jih kdaj videli, ker je bila pokrita kakor z zlatom in srebrom, dočim so iz nje notranjosti puhtele sladke vonjave. Njuna uta je bila postavljena sredi ladje, tako da sta videli vrste veslačev v belih oblačilih, sedečih ob veslih v senci ladijske ograje, in pri visokem krmilu stasitega kr-

"Mislim, da po našem svetu, kraljica," je odgovorila Asti, "toda v oskrbi bitij, ki niso s tega sveta. To gotovo ni človeška ladja in je tudi ne vodijo umrljivi ljudje v pristan. Pa jesti morava. Okrep-

čajva se, dokler imava s čim."

Tako sta krepko jedli in pili, in ko sta končali, sta se drznili celo stopiti iz ute. Ko sta se razgledali, sta opazili, da stojita na visokem krovu sredi velike ladje, da pa je krov obdan z mrežo iz srebrnih vrvic, iz katere ni bilo izhoda. (Dalje prihodnjič.)

A Vital Tool

The outboard motor, an almost frivolous gadget as the power behind sport and recreational fishing in America, is a vital weapon against hunger elsewhere.

In 1951, the United Nations Food and Agriculture Organization (FAO) started putting outboards on the dugouts and catamarans of fishermen in Ceylon. For centuries, the Ceylonese were limited to fishing grounds they could reach by paddle or sail and from which they could return before nightfall. A fisherman's catch averaged 13 pounds; often he sailed home empty-handed.

Outboards extended his range enormously. He could reach depths where the big fish feed and still get home before dark. Catches increased as much as tenfold.

The motors, sold on easy terms to fishermen, are donated or provided at reduced prices by private companies, including an American outboard firm. Other groups donate money, FAO, which has launched similar programs in other countries, supplies training.

Thus, FAO again has proved that the food problem is not the lack of new resources but the failure to exploit existing ones.

Memorial Fund For A. Schubel

One month has passed since Glasbena Matica has lost its beloved director Anton Schubel.

We wish to thank you for your expressions of sympathy and concern regarding our great loss.

Letters, cables, telegrams and your verbal expressions have helped us sustain the seemingly sudden collapse of our rich musical environment and of our future plans. Dead is the man who moulded, shaped and led an obliging organization.

Emptiness, sadness and personal loss are felt, yet while sentiments prevail, we begin our changes and readjustments.

In the initial phase, pianist-accompanist Mrs. Valentina Fillingner has been asked to assume the direction of Glasbena Matica. Her instructing capacity was recognized in the summer of 1964 while director Schubel vacationed in Europe.

Yugoslav folk lore and classics delight her as she calls upon the members to aid in the translations. Her direction hinges upon correctness and exactness of detail in dynamics and new perspectives and dimensions in choral performances will unfold in Glasbena Matica's two fall concerts.

Sunday, October 3, 1965 Glasbena Matica will appear in Yukon, Pa. as guest of the S.N.P.J. Westmoreland Federation.

Sunday, November 7, 1965 a commemorative concert will be held at the Slovenian National Home auditorium. Choral excerpts from opera Lucia di Lammermoor will be performed in honor of director Schubel's last attempts.

The Anton Schubel Memorial Fund is now in progress. Hopes for an oil portrait of the deceased director are pending before the committee before the final results are ascertained. Kindly mail your contributions to the Anton Schubel Memorial Fund, c/o Glasbena Matica, 1111 East 72 Street, Cleveland, Ohio 44103.

Once again may we thank you for your respect, patronage and interest in our endeavors.

Faculty Members From St. Joseph's Assigned to Germany

Rev. Father Raymond J. Kacirk, S.M., Lay Faculty Chaplain, and Brother James J. Kostansek, S.M., a teacher of German, both at St. Joseph High School, have been assigned to Marianum School in Fulda, Germany. The appointments are effective August 15, 1965.

Father Kacirk is the son of Mr. and Mrs. Frank Kacirk, 15505 Glencoe Road, Cleveland 10, and is a graduate of the University of Dayton, where he secured the Bachelor of Science Degree in Education. He was ordained a Priest at the University of Fribourg, Switzerland. Father Kacirk is expected to complete his Master's Degree at the end of the present summer session.

Brother Kostansek is the son of Mr. and Mrs. Joseph Kostansek, 17921 Hillgrove Road, Cleveland 19. He is a graduate of the University of Dayton, where he secured his Bachelor of Arts Degree. He has completed graduate work at Georgetown University and Catholic University of America.

Goodwill Stores Increase Stock

Goodwill's nine stores now boast a wider selection and greater quantity of items than even before, according to Rudolph Stefanko, executive director.

"This greater variety in all departments is the result of the generous response on the part of Greater Clevelanders. Their donated deposits are providing increased opportunity for handicapped men and women."

All Goodwill's nine stores are benefiting from this upsurge: on the east side, 3991 Lee Road, 13822 Kinsman, 930 East 70th Street, 2421 East 55th, 10212 Superior, and 3701 Hough; downtown, 430 Huron Rd.; on the west side, 3821 West 25th and 3820 Lorain.

Goodwill stores are non-profit. The income produced pays wages to physically and mentally handicapped persons who clean and repair the items sold in Goodwill's stores.

MADE HIS POINT

A man, chided by his employer for chronic tardiness, had an ingenious response:

"Well, boss," he said, "you have drilled me so thoroughly about never watching the clock here at the office, I've lost the habit at home."

SHORTS on SPORTS

Tribe Gate Average Shows Increase of Nearly 4,000

Cleveland, O. — What can a winning team do to influence attendance — even in a reportedly-dead baseball city such as Cleveland? Look at what the Indians have accomplished with a contending club.

A year ago, when the Tribe was floundering in sixth place trying, unsuccessfully, to maintain a .500 mark, a total of 337,578 fans paid their way through the turnstiles during the first 34 dates. That's an average of 9,928 per opening.

This season, for the same number of dates, the total was 450,853. That's an increase of 113,275 and an average turnout of 13,260.

DiMuro Gives Quick Boot To Raging Swinger Adair

Baltimore, Md. — Holy Name Night had a rather unholy ending here, July 2.

The Holy Name Society helps to sell tickets for one Oriole game each year, with its share of the proceeds going into a scholarship foundation for needy boys.

As Cleveland's Lee Stange was wrapping up his four-hit shutout against the Orioles, Jerry Adair, in a rare emotional outburst, disputed an eight-inning third strike call by Umpire Lou DiMuro so heatedly that he was ejected almost instantly.

When DiMuro was asked why he was so quick with the thumb, he answered:

'Adair used profanity near enough to the stands so that the fans could hear.'

And on Holy Name Night, no less.

Two of Indian's Draft Picks Voided — Both College Fresh

Columbus, O. — Two selections made by the Cleveland organization in the free-agent draft last month have been voided because the players are college freshmen, President Phil Piton of the National Association announced last week.

The two players are outfielder James Robert Baker, 18, of Columbus, O., who attended Ohio State, and pitcher Tom W. Schweitzer, 18, a freshman at Fairmont (W. Va.) College.

Under Organized Baseball's rules, neither could be signed and thus they were ineligible to be drafted.

Piton also disclosed that there no longer was any likelihood of starting additional rookie leagues this year.

"In advance of the free-agent draft, we looked into the possibility of establishing rookie leagues in the old Georgia-Florida and Nebraska State League territories. But there wasn't enough interest among major league organizations to necessitate forming additional rookie leagues. What will develop in 1966 in this connection will depend largely on the number of new players signed."

Broadway Hits Pops in Weekend Concerts

The Cleveland Summer Orchestra, under the direction of Assistant Conductor Michael Charry, will present an evening of some of Broadway's "best" in a program consisting of the music of Lerner and Loewe this weekend, July 16, 17 at air conditioned Public Auditorium. Soloists will be soprano Bonnie Murray, tenor James Stuart, and baritone Jack Russell assisted by the Pops Chorus. From the hit "Brigadoon" such songs as "The Heather on the Hill" and "It's Almost Like Being in Love" will be heard.

"Paint Your Wagon" will be represented by "Another Autumn," "They Call the Wind Maria," and "I Talk to the Trees." Songs from "Gigi" will include "Thank Heaven for Little Girls" and "The Night They Invented Champagne."

The second half of the program will feature the music from "Camelot" and "My Fair Lady." Among these songs are "If Ever I Would Leave You" and "What Do Simple Folk Do?", and most of the hits from "My Fair Lady" including "Wouldn't it be Lovely," "I Could Have Danced All Night," "On the Street Where You Live" and "With a Little Bit of Luck."

Tickets priced from \$1.00 to \$2.50 are on sale at all Burrows stores and at the Severance Hall Box Office. Unreserved seats in the balcony at 75c go on sale after 7:00 p.m. the night of the concerts at the Mall Entrance Box Office at Public Auditorium. Refreshments are available at tables throughout the concert and at intermission.

TB is a rising Problem STOP for a chest X-Ray

New active cases of tuberculosis in Cuyahoga County are increasing, after a 15-year downward trend — up by 2% in 1963; an additional 2% for ALL cases in 1964. How is this accountable? Over-optimism, maybe. Or lack of preventive knowledge. In any case, this rising trend must be counteracted.

TB control today focuses on the child. The aim is to protect children from an initial infection with TB germs which might in future years become active TB. Adult chest x-rays are an important part of this approach. When adults check their health by means of a chest x-ray they are also protecting children from possible exposure and infection. Youngsters under 19 years of age are given tuberculin tests at County Clinic and in school programs. Whenever a positive is found, the rest of the family is thoroughly screened.

TB prevention is centered around educational programs. Pamphlets, films and speakers point out symptoms, hazards, methods of diagnosis, treatment and follow-up of tuberculosis.

The Community X-ray Program, which this year began on April 19th, will continue through September. The mobile units travel to strategic locations: in July to Hough, Central, Mt. Pleasant and West Side neighborhoods; in August and September to outlying areas of the county. Printed, detailed schedules are available from the Anti-Tuberculosis League, 361-8088.

The program, sponsored by tax funds and Christmas Seal contributions, is a joint service of the Cleveland Health Department, County TB Clinic, County Commissioners, suburban health departments and the Anti-Tuberculosis League.

The Academy of Medicine recommends that all persons 19 years of age and over be x-rayed periodically. In high incidence areas, yearly x-rays are desirable; in other parts of the county, every three years is advisable. Food handlers must be x-rayed in order to obtain a permit. School teachers and baby sitters are in prime positions to transmit TB; therefore, x-rays are especially important for them.

Besides indicating tuberculosis, a chest x-ray film may reveal lung cancer, indications of histoplasmosis, silicosis, heart abnormalities and other respiratory diseases. More important, a chest x-ray can tell a person his chest is normal.

In addition to the mobile units, free chest x-rays may be obtained year-round at the County TB Clinics and at the City of Cleveland Health Centers, without appointment.

Early detection equals early treatment. In view of the 6,149 cases on the register in Cuyahoga County in 1964, be certain you will not add to the 1965 statistics — by getting your chest x-ray soon!

INSIDE KNOWLEDGE

A fond mother received the following letter from her son:

"Dear Mom — I joined the Navy because I liked the way the ships were kept so clean and tidy. But I never knew until this week who keeps them so clean and tidy."

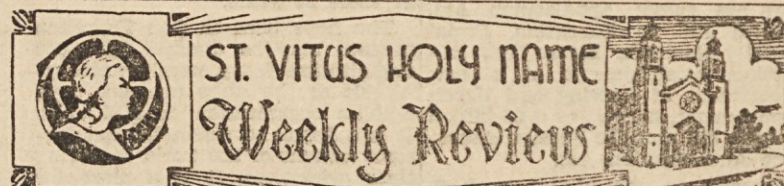

NUCLEAR POWER IS SAFE

The San Francisco Examiner recalls that "In 1886 George Westinghouse was maligned as a potential mass murderer when he proposed alternating electric current in offices and homes as the way to keep New York City from strangling in low voltage direct current lines. So-called experts asserted that alternating current could not possibly be controlled through transformers and insulation; they claimed it would burn New York to the ground."

Nowadays, of course, alternating current is universally used. Without it, the miracles that electricity has brought to the home, the farm, and to industry could never have been realized. Those so-called experts were exactly 100 per cent wrong.

The Examiner draws a parallel between this and the fear of some people that nuclear electric plants are a menace to the areas in which they are located. Such a fear may be understandable—we all know the unbelievable destruction that nuclear weapons can cause. But the difference between these weapons and nuclear reactors for peace purpose is that of night and day. As the Examiner puts it, "A nuclear power plant is as safe and as ordinary as the alternating current it provides to serve man's needs."

It is important that this fact be universally understood. As time goes on, more and more of our power will come from nuclear sources. It will be economical, dependable — and safe.

Andre Duval Beauty Salon Now Open at Severance

Andre Duval has purchased the magnificent Portaro Beauty Salon, reputedly worth \$100,000, in Severance Center. This salon is located next to Higbee's just outside the Mall.

This salon has everything in it which anyone could ever install into a palace of beauty. Every latest improvement is incorporated into it. The hair dryer chairs are all of a type which give the patron a massage while her hair is being dried. The hair dryer room is like a circular Roman bath with a fountain in the center.

The shop is decorated in authentic French Provincial, even down to the individual 'dresserettes' for each operator. Magnificent chandeliers hang from the ceilings, giving the air of a ballroom or a beautiful French salon encompassing 4,000 square feet.

The customer certainly has rarely had the opportunity to have so much done for her in so beautiful a place, and at so little cost! Andre Duval is the operator of the famous Cleveland salons which give all permanent waves at only \$4.45 and \$6.45, and all shampoo and stylings for only 1.75, with never an extra charge for anything.

The original Andre Duval Salon at E. 4th and Euclid is one of the few businesses in downtown Cleveland which has been enjoying a very rapid growth in spite of the general trends to the suburbs. Starting fifteen years ago downtown, with seven or eight beauticians, Duval's downtown is now a 5,000 square foot salon employing over forty hair dressers.

There are already branch salons at Southgate and Parma. The Parma salon has expanded to double its size after only three months of operation. The success of the Andre Duval salons has been used as one of the fine examples for growth through good service and fair pricing!

Another reason for Duval's success is the fact that permanent waving has always been emphasized as a feature. More permanents are done

in Duval Salons than in any other salons in the State, thus giving the opportunity to Duval operators to develop skill not available in any other place, and making A. Duval operators the most skilled permanent wave beauticians possible.

One of the major advantages in the purchase of this salon is the improved image of popular priced salons, since up to this time people who patronized popular priced salons have expected less beautiful surroundings. Now, providing popular priced services in one of the most expensively equipped beauty salons in the country is a milestone in the program of bringing finest service and luxury fitting to more and more people. Now the average woman can have the same refinements as the very wealthy.

The new Duval Salon is already in operation at Severance Center, and welcomes everyone to visit — whether they are customers or just interested in seeing a beautiful place!

★ Harwich, Mass. — This Cape Cod town's annual meeting has rejected a proposal to change the name of Lover's Lane to Homestead Lane.

★ Washington, D.C. — The Indian Claims commission has made a preliminary award of \$937,291 to the Ottawa tribe in Michigan. The award involves lands ceded to the tribe under a treaty of August 29, 1821. The commission found that the treaty had been violated and that the tribe was entitled to recover damages. The award is subject to possible deductions, or offsets, for gratuities to the tribe from the federal government over the years.

★ Rochester, Ind. — A 'beat' teenager claimed the world's marathon drumming record here. Preston Ewen, 17, Rochester, ended a 35-hour solo five hours longer than a record set by Gene Krupa and matched later by another teen-ager.

★ Seattle, Wash. — The University of Washington will have its third co-educational dormitory beginning with the fall quarter. Women students will occupy the top three floors of Lander Hall, currently an all-male residence, and men students will have quarters on the bottom four floors.

★ Carson City, Nev. — Modernizing the Nevada State prison can't be done overnight. Take the matter of gambling by inmates, for instance. A firm hired to study the prison recommended authorities eliminate gambling behind the walls. Gov. Grant Sawyer pointed out that gambling was not allowed at the new minimum security unit, opened this fall. "As we are not allowing gambling there, it will go a long way to solving the problem," he said. But it may be some time before officials halt gambling at the older main prison because there's little opportunity there for other

forms of recreation, the governor said. Behind-the-walls gambling has been a tradition at the prison for many years.

★ New Delhi.—Things often move slowly in India's ponderous bureaucracy, but New Delhi's city government had an especially trying time recently getting a new traffic signal switched on. The signal stood darkly at a busy intersection for six months before it finally got electricity sanctioned.

★ Gillette, Wyo. — A Gillette rancher no longer has any trouble with hunters leaving his gates open. A sign posted on his gate reads: "Hunters: Please close this gate behind you. The last man who didn't is 10 paces to your left." Ten paces to the left of the gate is a mound of dirt with a headstone.

★ Reno, Nev. — The new city hall turned a little green around the eaves. They wanted it that way. There is a copper band around the top of the building. Workers treated the copper with a special compound to make it turn green. If not treated, the band would turn black. Architect Hewitt Wells said. Polishing the band, to keep it a shiny copper color, would be impractical, he said. Why not use some other metal? "Copper has a richness to it that no other metal has," Wells said, "and once it's installed, nobody has to do anything to it. It's there for keeps."

★ Powell, Wyo. — A Powell teacher received a check for \$900,004.72 — but she doesn't plan to cash it. Mrs. Jim Jameson ordered a \$4.72 item from a Midwest manufacturing company and sent a check to pay for it. The company was unable to fill the order and refunded her money. But machines make mistakes, too. Instead of sending her a refund check for \$4.72 — it came out \$900,004.72.

★ Montreal. — Frank Higgins opened an antique shop to prevent himself from being crowded out of his house by his personal collection. "The collection was getting to be too much. At one point I had a clock on old clocks. Before I knew it I had 25. It was getting ridiculous and something had to be done," Frank said. His friends came to the rescue. They started buying some of the pieces. When a store two doors away became vacant, he was in business. The chamber pot is the best seller. "Most people want them as planters," said Frank. "But I knew one woman who used it to serve potato chips at a party."

★ Glasgow, Scotland. — So many of its pipers and drummers have gone to the United States recently that one of Scotland's most famous pipe bands is in danger of going out of business. The band is the Shotts and Dykehead Caledonia Pipe band, several times world champions. Pipe Major John McAllister said: "The band's whole future is in doubt. Only one drummer now remains. We are anxious to recruit more players."

400 RIVER STREET BUILDING, WASHINGTON 25, D. C.

A NEW FISCAL YEAR. July 1 marks the beginning of fiscal year 1966 in the Government's accounting system and the end of fiscal 1965. Once upon a time, it also signaled the beginning of the end of a session of Congress. But that was long ago, and though the Congressional Reorganization Act of 1946, which is still the law of the land, prescribes July 31 as the annual adjournment date, Congress has simply ignored the mandate under the press of increasingly heavy workloads. Congress got off to a fast start this January and has maintained the pace throughout these first six months. As a result, this first session of the 89th Congress is assured of a reputation as the most productive in recent history, at least in terms of quantity if not quality. Is there any wonder that these Administration Bills should be passed when both Houses, and all committees have better than 2 to 1 majorities of the President's own party? Among the more important are these: Appalachian Aid, Federal Aid to Education, Social Security-Medicare, Excise Tax Reduction, establishment of a new Department of Housing and Urban Development, as well as a \$6 billion housing bill and the Foreign Assistance Authorization Act.

However, in spite of this, we have reached mid-year only to find that Congress, far from being close to adjournment, has a schedule ahead which will probably keep us busy until well into the fall. Yet to be considered are these formidable hurdles: voting rights (passed by the Senate and currently before the House), immigration reforms, repeal of section 14(b) of the Taft-Hartley Act (which permits states to enact "right to work" laws), minimum wage increase and extension of coverage, a new farm bill, poverty program extension and increase, foreign aid appropriations, and many others including final

section on bills considered by one or the other of the two houses. This indicates that it is going to be "a long hot summer" in Washington.

THE UNITED NATIONS — TWO DECADES OLD

Two decades ago, in San Francisco the United Nations came into being, invested with the hopes of men weary and torn by the most devastating general war in history. Since then, the roster of member nations has grown from 51 members to 114 and much has changed. It takes no great power of analysis to deduce that the United Nations at age 20 has not fulfilled the promise of the infant. Looking back at the environment in which it has grown, perhaps the biggest wonder of all is that it has survived at all. In spite of the cold war, nuclear threats, walkouts and such virulent illnesses as Korea, the Congo, and Viet Nam, only one nation — Indonesia — has left the Organization in these 20 years.

The hope born in San Francisco in 1945 may be dimmed, and the organization today nearly unrecognizable as the same one, but hope and an organization do still exist. It is a forum to which the quarrelsome nations of the world can bring their grievances. It is a place for the exchange of ideas and for the venting of pressures which otherwise could build to the blow-off point. A great many constructive things which never make the headlines are done in and by the United Nations that could never be done without it.

As we reflect on the past 20 years and endeavor to fathom the future, let us salute the United Nations for its past accomplishments and strive to correct its faults. Its success is dependent upon the good will of men and nations. Let it not fall because of any lack of good will on our part.

THE SUBJECT IS ROSES

Of all the countless flowers cultivated by man, only the rose is assured of immortality. No other flower has so captured the affection and imagination of man, who has revered it, adorned himself with it and celebrated it in literature, art and music.

No one knows precisely where and when rose culture began, although early varieties have been traced to ancient Chinese, north African and west Asian civilizations. The celebrated Babylonian gardens are believed to have included roses among their floral treasures.

Rearranging one letter of the word rose spells Eros, Greek god of love, significant in the fact that the rose has always been called the flower of romance, and has been the choice of lovers since the time of the Greek gods.

Since ancient times, the rose has been grown for its fragrance and beauty of flower varying in color from white, pink, yellow and salmon, to scarlet and deep red, and it has come to stay in every land in which it has been introduced.

Legend has it, too, that Cleopatra, in her inimitable fashion, once greeted Marc Antony on a carpet of rose petals 18 inches thick!

But its beautiful blossoms are only the beginning of the impact the rose has had upon man. It has served as the inspiration for writers and musicians, painters and poets. Shakespeare alone wrote the romantic flower to life more than 60 times throughout his works.

Robert Burns referred to the rose in his immortal lines: "O my love's like a red, red rose That's newly sprung in June." — And Gertrude Stein's line from her poem "Sacred Emily" — "A rose is a rose" — is one of poetry's most oft-quoted lines.

Fairy tales, too, are replete with roses. The plot of Grimm's "Beauty and the Beast" hinges on the rose that Beauty's father plucks from the Beast's palace garden. There is also the reference in "Alice in Wonderland" when the card-gardeners paint white roses red to please the Queen of Hearts.

An estimated 4,000 songs have been written with a rose theme and many are still widely sung. Among the most familiar are "My Wild Irish Rose," "Roses of Picardy," "The Rose of Tralee," and "The Last Rose of Summer."

Rose motifs have inspired sculpture and architecture, fashion and interior design. The flower was the chosen badge of many of Europe's most prominent kings, and an emblem of the early church. Cathedral windows were made in the form of roses early in the Middle Ages and today are still known as rose windows. Designs of the rose have been etched in glass for centuries and in contemporary ware the motif is still popular.

"Sleeping on a bed of roses," is an ancient term that has become a cliché, but it was once literally true. The early Romans lavishly covered couches with blankets of roses on which guests reclined.

Later bed coverlets brought the charm and color of the rose into their patterns as the next best thing to a Roman "bed of roses." Patterns bore the alluring names of Rosy Walk, Rose in Bloom, and Pansies

and Roses in the Wilderness.

Even today, America's top designers are using the rose motif. The new Spring-summer collection of bedding, for instance, was inspired by Polynesian Sunset, 1965 Rose of the Year created by the world's largest rose grower, the Jackson and Perkins Company of Newark, New York. Spring-summer's Sunset Rose features the same warm glow given off by Polynesian Sunset's deep coral buds that gradually change to an iridescent coral orange.

A modern "bed of roses" Spring-summer is not the only representation we see today of age-old rose decor in the home. Since wall coverings became fashionable, the rose pattern has been popular with decorators and homemakers. Wallpapers designed with elegant roses embossed in velvet on a silken background are currently in vogue and grace many rooms in our most stately homes.

Carpets, too, although not Cleopatra's 18-inch thick variety, are often seen with a rose pattern interwoven in them. Handmade needlepoint rugs with rose motifs are now prized antiques.

In the kitchen roses have been boiled, pickled, potted and sandwiched; there have been rose-petal jams and marmalades, and cakes made with rose water. Sugar delicately flavored with roses once graced the tables of fashionable Victorian hostesses.

That a war should be named for a rose is a paradox, but the most brutal of civil wars in English history was called the War of the Roses. It was named after the quarrel between the dukes of York and Lancaster in the rose garden of the Temple in London where each plucked a rose of a different color. Today there is a rose called York and Lancaster.

As for roses in America, it is said that George Washington hybridized the first American rose and named it for his wife. Today, 19 out of 20 Americans name the rose as their favorite flower. It is the state flower of Georgia, Iowa, New York and North Dakota, and the official flower of Washington, D. C., under the name of American Beauty Rose.

The universal appeal of the rose continues to pervade every phase of life today — as an ecclesiastical symbol, a design on fabric, silver and chinaware, a metaphor in lyrics and literature, as the title of a current prize-winning Broadway hit... but most important, as the most popular of all flower fragrances.

Real Value! U. S. BONDS!

From the Indian Teepee

Two of the top pitchers in Indians' history, Bob Feller and Bob Lemon, are the first two members of the 1964 American League champions to accept invitations for this year's Old-Timers game against the combined American and National League All-Stars of 1964 at Cleveland Stadium July 18.

The three-inning contest will start at 1:30 p.m., immediately preceding the Indians-Red Sox game.

Bobby Avila, who won the batting title as the Indians' second baseman that memorable season, indicated in Mexico this spring that he was hoping to return for the game but Tribe officials are still awaiting final confirmation of his plans.

Feller, already a member of baseball's "Hall of Fame," wrote his name all over the record books before retiring to his Cleveland insurance business. Among his more remarkable performances which have yet to be surpassed are his feats of striking out 18 Detroit Tigers in one game, his total of 348 strikeouts for a season and his care total of three no-hit games.

Although rearing the end of his career in 1954, Feller contributed 13 victories to the Indians' record total of 111 while losing only three. Included among these was a two-hit shutout and a four-hitter.

Lemon, a prime candidate for future election to the Hall of Fame, will wear two caps on July 18th — one as a 23-game winner for the Indians in 1954 and the other as a participant in that year's All-Star Game.

Originally an outfielder and third baseman, Lemon switched to the mound in 1947 and in less than a year became a regular starter on one of the finest pitching staffs in baseball history. He went on from there to win 20 games in 1948, the first of seven seasons in which he won 20 or more. Included among his many unforgettable achievements was a no-hitter against Detroit in 1948.

A sore arm forced his retirement in 1958 but the popular hurler remained close to baseball and is currently managing the Seattle Angels of the Pacific Coast League top farm club in the Los Angeles' Angels farm system.

How To Eliminate Tree Roots In Home Sewer Lines

On the surface, trees are a beautiful addition to any property, but below ground, the tree's roots may be at work penetrating the home's sewer line. The result is considerable inconvenience. In fact, a sufficient growth of tree roots into the pipe can completely block the line.

You can determine whether you have a root problem by the way your system is functioning. If you experience frequent stoppages, it is likely that the trouble may be caused by the penetration of roots. Their growth is relentless and the problems that result are constant, points out the Cleveland Plumbing Information Council.

To eliminate the problems of improper drainage and still save the trees that are causing the trouble, there are several solutions.

Roots will penetrate piping only when attracted by the presence of water which has leaked out either through the walls of the pipe or through faulty joints.

Therefore, as water leaking from the pipes is actually inducing the growth and penetration of the roots, the lasting answer would be the installation of new lines with permanently sealed joints.

Other solutions are available, too. Your plumbing contractor stocks a special solvent that can be passed through the lines to dissolve the roots. Also, a process may be employed whereby the roots are chopped out and away from the sewer line.

But, as long as water continues to leak from the pipe or joints, the root growth will continue and penetration will recur. It is advisable to consult a competent plumbing contractor to reach the most satisfactory and practical solution. Call the Cleveland Plumbing Information Council for further information (861-3137).

LIKE A SHOT

Caught for speeding through the village, the tourist was carried before the justice of peace and fined \$20. He pulled four \$10 bills from his pocket and threw them on the decrepit rolltop desk.

"Wait a minute!" said the JP. "I said \$20 and you've given me \$40." "I know," said the departing tourist. "Keep it. I aim to get out of this town just as fast as I came in."

Tornado Season Building Up, Toll Expected to Top Average

Washington. — The 1965 tornado season is building inexorably toward a peak in the next couple of months.

Already this month, devastating twisters that swept across Indiana, Wisconsin, Illinois, Michigan, and Ohio left more than 230 dead, and property damage in the millions.

No spot in the United States is immune. That goes for Hawaii and Alaska as well as Texas and Oklahoma. There are no safe hours or months.

Odds are Small

The odds are small that a tornado — described by the weather bureau as "one of the smallest and most dangerous of all storms" — will hit your particular town or township.

The weather bureau has 494 networks organized to report dangerous local storms. It wishes it had more. It wishes, in fact, that every town would set up its own tornado-reporting and warning system.

Says the bureau: "Advance action can save lives..."

"In earlier years," the weather bureau notes, "tornadoes that moved across pastures or open fields, with no damage, may not have been reported. Today, many such fields have become large suburban developments where thousands live."

Tornadoes occur in all states. But the region most "favorable for their formation" is the central United States.

The tornado season reaches a peak in Iowa and Kansas in May and June. From July until January, there is a rapid decline.

The national average is about 240 tornadoes a year, more than half occurring in April, May, and June. With this month's toll, 1965 may well exceed the average. Texas usually has 28 a year.

Other state annual averages include Kansas, 26; Oklahoma, 24; Iowa, 14; Nebraska and Missouri, 12 each; Arkansas, 11; Illinois, 9; Mississippi, Alabama, and Florida, 8 each; Louisiana, Georgia, and Indiana, 7 each; and South Dakota, Minnesota, Wisconsin, and Tennessee, 5 each.

Up to 500 M.P.H.

A tornado is a violent local storm with winds whirling at speeds up to 500 miles an hour. It is recognizable as a rotating funnel-shaped cloud extending toward the ground from a thundercloud.

Its color varies from dirty gray to black. All tornadoes spin like a top. They sound, close up, "like the roaring of hundreds of airplanes." They occur mostly between 3 p.m. and 7 p.m., but can happen at any hour.

Their path is usually 10 to 40 miles long, but there have been 300-mile swipes. The average width is 400 yards, but there have been swaths of more than a mile.

Can Fling Cars

They can uproot trees, fling autos thru the air, destroy strong buildings. So it won't hurt anybody anywhere anytime to think what he should do when the tornado strikes.

Your local weather bureau can supply detailed suggestions. They boil down to:

When a warning comes, seek strong shelter, stay away from windows or open places where flying debris can cut you down, go underground if possible. Says the weather bureau:

"There is no universal protection against tornadoes except underground excavations."

HOUSING ACT OF 1965

H. R. 7984, the Housing and Urban Development Act of 1965, was passed on Wednesday by a vote of 245-169. Prior to this the very controversial section providing rent subsidies won its place in the bill by the narrow margin of six votes — 208-202. Although there are some good points in the housing program, I voted against the rent supplements and could not support the bill on final passage with such a provision in it. On June 29th I spoke on the floor:

"Mr. Chairman, I feel this bill, instead of just dealing with superficial things, serious as they may be — the housing of our people — deals with something infinitely deeper and more serious." I finished with these words, "I am wondering if you are at all aware of the dangers of this new doctrine? Are you quite certain that when you make it possible for a man to feel little if any responsibility for his home, you are not endangering the very foundation stones of our free land? I am wondering also whether such an attitude can hold a real woman's love and earn the respect of children."

Other speakers emphasized the duplications with public housing and the fact that whereas public housing is financed through bond issues carrying an interest rate of 3 1/2 percent, the rent supplement housing must be constructed under FHA rates of 5 1/2 percent. Thus it reflects a surrender to high mortgage interest rates.

It is claimed that this Federal Rent Subsidy is designed to help low income families meet their monthly rent payments, but it will do nothing of the

sort. The power given the Housing Administration to determine income limits, etc. is supreme. Eligibility income limits could run over \$11,000 a year in some localities. Is this low income? If the Administration proposal will not help those in need of help, what will it do? Let me point out a few of its obvious results. Basically the family is the keystone of the arch of the nation. It has been our dream that each family would own its own home. But H.R. 7984 shoves that dream out the window. All incentives for home ownership are abandoned.

Even the most ardent supporters of the "Rent Supplement" proposal admit that it is definitely an experiment. But can we afford a \$3 billion experiment which could well undermine the moral fiber of our people? How long will it take to change us from a nation of homeowners to a nation of subsidized renters? At a time when we need to renew our moral strength and spiritual fiber, is it not tragic for us to take from even a part of our people the consuming need to be responsible? What a way we have come from the time our forefathers carved their homes out of the wilderness with a little more than an ax!

Skitch Henderson Makes Debut With Summer Orchestra July 21, 23, 24

The versatile radio and television personality, Skitch Henderson, will make his debut with The Cleveland Summer Orchestra in three concerts next week — on Wednesday, July 21 with "A Portrait of Richard Rodgers" and on the weekend pair of pops concerts entitled "A Tribute to Irving Berlin." Mr. Henderson will appear as both guest conductor and pianist on all three nights at the air-conditioned Public Auditorium. Soloists for "A Portrait of Richard Rodgers" will be soprano June Valli and baritone William Walker. For "A Tribute to Irving Berlin," Miss Valli will be joined by soprano Michele Lee and baritone Stuart Foster and the Pops Chorus.

Both programs are premiere performances and have been especially arranged by Mr. Henderson, with

his inimitable flair stemming from long familiarity with "show business." The evenings devoted to the music of senior tunesmith Irving Berlin also mark the first time that the composer has authorized full symphonic arrangements of his music.

"A Portrait of Richard Rodgers" will feature Mr. Henderson at the piano in some of Broadway's all-time great songs, "Blue Moon," "Lover," and the classic "Slaughter on Tenth Avenue." Among the famous musicals to be represented are "The Girl Friend," "Connecticut Yankee," "Jumbo," "Babes in Arms," "Pal Joey," "Carousel," "State Fair" and "Oklahoma."
