## Močnejši kot vse sile v preteklosti skupaj!

Združene države so zgradile tako vojaško moč, kot ji ni primere v vsem svetu ne v preteklosti ne v sedanjosti.

NEW LONDON, Conn. — Predsednik L. B. Johnson je v govoru kadetom akademije Obalne straže in kasneje znova ob položitvi gredljah za novo atomsko podmornico v Grotonu dejal, da ameriški oboroženi sili ni primere ne v preteklosti ne v sedanjosti. Če bi združili uničujočo silo vseh bitk v človeški zgodovini, bi bila ta kot mala bombica za umetni ogenj v primeru s Soncem.

Združene države razpolagajo po predsednikovih besedah s tisoč polno oboroženimi in za vzstrel pripravljanimi medcelinskim in Polaris raketami. Sovjetska zveza jih ima veliko manj in nobenih, ki bi jih mogla vzstreliti izpod morske gladine.

Združene države imajo preko tisoč strateških bombnikov, od katerih jih je več opremljenih s posebnimi raketami za napade na zemlji in z raketami za varanje obrambe. Sposobni so doseči katerikoli na zemlji postavljeni cilj. Predsednik je dejal, da je bilo v zadnjih treh letih povečano število divizij za 45% in povečana njihova gibljivost. V Evropi je sedaj 60% več atomskih glav za rakete in od leta 1961 imamo v vojski posebnih skupin za boj proti gverili. Tudi delo na Nike-X raketnem lovcu dobro napreduje in ta bo najuspešnejše obrambno sredstvo proti medcelinskim raketam, kar jih je na razpolago v katerikoli deželi na svetu.

Predsednik Johnson je govoril prepričljivo ne toliko doma, kot v tujini, kot Rusom in Kitajcem, posebno zadnjim, ki nam delajo težave v jugovzhodni Aziji. V koliko je njegovo svarilo bilo uspešno, bodo pokazali prihodnji dnevi in tedni.

### Angleži siti Cipra

LONDON, Vel. Brit. — Duncan Sandys, minister za Skupnost narodov, je dejal v parlamentu, da mora dobiti Velika Britanija zagotovila za svobodnejše nastope čet ZN na Cipru in nov dokaz za to, da so te na otoku res potrebne, pa tudi več dobre volje od prizadetih držav, predno se bo odločila za nadaljnje sodelovanje britanskih čet v sklopu Združenih narodov pri miru na Cipru.

### Zanzibar še vedno na poti v komunizem

LONDON, Vel. Brit. — V vladnih krogih zasledujejo pazljivo razvoj na Zanzibaru, mali republiki ob vzhodno-afriški obali, ki se je povezala pretekli mesec v federacijo s Tanganjiko. Komunikacija vlade, gospodarstva in družbe se nadaljuje in nastal je resen dvom, da bi Tanganjiki uspelo ta razvoj ustaviti.

## Naser kapituliral pred taščami in otroci

KAIRO, Egipt. — Vsak diktator ima svoje muhe, tudi egiptovski Naser. Ko je pred leti napravil prvi načrt za agrarno reformo, je bila v načrt vključena tudi ideja, da v novih vaseh, ki bodo nastale radi agrarne reforme, ne sme biti nobene tašče, dočim smejo imeti družine, ki živijo v teh vaseh, največ po tri otroke.

Ta ideja je bila tudi na poseben način uzakonjena, toda po petih letih se je pokazalo, da je ostala mrtva črka. V novih vaseh niso samo več kot trije otroci v vsaki hiši, ampak tudi tašče so v njih.

## Omejitev prodaje mesa v Argentini

BUENOS AIRES, Arg. — Vlada je omejila prodajo mesa, ker je nastopilo na trgu očitno pomanjkanje. Prav tako je bila uvedena stroga kontrola nad vsem izvozom mesa.

Argentina je znana kot ena največjih izvoznikov goveda in govejega mesa. Zato je sedanje pomanjkanje govedine tem bolj vznemirjajoče.

## Po primarnih volitvah v Kaliforniji

CLEVELAND, O. — Kalifornija je postala največja država v naši deželi, česar se kalifornijski politiki tudi dobro zavedajo. V političnem pogledu je že do sedaj vodila zahodni del dežele, sedaj hoče, da vodi celo deželo. To so pokazale zadnje primarne volitve dosti nazorno vsem tistim, ki tega še niso opazili takrat, ko sta na demokratski strani tekmovala pri primarnih volitvah Stevenson in Kefauver za zaupanje kalifornijskih demokratskih volivcev.

Kalifornija je obenem tudi država izrednih kontrastov, ki deloma izvirajo iz njene pester preteklosti. Še pred 100 leti je bila to pokrajina pustolovcev, ki so podnevi iskali zlato, zvečer pa lovili predpasnike. Ta tradicija je v tem stoletju dobila svoj izraz v Hollywoodski kulturi, ki jo pozna ves svet in jo obenem zelo različno ceni. Kalifornija je država v večnem gibanju, nikjer se ljudje ne selijo tolikokrat kot tam. Strast za premikanjem ustvarja večne

prilike za pomanjkanje ravnovesja, kar se v Kaliforniji kaže na čudne načine. Kalifornija je kraj filmskih zvezd in zvezdnikov (nihče ne ve, katerih je več), obenem tudi kraj, kjer je največ zapuščenih žensk in nezakonskih otrok, pa tudi največ ločitve zakona. Je kraj, kjer je največ pijancev in samomorilcev, pa tudi najbolj nezanesljivih volivcev!

Kalifornijski volivci je nezaupljivi, ne da dosti na stranko, jo menja, kakor se mu zdi. Ne ogleduje kandidatov po njihovi politični sposobnosti, ampak po njihovi odkritosti. Tega marsikateri politik ni pravočasno opazil, zato je tam tudi propadel. To se je zgodilo republikanskemu senatorju Knowlandu, demokratskemu kandidatu Stevensonu in sedaj tudi republikancu Rockefellerju.

Rockefeller ni propadel radi tega, ker se je ločil in zopet poročil, na to so v Kaliforniji že davno pozabili. Njega je pokopala okolnost, da je vzhodni bogataš, politično dete njujorške

## V Juž. Vietnamu imajo težek političen proces

Budistični prenapeteži silijo k obsodbi katoliškega oficirja, ker je krotil budistične demonstrante v času vlade Diema.

SAJGON, Viet. — V mestu Hue, severno od Sajgona, so v maju 1963 demonstrirali budisti proti tedanjemu diktatorju Diemu. Za red in mir je moral skrbeti načelnik province Thien, ki je ta posel prepustil svojemu namestniku majorju Dang Siju, ki je slučajno katoličan. Major je svoje naloge vestno vršil in zatrl demonstracije, ki so se sprevrgle v izgrede. Pri tem je izgubilo življenje devet budističnih demonstrantov. To je bil začetek konca Diemove diktature, pravi konec se pa odigrava ravno sedaj v Hue.

Majorja Dang Sija so postavili pred sodnijo, češ da je on kriv smrti 9 demonstrantov. Major se zagovarja, da je ravnal strogo po navodilu svojega šefa, ki je pa budist. Zato je njegov zagovornik upravičeno zahteval, da pride tudi budist pred sodišče. Sodnik tej zahtevi ni ugodil. Dogodilo se je pa tudi tole: obtoženec je izjavil, da so ga v zaporu silili, naj izjavi, da mu je dal katoliški nadškof v Hue in brat pokojnega diktatorja Diema povelje, naj proti demonstrantom ostro nastopa, kar pa ni res.

Zato je proces hudo razburil katoličane, ki zahtevajo nepristransko preiskavo in objektivno sodno obravnavo. Politični opazovalci v Sajgonu ne morejo razumeti, zakaj si je sedanjí diktatorski režim generala Khanhana nakopal še ta proces na glavo, ko ima vendar že dosti drugih političnih težav.

## Njasa bo priznala Čangkajškovo vlad

SALISBURY, J. Rod. — Njasa je bila sestavni del Osrednje-afriške federacije skupno z Južno in Severno Rodezijo. Ta je propadla in Njasa bo postala 5. julija letos neodvisna država. Zanimivo je, da se je vodnik Njase dr. Banda, ki bo njen prvi predsednik, odločil, da bo priznal Čangkajškovo kitajsko vladno in ne one v Peipingu.

## RUSIJA IN KITAJSKA SE BLIZATA NUJNO PRELOMU

Moskva izjavlja, da v sporu s Kitajsko ne misli popuščati, ker to ne more privedi k edinosti v svetovnem komunističnem gibanju, poziva pa Kitajce, naj se "vrnejo" na skupno komunistično pot. Namignila je, da je tudi vojaško-prijateljska pogodba med obema državama mrtva.

MOSKVA, ZSSR. — Napadi kitajskih komunistov na Sovjetsko zvezo in Sovjetsko komunistično partijo, ščuvanje proti Rusom v svetovnem komunističnem gibanju, mejni spopadi v srednji Aziji na kitajsko-ruskih mejah ter prepričilo o tem so končno privedli spor med obema velikima silama komunističnega bloka h končnemu prelomu. Glavno glasilo Komunistične partije "Pravda" je pozvalo komunistične partije z vsega sveta na posvet, ki naj spor med Peipingom in Moskvo končno odloči. Izvestia, glasilo vlade ZSSR, pa je obhvalilo, da se Kitajska ne drži kitajsko-sovjetskega dogovora o zavezištvu in namignilo, da je ta dogovor tako postal dejansko mrtev.

Clanki v obeh glavnih glasilih povedo, da se je svetovni komunizem udal v neizbežnost razkola in da sta Rusija in Kitajsko odločili hoditi vsaka svojo, lastnim koristim najbližjo pot v mednarodni politiki. Pravda je Kitajsko partijo obdolžila, da stremi po razkolu v svetovnem komunizmu v korist kitajskega nacionalizma, narodne nestrpnosti in želje po osvajanju. Kitajci odgovarjajo Rusom, da se menijo manj za širjenje komunizma, odkar so dosegli malo višjo raven življenja.

Izvestia so preteklo sredo rdeči Kitajski očitala naravnost, da se prav nič ne meni za dogovore z drugimi komunističnimi deželami, da Moskve ne informira o svojih načrtih in akcijah, kot določa to zaveziška pogodba iz leta 1950, in da zmanjšuje gospodarske vezi s komunističnimi deželami, širi pa jih z zahodnimi.

Prelom na partijski ravni  
Proučevalci odnosov v komunističnem bloku trdijo, da je prelom med Rusi in Kitajci na partijski ravni neizbežen. Komunistični partiji obeh dežel in njuna vodnika Hruščev in Mao sta tako daleč v sporu in imata tako različne poglede, da je vsak sporazum nemogoč. Moskva je jasno povedala, da nima namena popuščati in da je edina možnost k spravi — vrnitev Kitajske Komunistične partije na "skupno" linijo. Na kaj takega

v Peipingu niti ne mislijo. Iz pisanja Izvestia izgleda, da je zaveziška pogodba med Moskvo in Peipingom sicer mrtva, da pa bosta obe državi vzdrževali medsebojne diplomatske odnose še dalje, čeprav nemara le na nižji ravni.

## Moskva javno kritizirala pogajanja med Ameriko in Romunijo

LONDON, Ang. — Angleškimi politikom je padlo v oči, da je Moskva komaj par ur potem, ko so v Washingtonu oklicali ugoden zaključek gospodarskih pogajanj med Ameriko in Romunijo, ostro kritizirala "tiste komunistične dežele, ki so se kar na svojo roko obrnile na kapitalistične države za tehnično pomoč in jo potem tudi drago plačale v tujih valutah".

Ker je bila moskovska kritika objavljena samo v radijskih oddajah na poljskem in madžarskem jeziku, je jasno, da je naperjena proti Romuniji in Madžarski, ki je tudi poslala svoj trgovski delegacijo najprej v Kanado, potem bo pa prišla delegacija še v Washington.

To je prva javna moskovska kritika dveh satelitskih vlad, ki iščeta direktne gospodarske zveze s svobodnim svetom. Zaenkrat pove samo to, da v Kremlju s tem niso zadovoljni. Gotovomo bomo pa kmalu dočakali še druge posledice.

## Sadovi odjuge in slovenski kulturni domovi v Trstu

"Kakor v mednarodni politiki, tako se tudi v naši domači politiki kažejo znaki odjuge. Zdi se, da je tudi pri nas manjša napetost med komunističnimi in demokratičnimi organizacijami," piše P. Š. v goriškem "Katoliškem glasu" 28. maja letos, nato pa nadaljuje takole:

Prišlo je menda tako daleč, da se vršijo razgovori med našimi ljudmi in titovci glede skupne uprave kulturnih domov, ki jih je država vrnila "slovenski etnični skupnosti" ali jih gradijo z odškodnino, ki jo je dala država v ta namen.

Kot je znano, je dala država te domove in obljubila odškodnino v dodatnem pismu londonskega sporazuma akcijski družbi "Dom", ki naj bi po mnenju Jugoslavije in Italije predstavljala slovensko etnično skupnost. Ker je to zasebna družba in poleg tega pod nadzorstvom titovskega komunizma, s tem niso bili zadovoljni vsi Slovenci, ki so tudi poslali na pristojna mesta svoje številne pritožbe. Predstavniki titovskih organizacij so bili v zadregi in so predlagali demokratičnim slovenskim organizacijam, da bi se ustanovil skupni upravni odbor vseh Slovencev, ki bi te domove upravljal, kril obratne stroške in sestavljal vsakoletni spored nastopov v teh domovih.

Ta predlog ni bil sprejemljiv, ker je šlo le za skupno upravo, ne pa za lastništvo teh domov. Ena sama politična smer namreč ne more predstavljati vseh Slovencev, ki niso vsi komunisti, zato ne more biti lastnica tega, kar je last vse slovenske etnične skupnosti. Zato so menda lastniki teh domov pristali na morebiten prenos lastnine na novo ustanovo, ki bi predstavljala vse slovensko etnično skupnost, ki bi pa morala nositi stroške tega prenosa. Vse to, ako bi na to pristali obe podpisnici priloge londonskega sporazuma.

S tem pa še niso odstranjene vse težave. Treba je dobro premisliti, preden se sprejme solastništvo z ljudmi, ki so si tako različni po svojem svetovnem naziranju. Sicer so vsi Slovenci, toda komunizem je razklal Slovence v dva velika tabora. Tako se čutijo mnogi Slovenci bliže komunističnim kazakistanskim Mongolom kot skromnim nekomunističnim slovenskim ribičem v Trstu.

Nastalo bi tudi vprašanje, koliko težav lastništva bi imela vsaka skupina. To vprašanje se more rešiti le v okviru državnih zakonov, ki urejajo gospodarske družbe.

Zato vidimo, da želi ob ustanavljanju takih družb vsaka skupina dobiti vsaj 51% akcijski ali zadružnih deležev, da dobi pri upravi odločilno besedo. Kdor dobi manj, ne pomeni nič, je le navidezen solastnik.

Gledališke dvorane so v svojem obratovanju pasivne. Prenos lastnine, ki bi v tem primeru mogla dosegati 600 milijonov lir vrednosti, je združen z visokimi stroški. Ali bi se ti stroški krili z dosedanjimi viri pomoči, ki so jih bile deležne titovske organizacije, ali pa so se morebiti ti viri skoraj popolnoma izsušili? Če velja to poslednje, ali se potem s plača pomagati reševati njih slabo finančno stanje?

Nekaterim se zdi, da bolj odgovarja sedanji stvarnosti, ako bi zahtevale slovenske demokratične organizacije, da se jim dodeli v izključno last le tista hiša, ki še ni bila dodeljena Slovincem in je bila dana v začasno uporabo ustanovi "ENAL", ki pa bo morala zapustiti te prostore tekom tega leta. S tem bi se izognili skupni upravi domov s komunisti in mnogim finančnim bremenom, ki jih naše organizacije ne zmorejo. Seveda imajo nekateri pomislek, kako upravičiti tako rešitev pred našo "mladino", ako bi se zadovoljili s staro podrtjo, namesto da bi stopili v novo razkošno gledališče. Baje že itak vsa mladina sili v levičarsko smer, ker je ondi več razkošja in noblese. Seveda prikazuje taka trditve stvarnost v izkrivljeni obliki. Nihče nam ne ponuja razkošnih sedežev v našo izključno lastnino, temveč bi mogli postati le soupravniki teh objektov, z velikimi težavami in finančnimi žrtvami morda tudi solastniki, toda v tako skromni meri, da bi nam to moglo le malo ali nič koristiti. Če pa se eno skromno omizje ljudi pomika na levo, ne more ta ožitek veljati vsej mladini. In če bi to veljalo, bi bila ta ugotovitev prazna za ves dosednji sistem mladinske vzgoje.

Če ne bomo oprezní, se lahko dogodi, da nas bodo zvičajno izvalili samo k slovenski otvoritveni prireditvi "kulturnega doma" v ulici Petronio, ki bo menda v jeseni. Potem bi ne bila več potrebna nadaljnja pogajanja. Naši titovski prijatelji bi lahko pokazali slovenski javnosti in oblastem: Vidite, sedaj pa smo vsi Slovenci srečno pod enim klobukom!

To bi ne bila najboljša rešitev. Zato je bolje odklanjati tako skupno slovesnost tako dolgo, dokler ne dobimo nekaj otipljivega. Vztrajajmo na svoji zahtevi po pravični odškodnini slovenski etnični skupnosti za nekoč uničene kulturne domove. To odškodnino mora prejeti vsa skupnost, ne samo komunisti

Če pojde kdo prej na skupno slovesno otvoritev v ulico Petronio, je to njegova zasebna zadeva in zadeva kakega ozkega omizja ljudi, ki je bliže titovskemu komunizmu kot demokratičnim Slovincem.

Članek ni samo poučen in zanimiv, v njem izraženo stališče je pomembno tudi za Slovence v ZDA in drugod, kjer se je v zadnjih letih začela kazati "odjuga" v odnosih do titovcev.

Cleveland, O. — V soboto, 6. junija, bosta obhajala zlato poroko Mr. Mihael Weiss in njegova soproga Jožefa, roj. Grdina.

Ženin Mihael Weiss je doma iz vasi Cernik, župnija Velika dolina, na Dolenjskem. V Ameriko je prišel avgusta 1912 k sestri Tereziji Unetič, ki je poslala Mihu vozni listek za v Ameriko.

Nevesta Jožefa, Slugova Pepca, je doma iz Prevalja pod Zalogstno goro, od koder ni niti deset minut hoda do sloveče božjepotne cerkve Marije Sedem žalosti, spadajoče v župnijo Preserje. Od tam je prišlo v Ameriko več Slovencev, med njimi Rev. Kazimir Zakrajšek, ki je julija 1902 pel na Zalostni gori svojo novo mašo. Pod to Zalostno goro je tekla zibelka nevesti in v isti hiši so bili rojeni, poleg očeta Matije, John, Jakob in Anton Grdina, dobro poznani pionirji v Clevelandu.

Starši so dali Pepco tedanji najboljši šivilji v župniji, Ani Petrič, po domače Malnarjevi. Ančki učiti šivanja. Pepca je bila dobra učenka ter je bila potem odlična šivilja. V nadi, da bo doma na Prevalju, so ji očie kupili šivalni stroj in Pepca je šivala vse, dokler ni prišel spomladaj l. 1912 na obisk stric Anton Grdina. Tedaj se je odločila za odhod v Ameriko. Maja 1912 sta šli s stricem Pepca in njena starejša sestra Ančka, ki je bila tedaj pri Končevih v Kamniku. Ko sta dospeli v Cleveland, ni manjkalo snubačev, a sta sklenili, da je za možitev še dosti časa.

Drugo leto bivanja v Clevelandu je dobila Ančka pismo iz Kanade; pisal ji je njen znanec

iz Kamnika, John Žitko, ki je potem, ko je kot dragonar odslužil cesarja Franca Jožefa, prišel v Kanado ter povabil Ančko, da pride v Kanado. Ančka, ki je Johna poznala od mladih let, je dejala: Janeza pa ja ter se odločila za Kanado in se 20. februarja 1914 poročila in tako je tudi ona letos obhajala zlato poroko.

Pepca se je tudi naveličala otepati snubačev ter dala besedo Mihaelu Weissu, ki sta se v soboto, 6. junija 1914, poročila v cerkvi sv. Vida. Kot tovariši jima je bil Feliks Drenik, brat dobro poznanega razvažalca piva Johna Drenika, družica pa Marjanca Petkovšek iz Bevk, sosedne župnije Preserje, zdaj dobro poznana Marjanca Kuhar.

V zakonu se jima je rodilo pet otrok: Miss Josephine, Mrs. Alice Vidmar, Mrs. Helen Nolan ter sinova Mihael in Joseph, ki je pa kmalu po rojstvu umrl. Tako bosta 6. junija, točno na dan, ko sta se poročila, obhajala zlato poroko.

Zjutraj ob 8. uri bo v cerkvi Marijinega Oznanjenja na W. 130 St. in Benington Ave. na West Parku slovesna zahvalna sv. maša; po maši pa zajtrk na domu zlatoporočencev na Kirton Ave. Popoldne bo družinsko slavlje na domu njune hčere Mrs. Edward Vidmar.

Zlatoporočencema iskreno čestitamo ter jima želimo, da dočakata tudi biserno poroko, ter kličemo njima, ki sta tudi narodnika Ameriške Domovine: Na mnoga leta!

## Zlati jubilej zakonskega življenja so slavili

Lake Geneva, Wis. — V nedeljo, 24. maja, so slavili Zupanovi petdesetletnico zakonskega življenja. Jubilanta Mr. Frank Zupan, ki je rodom iz vasi Lešje pri Brezjah na Gorenjskem, in njegova soproga Mrs. Alojzija Zupan (roj. Polajnar), rodom iz vasi Križe pri Trzinu na Gorenjskem, sta obhajala dne 24. maja zlati jubilej zakonskega življenja v krogu družin njunega sina in njunih hčere. Zvabili so jih na presenečen način na dom njunega sina, ki živi s svojo družino v Arlington Hts., Illionis, to je chicaško predmestje, in tam sta se znašla jubilahta sredi družine njunega sina in družine njune hčere, ki pa živi na farmi blizu Richmond, Ill., blizu wisconsinške meje. Navzočih je bilo še nekaj prijateljev in znancev družine in tam so objavili jubilahtoma presenečenje s primernimi čestitkami k redkemu jubileju. Oba jubilanta sta bila vidno ganjena in presenečena. Toda iskrene čestitke in voščila, ki so jih jima izražali in pa izborna za to pripravljena jedaja, ki so jo zalivali z dobrim šampanjcem, je kmalu vse spravila v dobro zlato voljo in vse slavje je potekalo in poteklo kar najlepše v zadovoljnost vseh.

Jubilanta je pred petdesetimi leti povezal in zvezal pokojni nekdanji župnik sv. Štefana v Chicagu, č. g. Anton Sojar, ki je bil rodom iz Šiške pri Ljubljani. Zvezal ju je v zakonski par dobro in močno, da krepko drži že petdeset let in bo, dokler bo Bog jima dovolil bivati na zemlji. To pa bo še precej let, ker oba izgledata še trdna in zdrava, dve pravi trdni gorenjski korenini. Kot taka kmetujeta na

mali farmi v Springfieldu, kake tri milje severno od krasnega jezera Lake Geneva. Oba zdrava obdelujeta farmo in vrtove, ki jima rodijo najboljšo solato, putke pa jima neso najbolj debela jajca in zadovoljno živita na lepem kraju.

Obema želim še dolgo življenje in obilo božjega blagoslova ter mnogo zdravih let, da bi dočakala še biserni in železni jubilej!

Vse to jima želi

## Za borzne posle ima naša dežela še dosti denarja

NEW YORK, N.Y. — Znana Komunikacijska satelitska korporacija je začela živeti vsaj na njujorški borzi. Njeni ustanovitelji so namreč v sporazumu s federalno administracijo, odnosno njenim zaupnikom, vrgli na trg 10 milijonov akcijskih po \$20, kar zneske skupaj \$200,000,000. Toliko začetnega kapitala bo namreč imela nova kompanija. Polovico akcijskih je bilo razdeljenih med 163 kompanij, ki so direktno zainteresirane na poslovanju nove korporacije, drugo polovico so pa postavili na prodajo na njujorški borzi.

Na teh 5 milijonov delnic je bil pravi naval; interesente so dobili samo nekaj odstotkov tega, kar so hoteli kupiti. Borzni posredniki so trdili, da bi bili lahko prodali tudi 500 milijonov delnic, ako bi jih bilo toliko. Vrednost tolikega števila delnic bi znašala \$10 milijonov.

Zanimanje za delnice je bilo izredno veliko v kljub temu, da je prospekt trdil, da podjetje ne bo "nekaj let" moglo plačevati nobene dividende, in da federacija ni prevzela za korporacijo nobenega jamstva katere koli vrste. Računamo, da so nove delnice prišle v roke 500,000 do 1,000,000 delničarjem. Povprečno jih je na vsakega odpadlo po 5-10 komadov.

## Predsedniške volitve v Boliviji potekale mirno

LA PAZ, Boliv. — Sedanji bolivijski predsednik Paz Estenszoro ima med kmeti in s srednjimi stanovi v mestih toliko stalnih privrženecv, da sta njegova tekmeča opustila boj z njim in se odpovedala kandidaturam. Zato so volitve potekale v miru in v redu. Proti Estenszoru so bili samo delavci v kositrovih rudnikih, ki jih vodi znani levičar Lechin in ki je tudi hotel kandidirati za predsednika. Do sedaj je bil podpredsednik. Estenszoro ne mara, to tudi levičarski študentje in komunisti, ki so med volitvami brez uspeha poskušali delati nemire in izgrede.

Estenszoro velja za prijatelja naše dežele, toda ni zmeraj na naši liniji, kar mu nekateri zamerijo. Večina naših politikov pa misli, da moramo z njim biti kar zadovoljni, lahko bi Bolivija dobila še veliko slabšega predsednika. Amerika je do sedaj dajala Boliviji letno kakih \$30 milijonov podpore. Sedaj bo ta znesek podvojen in porabljen v duhu Zveze za napredek. Estenszoro je namreč med redkimi politikom v Latinski Ameriki, ki vzame program Zveze za napredek zares.

## Več avtomobilov prodanih kot kdajkoli prej

DETROIT, Mich. — V letošnjem maju so prodali v Združenih državah 739,083 novih avtomobilov, več kot v katerikoli maju v preteklosti. Samo sedemkrat je bilo doslej v enem mesecu prodanih preko 700,000 novih avtomobilov.

Chevroletov je bilo prodanih v preteklem mesecu 234,027, več kot katerikoli mesec doslej. Letos so prodali doslej tudi več Fordovih avtomobilov kot kdajkoli v enakem razdobju. Tudi Chrysler poroča, da je prodal letos povprečno 7% več avtomobilov kot lani v istem razdobju.

## Manjše družine

Po uradnih podatkih iz Washingtona so začele v zadnjih letih postajati družine v naši deželi manjše, kot so bile v prvem desetletju po drugi svetovni vojni. Tako je bilo na primer v lanskem marcu rojenih 337,000 otrok, letos pa 6,000 manj, najmanj vse od leta 1955. Če pomislimo, da se je v tem času prebivalstvo dežele povečalo za preko 20 milijonov ljudi, je zmanjšanje še bolj čudno.

Trdijo, da so se zakoni pod pritiskom stroškov za šolanje otrok na visokih šolah začeli odločati za manjše družine. Nekdaj je bilo treba računati za študij na univerzi s par tisočaki, sedaj je za to potrebno že \$10,000 ali celo več. To je velika vsota, ki jo starši le težko spravijo skupaj za enega ali dva otroka, kaj šele za štiri ali več. Nekdaj na šolanje niso polagali toliko važnosti, sedaj pa prevladuje prepričanje, da si bo človek brez visokošolske izobrazbe le težko utiral pot skozi življenje.

Nekaj vpliva na zmanjšanje števila novorojenčkov naj bi imela tudi vedno bolj pogosta zaposlitev mladih žena. Prenekateri hodijo redno v službo prva leta zakona, da bi pomagale ustvariti družini trdno finančno osnovo, pa ta prva leta nato podaljšujejo iz leta v leto, dokler ni čas za ustanovitev družine že mimo.

## Ne samo za dom, tudi za javno življenje!

Žena predsednika ZDA L. B. Johnsona je ob graduaciji deklet na srednji šoli v Washingtonu te ta teden pozvala, naj se ne pripravljajo samo za dom, ampak tudi za javno življenje, ker morajo ženske v današnji ameriški družbi prevzeti tudi prenekatero javno nalogo, ki jim je bližja in lažje izvedljiva kot moškim.

## Poročamo se v Ameriki mladi

Povprečno se v naši deželi poroči največ deklet z 18 leti, fantov pa z 21 let. To velja neoziraje se na različne družbene plasti in razrede. Dekleta in

## Johnsonov cilj: Velika družba

WASHINGTON, D.C. — V času predsednika Kennedyja smo govorili o "novih mejah", preko katerih naj bi se raztegnil vpliv ameriške družbe in njenega načina življenja. Predsednik Johnson si je baje postavil za cilj ustvariti novo, veliko družbo kot vzor ameriškega načina življenja.

Program za to veliko družbo bo izdelala predsedniku posebna "delovna" skupina, v kateri bosta med drugimi pisatelj John Steinbeck in zgodovinar J. Frank Dobie. O njem bomo slišali veliko tekom volivne kampanje.

## Videl je svojo osmrtnico

Ko je frizer Hana Tuma iz Beiruta (Libanon), v petek hotel zapreti svoj salon, je nenadoma opazil osmrtnico, ki je oznanjala njegovo smrt. Ko jo je prebral, ga je popadel smrtni strah. Stekel je domov, legel na posteljo in čez nekaj časa v resnici umrl.

Policija je takoj uvedla preiskavo. Izkazalo se je, da so se s frizerjem pošalili trije njegovi najboljši prijatelji. Eden med njimi je bil stavec; ta je sestavil osmrtnico in jo natisnil v enem samem izvodu.

fantje, ki gredo študirat na visoke šole, običajno odlože poroko za čas pa končanem študiju. Tako je za dekleta z visokošolsko izobrazbo povprečna in najobičajnejša starost pri poroki 22 let, pri fantih pa 25 ali 26 let. Nekako eno četrtino visokošolcev in visokošolk se vendar poroči že v času študija, od teh večina v drugem ali tretjem letu.

Dr. L. Ukmar:

## Srčne napake in bolezni srca

(Nadaljevanje)

Streptokoki spuščajajo strupe v krvni obtok, enkrat povzročijo izpuščaj po telesu, ki je poznan pod imenom škrlatinka, drugič pa lahko povzročijo obolenje, ki ga imenujemo akutni sklepni revmatizem (rheumatic fever). Škrlatinka je nevarna za obolenje na ledvicah in sekundarno infekcijo srednjega ušesa in drugih duplin, akutni sklepni revmatizem za obolenje sklepov (le prehodno) in obolenje na srcu. Prav vsak del srca lahko oboli, srčna mišica sama, mrenica, ki pokriva zunanjo površino srca, mrenica notranjih votlin srca in zaklopke (valves) in živčni vod v srcu samem. Ta obolenja so vnetja, oteklina z uničenjem tkiva. Posledice vnetja so brazgotine, ki se krčijo. Srčne zaklopke natečejo, postanejo debele, neelastične in se deformirajo vsled skrčenja v njih, da ne zapirajo več tesno srčnih odprtih, puščajo. Zdravnik sliši pri utripu šum nad zaklopko, nad eno, dvema ali nad vsemi štirimi. Po značaju šuma presodi, če se je zožila še odprtina, ki vodi iz srca v žilo.

Kot vam je znano, skušajo kirurgi za srce popraviti napake na zaklopkah z operacijami. Zoženo odprtino narežejo, da postane s tem širša. Ta operacija je zelo uspešna, le žal, da se odprtina kljub operaciji kar naprej oži, da bi bila potrebna ponovna operacija po kakih treh letih. Prav hudo poškodovane zaklopke nadomestijo s plastičnimi, umetnimi. V novejšem času naredijo novo zaklopko iz stene tankega črevesa. Je to težje delo, pa ta zaklopka je živa, bolj zanesljiva kot je elastična.

Kirurg operira srce le takrat, ko je vsled hiba na srcu življenje človeku onemogočeno. Dokler pa zmore srce delo kljub hibam, ga pusti na miru, le podpira ga z zdravili, če je potrebno. Zalelost s strani bolnika ali kirurga bi bila neupravičena, ker srce le ni avtomobilski motor, kjer izrabljeni del kar odvržeš in ga nadomestiš z novim. Operacije na srcu so še vedno težke in tvegane.

Okvare na živčnem vodju (nerve pathway) so tudi različne, manjše in večje. Mi se izražamo z besedo blok, delni desni ali levi, ali totalni blok. Pri popolnem bijeta zgornja polovica srca in spodnja vsaka za se, brez kake zveze. Spodnja navadno prepočasi, da dobivajo možgani premalo krvi in pada bolnik v nezavest. Z aparatur (pace maker) dajemo spodnji polovici (prekatoma) srca umetne električne impulze, naboje v enakomernih presledkih, da ga pripravimo do enakomernega, hitrejšega bitja.

Srčni bloki niso vedno posledica navedene bolezni, ker vsako vnetje na živčni stezi dovede do prekinitev toka elektrike, pa naj bo to vnetje arteriosklerotične narave ali tuberkulozni ali sifilitični proces ali kak tumor.

Z globoko žalostjo v naših srcih naznanjamo sorodnikom, prijateljem in znanecem, da je dne 16. maja 1964 nenadoma umrla naša ljubljena soproga, mati in stara mati, sestra in tašča,

**FRANCES KOSEC**

Rojena je bila 1. marca 1890. leta v Vodich na Gor. odkoder je prišla v Ameriko 1. 1913.

Pogreb se je vršil 18. maja 1964 iz pogrebnega zavoda Mullaly na East 156. cesti v cerkev sv. Pavla na Chardon Road, kjer je za pokoj njene duše daroval slovesno sveto mašo zadušnico Father Heckman. Potem pa smo njeno truplo prepeljali na pokopališče All Souls in ga tam položili k večnemu počitku v družinsko grobnico.

S tem se iskreno zahvalimo č. g. duhovniku iz St. Ann's Chapel, ki je umirajoči podelil zadnja tolažila sv. vere. Father Heckman sprejmi našo zahvalo za darovano slovesno sv. mašo zadušnico in za molitve, ki jih je opravil v pogrebem zavodu.

Naj dobri Bog povrne vsem, ki so ob oder pokojnice položili tako lepe vence cvetja in ji s tem izkazali svojo ljubezen in spoštovanje; vsem, ki so darovali za sv. maše in druge dobre namene in vsem, ki so dali svoje avtomobile na razpolago za spremstvo na pokopališče. Posebno se zahvaljujemo za cvetje in za maše članom Ohio Gear Co. in uslužbenecem Bailey Meter Company.

Prisrčna hvala vsem, ki so pokojnico prišli kropit, vsem, ki so se udeležili pogrebne svete maše in vsem, ki so jo spremili na pokopališče.

Ljuba žena, draga mati, stara mati, tašča in sestra, počivaj v miru v blagoslovljeni ameriški zemlji in lahka naj Ti bo gruda njena!

Prišli so angeli Gospodovi, sprejeli Tvojo dušo in jo nesli pred obličje Najvišjega. Mi, ki smo ostali, pa žalujemo za Teboj in Te pogrešamo. Tolži pa nas globoka vera, da se bomo enkrat vsi združili in skupaj uživali radosti večnega življenja. Do takrat se Te bomo spominjali z ljubeznijo v naših mislih in molitvah!

## VELIKI JEZ

ROMAN IZ IRSKE

"Ah," sem odgovoril, "ali niso o tem že vsi prepričani?"  
"Se ne."

"Toliko bolje, ker mi bo ta nevednost ljudi pomagala, da pridem v Pariz. Ali mislite, gospod profesor, da je res mogoče priti tja?"

"O tem ne boste prav nič dvomili, če vam na kratko pojasnim naloge tega urada," je rekel profesor. "Tudi jaz sem tam v službi, in sicer v oddelku za diplomatske informacije. Oddelke ima ime po tem, ker mora zbirati vse listine in dokaze, ki jih potrebujejo voditelji naše zunanje politike. Poleg onih, ki preučujejo gospodarsko važnost podatkov, potrebujemo tudi takih, ki nam jih prevajajo. Ali me sedaj razumete?"  
"Pričujem razumevati."

"Urad je star komaj štiri-najst dni. Lahko si mislite, da imamo dovolj prevajalcev za angleščino, nemščino in druge svetovne jezike. Profesor Legras s filozofskega oddelka v Dijonu je naš prevajalec za ruščino. Toda za kavkaška narečja, zlasti za mingrelščino, bi se zelo čutil, če..."

"Tudi jaz," sem nehote pripomnil.

"Priporočam vam gospoda Gerarda," je rekel prijatelj knjižničar. "Nujno je, da pride v Pariz."

"Jaz bom jutri v Parizu," je odvrnil Germain Martin. "Pojutrišnjem bom govoril z gospodi iz zunanjega ministrstva. Ti bodo ukrenili potrebno pri vojaških oblasteh. Če bo šlo vse po sreči, dragi gospod Gerard, upam, da boste v osmih dneh premešeni od štirinajstega oddelka k dvaindvajsetemu. Zelo bom vesel, ko vas bom smel pozdraviti kot svojega tovariša."

Ljubeznivi profesor se je poslovil.

"No, kaj pravite?" je menil knjižničar, ko so se zaprla vrata, "to lahko imenujemo

srečno naključje, ne? ... Vidite, z delom dosežemo vse."

"Vse," sem rekel zamišljeno in opazoval utrujene oči svojega skromnega prijatelja, ki so bile od prehudega dela že kar bolne.

"Da, vse," sem ponovil sam pri sebi, "toda samo tisti, ki svoje delo zna izkoristiti."

Razvajeni sinček lastnika ene največjih naših avtomobilskih tovarn, mladi Vincent Laboulbene, je imel v tiskovnem uradu zavirljiv položaj ordonanca. Spoznal sem ga leta 1811. v Sissonu, kjer sem bil štiri tedne. Nato sem ga še nekajkrat srečal v Parizu. Kadarkoli me je srečal, me je peljal s svojim ropotajočim avtom. Prav dobrodošel mi je bil prihranek denarja, ki bi ga sicer uporabil z vožnjo na podzemski železnici in z avtobusi.

V prvih dneh nove službe me je pozdravil z veselim vzklikom, ko me je spoznal: "Gospod Francois Gerard!"

Takoj je pokazal, da ve, kaj se spodobi. Ker je bilo moje delo skoraj docela diplomatskega značaja, sem smel spati doma in nositi civilno obleko. Mladi Laboulbene je moral kot navaden ordonanc nositi neslavno uniformo vojak iz dvaindvajsetega oddelka. Ni mi treba posebej omenjati, da je bila njegova sivkasto sinja vojaška bluzna mnogo bolj krojena kot pa moja civilna suknja.

Čeprav je sicer zelo prijetni Vincent Laboulbene kazal v svoji izobrazbi naravnost čudovito neznanje, mi je vendar postal kmalu koristen.

Ves ustroj kakega urada nam je kmalu poznan, če vemo, kako je razdeljeno delo v uradu po posameznih oddelkih. Kdor dobro pozna okvir dela, bo kmalu tudi temeljito spoznal stvar samo. S to znanostjo me je seznanil prav Vincent Laboulbene.

Tiskovni urad v ulici Francoisa I. je bil velikanska, razkošno opremljena šestnad-

stropna zgradba. Pisarna za diplomatska obvestila, kjer sem bil zaposlen jaz, je bila v tretjem nadstropju. Ker nisem imel v začetku še nobenega poznanstva, sem bil vedno prej v uradu nego tovariši, ki so bili vsi pomembne osebnosti v književnosti, na vseučilišču in v časnikarstvu. Mladi Laboulbene mi je tedaj vedno delal družico.

"Kako zelo ste se postarali, odkar sem vas zadnjič videl v Sissonu," mi je rekel nekega dne z odkritostjo ljudi, ki zaradi svojega podedovanega bogastva nikdar ne skrivajo svojih misli.

To je pa bilo tudi res. Vse neprijetnosti, skrbi in pa rana, vse to me je tedaj zelo postaralo. Lasje so mi na sencih že kar posiveli. Bil sem podoben petinštiridesetletniku; a tudi med ljudmi teh let bi bil našel koga bolj ohranjenega, kakor sem bil jaz.

Ta zunanost me je res nekoliko motila.

"Bil sem ranjen," sem odgovoril suho.

Vincent Laboulbene me je pogledal s tako ponižnimi očmi, da bi omehečal z njimi celo carinika. Da bi se mu ne zdelo, da sem zanj nedostopen, sem se začel razgovarjati z njim o prijetnih tipkarih, ki so bile v tiskovnem uradu. To je bila snov, ki ga je zelo zanimala.

Ko me je o tej stvari prav natančno poučil, je še pristavil:

"Vendar vam moram reči tole: naravnost sijajno je, da ste v tej starosti edini pri nas, ki zna mingrelščino in ki je napisal že toliko lepih stvari." Zaprl mi je sapo.

Brez dvoma je hotel ordonanc s temi besedami popraviti prejšnjo nerodnost. Končno je bilo le res, kar je pove-

dal. Toda kako bi mogel kdo, ki o književnosti popolnoma nič ni vedel, kakor Vincent Laboulbene, poznati moje književno delovanje? Tem bolj boste lahko razumeli moje začudenje, če dodam, da je v l. 1914. vse moje književno delo bilo v dveh drobnih knjižicah pesmi, ki sem jih izdal. Razen tega sem do tedaj sodeloval z nekaterimi manj pomembnimi kubističnimi prispevki v novem listu Nepravilni šesterokotnik.

Zdelo se mi je, da udara v ta prostor nekaj skrivnostnega. Čutil sem, kako se skrivnost brez šuma plazi med temnim ponoštvom in se dotika železnih pokrovov na pisalnih strojih, ki so ležali na mizah.

Tedaj pa je prišlo nekaj gospodov v sobo za diplomat-

ska obvestila. Vincent Laboulbene se je dostojno umaknil.

Od tega razgovora je poteklo več dni. Laboulbene je bil nekako v zadregi. Zdelo se mi je, da me hoče nekaj vprašati, toda si očitno ni upal.

Nekega dne se pa ni mogel več vzdržati.

Prišel je k meni, vprav ko sem hotel stopiti v dvigalo. Z boječo spoštljivostjo mi je položil roko na ramo.

"Ali bi smel trenutek govoriti z vami, gospod Gerard?"

"Seveda, pojdite z menoj gor. Sedaj še ni nikogar v pi-

## ANTON FEMEĆ

Pokojni je bil rojen dne 21. maja 1894 na Primskovem pri Litiji, Slovenija, Jugoslavija. Tam žaluje za njim sestra Reza Podobnik in njena družina, v Grazu v Avstriji pa brat Alojzij s svojo družino. V Clevelandu je pokojni imel svojo krojaško delavnico.

Pokopali smo ga dne 9. maja 1964. Iz Zeletovega pogrebnege zavoda na St. Clair Ave. smo ga v pogreb. sprevedu prepeljali najprej v župno cerkev sv. Vida, od tam pa na pokopališče Kalvarija, kjer zemski ostanki čakajo Vstajenja.

Rt. Rev. Msgr. Louis Baznik je opravil svete obrede v pogrebem zavodu, daroval slovesno pogrebno sv. mašo, spremljal pokojnega na pokopališče in molil za večno srečo njegove duše ob grobu. Iskreno se mu zahvalimo za vso naklonjenost in veliko duhovno tolažbo.

Iz srca smo hvaležni društvu Slovan št. 3 S.D.Z. za vso počastitev pokojnega člana. Toplo zahvalo izrekamo nosilec krste.

Razposlali smo zahvalne kartice vsem, kolikor smo imeli naslove, če bi kdo pomotoma naše posebne zahvale ne bil dobil, lepo prosimo, naj nam vsak oprost. Sprejmite to skupno, javno zahvalo, ki jo izrekamo prav vsem, ki so očetu pomagali in ga tolažili med dolgo boleznijo, mu izkazali svojo ljubezen in spoštovanje ob slovesu, nam dobrotljivo pomagali in pripomogli, da so bile žalne slovesnosti tako ganljivo lepe.

Ti, o Jezus naš premili,  
zlij na dušo Rečnjo Kri;  
Ti dobrotno se ga usmili,  
raj nebeški mu odpri.

### Furnace Lands

Anyone who dreads the forthcoming summer heat can get a perverse sort of comfort from a United Nations study of life under the Holy Land's blazing sun.

The World Health Organization (WHO) sent a team of experts to investigate survival techniques among the 15 million nomads, oil workers and pilgrims in the furnace lands east of Suez.

At Kuwait, on the Persian Gulf, the doctors found tanker crews seared by temperatures that hit 130 degrees in the shade and 160-plus in the sun. Humidity stood at 90 percent.

Under such conditions, the

doctors noted, "radiation effects include widely varied physical reactions ranging from ordinary sunstroke to acute and sometimes fatal heat prostration."

An adult loses a quart of sweat hourly. Working efficiency drops 30 percent.

To avert or treat heat exhaustion, the WHO team recommended gradual acclimatization, increased salt intake, artificial shade and cold-water sprays or baths. Better yet, the doctors said, is air-conditioning, "a safer method of treatment than one used on a heat-stricken sailor. He was placed in a meat refrigerator!"

### SHORTS ON SPORTS

**Frisco Gate Shows 12,000 Hike Despite Chilly Spring**

In just 23 home dates, the Giants had drawn 436,402 paid customers at Candlestick Park. This is an increase of about 12,000 over the same period in 1963, in spite of U. S. Weather Bureau figures showing San Francisco has had its coldest spring in the seven years the Giants have been here.

"Night-game attendance has shown the biggest fallout, on this account," said Pete Hoffman, Giant ticket manager, adding that the Dodger-Giant series late in June is already almost a sellout.

**Oriole Stockholder Enjoys Trip, But Gets No Dividend**

Lloyd W. Mayhan, the Orioles' minority stockholder from Kansas City who has been clamoring for a dividend from the club for 11 years, was a guest for a series between the Orioles and Athletics, May 19-21.

Mayhan, a tavern owner who periodically provides the Orioles with constructive criticism while demanding a return on his investment, came here at the invitation of the Oriole Advocates, a local booster group.

Though Mayhan claims to own only one share in the club, his wife, Mabel, revealed that it is closer to 200 shares.

While the trip did not produce a dividend, the Orioles did sweep the three-game series.

**Paul Brushes Off Atlanta, Hasn't Been There in '64**

Gabe Paul is getting a little weary of the reports the Indians will move to Oakland, Portland and Atlanta all at the same time.

The Indians' chief was particularly distressed by a recent rumor that he was in Atlanta, where a new stadium is being built and the city fathers claim they have a commitment from a major league club, Paul actually was in White Sulphur Springs, W. Va.

"I haven't been in Atlanta this year," Paul declared. "I haven't even changed planes there. All I know about the stadium project is what I've read in the papers."

### Padua Franciscan High School Receives Grant

The Kulas Foundation recently granted a check of \$5,000 to Padua Franciscan High School for the purchase of a nine-foot concert grand piano. Father Justinian Belitz, O. F. M., head of Padua's music department, received the check covering the cost of the instrument on Wednesday, May 20 and the purchase was made on Friday, May 29.

The concert grand piano, made by the Baldwin Co., will be used at the school for student recitals and other music programs. A plaque will be placed on the new piano attesting the generosity of the Kulas Foundation.

The music department intends to enlist professional musicians to give concerts to the high school students and the general public. These concerts will be considered as part of the General Music Course which is compulsory for all sophomores at Padua. The purpose of this music course is to help all students in a general way to appreciate and foster the arts.

The music department at Padua also features a band and glee club for the more talented students. Soon, the school expects to have piano and organ instruction available.

Padua Franciscan High School is a male college-prep school. At present it is in its third year of operation. The enrollment capacity of the school is close to 1,000 students.

### THE PEACE CORPS:

### Ambassadors in Shirt Sleeves

The Peace Corps means many things to many people. To a starving boy in Peru, it is the American who is helping his father grow more corn. To the girl in the Ivory Coast, it is the teacher who has come from across the ocean to teach her the proper use of English. And to an adolescent youth in the Philippines, the Peace Corps means simply the agriculturist who spends his spare time coaching the baseball team.

Peru, Ivory Coast, the Philippines — there is one similarity: the Peace Corps is always thought of in personal terms. That's because the Peace Corps is a person-to-person program. It is also a volunteer organization. These are two of the distinguishing features of the Peace Corps.

Being a Peace Corps Volunteer is not an easy job. Selection standards are very high, the work is hard, the "pay" is low and living conditions are often difficult.

Today, though, over 7,000 Americans — men and women, young and old — are living in 45 countries, teaching, aiding in community development, helping to build schools, bridges and roads and participating in hundreds of other self-help programs.

Much more important than the construction of physical projects is the "can-do" attitude they are projecting to the people with whom they work. They are succeeding, changing generations-old attitudes. But the new ways come slowly, sometimes imperceptibly.

Peace Corps Volunteers are doing vital work in the developing nations of the world. As they do their jobs, they present a new concept of America to their co-workers and their neighbors. And, they are helping others while participating in a continuing educational experience that will be meaningful for the rest of their lives.

The Volunteers are sometimes accused of being idealists. So they are. But they are idealists with abilities and a will to put their ideas to work. They are idealists who are willing and eager to work — and live — on equal terms with peoples of all races, creeds and cultures.

That's what the Peace Corps is.

### Reduce and Discourage Respiratory Diseases Reason: Danger

Right now, a 1964 Nationwide Respiratory Diseases (RD) Symptom Alert is in effect. Sponsoring agencies are the National Tuberculosis Association and the Anti-Tuberculosis League of Cleveland and Cuyahoga County. Cleveland's Division of Health and Dr. J. Glen Smith, Health Commissioner, are equally concerned about the implications of respiratory diseases. The dangers of shortness of breath and chronic cough cannot be overestimated.

Just some of the many chronic respiratory diseases are:

**Emphysema** — damaged spots in the lungs catch and hold stale air. The damage spreads and breathing becomes labored.

**Respiratory Allergies** — hay fever and asthma are two common allergies that interfere with breathing.

**Chronic Bronchitis** — Inflammation causes steadily increasing damage to lung tissues.

**Fungus Infections** — histoplasmosis and other lung diseases are caused by tiny plant growths.

**Dust Diseases** — constant exposure to certain types of dust can cause diseases such as silicosis.

**Lung Cancer** — fatalities are increasing. Heart disease, including the type caused by breathing difficulties, is also a leading killer.

**Tuberculosis** — over 50,000 new cases are found each year. TB is

contagious. Respiratory diseases may vary in form, but they have one symptom in common: shortness of breath or chronic cough. Heeding these warning signs is doubly important because some of the more serious forms of RD, such as emphysema, are difficult to detect in their early stages.

America's first nationwide alert against the symptoms of RD was conducted last year. The National Tuberculosis Association's slogan was, "If you have chronic cough or shortness of breath, you may have a Respiratory Disease. Don't take chances. See your doctor."

Many people last year did see their doctors, but the message is still vital. 1964 is another year!

This June, the Christmas Seal Association and its affiliate groups will seek to reach an even wider audience with its message that RD symptoms require medical attention. They do. RD — RD — RD should be changed to Respiratory Diseases? Run to Doctor: Reduce Danger.

## Reporting from Washington

FRANCES P. DOLTON • Congressman, 22nd District, Ohio  
450 WOOD OFFICE BUILDING, WASHINGTON 25, D. C.

**SUPPLEMENTAL ASSISTANCE TO VIETNAM.** The House Committee on Foreign Affairs approved unanimously last week the Administration's request for an extra \$125 million to fight the war in Vietnam. This is in addition to the appropriation of about \$500 million already sought by the Administration for programs in Vietnam during the fiscal year starting July 1st.

In a closed session lasting over 3 hours testimony on the war was given by Secretary of State Rusk, Secretary of Defense McNamara, General Maxwell Taylor, Chairman of the Joint Chiefs of Staff, and David Bell, Director of the Agency for International Development.

Many of us have been deeply disturbed about recent events in Vietnam and the added confusion caused by those who first claimed "we were winning" but now say "we are losing". Moreover, recent charges that several American pilots died as a result of obsolete airplanes and faulty helicopter maintenance has generated more dismay and prompted the Armed Services Committee to undertake an investigation.

### CLEVELAND INTERNATIONAL PROGRAM

Once again the City of Cleveland is host to a group of 90 foreign youth leaders and social workers under the auspices of the Cleveland International Program. For three weeks, they will attend workshops in social work at Western Reserve University. For another three weeks, they will attend lectures on American history and culture. They will then spend 10 weeks doing field work with some 70 social agencies. This marks the ninth consecutive year of the Cleveland International Program which was founded and still headed by Henry Illendorff. It is an operation which has contributed greatly to the promotion of mutual understanding between the people of this country and those abroad.

## MECHANICAL QUACKERY

In this space age of satellites and rocket ships it is easy to believe that a machine can do anything — if one can find the right machine.

Medicine, like space science, has its miracle machines. The electrocardiograph, the X-ray, and the fluoroscope in the hands of experienced practitioners have saved millions of lives, both in diagnosis and treatment.

But the real miracles of scientific medical instruments have given the charlatan some new ideas for his fake machines, and made it easier for the public to believe in them. Older people with chronic diseases, especially, are victimized by this type of medical swindle. Here are some of the common types of fake medical gadgets:

### Diagnostic and Treatment Machines

Fake diagnostic machines often look impressive, with dials, flashing lights, flickering needles, charts, and impressive console cabinets. Sometimes they are deliberately designed to look like an X-ray machine, an electrocardiograph, or some other genuine scientific device.

Be wary of the practitioner who has a machine for diagnosing or treating almost any kind of disease simply by turning dials and applying electrical contacts to the body. Such devices are fakes. Your doctor's good judgement and experience is essential to proper diagnosis and treatment. There is no short cut.

### Radiating Devices

Radio waves and other forms of radiations are still a mystery to most of us. We know just enough about medical X-rays and atomic energy to make us gullible for the swindler with a new form of medical "ray." The important facts are: A home-use gadget giving enough radiation to have any medical effect would be very dangerous. And if it doesn't give off enough to have an effect, it's worthless. Either way the customer loses. Effective radiation can be safely used only by the doctor.

### Electricity and Magnetism

Various kinds of fake machines that produce electric shocks or collar "electric belt" demonstrated at old-time county fairs was just as "scientific" as some of the more impressive-looking gadgets in use today. One of these was represented to treat all kinds of diseases by means of electric current passed through the body. Such uses of electricity are worthless for any therapeutic purpose.

### Light and Sound Machines

One of the most infamous and spectacular fake devices—the Spectrochrome—was essentially a machine for shining lights of various colors onto the body. There was a lot of hocus-pocus and ritual to make the process seem very mysterious. Another — the Sonus Film-

The citizens of Cleveland may well be proud of their participation in this excellent program.

### COMPETITIVE EXAMINATION FOR SERVICE ACADEMIES

A preliminary Civil Service examination for the Academies — Annapolis, West Point and the Air Force — will be held in Cleveland on Monday, July 13, 1964. Twenty-second District boys who wish to take the examination should make application by writing to me at Room 450, Cannon House Office Building, Washington, D. C. 20515, as soon as possible. It is on the basis of this examination that I will make the appointments to the academies of those who will enter in June, 1965. Any boys who are residents of the 22nd District are eligible if they will complete their high school work in June, 1965, or before, and will have reached their 17th but not their 22nd birthday by July 1, 1965.

### SCIENCE GUIDE

"Science and Your Career", a new government publication, offers students and their parents a guide as to how much study of science is necessary in high school and college for various careers. Sources of additional information on specific occupations are included. A copy may be obtained by mailing a postal card to: Occupation Outlook Service, Department of Labor, Washington, D. C. 20210.

### A WARNING TO TAXPAYERS

The recently passed tax bill provides for a two-step reduction in rates but the complete lower withholding rate was immediately put into effect by the Internal Revenue Service. With an election coming up, this makes it appear that the tax cut was larger than the amount actually passed. As a result many taxpayers will have to come up with additional payments by April 15, 1965, to make up for present underwithholding. To avoid this taxpayers will have to make arrangements with their employers to withhold a little more from their weekly paychecks.

O-Sonic — applied the electric current from tape recordings of popular music to the surface of the body through moistened pads. "Smoke Gets in Your Eyes" was claimed to cure cancer; "Holiday for Strings" to cure arthritis. They were equally worthless.

### "Air Purifiers" and Negative-Ion Generators

Promotion of so-called "air purifiers" for preventing or treating respiratory infections and other types of diseases is one of today's most prevalent health swindles. Equipment for effective air purification is available, but is far more expensive than the cost of the small units commonly sold in retail stores. These small units do not have sufficient capacity for removing the dust and pollen which may aggravate allergic conditions such as hay fever. No air purifier can truthfully be promoted for treating viral or bacterial diseases such as colds, influenza, pneumonia, tuberculosis, etc.

### Vibrating Devices

These come in all sizes, shapes, and forms such as hand units, pillows, rolling pins, chairs, and even mattresses. The vibration is usually produced by an off-center drive shaft geared to an electric motor. Some have a heating element.

False claims have been made for the effectiveness of vibrators in treating a wide variety of ailments, for reducing weight, for "reconditioning" the figure, or "spot reducing." Nor can vibration cure arthritis, rheumatism, circulatory ailments, or nervous conditions.

### Devices for "Erasing" Father Time's Tracks

Many of these have been taken off the market as cruel hoaxes. One example is the facial stimulator which uses an electrical current to produce muscle contractions. These models claimed to improve face and neck by "erasing" wrinkles, sagging muscles, and bags under the eyes. No machine can turn back the calendar.

## Wildlife Training School

COLUMBUS. — Dale E. Whitesell, chief of the Ohio Division of Wildlife has announced that 17 men have satisfactorily completed the Division Pre-Service Training School and been assigned as game protectors.

Twenty men were originally selected for training but three were unable to successfully complete the rigorous two-month school. There were four weeks of intensive classroom work and four weeks of actual field experience.

The training included fish and game management, law enforcement, wildlife research, public relations, pollution abatement and many other subjects related to wildlife management. Classes were scheduled for 10 hours a day during the classroom phase of the school and 12-hour days were common during the field training period.

Six of the men attending the school were provisional employees who had been temporarily assigned as game protectors for several months but were without benefit of preservice training. They have now returned to their previous assignments. They are: Harold Blackwood, Clark County; Tom Hood, Trumbull County; James Kelly, Columbiana County; Ron Laghin, Preble County; Alex Shartle, Montgomery County, and Eric Rowley, Mahoning County.

The 11 new employees and their assignments are (the first-named area being their former residence): Charles Firestone, N. Lima, Darke County; David Franklyn, Columbus, Greene County; Tom Fulton, Peebles, Brown County; James Classburn, Bidwell, Pike County; William Heath, Wooster, Defiance County; George Hilliard, Cambridge, Adams County; Richard Pierce, Xenia, Fairfield County; Lee Schmied, Blanchester, Clermont County; Paul Wienert, Dayton, Crawford County; William Williams, Shawnee, Jackson County, all game protectors, and Jerry Ladd, Cloverdale, fish management at Oxbow Lake, Defiance County.

Another training school is tentatively scheduled to begin on Aug. 1st and applications are now being accepted. Men between the ages of 21 and 35, weighing not less than 150 pounds and at least five feet, eight inches tall who are high school graduates, may be able to qualify. Those interested should write to Robert Comar, Personnel Officer, Ohio Department of Natural Resources, Ohio Departments Building, Columbus, Ohio, 43215.

## Food or Nutrition Problems? — You Can Dial-A-Dietitian

If you have invited a diabetic to a dinner party and you're wondering if he'll be able to eat the meal you've planned; or can finger sandwiches made of white bread and cream cheese be frozen, you and thousands of other food and nutrition-conscious Clevelanders will be happy to learn that the answers to your questions may be literally at your fingertips.

After June 1 you can get free answers to these and other normal nutrition problems straight from an expert, a member of the Cleveland Dietetic Association. Just "Dial-A-Dietitian" anytime at DI 1-3000. This service will operate seven days a week, twenty-four hours a day.

Cleveland is one of twelve cities across the country that are operating such a program. To mention a few, Denver, Colorado, Detroit, Michigan, Pittsburgh, Pennsylvania, Columbus, Ohio have been successfully providing this service to area residents for a few years.

When you call, what you'll get is an answering service. What you'll do is state your question, name, address and phone number. At the end of the day all questions will go to "Diane Smith" who will call you within 48 hours to give you the answer.

"Diane Smith" really are volunteer members of the Cleveland Dietetic Association who will take daily turns at the phone.

If, by some chance, she can't get you on her day (or the next), at the very latest, she will report to project chairman, Miss Evelyn Paul, Patient Service Coordinator, at University Hospitals of Cleveland, who will keep trying until she reaches you. Actually, Miss Paul will get a duplicate of all questions and a record of all the answers, too, so she and her committee can keep tabs on the project. That is to insure continuity and clarity, so that you will get complete and exact answers to your normal nutrition questions.

Falling under "normal nutrition" are questions on nutrition content of food, food additives, food preparation, standards for adequate diets, food buying, food fads, and feeding various age groups.

"Our aim" says committee member Joan Murphy, who is program director of the Cleveland Dairy Council, "is to provide an authoritative source for information on normal nutrition and do something about the food misinformation that is running rampant in Cleveland."

For example, if you believe that dairy foods cause heart attacks (they don't), brown eggs have less nutritional value than white ones (there is no difference), or that you'll get food poisoning having fish and milk at the same meal (you won't) just Dial-a-Dietitian and let Diane Smith explain why such old wives tales are unfounded.

The service will not supply you with a diet (it will refer you to your doctor for one) although it will give information on the diet you already have.

It won't give medical advice (it will refer you to your doctor or the Academy of Medicine of Cleveland) and "counseling situations are not handled either."

On some questions — such as what the essential foods are that comprise an adequate diet — you might get a booklet, too.

If your question is a real stickler and neither the dietitian's own information nor resource material has the answer, she will refer you to one of the local health agencies, such as the Divisions of Health, Food and Drug Administration, who have agreed to help on the project.

## Peace Corps Test To Be Given On June 13

The Peace Corps has announced that the next nationwide Peace Corps Placement Test is to be given on Saturday, June 13. It will be administered by the U.S. Civil Service Commission in the Main Post Office, W. 3rd & Prospect, at 8:30 a.m.

Plans are being made to train some 1,200 men and women beginning this September and October. Applicants who desire to get into one of these fall training programs should take the June 13 test, the Peace Corps said.

Training takes place at various American colleges and universities, on contract with the Peace Corps, and is generally of about three months duration.

No one is invited to training, however, until he has first sent in a completed Questionnaire and taken the Placement Test. Applicants may obtain Questionnaire forms at most post offices, from college Peace Corps liaison officers, or by writing directly to the Peace Corps, Washington, D. C., 20525. If the completed Questionnaires have not already been mailed to Washington, applicants must submit them to the examiner at the time of the test.

The non-competitive Placement Test, which includes a general aptitude test, takes about one and a half hours to complete. Knowledge of a foreign language is not required, but applicants with a knowledge of Spanish or French should take an additional one hour language achievement test.

There are no passing or failing marks to this Test, and no scores are given the applicants. The results are used, along with the character references and Questionnaires, to determine an applicant's overall qualifications and most appropriate type of overseas assignment.

All applicants to the Peace Corps must be American citizens at least 18 years of age. Married couples may apply if they have no dependents under 18. A college degree is not required.

Those who cannot take the June 13 test should know that subsequent examinations are scheduled for Aug. 8, and for the second Saturday of every month throughout next autumn.

Peace Corps Volunteers are working at hundreds of different kinds of jobs overseas, and applicants who have a desire to serve in the Peace Corps should not rule themselves out because they are not highly skilled specialists. "Let the Peace Corps determine whether you qualify," said Dr. Edwin Henry, Director of Selection.

## Illuminating Scholastic Awards

Nine Greater Cleveland high school students have been presented scholastic awards in engineering by the Cleveland Electric Illuminating Company in cooperation with Fenn College.

In this program, selected high school graduates work at the Illuminating Company and attend evening and summer classes at Fenn. In six years they will have earned bachelor of science degree in engineering.

## 100% DEPENDABLE CROP

Many things in life are like the crops you sow and harvest, and some are more dependable than others. Life insurance is an absolutely dependable crop. The premiums you sow will yield a definite, sure harvest of money for you when you need it, or for your family's protection.

Make sure you have adequate life insurance to harvest.
