Sen. Estes Kefauver
si je svest zmage
v novembru

Prepričan je, da bo nominiran
in tudi izvoljen pri jesenskih
volitvah.

CLEVELAND. — Senator Estes Kefauver, eden izmed demokratičnih predsedniških kandidatov, je izjavil, da je prepričan, da ga bo demokratska konvencija prihodnji mesec nominiral, nakar bo v novembru porazil enega ali drugega republikanskega kandidata — Tafta ali Eisenhowera.

Rekel je, da se njegova stvar boljše razvija kot je pričakoval. Doslej da ima zagotovilo od več kot 300 delegatov, ki so mu obljubili, da bodo glasovali zanj. Za nominacijo je potrebnih 616 glasov.

Senator Kefauver je bil v noči od srede na četrtek v Clevelandu, kamor pa ni prišel iz "čisto političnih namenov," je rekel.

Ana Pauker je bila
baje odvedena k
obračunu v Moskvo

Tako poroča dunajski list na podlagi poročil ljudi, ki so prispevali iz Romunije.

DUNAJ. — Avstrijski časopis *Tages Zeitung* kvotira begune iz Romunije, ki so povedali, da je bila Ana Pauker, znana komunistična oblastnica, ki je imela tudi položaj zunanjega ministra, pred desetimi dnevi odvedena v Moskvo k zasljevanju glede njenega odpada od komunistične linije.

Isti viri poročajo, da je Kremlj ukazal odobritev resolucije romunskih strokovnih unij, ki označuje Ano Pauker kot "sovražno izdajalko in saboterko." Vse to je znan komunistični uvod k njeni dokončni "likvidaciji".

SOVJETSKI PIRATJE ZRAKA

Švedski letali nista bili oboroženi, torej nista mogli streljati na sovjetske letalce, kakor trdi Sovjeti.

STOCKHOLM, Švedska. — Danska se je pridružila svoji sosedovi Švedski ter naročila svojim letalcem, naj streljajo na sovjetske letalce v slučaju, če bi jih slednji napadli.

Obe državi, Švedska in Danska, sta dali s tem razumeti Sovjeti, katere letalci so streljali na dvoje švedskih letal, da se ne bosta dali ustrahovati po Sovjeti in dovolili, da bi postal Baltsko morje Stalinovo jezero.

Švedska je odločno zavrnila sovjetsko oborožbo, da je nenoletalo, na katerem je bilo sedem mož posadke in ki so ga sovjetski letalci v ponedeljek sestrelili, invadiralo sovjetski teritorij in začelo prvo streljati.

Švedska je odgovorila, da sta bili v tem času na poletu samo dve švedski, okorni in veliki Catalina letali, ki sta bili neoboroženi, torej nista mogli streljati na nikogar. Ti dve letali sta proizvajali 120 milj brzine, dočim je proizvajajo sovjetska jet letala 600 milj. Obe ti dve letali sta bili najmanj 15 milj od sovjetskega teritorija.

Eno teh letal je po odsstreljanju zaslinno pristalo na morju ter se pogrenilo. Drugo se je vrnilo na svoje oporišče.

Ob odpoklicu svojih ljudi iz Sofije je jugoslov. vlada izjavila, da je nena potrežljivost z Bolgarijo izčrpana.

S clevelandsko konvencijo je zatonilo sonce amer. socializma

V zadnjih dneh smo bili priča Eden izmed vzrokov njene smrti je v dejstvu, da svojega predsedniškega kandidata, ki ima ta stranka v ameriškem življenju nikoli pognala korenin. Zakaj ne?

Zato, ker je filozofija amerikanizma sama po sebi neke vrste socializem. Socializem obljublja brezrazredno družbo v bodočnosti. Amerikanizem pa uči in trdi, da Amerikanci že imajo tako družbo. Socializem obeta sprostitev produktivnih sil. Amerikanizem pa naglaša, da kaže na dvigajoči se življenjski standard te dežele, kjer nihalki omejitev ekonomski produktivnosti, razen začasnih.

Kakor smo že poročali med dnevnimi novicami, se je vrnila pretekl tened v Clevelandu konvencija socialistične stranke.

NAJBOLJŠA UČENKA

Miss Helen A. Schroif, hčerka Erwin N. Schroif, 2015 S. Hoyne Ave. Chicago, Ill. je 1. junija graduirala na St. Paul Commercial High School v Chicagu. Kot najboljša učenka je dobila dve odlikovanji. Imenovana je z najboljšim uspehom dovršila štirinadstropno višjo šolo za časa svojega bivanja v Avstriji. Mladajočkinji k uspehu čestitamo.

Cetrti julij — dan molitve

WASHINGTON. — Predsednik Truman je odločil, da bodi dan 4. julija — Narodni dan molitve. — "V časih izrednih kriz, ko si prizadevamo utrditi temelje miru, je tem večja potreba molitve," je izjavil predsednik Truman.

Rekel je, da se mu je pričela oglašati vest, ko je videl, kako postopa Sovjetija s svojimi sateliti.

STOCKHOLM, Švedska. — Johan Fritiof Enbom je tukaj procesa proti sebi priznal, da je vohunil za Sovjetijo. Rekel je, da je citiranje njegove vesti preglasila potreba po denarju.

Vest da se mu je pričela oglašati leta 1948, ko je videl, kako postopa Sovjetija s svojimi sateliti v vzhodni Evropi. Toda nazivlje temu je, nerad sicer, oskrboval Sovjetijo z informacijami o švedskih obrambnih napravah proti morebitnemu sovjetskemu napadu skozi Finsko. Dejal je, da ni mogel več izhajati brez onesega denarja, ki mu ga je plačevala Sovjetska zveza. Ž njim vred je na zatožni kopli še šest drugih obtožencev.

Neki državni nameščenec nam je poslal vzorec take kokarde, za katere je moral plačati deset dinarjev. Ta dokaz "ljubezni komunističnega režima do delovnega ljudstva" si more vsakodien ogledati na našem izložbenem oknu.

Rojstvo četvorčkov

WEYMOUTH, Mass. — Mrs. Marion Manning je porodila četvorčke. Zdravnik so izjavili, da so vsa deteta normalna, krepka in lepo razvita. Med četvorčki je ena deklica in trije fantki.

Mati četvorčkov je stara 27 let. — Rojstvo četvorčkov se primeti enkrat na vsakih 620,000 porodov.

To je bila 28. konvencija stranke, na kateri se je zbral manj čno ne zasežejo vlade, kakor je stranke, ki se je tako razboden.

Dokler delavci konvencije so se med seboj prepriali, nato pa so zopet razšli ter se usmerili na polarno, za ljudsko lastništvo.

socializem boril za krajše delovne ure, boljše mezd, starostno pokojnino, za ljudsko lastništvo, ki je naredila socializem nepotrebним. Najbolj pa je pričelo ugašati sonce socializma pod reformami "Novega delala": ustanovitev postav za uravnavanje mezd in delovnih ur; socialna varovalnina; ojačanje unionizma; izčiščevanje tako zveznih rodbin in ko so šest let stare deklice delale po 13 ur na dan v tovarnah za bombaž, delavci pa so zasluzili povprečno \$1.25 za 10- do 12-urno delo.

V prihodnjem desetletju se je socializem silno razbohotil. Leta 1901 je dobil Eugene Debs, ki je kandidiral za predsednika Združenih držav, 84,003 glasove; leta 1912 jih je dobil že 901,873. Unjam se je pričela priznavati njih zahtevo po "radikalnem" 9-

Po ukazu predsednika Rhee-a se je pričela obravnava proti širinajstvom Južnokorejcem

Med obtoženci je sedem članov južnokorejskega parlamenta. — Vsa zadeva se vrši tajno in časnikarjem je zabit.

PUSAN, Koreja. — Po ukazu predsednika Syngman Rhee-a se je pričela tukaj obravnava proti širinajstvom Južnokorejcem, med katerimi je sedem članov parlamenta. Vsi omenjeni so obtoženi, da so sprejemali podkupnino od komunistov in da so kovali zaroto za strmoglavljenje vlade.

Predsednik Rhee se je zelo potrudil, da ostane vsa stvar tajna. Časnikarjem je prepovedano prisostvovati obravnavi. Opazovalcem je prepovedano javiti, kaj se dogaja pri obravnavi; od te prepondevi so izvzete samo njihove vlade, katerim pa morajo poročati samo v šifrah.

Pred spremembo sovjetske zunanje politike?

V Sovjetiji in vseh ostalih komunističnih državah je ena najpomembnejših stvari v političnem življenju "partijska linija." To so pogledi na posamezna politična in gospodarska vprašanja, na upravo, notranjo in zunanjopolitiko, ki jih je vodstvo komunistične partije uzakonilo za vse svoje pravoverne ovčice. O kateremkoli vprašanju boste govorili s katerimkoli komunistom, boste vedno slišali enak odgovor. Vsi vedo eno, vsi so enako poučeni in vsi morajo govoriti enako. Centralni komite misli in odloča za vso stranko. Če boste komunist ali državnemu uslužbencu v komunistični državi stavili kako nenavadno vprašanje, boste le težko dobili odgovor. Ker mu partija ni dala navodila, kaj in kako na to vprašanje odgovoriti, se bo jasnemu odgovoru izognil, da se ne bi slučajno pregrešil zoper "partijsko linijo."

Vse je lepo in enostavno, če se le partijska linija nenašno ne menja, kot je bil n. pr. slučaj l. 1939, ko je Sovjetija sklenila pogodbo o nenapadanju s Hitlerjem. Komunisti so bili tedaj za kratek čas zmedeni po vsem svetu. Toda prišla so nova navodila, nova "partijska linija."

Tudi v dobi po drugi svetovni vojni smo doživeli nekajkrat manjše spremembe "partijske linije," tako ob priliku izključitve Tita iz Kominforme in posebno v zadnjem času v vprašanju nemške oborožitve. Sovjeti, ki so prej ves čas vztrajno nasprotovali kakršnikoli oborožitvi Nemčije, so nenadno spremenili svoje stališče in predlagali sami zedenjenje vse Nemčije v eno državo, ki se ji naj dovoli polna svoboda v vsem, tudi v oboroževanju. Edino, kar po sovjetskem predlogu Nemci ne bi smeli storiti, je zvezra z Zahodom.

Ta zadnji sovjetski obrat je napravil v vrstah francoskih komunistov vsaj začasno malo zmedeo in do neke mere škodoval Partiji v Franciji.

Zadnja leta se Sovjeti in njihova peta kolona po vsem svetu posebno zavzemajo za svetovni mir. Od mirovnega kongresa v Stockholmumu pa vse do zadnjega časa govore sovjetski zastopniki, za njimi pa ponavljajo vsi komunisti, o miroljubni Sovjetski zvezi in o ameriških vojnih hujskih. Komunisti predstavljajo Sovjetijo kot najmilojubnejšo državo sveta, ki nima v mislih nič drugega kot dobrobit in napredek človeštva. V kolikor se oborožuje, dela to le zaradi lastne varnosti in pa zaradi krvolčnosti in bojevitosti ameriških vojnih hujskih. To je trenutno "partijska linija." Amerikanci smo morilci in razbojniki, mi smo prelivali kri nedolžnih komunističnih vojnih ujetnikov na korejskem otoku Koje, ponavljajo iz dneva v dan komunistični propagandisti širom sveta.

"Najinteligentnejši sesalec" v "Prosveti" se sprašuje v enem svojih zadnjih uvodnikov: "Ali so morda ameriške strojnice kosile Korejce in Kitajce kot da bi bili muhe in ne ljudje? Ali ni bilo mogoče na drugačen način umiriti in ukrotiti ujetnike?" Nič pa se ta "najinteligentnejši sesalec" ne vpraša, čemu so se komunistični vojni ujetniki upirali in čemu so morili svoje lastne tovariše — nekomuniste. Huduje se nad "našimi militaristi in politiki," ki kažejo tako skrb za one vojne ujetnike na Koreji, ki se nočijo vrniti v komunistični raj, ker se ne zavzamejo z isto vmeno tudi "za ljudstvo v Španiji, ki trpi pod Francovo fašistično diktaturo." Nič pa ga ne brigajo slovenski rojaki v staro domovini, ki morajo prenašati nasilje komunista Tita in njegovih rabiljev. Tako pisanje smrdi hudo po neki "partijski liniji," kar je pa "najinteligentnejšemu sesalcu" nemara ostalo skrito?

Moskva je zadnji čas premenjala svoje poslanike pri velikih silah. Gregorij Zarubin pojde iz Londona v Washington, sovjetski zastopnik pri vzhodnonemški vladi Gregorij Puškin je odšel domov, njegovo mesto je zavzel Ivan Iličev. Aleksander Panjuškin je dejal, da za vedno zapušča Washington. Določen je, da gre na Kitajsko k Maočetangu. Največje iznenadenje je pa izzvalo imenovanje na mestnika zunanjega ministra Andreja Gromyka za zastopnika v Londonu. Njega smatrajo za enega najpomembnejših mož v sovjetskem zunanjem ministrstvu.

Svetovno časopisje vsestransko ugiblje, kaj naj bi tičalo za temi premestitvami. Nekateri so mnenje, da so to običajne spremembe osebja, ki nimajo nobene zveze z menjavo smeri sovjetske zunanje politike. Večina pa je mnenje, da so te premestitve znak bližajočih se sprememb v sovjetski zunanjosti politiki. Po mnenju teh bodo Sovjeti začeli novo "mirovno ofenzivo."

Gromyko imenovanje naj bi bil znak, da bodo Sovjeti osredotočili svoje napore na Britanijo in jo skušali odtrgati od Združenih držav. V to smer kaže izjava A. Bevanu, voditelja opozicionalnega krila v laboristični stranki. Bevan je namreč povdarił, da naj si Sovjeti nikari ne domislajo, da bodo uspeli razbiti ameriško-britansko sodelovanje.

Gromyko naj bi na nek način skušal okrepliti prav Bevanovo krilo in dobiti novih pripadnikov za neutralnost med Angleži. Sovjeti bodo, kot sodijo nekateri poznavalci razmer, stavili kake nove predloge in ponudbe, ki bodo Angle-

žem kolikor toliko sprejemljive, ki jih pa Amerika odločno odklanja.

V tej zvezi omenjajo Korejo, ki je v zadnjem času povzročila na Angleškekm precej hude krvi, zato je obrambni minister maršal Aleksander tudi odšel tja. Drugi misijo, da bodo Sovjeti poskušali pridobiti Angleže za svojo rešitev nemškega vprašanja.

Če so Bevanove besede iskrene, potem moremo z govorostjo računati, da Gromyko ne bo žel posebnega uspeha.

Naj nastopi v "partijski liniji" in sovjetski zunanjosti politiki kaka sprememba ali ne, eno je gotovo, Sovjetija in njeni zavezniki bodo ostali še vedno zagrizeni nasrotniki svobodnega Zahoda.

Newburške novice

Saj bi se ne ukvarjal takoj danes v nedeljo popoldne s to mojo kavks mašino. Vroče je in procesija me je tudi precej močno opomnila, da nisem več mlad. Pa ker jutri odhajam v moj "stari kraj," v lepo Minnesota, mi ne kaže drugače, kot vvesti se in pisati, da se prav iz dna srca zahvalim vsem, ki so imeli skrb in trud s pripravo za tako veličastno procesijo sv. Rešnjega Telesa.

Vreme je bilo res prav kot nača za slovesnost, kot je procesija sv. Rešnjega Telesa na prostem. Če bi imeli kaj reči pri vremenu, bi bili vsi rekli soncu, naj nas nikar tako goreče ne gleda in višine neba. Pa je hvadnik, prav za prav naša sreča je, da ne moremo pri tem nič; nimamo besede, ali imamo jo prav toliko, kot jo ima ljubljanski škof Anton pri diktatorju Titu. Vroče je bilo, pa je bilo lepo, ker so ljudje tako skrbno vse pripravili. Kapelice so bile krasne. Kužnikova je bila nebeško lepo okinčana. Zaletelova tudi, Štepcova prav tako in zadnja na šolskem dvorišču ravno tako. Iskrena zahvala vsem, ki so delali pri tem. Bog naj jim povrne tisočkrat. Saj Njemu na čast je vsa priprava in vsi krašni oltarčki pred hišami in obcestni kinči. Vse je bilo le izraz naše žive vere v Jezusovo navzočnost v presveti Evharistiji. Pa vse to ni preveč. Saj je On z nami vsak dan in noč skozi vse leto. Prav lepa zahvala tudi vsem, ki so se udeležili procesije, domaćim in onim od drugod. Hvala tudi pričkovalem in veteranom, ki so s streli oddanimi pri vsakem blagoslovu, povečali slovesnost. Bog plačaj vsem skupaj. Slava in čast pa tudi Bogu. Hvaljeno in češeno naj vedno bo presveti

Kaj pa rekli vi, če bi vam kdaj ponujal okusno hrano na krožniku, na katerem je nosil tiki po prej crkneno, že na pol gnilo podgano in krožnika ni poprej osnažil in dobro opral?

Kaj bi vi rekli, če bi kdo prodajal dragocene kamne, pomešane z najgršim blatom, ki si ga more misliti človek?

Kaj pa naj misli pameten človek in ljude, ki naznajo, kdaj se bo darovala sveta maša, v takih gnojnici, kot je "P"? Na eni strani najgrš bogokletno pisanje, zabavljanje čez Boga, vero in Cerkev. Na drugi strani pa oglas, da se bo tegu in tega dne darovala sv. maša za tega in tega. Ali ni to grda nedoslednost?

Kje je pamet takih ljudi? Ali so tako naivni, da misljijo da bodo ljudje rekli: "O saj ta list ni takoj slab. Saj celo maše naznana." Ali pa so tako trčeni, da ne vidijo strašne nedoslednosti in nepravilnosti v takem naznanih? Kaj pa naj misli pameten človek in ljude, ki naznajo, kdaj se bo darovala sveta maša, v takih gnojnici, kot je "P"? Na eni strani najgrš bogokletno pisanje, zabavljanje čez Boga, vero in Cerkev. Na drugi strani pa oglas, da se bo tegu in tega dne darovala sv. maša za tega in tega. Ali ni to grda nedoslednost?

Ko je bil neki Maryknoll brat izgnan iz rdeče Kitajske po trimesečnem zaporu, so ga vprašali, če je bilo hudo v ječi. "Nič hudega ni bilo," je dejal. Saj sem bil med samimi dobrimi ljudmi. Danes so po rdečih zaporih le dobri ljudje.

Šolsko dvorišče je prazno in pusto, ker ni otrok. Meni se zdi, da je v peku prav zato ne neprijetno, ker tam ni otrok, dasi me včasih jezijo, da je le kaj.

Kako je kaj s prodajo delnic za naš automobile? Nekateri so jih prodali že kar po 20 in celo 50 knjizic. Če se boste vti potrudili vsaj toliko, da vsak svoje vzame zase in poleg tega še prouči ali več, potem bo naš carnaval uspešen in nam ne bo treba skrbeti kje bomo dobili denar, da popravimo in prebarvamo šolo in popravimo še drugo. Mi smo vse skozi šli po principu, "a stich in time saves nine."

Ali je vaša družina posvečena presvetemu Srcu Jezusovemu? Če ni, zakaj ni? Jezus je obljubil izredne milosti družinam, ki bi se posvetile njegovemu Srcu. Zakaj? Zato, ker s tem pokazemo našo ljubezen do njega, ki je nekoč tožil sv. Marjeti Alakok: "Glej to srce, ki je ljudi tako zelo ljubilo . . . Svet se je danes v splošnem obrnil v pogubno stran. Če hočemo, da ne bomo v tej povodnji tudi mi potegnjeni s tokom brezbožnosti, se moramo oprijeti. Njega, ki nas za-

v molitvi k nebu nam kipi.

In dñihil bom priprošnje svoje pred vožnjega altarja tron: najlepšo željo, ki gojim jo zate, le Njemu tam izročil bom; najlepša misel, ki to jo poklanjam, ni moja — podaril jo je On.

V spominu troje bo ime ostalo pri njem, ki blaženo je pričuo, kjer posvečeni so spomini, ki čuva jih molitve moč, in kjer ljubeče misli poneso te k Očetu v skrbno varstvo in pomoc.

Nekdo pravi: "Pest zdrave pamet je vredna mernik učenosti." Ali ne vidimo resničnost tega reka vsak dan?

Zdaj bom pa rekel "good bye" za nekaj tednov, če ne še dlje. Ameriški Domovini sem zelo hvaležen, da mi je dala priliko, katero sem izrabil za marsikatera naznala svojim faranom. Mogoče je tu pa tam kako pojasmilo glede verskih zadev kristolito tudi širši javnosti. Tako predrzen pa nisem, da bi menil, da sem s to kolono komu koristil. Sam sebi pač, ker sem se učil. Spoznal sem pa, da človeku v mojih letih ne ostane v glavi skoraj nič. Imel sem pred leti do željo, da bi končno prišel do zmognosti, s katero bi vsaj za preprosto ljudstvo mogel poljudno pisati. Ni mi uspelo. Prav zato sem pa Ameriški Domovini tem bolj hvaležen, da mi ne reka, "takih se ne manjka," in mi odrekla prostor.

Z Bogom, pa zdravi ostanite!

Zahvala

Willard, Wis. — Podpisana se najprisrčnejše zahvala na čast v srednji ujeva vsem, ki so nama pripravili takole lepo presenečenje ob priliki 45-letnice najine poroke.

Na večer dne 30. maja, po majniški pobožnosti sta naši g. father in Mrs. A. Rakovec povabil, načrtovalcev v dvorano, kako bodo preuredili kuhinjo. Niti slutila nisva, kaj so nama pripravili.

Ko sva stopila v dvorano, je bilo v njej zbranih vse polno ljudi, starih in mladih z Willarda in sosednjega Greenwoda. Vsi so nama častitali in voščili še mnogo srečnih, zdravil let. Bilo jih je toliko, da ne bova naševala, ker se bojiva, da bi koga izpuštila. Vsem, posebno pa našim otrokom, ki so s svojimi družinami prihitali od vseh strani, se iz vsega srca zahvaljujeva.

Prisrčna hvala vsem udeležencem za iskrena voščila in lepedarove. Č. g. župnik Avguštin Sveti pa posebna hvala za lep govor. Do solz naju je ganil ta trud Vas vseh, saj ste nama pripravili pravo "ohcet."

Torej še enkrat hvala za vse, Bog naj Vam stotero povrne, midva bova pa tudi skušala, kar bo v najini moči, dokler naju Bog pusti živeti.

Bog vas živi! Hvaležna Mr. in Mrs. Mike Artac.

Sovjetski protest na Dunaju

Kakor je AD 6. pr. m. poročala, je avstrij. zvezni minister za prosveto odpustil graškega vsečiliškega profesorja dr. H. Brandweinerja, ki se je kot pravnik udeležil komisijске preiskave, ki je "ugotovila," da so naša ameriška letala metala bakterije kuge in kolere nad Severno Korejo. Sovjetski zastopnik na Dunaju general Kraslevič je protestiral pri zavezniškem svetu na Dunaju proti odpustitvi prof. dr. Brandweinerja iz drž. službe.

Posebne vrste begunc

Na avstrijsko ozemlje je pribežal A. Fišinger iz Maribora. Ker pa je bil Fišinger 1945. po velikih partizanskih odredov v okolišu Lučan na avstrijskem Štajerskem in je kot tak baje storil več zločinov, so ga avstrij. oblasti zaprl.

Stalne cene? Cela vrsta hrani, ki so na razpolago v državnih trgovinah, spada v seznam predmetov z od države uradno določenimi cenami. Toda oni, ki hoče imeti sveže blago, večjo izbiravo, sveže mesto zmrzljeno meso ali redkežo zelenjavno, se mora potruditi na prosti trg. Ti "svobodni" ali "prosti trgi" so nekaj posebnega.

Tako nam je naslikala življenje naših tovarišev v Moskvi, žena, ki se med razvojem na prosti trgu, da lahko zadovoljne, da nam ni treba živeti tam. Pač pa je prav, da se spomini na to trpinke, kadar se nam zdi, da je naše življenje tu pretežko ali prebridko.

Waukegan, Ill. — Na deseti cesti smo sedeli v taverni. Med seboj smo imeli "moža postave" policaja. Več kakor uro in pol smo opazovali televizen, poslušali radio in zraven srkali pivo, nekateri so požgali grehe po grlu z raznovrstnim žganjem. Pač običajna reč v gostilnah.

Na televiznih in radio imajo kaj pogostoma napete detektivske in druge razne zločinske predstave. In baš o tem smo načeli razgovor: ali to slabo vpliva na otroke, ki vse to gledajo?

Mnenja o tem so različna. Oni, ki te igre in predstave proizvajajo za trg, kajpada zanikavajo na vso moč, da bi to bilo kvarljivo za otroke in mlače ljudi. Ako bi jim to začeli omejevali, bi bil kajpada prizadet njihov business. Celo še trdijo, da je to mladim ljudem, kakor otrokom v pouk in dobro, ker jim kaže grdobo zločinov, da se jim potem tudi pristudijo in se jih vedo bolje ogibati, kakor pa drugače, če bi jih nikoli ne videli.

O tem je sicer težko govoriti, skozi pri roki dobrih zanesljivih podatkov. Zdi se pa človeški pameti in razumu, da će se že otroci igrajo na ulici vedno samo bandite in drugi na druge streljajo z igračarskimi revolverji ali puškami, da se mnogih to veselje prime in ko odraste, če ni moralno prav močan, da bi se znali upirati skušnjavam, ki mlade ljudi kaj rade zapeljavajo k zločinom, da se zateče k zločinom. Nekaterim, ki so takim skušnjavam podvrženi, se še posebno dopade izvršitev "perfektnega zločina," to je, da tako popolno izvrši zločin, da ga

ne odkrijejo. So taki tipi. Požabi pa seveda, da pred "nekom" svojega "perfektnega zločina" ne more skriti, ne zakriti. To je njegova vest, ki se če takoj ne, pa čez dolga leta oglasi.

Policaj je nam povedal, da imajo detektivske o tem veliko dokazilnega materiala, da slabe predstave na televiznih in na radio puščajo na nekaterih mlađih ljudeh kaj slabe utise. Ni dolgo tega, je dejal, ko je neka sodnijska razprava nekje v New Yorku imela izjavo mladega fanta, ki je izvršil napad na nekega trgovca. Prišel je v trgovino, zbiral blago, ravno ko je mislil že trgevec zapreti svoj lokal. Fant se je pomikal bolj in bolj v ozadje trgovine in ko je ure že odbila šest, čas ko zapirajo trgovino, ga je v ozadju udaril, pobil na tla, mu vzel ključ, vrata zaklenil, potem pa ropał in odnesel kar se mu je zdelo primerno. Trgovca so druge dan našli mrtvega v zakljenjeni trgovini. Dolgo časa niso mogli odkriti kdo bi bil to storil. Po kakih šestih mesecih pa dobi neka detektivska agencija telefonski klic, da je nekdo prienesel v čistilnico obleko, ki ima posebno barvo markirane številke na nekem mestu, na katere številke so bile čistilnica prošene naj pazijo, ki jih tvrdka, ki obleke izdeluje odtisne radi tega, da veda po gotovih serijah številk, koliko jih kak trgovec kupi, itd. V dobre poleure so bili že detektivi pri dotičniku, ki je prinesel obleko čistilniku, ki je prinesel obleko čistilniku v čistilnico. Bil je dotični fant, ki je obleko ukradel in zločin izvršil. Pri razpravi pa je povedal potem, da je videl na sličen način v igri na televiziju nekega zločinka, da je na sličen način izvršil zločin. Ostalo mu je v spominu in ko ga je skušnjava zapeljala v njegovem slučaju k zločinu, ga je izvršil, kadar je to pred časom videl v igri. Koliko še drugih takih utisov od takih zločinskih iger ostane utisnjena v duši in srcu takih, ki so zločinom podvrženi, oziroma, ki se jim dopade, če kdo more izvršiti "perfektni zločin" in ga skušajo potem tudi sami izvršiti.

O tej zadci je deljenega mnenja tudi časopisje. Nekateri listi slabe televizijske predstave, kakor igre na radio obsojajo. Drugi zopet trdijo drugače. Tudi časopisi v takih ozihrih silno veliko zagreše. Posebno, kadar na široko pišejo o raznih razporokah in o raznih družinskih šandalih. Kako na široko razni listi opisujejo take škandale. Če so boj mastni in grdi, rajši jih imajo. Krivda pa je seveda na publiku sami, ki to kupuje, čita in požira. Pojdite ob večernih na vlake, poulične kare, ali buse in opazujte. Posebno ženski svet je najprvo na straneh, kjer opisujejo take grde škandale. Mlade dekleta kar požirajo take vesti. Razne igralke v Hollywoodu so vsake kvatre opisane v novih dogodkih. To je za nje najcenejša reklama, ko se piše o njih v njihovih razporočnih slučajih, itd. Zgleda, kakor da si vsaka kar želi takega dogodka, da pride pred široko javnost.

Otok bo zginil v morju

Canberra.—Približno 300 morskih milij južno od Nove Gvineje leži otok Saiba, za katerega preročujejo, da bo zginil v morju. Morske poplavne in strašni viharji ga od decembra do marca neprestano bijejo. Prebivalstvo, približno 1,000 domačinov, živi zelo stisnjeno v eni sami vasi in išče pod strehami zavetja, ko stisne vihar otok, kot kačo gumijasto cev na 10 metrov širine. Nekdanje cvetoče livade je morje že zdavnato pozrlo. Avstraljska vlada pripravlja evakuiranje tega nesrečnega otoka.

Druge vesti:
Letošnjo zimo so po večih krajih narastile vode. Tudi v Michigan jezeru so zapazili, da je voda narastla. Razburkani valovi ob obrežjih so na več krajih naredili tu in tam škodo. Poškodovali so več poslopij in hiš ob obrežjih. O tem je objavil tudi podpolkovnik William Harris iz Detroita, Michigan, svoje strokovno poročilo. On je okrogli armadni inženir za nadzira-

nje vode v Velikih jezerih. Harris navaja, da to ni prvič, da je voda v Velikih jezerih narastla. Odkar se izvaja nadziranje teh voda leta 1860 naprej, je Huron in Michigan jezero, oba sta imela tak dvg vode že 34 krat od tedaj. Lake Erie 16-krat, Superior jezero 5-krat in Ontario jezero trikrat. Podpolkovnik Harris pravi, da ljudje, ki postavljajo kočo in razna poslopja na obrežjih jezer, naj bi se čuvali in naj postavljajo iste v varni oddaljenosti od vode, drugače se izpostavljajo nevernosti. Nekateri trdijo, da se voda iz Michigan jezera odtaka v Chicago reko. Harris pravi, da je to le malenkost. To ne zmanjša dosti vodne visine. Pravi, da v reko odteče okrog 1500 kubičnih čevljev vode na sekundo. Toda množina vode v Michigan jezeru je tako ogromna in na drugi strani dohajajoča, da ako bi ne bilo nobenega dotoka, bi to znižalo višino vode v jezeru v desetih letih komaj za 4 palce. Priporoča pa, da naj se na gotovih mestih, kjer voda udarja v obrežja zgradijo posebne betonske stene, ki bi zadrževali butanje vode.

Vesela vest za našo slovensko javnost v našem okrožju je, da je iz sosedne North Chicago bila dne imenovan za Waukegan Township Supervisorja naš rojak Mr. August Čepon, ki stanuje na 11. cesti in Park Ave., kjer vodi grocerijsko trgovino. Čepon je bil pomožni supervisor od leta 1929 do 1947. On je tudi podpredsednik od National Bank of North Chicago in zelo aktiven na vseh raznih poljih. Čepon je bil imenovan kot naslednik umrlega Carl A. Staben, ki je umrl pred kratkim. Za Slovence je to vsekakor le po priznanje. Township je po naše približno to, kar je pomenilo v starem kraju politična uredba občino. Samo to, da v Združenih državah imajo vsi townshipi določeno teritorialno velikost. Township meri po velikost šestintrideset kv. milij, to je 6 milij široko in 6 milij dolgo ozemlje.

Okraini klerk Garfield R. Leaf je objavil poročilo, ki pravi, da so okraini obdavčevalci dvignili davčno lestvico na zemljišča in domove s \$2.43 na \$2.87 na vsake sto dolarjev vrednosti. To se pravi, da na domove, ki nosijo \$10,000 davčno vrednost, bomo plačali za leto 1952 \$43.50 več davka, kakor smo ga plačali lani. Kam bo vse prilezlo, ko leže vse navzgor?

"Ne misli, hetman, da se bojim. Jaz bi se bil takoj odločil — toda misil sem si; so boljši! A če je tako, tedaj pojdem."

Kaj ste vi? Vi imate glavo in roke, a jaz nimam glave, le srce in sabljo. Enkrat me je ta mati rodila. Vojna mi je mati sestra. Višnoviecki kolje — i jaz bom, on obeša, i jaz bom. A ti, hetman, mi daj dobrih mojcev, ker s črnijo se ne da v Višnovieckim nič opraviti. Tedaj pojdem — jemati gradove, bit, klat, obešati! Na pogibel jim, beloročnim!"

Drugi ataman se je pririnil naprej.

"Jaz s teboj, Maksim!" Bil je ta Puljan.

"I Carnota hadziacki i Hladki mirhorodski in Nošač ostrenški pojdejo s teboj!" je rekel Hmilenicki.

"Pojdemo!" so se oglasili enoglasno, ker jih je Krzivonosov zlegel raznetil in vdahnil vanje poguma.

"Na Jaremo! Na Jaremo!" so zagrmeli glasovi v zboru. "Koji! Kolji!" je ponovilo tovarstvo in za nekaj časa se je posvetovanje izpremenilo v pjančevanje. Polki, ki so bili določeni za Krzivonosa, so pili na smrť. — Saj so tudi šli na smrť. Moloči so to dobro vedeli, a v njihovih srčih že ni bilo strahu. "Enkrat nas je pripravila vrtova, a knez je medtem uničeval na svojo roko. Po uničenju Fohrebišč in kravem krstu, kakršnega je pripravila v petek, soboto in pondeljek do 9. ure zvečer

t rodila," s ponavljali za svojim vojskovodjem in radi tega že niso za nič več skrbeli, kakor navadno pred smrtno. Hmilenicki je dovoljeval vse in podžigal — črn je sledila njihovemu zgledu. Trume so začele peti pesmi v stotisočih glasovih. Vprežni konji so se plazili ter napravljali nepopisene vrednosti, besneči po taboru in dvigajoči oblake prahu.

Gonili so jih s krikom, hruškom in smehom, zmatne čete so se vlačile nad reko, streljale iz samopalov, rinile se in stiskale do stana samega hetmana, ki je naposled velz Jakuboviču, da jih razprši. Začeli so se pobojiti v vrvenje, dokler ni ploha napoldila vseh pod koče in voze.

Zvečer se je na nebu razbesnel vihar. Grom se je valil z enega konca oblakov in drugi, bliksi so osvetljevali vso okolico sedaj z belo, sedaj z redečo svetlobo.

Med bliskom je odhajal iz tabora Krzivonos, na čelu šestdesetih tisoč najboljših, izbranih vojakov in črnri.

XI. Krzivonos je šel tedaj iz Bele cerkve na Skviro in Pohrebišče proti Mahnuvki in, kamor je prišel, so ginili sledovi človeškega življenja. Kdor ni potegnil in njim, je izginil pod nožem. Požigali so celo žito na polju, gozdove in vrtova, a knez je medtem uničeval na svojo roko. Po uničenju Fohrebišč in kravem krstu, kakršnega je pripravila v petek, soboto in pondeljek do 9. ure zvečer

gospod Baranovski Niemirovič, vojska strla še nekaj znatnih čet in obstala s taborom pod Rajgrodom. Že mesec dni je preteklo, ko niso sedli s konji, trud jih je oslabil in smrт jih je zatnatno skrčila.

Treba je bilo se odpočiti, ker roke teh koscev so že oslabele od krvave košnje. Še celo knez je omahoval in premisljal, če ne bi odšel za nekaj časa v mirnejši kraj, da bi se odpočil in pomnožil vojske in posebno konje, ki so bili podobnejši živalskim skeletom nego živim bitjem, saj že mesec dni niso videli živja, zivej le od pohojene travne.

REPATRIATION

To a man, wherever he might wander over the earth, there is always one refuge, one point of returning. It is his home.

A man can no more cut away the ties of his homeland and of his village, and the fields that he remembers than he can cut away his memory or the limbs of his body.

A man will never know another house as he knows the house of his childhood and youth. Where a man is born, there is his home, and there will the roots remain until he dies.

What thing could make a man forswear his home — when a home is all that a man can feel?

That thing is Communism. Of 170,000 prisoners of war in Korea, 100,000 have declared that they will not return to their homes. They have declared that they will forcibly resist repatriation.

This is perhaps the most damning indictment against Communism the world has yet seen. Rarely in history have great groups of soldiers — prisoners — refused to return to their homeland as a result of truce or armistice. Although, at the end of World War II, thousands of Russians committed suicide rather than be forcibly transported back to Russian-held territory.

One cannot fully grasp the practices of terror, fear, reprisal, imposed upon the North Korean and Chinese people by their Communist masters — but they must be horrible beyond belief to make 100,000 men turn their backs upon their homes.

As the Red man was pushed back the

Settlers from Connecticut

settlers flooded into the state in an endless stream.

On March 1st, 1783, there was not a single permanent white settlement in Ohio. Fifteen years later, on March 1st, 1803, Ohio had qualified for statehood. The 60,000 persons necessary to change Ohio from a territory to a state under the terms of the Ordinance of 1787 were living within its boundaries.

Within these fifteen years the Indians had been driven from all but a corner of the state and settlements carved from the wilderness in scores of places.

There were about 15,000 Eries in Ohio before that tribe was annihilated by the savage Iroquois in 1650 — a dense Indian population.

Within half a century after the Eries vanished, thousands of Indians of half a dozen other tribes immigrated to the rich lands between the lake and the river.

Still another half century later — 1750 — and the English traders appeared — then the soldiers and settlers.

This and That from Washington

By Congressman Frances P. Bolton

THE CRITICAL NURSE SHORTAGE. Last Thursday I had the privilege of introducing H.R. 3087, a bill to provide emergency scholarships for newly enrolled nursing trainees, and emergency grants to accredited schools of nursing.

As you know, I have frequently discussed the perilous consequences that can follow in the wake of a nursing shortage. A ward without a staff is like a ship without a crew. It stands lifeless and idle.

The reasons for this nursing shortage are clear enough. It derives in part from the increased demands of both civilian and military hospitals for nurses, and in part from the lack of adequate economic inducement to girls who would like to enter the nursing profession. In these days of high pay in industry, young women who might otherwise choose to become nurses face a difficult choice. The bill that has been introduced seeks to present realistic encouragement to those young women who, if the complete cost of training were not on their shoulders, would choose the nursing field above all other fields.

If this bill passes, then we can be confident that we have taken at least the first step in alleviating a situation which could very well corrode the health of the nation.

GREAT LAKES WATER LEVELS. On the all-important subject of Great Lakes property damage because of high-water levels, the Army Engineers have just released a report which estimates the damage at \$61 million during the past year. Damage to the shore line of Lake Erie amounted to almost \$12 million.

Our sincere thanks to all the girls who participated — and also to our excellent entertainers who gave up their precious time in order to help us along in our work. They include our well-known American Slovene Radio Quartette or known to many as "Four Steps of Harmony" — The Melo Tones Orchestra headed by Dave Telban, who provided the music for dancing — our own pianist, Eleanor Karlinger who started us all off with community singing, after which it was easy to carry on for the rest of the evening.

Then there was Mrs. Kloep, and Mrs. Kosh who gave us a big hand throughout the evening wherever possible. Once again, sincere thanks to all.

A Trip to Sunny California

Recently, Mrs. Anna Rode of 6310 Carl Ave., and her daughter Florence, made a trip to Los Angeles, Calif., where she visited her married daughter, Jennie Habic. As this was a good chance to see more of California, she also stopped at the Slovenian Home in Fontana, California, where she was greeted by Mr. Jack Turk, his son Frank, and other Slovenian people.

Actually the one item missing from a possible Tribe coming-out party is a little batting assistance behind their ace pitcher, Bob Lemon who has already clinched the title of Hardluck Hurler of 1952.

During the first third of the current campaign, the Cleveland sinker-ball specialist held heir to an even dozen starts and, with better defensive support and a normal

batting attack behind him, could conceivably be 12 and 0 instead of an almost unbelievable 5 and 6. In that period he worked a fraction more than 106 innings and allowed an average of exactly 2.39 earned runs per game, a figure which becomes little short of brilliant when it is realized that not since 1946 has the American League ERA leader finished with a lower one.

Yet, despite that remarkably stingy yield, Lemon's won and lost record is well below that of more than a score of characters named Joe. Actually, with the support he's gotten, it's something of a miracle that he's managed to win as many as five games. Two of them came by 1-0 scores while a third required a 9th inning rally before he came out on top 32.

But at least those were victories! Tough as they were, they were nothing compared to some of his defeats. Who else in the majors has pitched three 4-hitters and failed to win any of them? Yet that's just what happened to Lemon. Two of them he lost by 1-0 and 2-0 counts while, in the third he'd been yanked for a pinch hitter before the Indians managed a victory in extra innings. Not as dreary, but equally disappointing were a 2-1 defeat in 13 innings, a 3-2 setback on a pair of boots and a 6-4 loss when his relief gave up a homer with two men on.

In one stretch of 55 innings, the equivalent of more than six full games, his teammates combined futilely for a microscopic total of just seven runs. Still, as the fine competitor he is, he made 5 of those runs stand up for three victories.

What the Cleveland Indians really need to get rolling again is nothing stronger than Lemon-aid. And we don't mean the beverage!
