Peking in Saigon se prepirala o otočju

Peking je izjavil, da je Paraceljsko otočje v Južnem Kitajskem morju njegovo, Saigon izjavlja, da je del Južnega Vietnamova.

SAIGON, J. Viet. — V Južnem Kitajskem morju leži nekako enako oddaljeno od južno-vietnamske obale in od obale kitajskega otoka Hajnan Paraceljsko otočje, grebeni koral, ki so neposeljeni. Le od časa do časa se je na otočju oglašila kaka južnovietnamska ladja. Otočje samo po sebi nima posebne vrednosti, je pa njegova okolica menda bogata na ribah.

Južni Vietnam trdi, da otoče pripada njemu, ker so ga Vietnanci leta 1802 odkrili in je tuudi geografsko del Indokitajskega polotoka. Kitajska uradna poročalna služba je zadnjih soboto izjavila, da si Južni Vietnam otoče nezakonito lasti, ker da je "nesporno" kitajsko. Na otoku se je izkralo 18 kitajskih ribičev, ki so pripeljali tja v spremstvu dveh kitajskih topničark.

Južni Vietnanci imajo menda na enem izmed otokov malo vojaško posadko, pri otočju pa je skupina južnovietnamskih vojnih ladij, ki pazljivo sledi kitajskim topničarkam. Za enkrat se zdi, da nobena stran nima nameri spor zaostri.

Agencija za varovanje ekolja proti velikim avtomobilom

WASHINGTON, D.C. — Zvezna agencija za varovanje okolja bo predložila poseben zakon, kot je dejal njen načelnik R. E. Train, ki bo zahteval od avtomobilske industrije, da naj građi avtomobile z manj konjskimi silami, ki bodo rabili manj gasolina.

Tako naj bi avtomobili letnika 1977 ne smeli povprečno napraviti manj kot 13.5 milij na galon gasolina, ko je sedanje povprečje za ameriške avtomobile 11 milij na galon.

Znanega Kirovega baleta ne bo na gostovanje v ZDA

NEW YORK, N.Y. — Vse je bilo že dogovorjeno, da bo v okviru "kulturne izmenjave" prišel gostovat v ZDA slavni Kirov balet iz Leningrada. Sedaj je to gostovanje odpovedano od strani organizatorja ZDA.

Ta je sporočil v Leningrad, da "ne more dobiti od nobene družbe letala" ki bi celotno skupino prevažalo tekom gostovanja. Dejansko naj bi bil vzrok v prepovedi izselitvi iz Israela do nedavno najbolj znanih plesalcev tega baleta Valerija in Galine Panov.

Britanija bo preživelala

Predsednik vlade E. Heath je pred diplomatskimi dopisniki dejal, da bo Velika Britanija preživelala sedanjo krizo.

LONDON, Vel. Brit. — Predsednik vlade Edward Heath je dejal diplomatskim dopisnikom, "maj nič ne dvomijo, kajti Britanija bo sedanjo krizo preživila" in razvila sredstva, ki jih bodo pomagala do nove trdnosti. Po ročevalci, ki so bili zbrani na malici, bi bili radi govorili o vladnih volitvenih načrtih, pa je Heath razgovor o tem odklonil.

E. Heath je že preje objavil, da se bo ponovno sestal z vodniki delavskih unij — Trades Union Congress, ki so se zavezali, da unije ne bodo izrabile morebitnega sporazuma s premogarji za vzrok zahtev drugih unij po višjih plačah. Vlada odklanja prekomerne zahteve premogarjev s trditvijo, da bi njihov sprejem pomenil polom njenega boja proti inflaciji.

Ko so se odnosi med vlado in unijami začeli, govorijo vsi o verjetnosti novih volitev. Te naslovili, ki bodo rabili manj gasolina, ko je sedanje povprečje za njo zvezanega 3-dnevne dela delovnega tedna.

SPORAZUM O ODMIKU ČET DOSEŽEN IN PODPISAN

Po izrednem naporu ameriškega državnega tajnika, ki je ves teden potoval med Asvanom in Jeruzalemom, je bil končno včeraj dosežen sporazum o odmiku izraelskih in egiptskih čet na področju Sueškega prekopa. Danes opoldne je bil podpisani pri kilometru 101. na cesti Kairo-Suez. Opozicija v Izraelu protestira.

WASHINGTON, D.C. — Včeraj popoldne je sam predsednik ZDA Richard Nixon objavil, da je bil dosežen sporazum med Egiptom in Izraelom o odmiku njihovih oboroženih sil na področju Sueškega prekopa v okviru odločitev ženevske konference. Povedal je, da bo sporazum danes opoldne podpisani pri kilometru 101. na cesti Kairo-Suez, kjer so se vršili pod pokroviteljstvom ZN vojaški razgovori med predstavniki Izraela in Egipta. Predsednik Nixon je dejal, da so ZDA "lahko ponosne na vlogo, ki jo je igrala pri tem naša vlada in posebno državni tajnik Kissinger". V telefonskem razgovoru je čestital nato Nixon vodnikom Egipta in Izraela k državniškemu postopanju. Dejal je, da išče ZDA dobre odnose z vsemi državami na Srednjem vzhodu.

varnost pred nenadnim vojaškim napadom.

V okviru določil sporazuma se bodo izraelske čete v teku 40 dni umaknile od Sueškega prekopa kakih 20 milij v notranjost Sinajskega polotoka, pa obdržale pod svojim nadzorom prehode Mitla in Giddi, ki vodijo iz notranjosti proti Sueškemu prekopu. Na ta način bodo obvladovale vse dohode od vzhodne strani. Egipt bo omaknil večji del svojega vojaštva z vzhodnega brega prekopa, prav tako tudi z malo izjemno vse težko orožje. Tudi na zahodnem tragu bo omaknil vse težko orožje v rakete iz 8 milij širke obalnega pasu. Ta odmik naj bi pustil izraelske nove položaje izven topovskega in raketnega doseganja egiptskih oboroženih sil.

Sporazum je bil podpisani danes opoldne po krajevnem času ob 6. zjutraj po clevelandskem v Egiptu pri kilometru 101. na cesti Kairo-Suez, kjer so se vršili razgovori med vojaški predstavniki Egipta in Izraela o izpolnitvi resolucij ZN o premirju po koncu oktobrske vojne. Sporazum sta podpisala načelnika glavnih stanov bbojih oboroženih sil. Preje sta ga podpisala že tudi predsednik Egipta Sadat in predsednika vlade Izraela Golda Meir. Sporazum ima svoj tajni dodatek, ki je precej širši od sporazuma. Dodatek sega preko izključno vojaških določil o odmiku čet na odprtja Sueškega prekopa, prometa po njeni na jamstva za obojestransko.

Tudi Izrael bo glavnino svojih sil umaknil dalje v notranjost in imel v širšem pasu prednjih položajev le šibke vojaške sile brez težkega orožja. Med položaji oboroženih sil obeh strani bo demilitarizirano področje pod nadzorom če Združenih narodov.

Kissinger bo obiskal še Jordanijo in Sirijo, kjer bo skušal pripraviti vse potrebo tudi za odmik čet med Izraelom in Sirijo. Po razgovorih v Damasku v nedeljo se bo ameriški državni tajnik predvidoma vrnil domov.

Namestnik egiptskega zunanjega ministra je izrazil zadovoljstvo Egipta nad sporazumom, pa pripomnil, da je to čisto vojaški dogovor in da se bodo prava pogajanja šele začela. Izraelski zunanjji minister Abba Eban je dejal, da je sedanjih sporazumih šele prvi korak, pa je vendar vsaj začetek, ki je odpril vrata do pogajanj o splošnem sporazumu, ki naj pomiri Srednji vzhod.

Francija je sklenila s Savdsko Arabijo dogovor o dobari večjih količin olja v zamezo za orožje. Slično kupcijsko bili rali napravili Angleži s Savdijo, ja tudi z drugimi državami ob Perzijskem zalivu. Zahodni Nemci bi radi dobili savdsko in drugo arabsko olje za svoje industrijske proekte in za tehnično pomoč. Arabci ne potrebujejo toliko orožja in ne toliko drugega industrijskega blaga.

Nekateri gospodarski strokovnjaki menijo, da položajni tako obupen, da se bo rešitev brez dvoma našla v verjetno dosteni preje, kot pričakujemo. Če se bodo industrijsko razvite države na konferenci, ki jo je sklical Nixon v Washington na 11. februarja, sporazumele za skupni nastop proti državam izvoznicam olja, utegnejo doseči ne le zanesljivo dohavo olja, ampak

V vsem tem je precej resnice, vprašanje je le, če je možno računati na stvarno in trenutno presojo arabskih vodnikov, ki so se zagrizli v spor z Izraelom in spoznali, da je bila njihova oljna politika do slej tako uspešna. Bodo znali o pravem času nehati podirati gospodarsko trdnost svobodnega sveta, katerega del so sami, kot je izjavil iranski šah?

CHICAGO, Ill. — Stephen Buy, 14 let stari bivši šolar, je včeraj stopil v Barton osnovno šolo na 7650 S. Wolcott St. in začel streljati iz dveh revolverjev. Smrtno je bil zadet šolski upravitelj Rudolph Jezek, ranjeni pa so bili še 3 drugi. Sodijo, da je bil fant jezen, ker so ga za kazen prestavili iz Barton šole v Moseley Social Adjustment Center.

Moral mu je pomagati v zemljiškem uradu, da deleža, ki ga je zapustil Erik Foss, niso dali nikomur drugemu. Dobiti ga je moral Anders zastonj kot homestead land, ko bo star eno in dvajset let, potem je moral dobiti še en delež kot preeemption land, in tako je imel Kal štiri deleže v rokah. In potem pride še Pavlina. Tako ko bo stara eno in dvajset let, ima

PETNAJSTE OBLETNICE SMRTI MOJE LJUBLJENE IN NIKDAR POZABLJENE ZLATE MAMICE IN STARE MAMICE

Tereza (Rozie) Tillinger

ki je zatisnila svoje mile oči
dne 18. januarja 1959

Petnajst dolgih let je minilo, odkar so Te odnesli od hiše in Tvoja hči si še vedno solze briše.

Črna zemlja Te pokriva, ran izbrisal ni še čas. Globoko žalostni smo vsi, ker Tebe več med nami ni. Utihnil glas je Tvoj premili a trajni ostali so spomini.

Zaluboči ostali:

Tvoja hči ELČI
FRANK KUHAR, zet
FRANKIE, vnuk

Euclid, O. 18. januarja 1974.

tukaj se ne bo nikoli poročil. Poročil? Ponoči leži in se vidi kot starega samca. Ali ne bo imeli nikoli sina, ki bo podedoval nekaj velikega po svojem očetu? Čemu se trudi? Za Kvidal v stari domovini ali za tukajšnji Kvidal? O, kmalu se ni več upal izpraševati Simena o domu. Ko je tako resnično oživel pred njim, je odkril v sebi neki globlji glas. Tam ni bila več samo borba za denar, za konje, stroje, za vedno več zemlje, za vedno večje blagostanje, ne, tam je bil praznik. Zdela se mu je, kakor da zvoni in doni v njem zvon in prebuja praznične moči. Tukaj je bil hlapec zemlje in dolarja, na Kvidalu pa bo spet clovek, tja mora priti. Ali je bil zares celih sedem let z doma? Ali je mati zdaj že osivela? Letos bo lahko poslal večjo vsoto domov, sto dolarjev, če bi le kaj zaledlo. Vzdihnil je. Seveda, če bo zidal hišo, ne more biti govor o konjih. Simen ga stane nekoliko dolarjev na mesec. Kaj, če bi se od vsega odtrgal in se vrnil domov?

Zdaj pa so zahtevali ljudje tukaj stalnega župnika. Občinski biva tukaj ob divjini, samo vzeti jim je treba. Tem ljudem se nabira. Oni jadrajo mimo Mortena. In Kal nima drugega čistihlepa na tem svetu, kakor orati ledino. Po glavi mu strašijo samo njive in njive brez konca. Doma mu je bilo takoj skopko odmerjeno, zdaj bi najrajši ves svet spremenič v njive in hrano. Ali ni bil premeten letos spomlad, ko si je kupil še par volov. Zdaj lahko dan za danem orje ledino na drugem deležu zemlje, medtem ko Anders s štirimi drugimi vozi žito v mestu.

Zdaj pa so zahtevali ljudje tukaj stalnega župnika. Občinski

kopici, kar je moralo nekega dne udariti na dan. Mimo nje? Mimo Mortena Kvidala?

Ali ni Erik Foss sanjal o mestu tukaj v divjini in prerokoval kup zlata tistem, na cigar zemljišč bo nekoč nastalo? Kje bo to, Morten? Skrb, da bo tisti kos zemlje tvoja last, Morten, potem bodo videli Kal in vsi drugi.

In obenem, ko so mu te misli polnole glavo, ga je mučilo domotožje. Vselej, kadar sta z bratom bila skupaj pri jedi, ali pa ob nedeljah, sta govorila o materi in Kvidalu in o starih znancih. Morten je spraševal in spraševal. Kako se godi temu in onemu? Ali so tam in tam zgradili nove hiše? Kdo od njegovih tovaršev je poročen in s kom? Začutil je spet vonj po morju, spominjal se je gričev in fjordov in jadrnic. Prav zbolel je od hrepenenja, da bi vse to spet videl. In ali je tam še kaj mladih deklet? Kaj ga brigajo mlađa dekleta, če se nekega dne ne vrne in jih ne vidi? Tukaj—

MISIJONSKA SREČANJA IN POMENKI

190. Tudi o. Tomažin si želi med nas.

Pred leti je kot bogoslovec iz zatonu svojega življenja na tem Argentine odšel v Indijo, kjer je svetu v decembru. V AD je bil jezuitski misijonar Lovro Tomažin bil posvečen v mašnika in se je istočasno lepo spopolnil v angleščini, da je lažje zastavil v zambijskem misijonu, med katerega pionirje spada tudi on. Sam sem vsakemu našemu misijonarju v pionirki večkrat zadnja leta, s pomočjo od naše MZA, poslal prošnjo, da nam dajo malo več osebnih podatkov in fotografij za MSIP. O. Lovro jih še ni nikdar poslal. V KM pa je bilo o njegovi poti pred leti objavljeno vse najvažnejše. Še v Indiji je obljubil z MZA sodelovati. Njegova mati vsako leto iz Argentine pošle znamke in njegova sestra karmeličanka jih rada iz njihovega samostana vedno kaj doda ter zvesto za naše sodelovanje in misijonarje moli.

22. decembra 1973 se je oglasil o. Lovro iz Buenos Airesa s temi vrsticami:

"Obilo božjega blagoslova Vam želim za Božič in v novem letu! 19. t. m. sem prispel v Argentino na poti v Rim, kjer bom marca začel 'tretjo probacio', kot je v jezuitskem redu na programu. Tja grede bi se rad ustavil tudi v U.S.A., če se bo dobil kak dobrotnik, da mi plača razliko za vožnjo. Upam, da se bo in tako je upanje, da se koncem februarja ali v začetku marca vidimo in se kaj pogovorimo."

Vaše lepo pismo, ki ste mi ga poslali preko g. Janeza Prosena, sem dobil in se Vam zanj iskreno zahvaljujem, kakor tudi za vse mnoge in bogate pošiljke. Bog Vam plačaj za toliko ljubezen do misijonarjev in mi oprostite, da Vam nisem pisal. Priporočite me vsem misijonskim prijateljem v molitev, se jim zahvalite in jih lepo pozdravite. Iskreno pozdravlja Vas L. Tomažin S.J."

Trenutni njegov naslov v Argentini je: Ramon L. Falcon 4158, Buenos Aires. Vsak ga lahko na njem doseže, ako mu piše kmalu. MZA sodelavci in pionirje bodo srečanja z njim zelo veseli. Njim lahko vsak omeni, ali pa meni sporoči, da si o. T. želi. Mu bomo od časa do časa pisali, dokler ne pride na naš kontinent, koncem februarja oz. v marcu. Tako ob prejemu pisma sem v telefoničnem razgovoru z našim pionirjem Prosenom v Clevelandu govoril. Sta rojaka iz Krke na Dolenjskem, iz iste fare doma. Menda ima o. T. tudi sorodstvo v Clevelandu. Ob takih prilikah sorodniki navadno misijonarju gredo na roko in upamo, da bo o. T. deležen njihove ljubezni, ko pride med nas.

Nekaj lepih misli o misijonarju Tomažinu in njegovem pionirskem delu iz Zambije same pa drugič. Dobrodošel med nami, dragi o. Lovro! MZA molim in Vas pričakujem zagotovo. Tudi stroške oz. razliko v stroških za potovanje bo MZA v celoti prevzela, če bo treba.

Turk sees 5 crisis years

Edmund Turk, Public Utilities Commission Chairman of Ohio said it will take up to five years before the oil energy crisis is abated. He spoke last Sunday before a large turnout of 500 parishioners of St. Vitus Parish Family Communion-Breakfast.

'BEST PARTY EVER' SAYS WATERLOO DOM

The New Year, 1974, was greeted by a happy and congenial crowd at the Slovenian Workmen's Home on Waterloo Road.

The Directors of the Home wish to thank all who attended and those who helped in any way to make it the best party ever.

Special thanks are extended to the Ladies Auxiliary who prepared the delicious buffet, Mrs. Ivanka Kapel for making the delightful centerpieces, Ann Kristoff for her donation of the afghan which, incidentally, was won by Vida Zak and to the Jerry Kulka-Kenny Zagar orchestra for the superb dance music.

Our appreciation also to Mr. and Mrs. Tony Zagar for hosting a large party of friends as well as to the radio hosts who helped promote the event.

EUCLID PENSIONERS PLAN BIG BANQUET AT RECHER FEB. 9TH

By AL SAJECIC
With an active membership of over 750 members, it was very exhilarating to see more than 300 members at our meeting on Jan. 3. More than 400 members had attended our annual meeting in December so our club is enjoying a fantastic turnout percentage-wise.

Krist Stokel, who was the one and only President for 13 years but was forced to decline any office due to health reasons, spoke his swan song of the growth of the Club from 42 to more than 750 members. He then introduced the new officers and wished all well in the coming years.

Our new President, Joe Birk, emphasized that in numbers we have strength, and that with our strength in numbers our Resolutions (through our Federation of Slovenian Pensioners Clubs) cannot but help to influence our elected Senators and Congressmen, especially because Slovenes have NEVER begged for anything.

He promised to use a "common sense" approach in the conducting of our meetings to build our future.

Our 1st Vice President, John

gy crisis is abated, since there will be conversion to other fuels, such as coal, nuclear power etc.

Also surprisingly, Ohio is the fourth largest consumer of energy in the country of all 50 states. The trucking industry alone uses a staggering 2.6 billion gallons of diesel oil.

He also remarked that of all the energy used in the U.S., 50% is oil, 30% natural gas, 15% coal and 1% nuclear power.

In the U.S. he reported that coal is in abundance, a 700 year supply is estimated, and in Colorado, shale oil is available in billions of gallons, but difficult to extract from the rock.

After his presentation, Chairman Turk answered every question posed by the large crowd.

President Anton Oblak welcomed the large audience, and turned the session over to Ulrich Lube, program chairman.

A representative of the Holy Name Headquarters was on hand to award a beautiful plaque to the St. Vitus H.N.S. on the attainment of the largest number of new members in the Diocese.

Mr. Lube then introduced the P.U.C.O. Chairman, Mr. Edmund Turk (also a St. Vitus Holy Namer).

In his talk Mr. Turk revealed that, at the present, the U.S. does not have the figures of oil production and inventory. He also stated that it will take up to five years before the oil ener-

TIMES WERE HARD

(Continued from page 5)

Sausages, rice and blood would last thru the winter. After smoking with hickory wood, they would hang the meat sausages on the rafters in the attic. I distinctly recall one family who used railroad ties, containing creosote to smoke their sausages. Goodby for that batch. You know they never made that mistake again. People did not have too much money, but they had a lot of fun. They were days of togetherness, and cooperation, and everyone gave you a helping hand. Brotherly love, which lacks today.

For entertainment in those days, the game was "Dominoes", listen to a crystal set if you had one, bake potatoes in the oven, or pop corn on top of the big old stove in the kitchen. And everyone enjoyed it. No, there was no television.

The St. Clair Recreation Center, East 63rd St., was occupied at that time by Shaw's Livery Stable. You could rent a horse and wagon, for moving sand or household goods.

Adjoining the stable was "Hosta" the Slovenian blacksmith. The Zak funeral home was formerly the Ziehm funeral home. Black street cars were used to

take the deceased to Calvary cemetery.

Ziehm also operated a horse drawn ambulance service. Hardly a day passed when you would not hear the beat of hooves on the way to some factory near by to take the injured to a hospital. Safety devices in the industrial plants were unheard of.

When people needed counseling, they turned to these old timers for advice.

John Gornick who operated the men's store across the street from the old Norwood theater. (The Gornik sons now operate a ladies and men's store at East 222nd and Lake Shore Blvd., Euclid, Ohio.)

Louis Pirc, editor of the American Home, who held classes for citizenship papers at the public library, East 55th and St. Clair. Also Anton Grdina, funeral director; and James Debevec

who succeeded Mr. Pirc as editor of American Home.

The above mentioned are now deceased but they helped our Slovenian people with many of their problems. Not only of their time but in many cases with their money.

And those "lawyers" didn't charge for advice!

Joseph Gornick

Winter's Generation Gap

Chicago, Ill. — A National Safety Council spokesman had a few comments recently about on. An intermittent pumping action (three to five times per minute) may crop up this winter in second) keeps wheels rolling many households — Who'll be and helps maintain steering or the teen-age driver education student?

The percentages may be in favor of the teen-age driver education student, according to Donald C. Lhotka, Manager of the NSC Traffic Department, especially if the young driver's teacher has had firsthand experience in controlling skids during the winter and emergency driving workshops held annually at Stevens Point, Wisconsin.

Conducted by the NSC Committee on Winter Driving Hazards, the winter workshops provide a rare opportunity for driver educators — at both the high school and college teacher levels — to develop special handling techniques required on slippery pavements. The goal is to have this special training passed on to high school driver education students.

So that the older generation won't appear to be complete squares, Lhotka passed on six common-sense tips for safer winter driving developed by the NSC skid-testers:

- Get the "feel" of the road by accelerating carefully to see if wheels spin; or brake gently to see if they skid. Reduce speed accordingly.

- Keep your windshield and windows clear at all times. Replace streaking wiper blades gone dead from exposure to sun, wind and oily road film. Be sure that your windshield washer solution contains adequate anti-freeze.

- Equip your car with good tires and good treads. Better yet, use snow tires which provide half again as much pulling power in snow as regular tires. Studded snow tires, where legal, offer help on icy surfaces.

- ALWAYS carry reinforced tire chains in the trunk of your car for use during severe snow and ice conditions. They provide four to seven times as much traction on snow or ice as regular tires.

Lhotka explained that the driver education workshops have been an outgrowth of the annual test projects sponsored by the Committee on Winter Driving Hazards for more than 25 years. As part of the test programs, the committee has evaluated the performance of drivers, vehicles and equipment under a wide range of slippery and emergency conditions.

"Whether the driver learns about the recommended techniques through a driver education course, or through our public safety education channels is not important," Lhotka concluded.

Learn we must, he warned, for there's no place on a winter-slick road for a "generation gap" in any driver's ability to survive under the most adverse winter conditions.
