## RAZNO IZ AMERIKE IN INOZEMSTVA

**VELIKE POPLAVE**, ki so posledica močnega deževanja, so koncem preteklega in v začetku tega tedna prizadele 12 držav našega srednjega zapada. Posebno prizadete so države Ohio, West Virginia, Indiana, Illinois, Tennessee, Mississippi, Missouri, Arkansas in Louisiana. Najbolj se je razdivjala reka Ohio s svojimi pritoki. Sodi se, da je vsled poplav moralo začasno zapustiti svoje domove okrog pol milijona oseb. Glasom dosedanjih poročil je utonilo kakih 50 oseb, mnogo pa se jih pogreša. Iz raznih krajev se poroča o povečanem številu bolnikov za influenco in pljučnico.

Predsednik Roosevelt je osebno prevzel poveljstvo vseh federalnih agencij, katere morejo na kak način pomagati v katastrofi. Zvezna armada, mornarica, letalstvo, CCC kempje, WPA delavstvo, vse mora pomagati, kjer in kakor more, pri reševanju ljudi iz poplavljenih krajev, kakor tudi, da begunci dobe hrano, stanovanje in zdravniško pomoč. Vse te se vrši potom Rdečega križa ali direktno. Vse od pomožne federalne agencije delujejo kot v vojnem stanju. Predsednik Roosevelt hoče biti o situaciji obveščen po večkrat na dan. V nekaterih državah so gubernorji mobilizirali državno milico in v nekaterih krajih je proglašeno obredno stanje. Vsa dežela zbira prispevke v pomoč poplavljenem.

**VREME** letošnjega januarja je nenavadno muhasto. Medtem, ko je vreme mnogokje po vzhodu in srednjem zapadu mehko in deževno, je v južni Californiji nastala nenavadna zima, ki preti uničiti pridelek oranž in drugega južnega sadja. Po dosedanjih cenitvah je mraz uničil že tretjino sadnega pridelka, kar predstavlja vrednost 30 milijonov dolarjev.

**INAVGURACIJA** predsednika Roosevelta se je završila dne 20. januarja opoldne tekom močnega deževanja. Nad sto tisoč ljudi je stalo v dežju več ur, da prisostvuje inavguraciji in sledeči paradi. Inavguracija se je izvršila na posebni platformi pred zveznim kapitolom, ki je bila le deloma zavarovana proti dežju. Predsednika so nagovarjali, da naj bi se zaradi deževnega vremena izvršila v kapitolu, pa je sugestivno odklonil, češ, če more tisoče ljudi stati na dežju, more tudi on. Tudi v povorki se je vozil v odprtem avtomobilu.

**V SVOJEM** inavguracijskem govoru je predsednik izjavil, da hoče voditi ameriško ljudstvo naprej po poti, katero si je izbral.

Poudaril je, da preizkušnja našega napredka ni v tem, da povečamo blagostanje tistih, ki že imajo mnogo, ampak da poskrbimo za povoljno existenco tistih, ki imajo premalo. Vedno da smo vedeli, da je brezumna sebičnost slaba moralna, zdaj pa vemo, da je tudi slaba ekonomija.

Velike naloge so bile izvršene tekom zadnjih štirih let, toda zaradi tega nam ni bilo treba zapustiti poti demokracije. Blagostanje dežele se je te (Dalje na 2. strani.)

## MEZDE IN DRAGINJA

Nedavno je neko veliko industrijsko podjetje naznanilo, da bo v bodočnosti zvišalo ali znižalo delavsko meздо v razmerju z obstoječo draginjo življenjskih potrebščin, ki jo od časa do časa objavlja U. S. Bureau of Labor Statistics. To naznanilo je vzbudilo ogorčenje med zastopniki organizirane delavskega. Označili so ta načrt kot poskus "zamrznevanja mezd" in odrekanja pravice delavca, da dobi delež bogastva, ki ga je on soustvaril. Sledila je burna polemika o tem vprašanju, katere se je udeležil sam predsednik F. D. Roosevelt. On je izjavil, da dejstvo draginje se sme jemati v poštev le, ko se gre za minimalne mezde. Draginja ne sme biti odločilni faktor v določanju mezd, ako je draginja jako nizka. Drug faktor, je dejal predsednik, je, da "je treba jemati v poštev nakupno silo."

Argument draginje pri urejanju mezd pomeni velik napredek v gospodarskem naziranjju sedanje generacije. Nekoliko minulih desetletij se je rastoča draginja z vseh strani pripoznavala kot tehten razlog za povišanje mezd in plač. Delavske organizacije so obširno uporabljale ta argument. Vladna razsodišča so ga uporabljala. Delodajalci so ga pripoznavali. Na drugi strani, ko je deflacija po svetovni vojni prišla na dnevni red, so mnoge industrijske družbe opravile znižanje mezd z uvaževanjem padajoče draginje.

Razni industrijski voditelji še vedno zastopajo načelo, da je draginja dobra podlaga za urejanje mezd. Da navedemo mnenje nekega odličnega industrialca, "tako urejanje naj velja le za zaslužke nižje vrste, kjer je prebitični dohodkov nad izdatki mnogo manjši kot v višjih vrstah. Ni namerana zamrzni plače, kajti vedno je treba jemati v obzir produktivnost delavca, ko se določajo osnovne plače. Namen je, da se dohodek delavcev avtomatično spremeni s spremembami draginje, tako da bodo delavci in njihove družine oproščeni strahu, da ne bodo mogli premagati rastoče draginje, kajti izkušnja je učila, da mezde le počasi rastejo, kadar se je draginja povišala."

Glavni ugovor proti predlogu, da bi višina mezd bila vedno odvisna od draginje potrebščin, ki raste in pada, je ta, da, ako se to načelo izvede do svojega naravnega zaključka, ne bi bilo v bodočnosti nikakega napredka v izboljšanju življenjskih standardov.

"Vsak poskus, da se za vedno ustani indeks draginje kot edini barometer za urejanje mezd, bi zakasnjeval napredek dejanske nakupne sile, ki je bil in mora biti cilj vse industrije," je izjavil neki industrijski voditelj, ki nasprotuje načelu, da bodi draginja potrebščin podlaga za urejanje mezd.

Se bolj odločni v svojem ugovorjanju so delavski voditelji. Po njihovem mnenju bi draginjska podlaga vezala delavca k njegovemu življenjskemu standardu in mu odrekala možnost rastočih profitov. Ako profiti rastejo sto ali dvesto odst. ostaja draginjski indeks isti, in ne bi delavec dobil kako povišanje. Ta načrt bi (Dalje na 2. strani.)

## BODITE PREVIDNI!

(Piše dr. F. J. Arch, vrhovni zdravnik J. S. K. Jednote)

V vzhodnem delu Zedinjenih držav kakor tudi po srednjem zapadu je bilo zadnje čase nenavadno veliko število slučajev influence in pljučnice. Obe sta nevarni bolezni, katerih pa se je po večini možno ogniti ali jih preprečiti. Obe sta kužni in zelo nalezljivi bolezni in obe se širita na sličan način. Predhodnik te bolezni je običajno navaden prehlad ali katar z vročnico. Obe bolezni se širita potom direktnih stikov, to je, bolne osebe razširjajo okuženje na druge s kašljanjem, kihanjem in glasnim govorjenjem, ker se s tem prenašajo bacili bolezni na druge osebe v bližini.

Za preprečenje obeh omenjenih bolezni moramo rabiti zdravno pamet. Odpornost našega telesa ne smemo zniževati s prezebanjem, utrujenostjo in izčrpanjem. Dovolj spanja, osem do deset ur na dan, in lahka dijeta, sestojeca iz lahkega sadja in zelenjave, sadnih sokov, žitnih jedi in mleka, nam dosti pomaga, da obdržimo našo odpornost proti bolezni.

Doma ali pri delu, če se isto vrši v zaprtih prostorih, naj bo temperatura od 68 do 74 stopinj. Za potrebno vlažnost v zraku naj se postavijo plitve posode z vodo na radijatorje. Za sveži zrak v sobi naj se okna odpirajo zgoraj, ne spodaj. Pogosto kopanje je priporočljivo, toda izvrši se naj, predno gremo k počitku, ne pa predno se podamo na prosto. Vroča kopel namreč odpre vse znojne luknjice na naši koži in nas s tem bolj izpostavi okuženju. Prepriha se izogibljimo podnevi in ponoči, pa naj bo zrak vroč ali mrzel. Avtomobilisti, ki imajo ogrevalne naprave v avtomobilih, naj pazijo, da ne bodo v smeri prepriha od ogrevalnika.

Kadar gremo v mrzlem in vetrovnem vremenu na prosto, pazimo, da sta posebno prsi in vrat dobro in gorko zavarovana. Proti zmoženju nog se je deževnem ali snežnem vremenu zavarujemo z galošami. Izogibljimo se gneči, pa naj bodo velike ali male. Pazimo, da nam nikdo ne kašlja ali kiha v obraz. Ako sami kašljamo ali kihamo, ne pozabimo si zakriti ust z robcem.

Se enkrat: poslušajmo našo zdravo pamet! Pri prvih znakih bolečin glavobola, bolečin v križu ali vročnice pokličimo kompetentnega zdravnika!

## PODMORSKO OLJE

Kakšnih 200 milj daleč ob obrežju južne Californije so pod morskimi valovi skriti zakladi olja, katerega vrednost se ceni na štiri tisoč milijonov dolarjev. Ponekod oljne družbe to olje že črpajo in eden teh črpalnikov je 3,000 čevljev od obrežja. Nekateri neodvisni oljni podjetniki so se nedavno obrnili na zveznega državnega pravdnika H. Cummingsa s peticijo, da naj črpanje tega podmorskega olja prepove, ker da država Californija ni imela pravice prodati ali v najem oddati zemlje in podzemskih zakladov, ker morje ni državna ampak zvezna last. O zadevi bodo najbrž odločalo vrhovno sodišče Zedinjenih držav.

## PROSIM ZA OGENJ!

V Zedinjenih državah je "beračenje" za ogenj ali vžigalico nekaj navadnega in vsakdanjega in se istega nihče ne sramuje. Tu ni nikakih stanskih razlik in poznavstvo je nepotrebno. Človek, ki bi rajši od gladi umrl kot bi prosil za denar ali hrano, se niti malo ne pomišlja prositi neznanca za vžigalico.

To beračenje za vžigalice seveda ne izhaja iz pomanjkanja, varčevanja ali iz visokih cen vžigalic, ampak iz primerov, v katerih ima kadilec pri sebi pipo in tobak oziroma cigaro ali cigareto, in se mu zahoče pušiti, pa ne najde v žepu vžigalice. Vžigalice so v tej deželi zelo poceni in mnogo se jih razdeli zastonj.

Vžigalice je zelo poceni komoditeta in o kakem pomanjkanju vžigalice se v tej deželi ne more govoriti niti med najrevnejšimi sloji. Drugače je pa v nekaterih deželah inozemstva, na primer v Italiji in Jugoslaviji, kjer so vžigalice državni monopol, so visoko obdavčene in vsled tega primeroma drage. Znano je, da tamkajšnji revni vaščani mnogokrat hranijo pri vžigalicah na ta način, da se vrstijo hiše, ki goje v pečeh neprestan ogenj, odkoder dobivajo drugi vaščani ogenj za kurjavo ob jutrih. Trg za kmečke pridelke je mnogokrat tako slab, da ni v hiši dinarja za nakup skatlice vžigalice.

V tej deželi se človek zave velike vrednosti vžigalice le tam, kjer je začasn ločen od civilizacije, na primer v gozdu na lovu ali pri sličnih prilikah. Skatlica vžigalice je v takih primerih več vredna kot ves denar, ki ga ima človek pri sebi.

V Zedinjenih državah se letno porabi okrog 403,820,558,000 vžigalic, tako da jih pride na vsako posamezno osebo 3,167. Večina vžigalice je izdelana v tej deželi, toda mnogo se jih importira tudi iz inozemstva, posebno iz Rusije, Japonske, Švedske in Poljske.

Kadilci se v tej deželi največ poslužujejo vžigalic v malih papirnatih zavitkih ali brošuricah. Vsak tak zavitek vsebuje okrog 20 komadov vžigalice in je zaradi male oblike pripraven za najmanjši žep. Te vrste vžigalice se prodajajo zelo poceni in v mnogih prodajalnah tobaka se oddajajo odjemalcem zastonj. Brezplačno so take vžigalice na razpolago gostom tudi v hotelih, restavracijah, na vlakih itd. Te vrste vžigalice nosijo na vnani in notranji strani papirnatega ovitka najrazličnejšo reklamo oziroma oglase.

V tem oglaševanju na ovitkih vžigalic je vsebovana skrivnost prostega razdeljevanja. Razne tvrdke in posamezniki naročijo direktno v tovarnah toliko in toliko tisoč zavitkov vžigalic, katere se potem brezplačno razdelijo različnim trgovinam in podjetjem, da jih oddajajo odjemalcem ali gostom. Oglase na zavitkih vžigalic imajo avtomobilske tvrdke, oljne kompanije, tovarne električnih izdelkov, živilske tvrdke, železnice, parniške družbe, hoteli, razne razstave, letovišča ter najrazličnejše druge trgovine, tvrdke in podjetja. Celotno oglasno političnih kandidatov najdemo na zavitkih vžigalic (Dalje na 2. strani.)

## ODMEVI IZ RODNIH KRAJEV

Med Jugoslavijo in Bolgarijo bo v kratkem podpisana pogodba o večnem prijateljstvu. Tozadevno naznanilo je bilo tako v Jugoslaviji kot v Bolgariji navdušeno pozdravljeno od časopisja in raznih organizacij. Za miren razvoj Balkana so prijateljski odnosi med tema dvema vodilnima balkanskima državama nedvomno velikega pomena.

V Ljubljani so položili k večnemu počitku upokojenega ravnatelja klasične gimnazije Frana Novaka, ki je bil pravi oče in utemeljitelj slovenske stenografije. Na zadnji poti so ga spremili zastopniki mestne občine, banske uprave, predstavniki šolstva in mnogo drugega občinstva.

V starem Biogradu v Dalmaciji je nedavno obhajal 80-letnico svojega rojstva Alojzij Štrekelj, bivši goriški deželni in državni poslanec in odlični vinogradniški strokovnjak. Jubilar je bil rojen leta 1857 v Komnu na goriškem Krasu. V Gorici je dovršil nižjo realno in nato srednjo kmetijsko šolo pod vodstvom Frana Povšeta, poznejšega državnega poslanca kranjskega. Bil je postalni in nato pogodbeni učitelj vinogradništva na Primorskem, pozneje pa v Dalmaciji, kjer se je posebno trudil z obnovno po trtni uši opustošenih vinogradov. Bil je odločen narodnjak tudi v časih, ko so mnogi iz koristoljubja skrivali svoje narodno prepričanje.

Narodna banka v Beogradu je z novim letom dala v promet nove bankovce po 500 dinarjev. Časopisje nove bankovce kritizira, češ, da niso niti malo umetniško izdelani, bodisi glede slik ali barve, ter pripominja, da so bili edino lepi jugoslovanski bankovci takozvani "kovači," ki so bili tiskani v Ameriki. Vsekakor pripominja, da bodo novi bankovci po 500 dinarjev, kljub svoji neumetniški izdelavi, povsod dobrodošli, in sicer tem bolj, čim več jih bo.

Pes je rešil družino iz goreče hiše. V Novih Banovcih v Sremsu se je ponoči vnela hiša delavca Jakoba Vegerja. Vsa družina je spala in strašne smrti v plamenih goreče domacije jo je rešil pes čuvaj. Ko je pes opazil dim in plamen, je lajal na vso moč in ker ni to pomagalo, se je s toliko silo zagnal v prtilčno okno, da je šipe razbil, skočil v sobo in zbudil gospodarja. Iz goreče hiše si je veččlanska družina rešila življenje in nekaj najpotrebnejših predmetov.

Otroka so požrle podgane. S tako vestjo je prišel k dežurnemu uradniku zagrebške policije na novega leta dopolne brezposelni pekovski pomočnik Albert Grašič in uradnik je sprva mislil, da so njegove besede posledica s pijačo zastrupljene Silvestrove noči. Izkazalo pa se je, da je bila ta strašna vest resnična. V nekem bednem stanovanju zagrebške periferije je policija res našla dve leti starega dečka, ki je imel ves obraz razgrizen in je moral umreti v strašnih mukah, ko so oče, mati in štiriletna hčerka pri (Dalje na 2. strani.)

## VSAK PO SVOJE

Teden za tednom čitamo o preteči vojni v Evropi, vse države se pripravljajo nanjo, grozijo si medsebojno, sklepaajo in razdirajo pogodbe, toda do vojne še ni prišlo. Vzrokov ali izgovorov za napoved vojne je bilo že nič koliko. Ne želimo vojne in upamo, da je ne bo, a kljub temu se včasih vprašujemo, kako da je še ni. Vzrokov bo vsekakor več in največji bo najbrže strah, ker mogotci ne vedo, kakšen bi bil izid vojne. Ni jih strah vojne, ampak vojnih posledic. Najbrž se boje, da bi splošna evropska vojna pometla vse sedanje mogotce in vse sedanje državne tvorce in bi se iz ruševin dvignile Zedinjene države evropske, kjer ne bi bilo prostora za Hitlerje in Mussolinije.

Od novega angleškega kralja Jurija VI. baže vladni krogi zahtevajo, da naj si pusti rasti brado in brke, da bo tako bolj podoben bivšemu kralju Juriju V. Če je to res, potem Angleži nečeto imeti kralja, ampak tutko in malika. Ni čudno, da se je bivši kralj Edward rajši odpovedal prestolu kot bi si pustil ukazovati v vseh najmanjših zadevah osebnega okusa.

Sloveca francoska prerokinja pravi, da civilna vojna v Španiji še ne bo letos končana. To je verjetno, kajti Mussolini in Hitler imata še dosti vojakov.

Na Kitajskem vlada ne pozna šale. Postava je postava. Nedavno je bil izdan ukaz, da morajo državljani prenehati s kajenjem narkotičnega strupa opija, ali pa bodo postreljeni. Da ni ostalo samo pri pretujah, dokazuje poročilo, da je bilo nedavno 130 nepopolnletnih kadilcev opija javno ustreljenih. Dobro, da prohibicija opojnih pijač v Ameriki ni bila tako stroga kot je prohibicija opija na Kitajskem. Če bi bili v Ameriki vse kršilce prohibicije postrelili, bi bil ameriški narod skoro iztrebljen. Tudi pisec te kolone in lepo število njenih čitateljev bi bili že v večnih loviščih. Bodimo torej veseli, da nam ne vladajo Kitajci!

Neki znanstvenik pravi, da krokodili niso niti najmanj nevarni, če imajo zaprta usta. Isto velja tudi za pse, mačke in banketne govornike.

Časopisje v Jugoslaviji ne sme priobčiti nobene neprijazne besede o Mussoliniju, odkar je bila med Italijo in Jugoslavijo sklenjena nekaka prijateljska pogodba. Dvomljivo pa je, da bi se vsled tega v Julijski Krajini zaslužnim Slovincem kaj boljše godilo kot se jim je prej.

Slavno mesto Hermosa Beach v Californiji ima postavo, ki prepoveduje ponočne mačke koncerte. Ampak mačke se ne dvomno še manj zmenijo za omenjeno prepoved, kakor smo se mi včasih za prohibicijo.

Včasih je bila krava na vargebske periferije je policija res našla dve leti starega dečka, ki je imel ves obraz razgrizen in je moral umreti v strašnih mukah, ko so oče, mati in štiriletna hčerka pri (Dalje na 2. strani.)

South Slavonic Catholic Union.

# Nova Doba

AMPLIFYING THE VOICE OF THE ENGLISH SPEAKING MEMBERS

## CURRENT THOUGHT

### Very Important Sessions

This week the supreme trustees of our South Slavonic Catholic Union are engaged in the semi-annual audit of the books of the supreme secretary, supreme treasurer and editor-manager of Nova Doba.

Both the old and the new trustees are assembled, the former presumably acquainting the latter of the routine followed and experience gained during the four years just passed.

On Saturday morning the entire supreme board, including those who held office during the last term and those who were elected at the 15th quadrennial convention, will assemble for the first session. In a way, the proceedings might be labeled as that of a director's meeting, the only difference being that directors invariably are stockholders of the corporation which they manage for profit, while our supreme officers map plans of activities for the mutual benefit of all members, excluding the item of profit entirely. Their chief interest lies in promoting such ideas as will contribute to the welfare and progress of the South Slavonic Catholic Union.

During the sessions, the supreme officers are confronted with many problems of controversial nature. Some problems are difficult of solution for the reason that both sides of the question are far from being wrong entirely. Special appeals from individual members must be considered not only as being worthy, but in what manner they may transcend the sections of by-laws. Or will granting a special request violate any provision of the by-laws.

The position of the supreme officers is a difficult one in many instances, for they must pass upon questions which may or may not incur the enmity of a certain group of members. They must protect the Organization from illegal claims for various benefits, yet be mighty sure that a just case, and one which comes under the proper jurisdiction of the by-laws, is given adequate compensation.

While special considerations at the supreme board meetings do not concern the English-speaking members to any great extent, simply because their numbers are proportionately less than the seniors', there are other items which affect them almost exclusively.

There is the basketball tournament for Minnesota State SSCU lodges, which will be held in Ely. Inasmuch as our membership in the Gopher state is concentrated to the Iron Range, it follows that the teams expected to participate in this tournament are located in Ely, Chisholm, Gilbert, Inc.

Another item of great interest in the field of sports is the annual national SSCU tenpin tournament. Since this tournament is sponsored by our Organization, the selection of the tournament city by the supreme board interest the bowlers, as does the prizes offered by our Union, funds for which are appropriated from the sports fund.

The first two annual SSCU duckpin tournaments exceeded all expectations, in number of participants, in the prizes offered by our Union, in the enthusiasm and fine sportsmanship assumed by our members. While a city or town in Pennsylvania is the logical site (Pittsburgh played a very successful host for the past two years), the extent of funds appropriated from the sports fund for this purpose rests with the decision of the supreme board.

The extent of financial assistance from the sports fund to be rendered each lodge actively interested in athletics is another important item which concerns the English-speaking members.

Our juvenile members have an "extra special" interest in this meeting of the supreme board, for plans, date and site of the second national SSCU juvenile convention shall be decided upon. The nature of the contest, much like the first national SSCU juvenile convention campaign for new juvenile members, shall be established during the sessions.

Supreme board meetings of our Union hardly can be construed as mere routine affairs. A glance at the foregoing possibilities alone will dispel any cynic, who might be suffering under the delusion that the principal duty of the "Big Boys" is to smoke cigars and look important during their stay in Ely, at the expense of the Organization who also must provide the rail fare in addition to daily expenses.

Far from that. The supreme officers today are confronted with many ticklish problems, which must be solved in the best manner possible if we expect our SSCU to grow as it has in the past.

### With the Cardinals

Struthers, O.—This is written with the express purpose of reminding our members of the next Cardinal meeting which is just around the corner. The regular monthly assembly takes place on the second Friday of the month, and in February it falls on the 12th. Make sure that you are present.

Cardinals are going to hold a dance on April 24. Lodges are requested to reserve this

date for the Cardinals' dance.

Congratulations are in order to Jennie Glavic and Rudy Cikulic; also to Frank Glavic and Ann Krammarich, whose engagements were announced recently by Mrs. Jennie Glavic. And to Mike Golich and Bobby Miller upon their graduation.

See you all at the monthly meeting.

Rose Slabe.

## Just a Reminder

FROM LITTLE STAN

Ely, Minn.—Beginning at 7 o'clock Sunday evening, the National Home building will be the scene of a gathering which is destined to be recorded in the SSCU records as one of the outstanding social events of the year.

Although many of the Elyites are rather crisp from the effect of the recent below-zero weather, the gigantic affair is scheduled to add a little zest to the crispness which will ultimately result in the greatest good time social in years for all.

The affair, sponsored by Lodge No. 2, combination of both the older members and the Gophers, will be held in the nature of a private party. But regardless of that fact, if you are a good friend of any member, and that includes Little Stan, you can secure a ticket for the occasion, and be guests of honor.

Tickets are now on sale at 75 cents. Now, don't Ah! and gasp. The price isn't as high, as you will realize after you consider what you'll get in return.

Refreshments galore which will tickle any person's palate. Beer—and perhaps a bit of this and a bit of that! And to top things off—two batteries of music. Frank Dejak's band, and Frankie Kromar's Minnesota Vagabonds. Dancing... you said it!

Just think... beginning at 7—ending... not until the wee hours of the morning! Warning! No person will be admitted without first having a ticket! See Little Stan, Joseph Champa, Louis Pérushek, Joseph Pechaver Sr., John Mehle, Dan Bohince, Anton Pirsh—and if those fellows are sold out, try very, very hard to get one from other members who are selling. And don't miss this big festival!

Stan Pechaver,  
No. 2, SSCU.

## From the Supreme Judiciary Committee

131-253

Appeal of Sister Helen Franich, a member of Lodge St. Anthony, No. 131, of Great Falls, Montana: The appellant says that her claim for indemnity benefit, for an operation to which she submitted on the 25th of August, 1936, was disallowed her by the executive committee of our Union. The appellant further says that she is entitled to an indemnity benefit as provided in Section 306, sub-section g. The executive committee disallowed the claim saying that her operation does not come under the provisions of said section and sub-section of our by-laws. As there existed a doubt as to the correct and exact meaning of the wording of said section and sub-section, a legal opinion was sought and received. Decision of the supreme judiciary committee in this case is, that the above appellant is entitled to an indemnity benefit in the sum of \$50.

Representatives from the great international unions of steel, rubber, iron, radio and mine workers were on hand. At this meeting it was brought out that the purpose of the automotive strike was to raise the standard of living for the thousands of workers employed in this industry.

## Gophers Win Two

Ely, Minn.—The fast stepping Gophers of Lodge No. 2, SSCU, opened initial play in the City League series by sweeping two victories from the snappy Hawkeyes and the young Arrowhead teams, in games played at the Memorial High School gym Monday and Wednesday, Jan. 18 and 20.

Using height to a good advantage, the Gophers, led by Frank and John Glavan, overcame a two-point lead held by the Hawkeyes, Lodge No. 200, at half-time, and maintained their advantage in the last period to win by a score of 20 to 14 Monday.

Starting with the opening gun, the Gophers quickly ran up a 5 to 3 lead in the first period. The Hawk defense tightened in the second period, holding the Gophers scoreless, while they scored two field goals to give them a 7 to 5 lead at half-time.

Glavan brothers teamed up in the third period to send the Gophers into a 12 to 9 lead. In the last period both teams opened up to good advantage, and the Gophers outscored the Hawks, 8 to 5, to win the game 20 to 14.

Glavan brothers led the Gopher scoring attack, getting six points apiece. Artisensi and Starkovich were best for the Hawkeyes, getting six and three points, respectively.

The Gophers continued their winning ways at the expense of the Arrowhead lodge team, No. 184, by taking a 34 to 18 win the following Wednesday.

John Glavan and Butso Preshiren teamed up to help the Gophers into a 13 to 2 lead at the end of the first period; 19 to 8 at half-time, and 28 to 12 coming into the final period. Glavan and Preshiren scored 12 and 9 points, respectively, to lead the Gopher scoring attack, while F. Petric and Stan Grahek were best for the Arrowheads with eight and six points apiece.

Personnel of the Gopher team is composed of Tony Kuzma, manager and forward; Frank Glavan, forward; Johnny Pechek, forward; Frank Preshiren, center; John Glavan, guard, and John Perko, guard.

In other games played, the Arrowheads defeated the National Cafe team by a score of 19 to 14 in a story book finish, and the Hawkeyes defeated the Co-op team by a score of 24 to 18.

Three games are played each week by each team. The public is invited free.

prevent him from attending the January session of the Supreme Board scheduled to start next Saturday at the home office in Ely, Minn.

Annual Minnesota state SSCU basketball tournament for 1937 will be held in Ely, Minn., on Feb. 27 and 28. Stan Pechaver, chairman of the committee on arrangements, reports that the tourney will be represented by several SSCU lodge teams.

## FROM THE SSCU HOME OFFICE

NEW BY-LAWS

The new by-laws of our Union, which went into effect January 1, 1937, have been forwarded to all lodges.

Only ten thousand copies of the new by-laws were ordered. This means that each lodge received less copies than its quota of one for each member, inasmuch as there are over thirteen thousand members enrolled in the adult department. I hope that no member will feel slighted because of this arrangement, which was made with the implication that one copy will suffice for each family that has more than one member enrolled in the lodge. Lodge secretaries are requested to keep this in mind and act accordingly.

ANTON ZBASNIK, Supreme Secretary.

## Minnesota State Basketball Tourney

### SPECIAL NOTICE

Ely, Minn.—The first meeting of athletic advisors, who are preparing for the third annual Minnesota state SSCU basketball tournament, was held at the Home Office at Ely Sunday, Jan. 17.

Preliminary plans to conduct the tournament at Ely on Feb. 27 and 28 were laid. Although the tourney was scheduled to be held in Gilbert, Minn., this year, Louis A. Zgone, athletic advisor of Lodge No. 192, Gil-Min, reported that lack of accommodations for tourney games and players resulted in a switch in plans. Chisholm was strongly recommended as the site for the tourney, but as the Chisholm athletic advisor was not present, the teams took action to conduct the tourney at Ely.

At the same time, it was decided to invite other teams to participate in tourney play. DEADLINE FOR TEAM ENTRY WAS SET FOR SATURDAY, JAN. 30. All teams in Minnesota interested in playing in the tournament please file entry with Stan Pechaver, tournament chairman, at Ely, by Jan. 30.

Sunday, Jan. 31, the committee will meet with the Supreme Board in the Home Office to complete financial and other plans in order that proper steps are taken for a successful tourney. All Range athletic advisors should be in attendance.

Feb. 26 and 27 were selected, but because of conflicting dates, the tourney had to be shifted to Saturday and Sunday, the 27th and 28th.

Present at the meeting were Anton Zbasnik, supreme secretary; Louis Champa Sr., supreme treasurer; Frank Tomsich, assistant supreme secretary; Joseph Mantel, first vice president; and athletic advisors and representatives: Louis A. Zgone, Gil-Min Lodge, No. 192, Gilbert; Louis Zgone, No. 1, Ely; Stan Pechaver and Anthony Kuzma, Lodge No. 2; Joseph Startz, Lodge No. 184, and Anton Zaverl, Lodge No. 200.

Meantime other plans will be completed and presented at the meeting on Jan. 31 for approval.

Stan Pechaver,  
Tourney Chairman.

## Colorado Sunshine to Observe Eighth Anniversary With Party and Dance

Denver, Colo.—Colorado Sunshine Lodge, No. 201, SSCU, to take charge of the details. And accommodation is their keyword. A special committee will have the pleasant task of introducing strangers who may come into our midst for the first time. All those who attended our previous anniversary parties will attest to the statement that no one in this vicinity can afford to miss this good time.

Admission tickets can be obtained from any member of our lodge before Feb. 6, and at the ticket window on the night of the party. Only those who hold admission tickets will be admitted. Children will be charged a small fee.

We wish to extend a cordial invitation to all of the members and readers in Denver, the suburbs and near-by towns.

Our January monthly meeting was held in the regular manner and all of the new officers took oath for the ensuing year. Many members who attend our meetings regularly were among the absentees, being confined to their homes with sickness. Although none reported a serious malady, we do hope that they will experience a speedy recovery, and that all will attend our anniversary party.

The high cost of petrol is considered a primary cause of the scarcity of private cars. In the number of motor vehicles, Yugoslavia is 17th among 23 European nations covered by the statistics. Only Albania, Bulgaria, Turkey, Russia and Poland come after her.

Entertainment Committee.

## Bowling Scandals

Cleveland, O.—Here is some inside information on the recent bowling match between the Cleveland Pathfinders of the local SSCU bowling league and the Gowanda, N. Y., Pathfinders, which took place at Gowanda.

In practice session the "big chief" rolled a series of 666 for three games. Who is the big chief, you ask? Nobody else but Samson Drobnic. But what do you suppose the big lug collected in the match games? A grand total of 333, for three games. One game he hit an all-time Samson low of 98. In other words, he bowled just half of the practice score when sticks were needed badly. But it's O. K., Samson, we all have our off days.

## Ladies of SSCU

Joliet, Ill.—Thursday, Jan. 21, marked the initial meeting for the current year of the Ladies of the SSCU. The place of this meeting was in the home of Anne Munich, who was hostess of the month.

With the installation of new officers, various changes of the curriculum went into effect, which we trust will tend to add even more interest to our meetings.

A brief account of the party which we sponsored on Jan. 19 was given, and we were happy to determine an appreciable profit. A sincere thank you is extended to all who assisted in making this party a success, either through the sale of tickets, donation of prizes, or by their presence at the affair.

We feel that a special thanks is due John Adamich, who so willingly rendered his services as "caller" at the party. Thank you, Johnny!

Plans for a bakery sale to help build an athletic fund were also discussed. The exact date, however, has not been arrived at as yet, and will, in all probability, be announced in the forthcoming issue. Any bakery donations from various members of the local branch, the SS. Peter and Paul Lodge, will be gratefully received. So, will you good cooks kindly bear this request in mind?

After the business session we participated in a valentine social, and were happy to have with us again Jule Adamich, who for the past nine months had been on the sick list. Various games were played, with prizes being presented Helen Kozlica and Lucille M. Jevitz.

Later in the evening refreshments were served at a long table in the dining room, prettily decorated in a valentine color scheme combination. In order to further emphasize the Valentine effect our hostess used individual valentines to serve as place cards.

A valentine exchange was later decided upon. Each drew a name of one of the members, and is to send an appropriate valentine to the member whose name she drew.

Our February meeting will be at the home of Mrs. John L. Jevitz Jr. on Thursday, Feb. 25. Lucille J. Jevitz.

## IN MEMORIAM

The angels planned a crown one day,

'Twas twenty-five years ago, With precious jewels of every kind They'd make it all aglow.

And through the years so carefully They wrought this diadem, Till gleaming, rare, and bright it was Unto the final gem.

And then when perfect it was found And suited to His taste, He sent a messenger to earth To bring a queen in haste.

Our hearts were touched with sorrow, For on that certain day, A maid was chosen from our club And carried far away.

But, oh, our woe shall not be long; For soon we'll meet again, And she will clasp our hands once more, Away from earthly pain.

In memory of Frances Kossick, a member of the Ladies of SSCU, who passed away Jan. 3, 1937.

Martha Kumse. Anne I. Jevitz.

## Blood and Battle Field

A World War Chronicle  
BY IVAN MATICICFrom the Slovene by  
VALENTINE OREHEK

(Continuation)

When I reach the right wing I discover that it is held down by Bosnians. They prove very kind and agreeable to me. Back in my own lines everything is somber and dreary; here there is an excess of good spirits. These men have watched my progress to them and now many hands reach up to help me down. One can not help warming to these people at once, they are so merri-ly accommodating. They fall to questioning me and evince great interest in my regiment's experiences and condition. In turn they tell me much about themselves. So far it hasn't gone so hard with them on Doberdob, they say, for they have been well dug in, so they have hardly felt the Fourth Offensive. They are a little concerned, though, about the future, for their sappers have intercepted tunnelings which the Italians have made to undermine them.

They tell me of a feat performed by two of their men. This is the story in substance: One night these two men, equipped with the materials their plan required, had drawn Italian uniforms over their own and then crawled stealthily out to the Italian lines. Rockets spilling overhead made them stop many times in their toilsome journey as did the necessity of cutting their way through the Italian entanglements. At last they were on the brink of the enemy's trenches. Here everything was quiet. A guard of two men separated by a distance of some fifty paces kept sole watch. The Bosnians each picked himself his man and then with cat-like tread crept upon and felled him to the ground. This done, the two daring men let themselves down into the trench. From here they crept into the dugout.

It was dark there and they were forced to scramble over the soldiers lying sprawled in sleep. In a few minutes they found the ammunition dump. They stopped here. Taking a number of fuse bombs from under their tunics they uncoiled the powder threads, ignited them and made for the exit. An Italian whose face had served for a stepping stone yelled in pained rage, "Porco maledetto!" The two men did not stop to resent his insulting howl nor to attend to the babble of voices that greeted the outcry, but gaining the parapet they threw themselves into a mad gallop toward their own lines. This flight was checked by a frightful crash that flung them to the ground. After this the earth shook again and again and then all was quiet.

They tell me more about Fifth and Sixth Offensives which were waged in the spring and of the Seventh during which Gorica fell. It was while the last was in progress that they were obliged to retire from the Doberdob Plateau and fall back to Opatje Selo.

The next day I regretfully take my leave, but not before I have time to

note that their lines stretch out in a solid line clear to Volkovnjak. This reassures me. Eight days later my battalion is drawn out of the lines and replaced by the 96th Karol's regiment. In this regiment the Croatian language alone is spoken by both officers and men and a brotherly spirit imbues all of them. They greet us with affection and wish us an auspicious campaign. We then proceed to Komen. Since we must go back to Kostanjevica this very night, we spend the whole day in sleep. When we awaken the first signs of a mountain storm begin to manifest themselves. We are not on the road a half hour when a rattling wind brings a downpour in its train.

On entering Kostanjevica we are dismayed at the condition in which we find it. Happily we do not stay here long but continue on to Korit. Our lines lie on its outskirts and we enter them to replace a Galician regiment in whose composition there is a fair sprinkling of Jews. A little way off the Second Battalion lies entrenched.

The lines we have entered stretch in a half circle from Selo to Hudi Log. This is admittedly a senseless arrangement, for we have cause to know that it lends a perfect target not only to the Italians but unwittingly to our own artillery as well.

In the daylight Nova Vas stands revealed to us with Jamile and Hudi Log on either side of it. It is one pile of ruins. The only sights that greet the eye are crumbled walls with bared rafters bristling like pleading arms to heaven.

Oh, ravaged image of past beauty, how may I recognize you now. There yonder Doberdob once proudly lifted itself above the horizon, now there is but a pitiful remnant of it left.

In fifteen months what a change has taken place since we first thundered past in the grip of the Second Offensive. Then this land was green and villages lay untouched and peaceful. But all that lived has been driven away. Who knows where now the poor people wander.

An autumn storm sweeps over dismantled fields, howls amid the ruins and means in the trenches. It gathers up the fallen leaves and whirling them aloft strews them on the graves.

The front is silent, it lies in a dreaming slumber. For a few days the inertia continues and only a gun here and there crashes in the process of calibration.

The Italian is forging ahead and a fight at close quarters threatens. We all dread this, for the horrors of hand to hand combat have been engraved deeply on our minds.

At the third machine gun emplacement I am an unwilling spectator of a piece of devilish daring that would be hard to duplicate elsewhere than in the trenches. As a hand grenade comes hurtling through the air our boys catch it like a ball and whip it back. When one knows that a miss means instant annihilation one is astounded at the coolness with which they do this. From the time that the safety plug is torn out of the grenade until the moment of disruption a man can count eleven. These missiles, everything considered, are highly destructive and will tear a man to smithereens.

It is during the Ninth Offensive when busily engaged in repairing a wire line on the Konto that I come near being killed. I am absorbed in my work when a grenade bursts some fifty feet to my side. The explosion is immediately followed by a shrapnel shell disintegrating farther off. I hear the rain-like patter of the loosed projectiles and with no other thought in my head but to seek protection I fling myself into an upturned grave. A corpse partly disinterred lies within. I do not pay any attention to this discovery and the sound of a fresh fusilade makes me crouch down closer beside the dead one. When I calm sufficiently I turn to study him. The uniform informs me that he belongs to a Galician regiment. In the matter of nationality I can not deduce from his face whether he be Pole or Ukrainian. The far gone condition of his flesh makes him out to be dead some five days at the least. Rapid deterioration has set in and the side of his face away from me gapes with a crawling wound.
