## UREDNIKOVA POŠTA

Euclid, O.

Ker se sezona piknikov bliža svojemu koncu, je tudi društvo sv. Cirila in Metoda št. 191 K. S.

K. J. sklenilo na svoji zadnji mesečni seji, da se še enkrat vsi skupaj snidemo v prosti naravi in sicer na priazni Štuškovi farmi.

Ker sta dva praznika skupaj, se ta piknik prične že takoj dopoldan v pondeljek in se nadaljuje do pozne noči. Ker je v pondeljek naš dan, se pričakuje velike udeležbe, kajti prostora na Štuškovi farmi je za več tisoč ljudi. Tudi postrežna bo izborna kar se tiče jedi in pijače. Igralo se bo vsakovrstne igre za moške in ženske, osobito za mladino bo dosti zabave. Za zmagovalce so tudi pripravljena lepa darila. Zatorej, na Ave.

## Jantar — germansko zlato

Ko je cesar Neron pribral svoje slovite živalske borbe, so bile zaščitne mreže pred državnimi ložami vedno okrašene v tisoči blestečih se zlatotoltih kamenčkov. To lepotično kamenje je prinesla s seboj neka ekspedicija iz ogromnih pragozdov ob morju daleč na severu. Rimljani so zvali to kamenje "succinum," in so ga z latom plačevali.

To je bila res čudna snov. Germani, ki so s posredovanjem Rimjanov tržili s tem "kamnom" celo z Vzhodno Azijo, so hitro opazili, da ogenj to kamenje uničuje. Kamen pa gor. Nečuvno! V starem nemškem jeziku se za "goret" reče "bernen," in zato so to čudno reč imenovali "Bernstein": kamen, ki gori.

Že ženske prakarane dobe so kazale veliko nagnjenje k naku tu iz tega kamna, ki je jantar. V majši kameni dobi so takratni umetniki razen drugih okrasov izrezavali iz te snovi tudi kipe ljudi in živali. Grki, ki so jim žene hudo čislale obeske iz jantarja, so kamen imenovali "elektrón," kar pomeni "solnčna pena." Gotovo je, da je treba ta izraz tolmačiti s pojmom, da so prahale iz jantarja, ki so ga čistili s kropljami žive iskre. To je elektrika.

Prvi, ki je prav slutil, kaj je jantar, je rimski učenjak Plinijski, ki se je kot general konjenice v Germaniji posebno zanimal za to "steklo" — "glasum." Smejal se je tedanjemu mišljenuju, da je jantar "zgoščena pena morskega besa," pa tudi grškemu naziranju, da je okamenela mokrača neke risu podobne živali. Takih zveri je namreč nekoč bilo vse preveč v gozdovih Germanije, pa saj so še danes v Vzhodni Prusiji, od koder prihajo na morsko obrežje.

Plinijski je čisto prav trdil, da je jantar strnjena borova smrtna, vonj gorečega jantarja pa preleplico. Hoteli so ga pridobivati kakor premog ali rudo. Šele moderni stroji so zadeli živo. Oni nagrabijo v kubičnem metru zemlje morda 5 dkg tega germanškega zlata tako da se more računati, da je na svetu sto milijonov kubičnih metrov jantara. In to samo v Prusiji, kajti drugje ga ni na vsem širnem svetu. Z ozirom na to, da gre 75% jantarja čez mejo v svet, je ta predmet za nemški izvoz velevažen.

Jantar povsod visoko cenijo. Evropej je ljubši zlatotolti svet, Afriki pa belkasti, in tam Zamorci često dajejo vse svoje bogastvo za jantar. Kitajske nori za ogrlico iz jantara, Evropejka na jugu pa ima skomrone za rožnim venčem iz jantara. Ali v jantarju so našli mnogo drobnih živalic, pa teh nbeni ni živel v morju. Pristaši te teorije pa so bili tako zavrnjeni v svoj nauk, da so se ga vključili vsem nasprotnim dokazom trdovratno držali, ter so celo umetno spravljali v jantar drobne ribice, saj so bi imeli kaj pozitivnega za svojo trditve.

Pred tisoči in tisoči let je si

jo tisoči in tisoči mohamedanskih molkov.

Ze XIII. stoletju so imeli Nemci strugarske zadruge za obdelovanje jantarja. V XVII. veku so rezbarji iz Kraljevca napravili ruskemu carju slovito jantarsko dvorano v Carskem selu, za katero so rabili skoraj petdeset let. Zadnja leta pa so napravili nov umotvor: model sobe v Gdansku, ki je meter in četr velik. Delali so tri leta; zato se pa ta umetnina ceni na 2 milijona Din!

Od leta 1897 ima pruska država na jantar monopol; sploh je vsak kos, ki ga kdo najde, njena last. Seveda pa dobi vsakodobno nagrado. To je seveda dobro in prav za državno blagajno. In za tistega, ki išče jantar, gotovo tudi.

## Teslovi "smrtni žarki"

Izum Jugoslovana Nikole Tesle križa račune imperialističnim sosedom

Izum,

ki ga je na kratko svela razodel naš rojak Nikola Tesla, je seveda povsod vzbudil silno pozornost, saj pomeni uresničenje iznajdbe popoln preverat v mednarodnih odnosih. Briandov pakt sicer obsoja vojn Kot barbarstvo in jo izloča iz mednarodne politike, vidimo pa, da se nobena država posebno resno ne zanaša na to slavnostno prekletstvo vojne kot skrajnega sredstva pri sporih med narodi. Že številne nenačne pogodbe, ki so bile sklene od časov Brianda in Kellogga, kažejo, da se vojna ne da tako lahko odpraviti iz pojmovanja narodov in osobito ne iz miselnosti posameznih politikov. Učeni Tesla je pristašem vojne napravil hude skrbi, ko je naznani, da bo svojo usodno iznajdbo i z ročil Društvu narodov, s čimer bi bilo naenkrat rešeno vprašanje, kajko naj Ženeva prisili države do spoštovanja njenih odlokov.

Zaradi tega je osobito v skrbih glasilo duceja Mussolinija "Popolo d'Italia," ki se v daljšem članku bavi z izumom našega rojaka. Mussolini sam, ki rad pri vsaki priliki poroča s sabljo, je navdušen pristaš vojne. Njegov sestavec o tem predmetu, ki je objavljen v italijanski enciklopediji, slavi vojno, češ, da le v njej prihaja do izraza možavost narodov in le v njej doživi človek lahko največji razmah vseh svojih skrbelj vrlin. Kakor pa sam gotovo skrbi za čim popolnje tehnično opremo svoje vojske, vendar z nekako otočnostjo namiguje, da stroj nadomešča, odnosno izpodriva pravo junaštvo, ko postaja vojna bolj in bolj tekm strojne tehnike in kemije.

Tudi njegovo glasilo presoja s te strani Teslov izum ter kaže na kvarne posledice, ki bi jih imela iznajdba v rokah Društva narodov "Popolo" se boji, da bi s tem nastopil večni status quo, ki bi onemogočil uresničenje fasičnih sanj o vzpostavitvi novega rimskega imperija. Morda pa se fašisti boje, da bi se Društvo narodov opremljeno s tako silnimi sredstvi lotilo revizije meja in v tem primeru bi Italija ne mogla dokazati pravične posesti večjega dela po svetovni vojni zasedenih pokrajin. Tudi bi moral v takih razmerah prenehati slične pustolovščine, kakšna je bila obstrelovjanje Krafa in morda še kaka druga novejšega datuma. Rožljanje s sabljo, da se izsilijo razne zahote, bi potem postaleno nemogoče.

Evropski je ljubši zlatotolti svet, Afriki pa belkasti, in tam Zamorci često dajejo vse svoje bogastvo za jantar. Kitajske nori za ogrlico iz jantara, Evropejka na jugu pa ima skomrone za rožnim venčem iz jantara. Ali v jantarju so našli mnogo drobnih živalic, pa teh nbeni ni živel v morju. ## ŠKRAT

Meščan na farmi: "Tri tedne sem že tu, pa še nisem videl lepega dneva. Ali pri vas nepresto dežuje?"

Farmer: "O ne! Pozimi sneži!"

To se je zgodilo tekom šolskega leta.

Dekle je prišlo v šolo brez domače naloge.

"Zakaj nimate naloge?" je vprašal profesor.

"Luči so ugasmile, pa nisem mogla študirati."

"Zakaj pa niste prižgali luči in ga postali domov?" je vprašal sitni profesor.

"Danes si pa že zopet pil!" je žena pozdravila moža, ko je prišel pozno ponoči domov.

"Seveda," se odreže mož. "Mar naj samo jem?"

## ALI SME OPICA KADITI?

Parisko sodišče je obravnilo svojevrsten primer. Član društva za zaščito živali se je pritožil nad nekim glumačem, ki se je pred ljudmi produciral z opico na ta način, da je sedel z njim za skupno mizo, ji ponudil vina in na koncu še cigareto. Zdaj si morajo sodniki razbijati glavo z vprašanjem, če sme opica kaditi ali ne. Parižani z napetostjo čakajo, kaj poreči sodišče k tej stvari.

## V VODI NI KISIKA!

Pred par tedni so Pražani, ki so se kopali pri Rostoku, opazili žalosten prizor. Na gladini razgretne vode so se pokazale velikanske množine mrtvih rib, ki so polagoma plavale s strugo dalje. Proti večeru so tudi videli, kako so druge ribe poskakale na breg, kjer so v kratkom poginile. Izkušeni ribiči trdijo, da se v vodah pojavi ponajmanjkanje kisika, aka delj časa ne dežuje. Radi tega ne morejo ribe več vztrajati v vodi.

## JEZUIT PRAVI, DA JE MOSKVA PROTI NRA

SOUTH NORWALK, Conn., 31. avg. — Na jezuitski konvenciji, ki se vrši tukaj, je Rev. Edmund J. Walsh izjavil, da so ameriški komunisti dobili iz Moskve naročilo, da udrihajo po NRA, češ, da bi njen uspeh pomenil propast za komunizem v Ameriki. Jezuit je tudi rekel, da odkar je Amerika priznala Rusijo, se je komunizem v Ameriki povečal za 30 percentov.

Drugi govorniki, ki so referirali o NRA, so izrazili različna mišljena: Da NRA dovolj ne varuje delavce in konzumentov: da je NRA neuspešna, ker vlada sama vanjo ne veruje ter je dovolj ne vslilje, in da Amerika še ni pripravljena za tako regulacijo gospodarstva kot ga predvideva NRA.

## V sanjah izumil plinski gostomer

Profesor Boyce, fizik svetovnega imena, avtor zakona o naponu tekočih površin, je imel v Kraljevskem kolegiju zanimivo predavanje o svojem novem odkritju. Odkrite mu je bilo razočreno v spanju. Prof. Boyce je več let zman poskušal rešiti težko tehnično nalogu: Hotel je sestaviti plinski gostomer, ki bi bil enako poraben za znanstvene in tudi trgovske namene. A vse je bilo zman. V začetku maja je sklenil znanstvenik, da bo splet opustil najbrž nerazrešljivo vprašanje. Utrjen je šel spat. "A ko sem trdno zaspal," pripoveduje učenjak, "sem zagledal v sanjah, da leži na moji mizi pola papirja, ki je popisana z enačbam. Prečital sem jih in videl, da sem pred teoretično rešitvijo mojega gostomera. — Kdaj sem vse to spisal? — sem mislil, se zbudil, skočil k mizi in se prepričal, da so to bile le sanje. Ta kdaj sem pričel računati, da ne bi pozabil podrobnosti razočetja. Vse je šlo hitro od rok. Pol ure pozne sem imel v resnicu v rokah isto popisano polo, o kateri sem poprej sanjal. A nisem hotel izgubiti nobene minute, ker sem se še vedno bal, da ne bi česa pozabil. Čeprav je bilo pozno ponoči, sem takoj naročil izvoščka in pohitel v svoj laboratorij na Victoria Streetu. Vratar se je zelo začudil, ko me je zagledal. Odhitel sem k svoji mizi, razložil posamezne dele gostomera, da bi ustrezali zapisnim enačbam, in pričel preizkušati teoretične zaključke. Globoko sem si oddahnil, ko sem videl, da ni vmes nobene pomote. Zdaj je novi gostomer pripravljen in v kratkom bo na trgu. Veliko bo koristil znanstvenemu raziskovanju in tudi kemičnim tovarnam. A kako se je oblikoval brez udeležbe moje zavest in v kratkom trenotku odgovor, ki sem ga zmanjal s naporom vseh svojih sil v teku več let — to naj poskušajo ugotoviti psihologi. Zame je to neumljivo razočetje."

## O potovanju

Poznanstva nas na popotovanju osvežijo in razvedre. Vendar je dobro, če se čuvamo prevelike zaupljivosti in ostanemo v mejah rezervnosti. Ne pripoveduj zlasti nikomur svojega življenja, kajti redka so poznanstva, iz katerih se razvije prijateljstvo. Ne pozabljaj, da so ljudje na letovišču sproščeni in vrednejši, ker so pustili doma skrbi, zaradi česar napravljajo nate drugačen vtis, kakor bi ga napravili v vsakdanjem življenju.

Ne nadleguj služinčadi v restavraciji, hotelu ali pensionu zaradi vsake maleenkosti! Primerjaj v vsakem posameznem primeru, kaj bi ti čutil v enakem položaju!

Imej svojo sobo vedno v redu! Hotelska soba ni sračje gnezdo.

Bodi obzoren in prizanesljiv nasproti sedom in ne delaj hrupa, če si ga ne želiš tu di sam! Ljudje so na letovišču zaradi odmora, njih živci so potrebni počitka, za to bodi tudi kadar si pri mizi, mireni in diskreten, za razposajenost je dovolj prostora v naravi.

Ne naprezaj se s kopanjem v mrzli vodi, ne pretiravaj na sprehodih, celo ne na turah! Premisli vsakokrat, če je tvoj organizem dovoljen na logam, ki jih kaniš izvrsiti. Samo tisti, ki ima streinano telo, se lahko poloti podjetij, ki zahtevajo mogočnega fizičnega odpora.

Zelo često naletimo na navado, da dovolj starši otrokom valjati se po tleh. Nihče ne misli pri tem, da si otroci naberejo na rokah najopasnejše bakterije, ki jih potem, ko vtikajo v usta, posesajo vase. Na ta način nastanejo mnoge infekcije v vratu in prsih, češ, da so na celu slehernega proti-krščanskega gibanja.

## 10.000 KROKODILOVIH KOŽ

Kolonialna uprava v angleškem Hondurasu in misijonarji (ameriški jezuiti) ponovno vidijo v prodaji krokodilov izrazito sredstvo, s katerim lahko nekoliko pobijajo gospodarski krizo in izboljšujejo položaj ubogih domačinov. Pred kratkim je neka ameriška tvrdka naročila 10.000 krokodilovih kož. Služile je bodo za razne modne predmete.

## Two SYMC Homers Beat Pioneers 4-3

Debelak's Two Clouds Ruin Pioneer First Place Hopes; S. Y. M. C. Boost Season Wins to Six

Charley Debelak's war club which blasted out two home runs off the slants of Kenny Greenwald provided the margin by which the S. Y. M. C. edged out the Pioneers, 4 to 3, Wednesday night, in a playoff of a previous 2 to 2 tie game.

With the defeat, the Pioneers lost the chance to tie the Orels for league leadership while the S. Y. M. C. boosted their season's record to six victories and the honor of finishing only one game outside of the semi-finals.

Run scoring for the game began with Debelak's homer in the first. His subsequent homer, coming in the last inning, broke a 3 to 3 tie. Horse Holdin was on the mound for the SYMC.

There will be no Inter-Lodge indoor games played next week. The Pioneers and the Comrades are fixed to collide in the semi-final game Sunday morning, September 9. The winner will meet the Orels for the I. L. title on the succeeding Sundays. Sunday games will start at 10:00 a.m.

It isn't surprising that the daily newspapers commented upon the brazen attempt of "those modern livers."

"Will they really be nude?" reporters asked. "Will they dare to be?"

"Yes," answered Anna Opeka, 1127 East 71 street, secretary of the Spartans. "They'll be nude and they're not afraid of it!"
