S 190 glasovi proti 149 je bil sprejet dodatak, ki je znatno zvišal dohodninski davek na velike dohodke in dediščine. Določba za prodajni davek, ki bi najbolj prizadel široke sloje ljudstva z zmernimi ali skromnimi dohodki, je bila dne 24. marca po huden boju poražena z 223 glasovi proti 153 in črtana iz davčne predloga.

Mesto prodajnega davka namenjava zdaj uvesti davek na luksuzne predmete. Nasprotniki prohibicije pa priporočajo, naj se legalizira 2.75 procentno pivo in ga obdavči. Ta davek bi prinesel vladni kakšnih 550 milijonov dolarjev, odvzel močan vir dohodkov butlegarjem in dal ljudstvu boljšo in cenejšo pijačo kot jo ima sedaj.

POSUSNO GLASOVANJE o prohibiciji, katero vodi revija Literary Digest, izkazuje dosegaj 763,175 glasov za prohibicijo, 2,276,861 glasov, torej torek skoraj tričetrtinsko večino pa za odpravo prohibicije. Glasovnice iz 33 držav izkazujejo dvetretinsko večino za odpravo prohibicije. Pristaši prohibicije so po tem glasovanju v mali večini samo v eni državi, in sicer v Kansasu. Najbolj moker sentiment izkazuje državi New York in Nevada.

LEGISLATURA države Ohio je sklicana k izrednemu zasedanju, da ukrene nekaj za pomoč potrebnim brezposelnim v državi.

RAZNO IZ AMERIKE IN INOZEMSTVA

SENATOR NORRIS je izvedel že drugo važno zmago v sedanjem zasedanju zveznega kongresa. Nedavno je bila sprejeta predloga za amendment k zvezni ustavi, ki naj odpravi postavljajo takozvanih "homomrac," ter je bila poslana v potrditev državnim legislativam. Dne 23. marca pa je predsednik Hoover podpisal v obeh zbornicah kongresa sprejeti Norrisovo predlogo, ki omenuje izdajanje sodnijskih povedi ali inžunkcij v delavskih sporih in prepoveduje "sklepanje takozvanih "yellow dog" pogodb med delavci in delodajalcem, s katerimi se delavci zavežejo, da ne bodo postali člani delavskih organizacij. Nova postava je velika pridobitev za delavce.

TORNADI, ki so pretekli teden divjadi po naših južnovzhodnih državah, so povzročili mnogo večjo škodo, kot je bilo prvotno poročano. Prizadetih je bilo pet držav, med njimi najhujše Alabama, kjer v razdejanju silnih viharjev je izgubilo življenje 220 oseb, ranjenih pa je bilo 872. V Georgiji je bilo 32 ubitih in 75 ranjenih, v Tennessee 17 ubitih in 34 ranjenih, v Kentucky dva ubita in štirje ranjeni, v South Carolini en ubit in štirje ranjeni. Skupno število žrtev tornadov je 272 ubitih in 989 ranjenih. Maternalna škoda je ogromna.

DAVČNO PREDLOGO, ki je bila po vodstvu demokratske in republikanske stranke predložena poslanski zbornici zveznega kongresa in ki je imela namen iztisnit okoli 600 milijonov dolarjev takozanega prodajnega davka iz revnješih slojev, so njeni nasproti obeh strank hudo raztrgali. Zimed omenjenih 32,000 inozemcev, ki so na tak način uravnavali svoje stanje, niso bili le taki, ki so prišli nezakonito pred 3. junijem 1921 — večinoma kot mornarji, marveč tudi taki, katerih prihod se ni mogel dokazati iz priseljeniških zapiskov. Nekateri izmed teh so prišli toliko časa nazaj, da sploh ni bilo več nikakega zapiska o njihovem prihodu, drugi so toliko pozabilo okolnosti svojega prihoda, da nihče ne more več najti, kako so prišli, drugi zopet so prišli čez Canada, kjer so bili zapiski precej nezanesljivi. 1450 inozemcev, tako registriranih, je prišlo pred l. 1891 in ni nikakih knjig, iz katerih bi priseljeniška oblast mogla potrditi njihov zakoniti prihod. Večina isti je prišla v desetletju 1911 do 1920.

Oni, ki so prišli nezakonito po dnevu 3. junija 1921, ali pred dnevnim 1. juliju 1924, ne morejo biti deportirani, ali zakon se do sedaj ne razteza na nje. Uprati je, da bo zakon razširjen tako, da bodo tudi oni kmalu uživali pravico do legaliziranja svojega prihoda in predlogi v tem zmislu so pred kongresom ter se zdajo ni resnega ugovora proti sprejemu teh predlogov. Ali, dokler tak nov zakon ni sprejet, ne morejo oni storiti ničesar za uravnanje svojega stanja.

DOBRI STARCI ČASI

Dandanes pomilujemo človeka, ki ne zna pisati in brati, ker je tudi med priprostim ljudstvom nepismenih ljudi zelo malo. Včasi pa je bila celo med visoko gospodo nepismenost nekaj običajnega. Neki zgodovinar trdi, da angleški kralj John ni podpisal listine ljudskih svobodščin, ki se imenuje Magna Charta, iz enostavnega razloga, ker ni znal pisan.

Razprave o pravilih

(Nadalevanje iz druge strani)

člankom, s katerim se bo močnosti prihodnja konven-

čljivih pravilih plačujejo-

bolniško podporo 18 mese-

čev, kar pa bi bilo sprejet mo-

čljivo, ki so danes zadovoljni z enodolarskim skladom,

naj bi zvišali podporo na \$1.50,

ker bi seveda potem morali pla-

čevati tudi višje asesmente.

Sklad za en dolar dnevne bolniške

podpore naj torej ostane

kot je. Bolje bi bilo, če bi se

poleg tega napravilo še en

sklad, namreč za \$5.000 teden-

ski bolniški podpori; to bi bilo

ugodno za tiste mlade člane, ki

prestopajo iz mladinskega v od-

rasli oddelku, da bi se lahko za-

nekaj manj zavarovali in bi se

tudi nekaj manj plačevali.

Priporočam tudi prihodnji

konvenciji, da bi sprejela v pravila,

da bi bilo mladinskim čla-

nom mogoče ostati do 18. leta

v mladinskem oddelku, če bi

Odobril sem mu podporo do ča-

sa, ko je ozdravel drugie, ker

dvakrat ozdraviti v teku petih

dni za eno in isto bolezen je

bilo malo preveč."

Našteval je slučaj za sluča-

jem. Iz njegovih poročil je bilo

razvidno, da je prihranil na-

ši Jednoti dosti neupravičenih

izplačil in jo obaroval, v kolikor

je bilo to mogoče, simulantov in slabih kandidatov.

V kolikor je to mogoče, dela tako

tudi naš sedanj vrohovi zdravnik.

Rekli bodo nekatere: "Ti-

si sedak, ker tako pišeš! Ig-

norant si, ker še sedaj ne veš,

da je ravno to namef federaci-

je, katere se ti tako branis!"

Predsednik SNPJ je enkrat

že pisal tako, le da se je lepše

izrazil in zapisal v njih urad-

nen listu, da gospod Okolish

ne razume namena federacije.

Pa ni ravno tako. Pokojni dr.

Grahek je vodil "federacijo"

brez posebne plače, brez

vsakega hokusa-pokusa, brez

vsakih konference, dnevnic za

glavne odbornike in voznih

stroškov na konferencie; brez

vsakega povzdiganja kulture,

socijalnih in delavskih intere-

sov.

Dobro je, da se članom mladinskega oddelka priporoča, naj

se učijo slovenskega jezika in

naj dopisujejo v naše glasilo v

slovenskem jeziku, ker s tem se

bodo bolj privadili jezik svojih

staršev in se bodo bolj zanimali

za slovenske organizacije.

Ako si bodo morali dopisovati

s sorodniki v starem kraju, se

bodo lahko poslužili slovenske

pisave, da jih bodo oni tam raz-

umeli.

Bolniška podpora naj se ne

plača za prve tri dni bolezni,

kot je sedaj. Treba je gledati,

da ne bomo primorani plačevati

višjih asesmentov, kot jih pla-

čujemo zdaj.

Dnevne delegatot naj določi

čonvencija.

Apeliram na društva, da izvolijo

dobre in zmorne delegate,

ki bodo delali v korist in za na-

predtek "Jednote in v dobrobit

K skepu pozdravljam vse

glavne odbornike in odbornico,

kakor tudi sobrata urednika

Current Thought.

LAYMAN TAKES NOTICE

It looks as if the worm is beginning to turn, judging by the recent action of U. S. House of Representatives in adopting the drastic war-time surtaxes on large incomes.

"Tax the rich, who can afford to pay," was the motto of the lower House of Congress, and not add burdens to the small man in the form of a sales tax. This outlook reflects the honest opinion of many citizens, who have seen the wealthier class enjoy excessive consideration given by the government, and what was left to the public-spirited people.

People whose salaries range under \$8,000 did not form a coalition, pass the hat, and employ a lobbyist well known in governmental circles who persuaded the insurgents to "soak the rich."

Only large corporations, companies, partnerships, and the like along with wealthy individuals can afford to employ lobbyists, whose task it is to persuade committees of Congress to modify such bills as might prove to be a detriment to their employers. Various schemes are used by the lobbyists in gaining favor of representatives whose duty it is to enact laws showing no partiality. It has been reported that a regular scheme of systematic procedure is followed when favors for individuals, corporations, etc., are sought.

PROSPERITY AND DEPRESSION

As the army of unemployed increases, so do demands for governmental assistance. Certainly 8,000,000 men walking the streets cannot be ignored. But to increase the burden of the suffering by imposing tax on life's necessities is like adding salt to a wound instead of a vulnerary.

During the period of prosperity the general public becomes careless of the government functions. Work is plentiful, business is good, money is circulated freely, luxuries are enjoyed by the middle class—of what concern is it to them how Congress manages affairs in Washington.

But when work is scarce, business is poor, money is hoarded, life's bare necessities must be sacrificed—all of which spells the current depression—the general public takes a deep interest in legislation. And as the wound of hard times cuts deeper into the suffering body, one realizes more and more the importance of sending capable men to Washington—men who are unbiased to a lot of soft soap.

Unemployment has hit many members of our Union, as the bulk is composed of the working class. In fact the present crisis made itself first evident upon us, who are anxiously looking forward to a return of normal conditions. Yet, in face of dilemma some of the high powers-to-be would have us contribute heavily in the form of tax on life necessities to meet the existing government deficit, without attempting other measures. Our Union, like many other fraternal organizations, has suffered during the past two years. Members composing our SSCU represent the average group living in this country. And as much we want to look forward to a program of rehabilitation.

Betsy Ross Extends Invitation to Card Party

Cleveland, O.—There were no games scheduled in the A league last week and a double-header will be rolled Sunday, April 4, first series starting at 1:30.

B LEAGUE

The Betsy Ross quintet wound up its season bowling activities with a pair of wins over the Rovers, turning in scores of 801, 810 and 755 for a 2366 series that bettered the losers' 712, 734 and 807. The double victory earns the Ross men third place in the final standings. G. Kovitch's 506 paced the B. R.'s, which included a 210 game. Tekavec's 559 was the outstanding score in this fracas.

Growth of Fire Engines

In the 16th century to cure a headache, the patient took a mixture of pepper and mustard, rolled into a ball about the size of a bean, and rolled it on his tongue. He was to eat nothing, but was to keep rolling this awfully mixture in his mouth until it was cured, says an article in a Boston paper.

The "evil humors" of the head were supposed to be drawn by the pellet in the mouth. Without a doubt, the patient thought he had the evil humors in his mouth after rolling the mixture around for a few minutes.

NATIONAL ANTHEM

The last session of Congress, before its adjournment March 4, 1931, by special act designated the Star Spangled Banner as the national anthem of the United States.

COMMENTATOR

Change of Ruling Powers

It is said that history repeats itself. Great umpires like Rome, for instance, rose to unbelievable heights only to fall into utter oblivion. I have often wondered if there is any possibility for a structure like our own United States to follow the same fate.

The layman will be heard to say that a revolution is bound to spring up if living conditions do not make a decided trend for the better. Many consider this preposterous, and only the dream of fanatics.

By revolution the layman means a change in the form of government. In our country it may mean a change to dictatorship. In Germany it may mean Hitlerism. In Italy the change has already been made to Fascism, while Russia has been Communistic for many years. Spain has overthrown its king. France and England are changing from one ruling body to another, evidently with little satisfaction.

Which makes us wonder why our friends across the ocean took liberties with the ruling powers and altered administrative government at will. Perhaps it may be that oppression was pronounced to a greater degree than it has been on this side of the Atlantic Ocean.

Lately dissatisfaction has made itself very noticeable in our states. The common people, which constitutes the majority, are trying to impress the chosen few that the existing laws do not make enough allowance for them. That they wish to enjoy life, have a little more than mere life's necessities, and not be in continual fear of starvation and deprivation.

Unquestionably, the master minds deserve more compensation for their labors, be it mental or physical, than the individuals who are easily satisfied. On the other hand, the latter class, which presumably does not wish to have premature gray hair, wrinkles in the face, etc., does not require luxuries considered a necessity to the upper class.

Our form of government has one distinct advantage over other types in that the entire populace has an opportunity to express its approval or disapproval before it is too late.

CONVALESCING

An infection started on the foot caused an operation to be performed on the toe of Victor Drobnić of Cleveland, O., who has returned from Mount Sinai Hospital and is recuperating at home. Victor is the brother of Frank "Samson" Drobnić, publicity man of the George Washington lodge, No. 180, SSCU, star bowler of the G. W. quintet, and its erstwhile captain and manager. To "Samson" goes the credit of organizing the first potential quint of the Cherry Tree choppers that took the Inter-Lodge League championship in the season 1930-31, which inspired another G. W. team to be organized and entered in the B division of the league.

People Speaking English

More than 160,000,000 people speak English as their native language. Some 60,000,000 others speak English but do not regard it as their native tongue.

BRIEFS

"Laughing Through the Jungle," written by Louis Adamic, came off the press Wednesday, March 23, and is published by Harper & Bros. This is the second book written by Mr. Adamic, and, like the first work, "Dynamite," is recognized by literary circles as an outstanding contribution in bringing to light the war between capital and labor. Mr. Adamic also received a Guggenheim prize for his literary work. The award carries a \$2,500 prize, which is one of the three awarded to outstanding writers.

Cleveland College, part of Western Reserve University of Cleveland, O., will have a Jugoslav Night program Monday, April 11, which is one of the series of nationality nights sponsored by Mrs. Bushea of the college. Mr. Mihaljević will be the principal speaker. Exhibition of nationality costumes (Slovene, Croat and Serb), their art and needlework, and pictures of Jugoslavia will be shown. Admission is free.

Station WTAM will carry a Slovene hour Tuesday evening, April 5, at 11 o'clock, Eastern Standard Time. Many National Broadcasting Co. network programs originate in Cleveland through WTAM that embodies many principal stations in the U. S. For this reason Slovenes all over the country should be able to tune in on WTAM next Tuesday evening.

Federation of SSCU Lodges in Indianapolis, Ind., will sponsor a play, "Radi oreha," next Saturday evening, April 2, in the new school's hall. Dancing will follow the performance.

Anthony R. Kushlan of Cleveland, O., was seized and robbed of \$1,000 Saturday, March 19, as he left Cleveland Trust Co. branch at E. 79th St. and Euclid Ave. The two robbers threatened Mr. Kushlan with a gun and forced him to drive to E. 75th St., where they told him to get out of the car, after which they drove away.

Margaret Agnich attained high honors at the Junior College of Ely, Minn., and was one of the five to be given special mention by the college faculty.

Helen Prusak of Chisholm, Minn., received an assistantship at the University of Minnesota and will begin her studies toward Ph. D. degree this spring quarter.

"The Hunchback of Notre Dame," by Victor Hugo, has been translated into Slovene by Dr. Janko Tavzic, and the book published in Ljubljana the first part of the year. The year 1931 marks the centennial of Hugo's publication of the original.

INDIAN SHORTS

Andrew Spolar Sr., one-time member and president of lodge Zvon, No. 70, now organizer and member of the Indian Lodge, No. 220, aired his ambition recently to yours truly, by stating that he intends to run for alderman during the next aldermanic election.

Andy Spolar was prepared to make his Easter debut with a new suit, topcoat, hat and shoes.

Walter Kozlowski seems happier nowadays and can be seen in the club room singing, "Awokin' on the Railroad." Walter says he puts the engines to sleep each night.

The social committee for the month of March is composed of all the girls of the lodge, and they seem to be doing nicely, better, I might say, than any committee that was had before.

Edmund Kubik seems to be the hard-luck basketball player this year. Just recently in a basketball game he had one of his teeth knocked out, and last Thursday, while on our way to a game, someone shut the door of the automobile in which we were riding, while Kubik still had his fingers there.

We are sorry to see Mrs. Spolar confined to her bed with infected varicose veins and hope to see her up and around again soon.

Have you noticed the two red-heads in the lodge? Ann Schieman and Rose Schubert both have red hair. It's wonderful what these sun baths can do for a person.

Leo W. Moore,
Secretary, No. 220, SSCU.

Important Notice

Louis Adamic Writes Own Biography Titled "Laughing in the Jungle"

RECEIVES GUGGENHEIM PRIZE

Many pages have been written about struggling young writers achieving fame and fortune. In fiction the youthful aspirant overcomes unsurmountable obstacles, is undaunted at the publisher's rejection of his first works, only to become a hero at a time when all prospects of earning a livelihood seem hopeless.

But truth is stranger than fiction.

Witness the success of Louis Adamic, who has gained nationwide recognition for writing his first book, "Dynamite," which

could be termed a treatise on the struggling labor class over the apathetic capitalism. And his recent "Laughing in the Jungle," published by Harper & Brothers.

Louis Adamic was born in Carniola (Slovenia), what was then under Austria-Hungary, but is now a part of Jugoslavia. At the age when most boys are finishing grammar school, Adamic migrated to America and started to work in the mailing room of Glas Naroda. One day while reading an article in the old Metropolitan Magazine by John Reed and Boardman Robinson, he was impressed "with the struggles of labor."

This set him to thinking. Most of his people, the Slovenes, upon reaching the land of opportunity picked up what jobs were available, most of which called for hard labor. Coal mines, factories, railroads, steel mills and other occupations that lacked the modern labor-saving devices required human exertion to perform the many complex tasks.

Getting Things Straight

East Palestine, O.—Evidence points to the fact that there are members of the SSCU who are not very well acquainted with the laws of the organization. The rules concerning sick benefits seem to come in for many varied interpretations.

There is no excuse for not knowing the rules as set down by the organization. The Constitution and By-Laws of the SSCU are available to any member who desires to study them. A careful study of the Constitution is a duty of every member.

But there are certain circumstances which prevent some members from making a thorough study of it. It is then the duty of lodge officials to see that all is made clear to each individual of the organization. It pays.

League of Nations

Since the admission of Mexico 55 countries are members of the league. For a few months in 1926 after the admission of Germany the league had 56 members.

ica. On the other hand, immigration is in no small way to blame for the fact that the United States today is more a jungle than a civilization—a land of deep economic, social, spiritual and intellectual chaos and distress—in which, it seems to me, by far the most precious possession a sensitive and intelligent person can have is an active sense of humor.

The story of his life, to his twenty-ninth year—he closed the volume with 1928—is told from that point of view. It begins with his peasant childhood in Carniola.

He describes his arrival in America, where his first job was in the mailing room of Glas Naroda... Later he worked in a silk mill, served in the army during the war, followed the sea as mess boy and seaman and finally landed in Los Angeles as a newspaper man.

His interest in labor continued, and in 1931 he published 'Dynamite,' a book described by the publishers as the 'story of the fight between capital and labor which created wide critical comment and honest praise.'

VALUE OF TIME

Our Lodges Form Center of Interest for Youthful Minds and Offer Diversion

Just how valuable time is to the many people is uncertain, but every minute of the day can be made precious. The thing to guard against is lack of interest in life. This comes about when there is no work or recreation to occupy the person's mind.

When people become discouraged, sluggish and morbid, it is up to such individuals to pull themselves out of such a rut. Others can only help to guide along such unfortunate beings, but after that they must work and plan for themselves.

This pertains to the many boys and girls whose parents could no longer afford to send them to school. They cannot find a job that will keep them in a daily routine and help break the monotony of the day. The older men and women are going through the same experience, only for them it is harder. They have been going to their offices, factories, etc., for many years, and then were suddenly forced into unemployment, causing much confusion and unhappiness among them.

We all enjoyed the occasion just the same. We saw many interesting sites on the way to and from Detroit. What a time we had in Canada, where we roomed.

Monkeys Are Troublesome

Mischiefous wild monkeys which live in the mountains around the historic Japanese town of Nikko are worrying villages by raiding fields and poultry yards. The worst depredations are reported from the Fukushima prefecture, where, according to villagers, the monkeys are chasing horses into the hills. A Japanese, Zainiwazuka, recently reported that while cutting hay his horse disappeared. He gave chase and saw the pack animal in a distant valley with monkey leading him into the hills.

ICE CREAM

Ice cream, so far as known, was first made in Italy during the 16th century. From Italy it was introduced into France and other countries farther north. The first mention of ice cream in America was about the time of the Revolution.

Ice Age Coming Back

We are now in the middle of the mild period between the last ice age and the next one, declares Firth Scott, British scientist. But it will be 400 years until the ice cap from the Arctic will begin to creep south again. So that need frighten no one now living. Year by year the ice will advance southward, first covering Greenland, Iceland, Siberia and then extend across a part of Canada, the British Isles and northern Europe. Existing peoples of that time will be crowded into the tropical zones, bringing about congestion of population. Our present-day troubles are too trivial to be mentioned with the problems the human race will have to solve in the 24th century, if the scientist is correct.

Region of Fierce Heat Just Above the Earth?

Just a mere 50 mile above our heads the temperature is between 1,000 and 2,000 degrees Fahrenheit, according to a new theory of the earth's atmosphere presented by Prof. B. Gutenberg of the California Institute of Technology. This extremely hot weather a few miles up, according to Prof. Gutenberg's novel theory, is because the atmosphere is practically the same in composition throughout and not exclusively helium in some high layers, as other physicists have concluded.

NEW YORK

New York's 6,065,000 people live and work in 681,818 buildings.

They eat 1,000 pounds of food each annually.

Fourteen of them are married every hour.

A baby is born to them every 4.1 minutes.

They use enough telephone lines to stretch 35 wires to the moon.

Their busiest thoroughfare is Queensboro Bridge, counting only vehicular traffic.

They drive nearly 1,000,000 automobiles.

They use water brought 92 miles at the rate of 145 gallons per capita daily.—Capper's.

Early Days of Steamships

The first voyage of the steamship Great Western across the Atlantic lasted from April 8, 1838, to April 23, her average day's run being 215 miles. Altogether she made five double passages in 1838, six in 1839, and before she was disposed of in 1846 crossed and recrossed 74 times. No other ship had a finer record and none attracted more attention.

While she was still running on the Atlantic, Sir John Rennie referred to her first passage, remarking that "the success of his voyage across the Atlantic having exceeded the most sanguine expectations of its promoters and, indeed, of the world, there seemed no bounds to the extension of steam navigation."

Births—Deaths

About 150,000 persons are born every day and about 100,000 die in the same period.

ATA ŽUŽAMAŽA

(Nadalečevanje)

"Molči, Mica! Tukaj se preveč govor, gorovi! — Može! Gavši! Tako žalostnega govorja, kakor bo zdaj moj, menda še niste slišali in ga tudi ne boste svoje žive dni... Imeli smo ga, imeli ogenj, ki je gorel tako lepo, da že dolgo nič takega! Že smo se veselili ugodne prilike, da pokažemo strmečemu svetu svojo gibanost in urenost — pa pridejo hudočni tuji in nam pokvarijo nedolžno veselje. Naš je bil požar! Za nas in za naše otroke! Naš je bil kozec! Naš je bil naša kozelca dim. Ali smo se morebiti mi kdaj vsiljevali, kadar je gorelo v Pridolju? Nismo. Zatajili smo se, ostali doma, češ, naj uživajo sami. Pridolčani pa nam povračajo dobro s hudem. To je narobe. Take sramote ne smem trpeti! Mi smo prvi zagledali ogenj! Mi smo zatobilri prvi! Mi smo zvoniли prvi! Mi smo se zbrali prvi! Mi smo mi!"

"Mi smo mi!" je vpilo ljudstvo.

"Ljubi moji Polževčani! Rešimo čast svojega imena! Kdor misli, da ve, kako bi to naredili, ta vzdigni roko!"

Nihče se ni genil; zato so se postavili ata Žužamaža še mogočneje na krtino in zarobili besedo takole:

"Kaj vam pravim, priatelji in priateljice! Stvar ni tako težka, kakor mislite. Pa kaj sem hotel že povedati? Je že res! Mi smo rekli: zapik! Da so Pridolčani pogasili, to ne velja nič. Začigmo spet tam, kjer je nehalo goret! In mora naj me hodi tlačit vsako noč, če ne ugasimo lepše nego oni nevočljivci!"

"Zivio Žužamaža!" je kričal narod.

"Dobro govoril," so kimali starejšine, svetovaveci, veljaki in viši očaki. "Toliko pa smem reči," je hitela Švedronova Mica, "prejšnja beseda je bila srebrna — ta je pa zlata!"

Po mnogem trudu so Polževčani umahali in zanetili ogenj, ker so si znali pomagati s petrolejem in kovaškim mehom; zopet je švigel zubelj proti nebu.

"Zdaj pa ne smemo več odlašati!" so dejali ata. "Kdor le pre dolgo čaka, ta zamudi pravi trenotek! Mislim, da ne bo napak, če počasi poizkusimo. Iz luči, fantiči in dečke! Odpik!"

Z groznim rojem se je sesedel kozlec na tla, in na stotine isker je šinilo med plameni in dimom kvišku. Polževčani so se požurili in srečno pogasili žarec kup; zato so jim darovali župan sedček piva.

Zvezčer pa so obirali z gospodom Čurimangurijem race: že čez tri dni so brali v Piščalki Resnice:

Polževco, 25. julija. (Izvireni dopis.) Ker se nobenega dopisa iz slikovite naše doline cenjenemu vašemu listu že dolgo poslalo ni, naj slaba moja roka se skromnimi svojimi močmi za raskavke pove prime ter potom dopisa potrdi, da iskra narodne zavednosti pri nas ugasnila še ni, ampak smo imeli baš na sv. Jakoba dan ob najlepšem vremenu i mnogobrojni udeležbi probujemega našega občinstva sijajen požar. Namreč, kar naenkrat — nihče bi, ker i najstarejši ljudje tega ne pomnijo, kaj takega ne pričakoval — je, kakor blisk z vedrega neba, rog neutrudnega našega trobca, ko jega se je mladi in velenadarjeni i jako prijetno donečim domačim umetnikom, kojega pri nobeni boljši veselicu nedostajati ne sme, spoznalo, zatobil. To zaslivanši smo precej vedeli, kam pes tačo mli, rekše, da ogenj v strehi kje biti mora, sodeč po rogu, koji ni ostal glas vpijočega v puščavi, ampak je vkratkem vse prebivace razočaral. Vzoriti naš prvoribitel g. J. Žužamaža, naša za narodovo blaginjo in probuo znano vneti načelnik slavnega našega prostovoljnega gasilnega društva, se je hitro v gasilnem hramu pdvzal i potom trobente od vseh vetrov skupaj sklicane ter že popolnema uniforvanje gasilce s kratkimi i jedrnatimi besedami pozdravil, ko se je kazavec ure komaj nekoliko naprej po maknil. Taisti, pod izvrstnim vodstvom i nadzorstvom velečastnega g. Žužamaža, vsi v najlepšem redu na lice mesta prikorakavši, so nekoje obupane ženske i drugi neverni Tomaži, koji iz političnih i strankarskih namenov društva ogromne ovire pod mladežce mečejo — Bog daj norcem pamet! — z glavami majali, rekoč, da napram takovim oknostim še kaj pomagati več mogočni. A člani so vsi zadiviljeni, kaj je velevrli naš g. Žužamaža nemudoma prava povelja dal, ogenj pogasivši, težko nalogu častno rešili, kar je občno veselost vzbujovalo, iz koje sledi, da mi Polževčani takovi hribovski nazadniki nismo, da bi nikdar nobene zabave ne priredili, koje se ima ves slovenski narod z nami vred veseliti. A to zaslugo je spretnim našim ognjegascem i uglednemu našemu g. Žužamaži — in to je treba pribiti — na rovaš dati, kojega resiteljem vsega Polževega imenovati zamoremo. Resnicoljubnost me izza kulis samo to povedati sili, da v gospoda Žužamaže gostoljubni hiši se za društveno življenje vneta inteligenco po krasnem geslu "Svoji k svojim!" rada zbira ter se z dičnim našim domorodo — i človekoljubom k nadaljnemu uspešnemu delovanju za ideale milega našega slovenskega naroda, ter i za vse, kar je lepo i dobro i plemenito, navdušuje. Kaj dobrega storiti a ne okrog zvoniti, to je njegovo geslo.

Pittsburgh, Pa. Iz naše naselbine se rojaki tako malo oglašajo, kot da smo vsi z delom preobloženi in ne vtegnemo pisati. Toda temu ni tako. Kapitalisti že gledajo, da imamo dovolj počitka. Srečen je tisti, ki ima danes delo. Kateri ga nimajo, morajo pa potreti. Seveda, ker je malo dela, nam pa ostaja toliko več časa za razne sestanke in zabave. Tako smo bili na Jožefovo, to je 19. marca zvezčer nujno poklicani k družini Joe Vogrin, ki je sorodnik moje sproge. Nje skoro ni bilo iz hiše za spraviti, ker je zunaj de-

Razume se, da smo morali ta gorka voščila tudi primerno zabit; Mr. Vogrin je pa pridno donašal potrebne tekočine. V nobeni veseli slovenski družbi seveda ne more biti brež petja in tudi pri nas ni bilo. Na vsak način je bila lepa prireditve in zabava. Težko nas je bilo skupati sklicati ali še težje nas je bilo narazen spraviti; šele ob šestih zjutraj smo veseli odhajali vsak proti svojemu domu. Naj bo prirediteljem v mojem imenu sproge imenu izrečena iskrena hvala!

Člane in članice društva Slovan, št. 176 JSKJ obveščam, da se bo strogo vpoštevalo sklep, da mora vsak član priti na sejo vsaj na vsake tri mesece enkrat. Kdor tega ne bo storil, bo plačal 50 centov v društveno blagajno. Na vsaki seji se bo čital imenik članov, da bomo na ta način vedeli in si zabeležili tiste, ki so na seji ali ki niso.

Društvene seje se vršijo vsak drugi torek v mesecu ob sedmici ur zvezčer v navadnih prostorih. Zeleti je, da bi redne seje člani kar mogoče številno poseli, ker se približuje konvencija in bi bilo priporočljivo, da nekoliko razpravljam o izboljšanju naših pravil.

Vsak, ki ima kakšno idejo za izboljšanje, naj pride na sejo in jo tam pove. Dela zdaj ni nosti, zato mislim, da si more vsak vezti par ur časa enkrat na mesec, da pride na sejo. Pregovarjati čez društvene skele izven seje nima pomena. Vsak naj pride na sejo in tam pove, kaj ima na sreču.

Dalje opozarjam tiste člane, ki so vsled brezposelnosti v takih razmerah, da res ne morejo plačati svojih asesmentov, naj pridejo na sejo, pa se jim bo pomagalo. Tajnik sam pa ne bo več za nobenega zakladal. Kdor ne bo imel plačanega do 25. v mesecu bo suspendiran. Upam, da se polnoštevilno zberemo na prihodnji seji, ki se bo vršila 12. aprila.

Z bratskim pozdravom,

Joseph Tencich,
tajnik dr. št. 176 JSKJ.

Iz tukajšne male naselbine se le redko kaj sliši. Kakor posvud, so tudi tukaj slabči časi. Delodajalci se nam semejejo če povprašujemo za delo. Pa čakamo odrešenja, kot pravijo da čakajo duše v vicah. Kdaj bo prišlo odrešenje, nihče ne ve. Tudi kar se društvenih razmeriče, se ni kaj hvaliti. Nove člane je težko dobiti v teh časih, nekateri pa so morali pustiti ali so bili črtani, ker niso mogli plačevati svojih društvenih prispevkov. Mnogo pa tudi škoduje, če se člani na sejah med seboj prepričajo in kregajo. Nihče ne pristopil k društvu, kjer ve, da je neprestan preprič.

S tem si delajo društva slabo reklamo. Na sejah bi moral vladati bratstvo in treno razpravljanje. Če si "ga" kdo hoče privoščiti nekaj čaš, je še dolj časa po seji. Pozdrav vsemu članstvu!

Posebnih novic tukaj ni; dela se po malem. Danes, ko to pišem, je 21. marca ali prvi pomladanski dan. Takoj zjutraj je solnce tako lepo posijalo, da sem mislil, da se bosta spomlad v pratiki in spomlad v naravi popolnoma vjemali, toda stvar se je čudno zasukala tekom ene same ure. Privihrali so breznovi (marčevi) vetrovi, pa smo imeli v eni uri solnce, dež, sdro in sneg. Resničen je tisti pregovor, ki pravi: "Brezen je vsako uro jezen."

Vendar, pomlad je tu, in ko bodo te vrstice prišle pred oči žititeljem. Nove robe, bo velika noč že minila in pričele se bodo pomladanske veselice. Tu

pa, je zaključilo, da priredi prvo pomladansko veselico na večer 9. aprila: Vršila se bo v dvorani Izobraževalnega društva v Presto, Pa. Kakor je bilo poročano na zadnji seji, ima društvo nekje nekega Newyorkana zaprtega in ga misli spustiti na svetlo dotični večer, da bo zavabil cenejene goste v spodnji dvorani. Pravijo, da je veseljak in dober za zabavo, smer in krtek čas. V zgornji dvorani bo pa orkester Jožeta Demšarja zavabil navzoče plesalce od osme do dvanajst ure v noč. Dolgočasiti se ne bo nobenemu treba.

V nadi, da se našemu vabilu odzovete, vam kličem na veselo svideženje 3. aprila ob 8. uri zvezčer pri "Divjem lovecu!"

Društvo sv. Jerneja, št. 81 JSKJ naznanja sorodnikom, priateljem in drugim, da je dne 14. marca izgubilo iz svoje srede svojega ustanovnega člena Jerry-ja Verbica. Bil je večkratni predsednik društva, nazadnje pa predsednik nadzornega odbora. Pogreb se je vršil 16. marca po katoliških obredih na St. Josephs pokopališču. Sprevod je bil veličasten. Člani društva, h katerim je poslužil znak bratske ljubezni. Zaradi svojega mirnega značaja je bil pokojnik splošno priljubljen, kar se je pokazalo tudi pri pogrebu, ker se je istega poletja v tistega časa skoraj vse vremena zagnola spremenilo in dobili smo precej snega. Venčaj velikonočna nedelja je bila topla in le tu pa tam je bilo opaziti ostane snega.

Dne 15. marca se je smrtno ponesrečila rojakinja Mrs. Mary Karun, rojena Zumer, iz St. Jurja pri Kranju. Pri preveč zakurjeni peči se ji je unela obleka. Ker je bila sama doma, si ni mogla pomagati, in je dobita tako hude oprekline, da je še isti dan umrla. Zapušča moža in dva sinova, ki sta oba po ročena.

Sedaj pa hočem opozoriti vse članske in okoliške Slovence in Slovenke na veselo novico, in ta je, da bo društvo "Zvon," št. 70, J. S. K. Jednoti priredilo spomladansko veselico v soboto 2. aprila, v šolski dvorani, W. 22nd in S. Lincoln St. Kakor slišim, se veselični odbor dobro pripravlja. Pravijo, da bo ta veselica prekosila vse do sedanje. Zanimivo pri tem je, da se dobijo vstopnice pri članih zelo poceni, da, skoro za stonj.

Chikažani se letos ne moremo pritoževati čez zimo. Imeli smo malo, skoro nič snega. Toča ob času, ko je "pratika" oznanila prihod spomladni, se je vreme nagloma spremeno in dobiti smo precej snega. Venčaj velikonočna nedelja je bila opaziti ostane snega.
